INDEPENDENT AUDITORS' REPORT

October 12, 2011

To the Participants and Plan Administrator
American Axle & Manufacturing, Inc. Retirement Program for Salaried Employees
Detroit, Michigan

We were engaged to audit the accompanying statements of net assets available for benefits of the American Axle & Manufacturing, Inc. Retirement Program for Salaried Employees (the "Plan") as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by SEI Private Trust Company, the trustee and custodian of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the trustee as of, and for the years ended, December 31, 2010 and 2009 that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to express, and do not express, an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

AMERICAN AXLE & MANUFACTURING, INC.

RETIREMENT PROGRAM FOR SALARIED EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2010 and 2009

1. DESCRIPTION OF THE PLAN

The American Axle & Manufacturing, Inc. Retirement Program for Salaried Employees (the “Plan”) is a defined benefit plan, established as of March 1, 1994 and restated effective January 1, 2008, which covers all salaried employees of American Axle & Manufacturing, Inc. (the “Company”) hired before January 1, 2002. The Plan provides for pension, disability, and death benefits. The Company has agreed to contribute such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to plan members.

The Plan provides for a retirement benefit that is calculated in two parts (referred to as “Parts A and B”). The Part A benefit is noncontributory and consists of basic benefits and three types of supplements, some of which are payable only to salaried associates of General Motors Corporation (“GM”) hired before 1988 (“pre-88 associates”). The Company pays the entire cost of Part A of the retirement program. The basic benefit is a monthly benefit determined by a flat dollar rate multiplied by years of credited service. Currently, the basic benefit provides a monthly lifetime benefit of up to \$51.65 for every year of credited service earned after February 28, 1994. The first supplement is a temporary supplement which is paid only to disability retirements, with a 30-year maximum for credited service. This supplement is paid to retirees until age 62 and one month or, if earlier, when the employee becomes eligible for Social Security disability benefits. The second supplement is an early retirement supplement for those pre-88 associates who retire with at least 30 years of credited service. This supplement is paid to age 62 and one month if a retiree is under age 62 at retirement. The third supplement is an interim supplement for pre-88 early voluntary retirees who are between age 55 and 59, have less than 30 years of credited service at retirement, and have at least 85 “points” by adding together the age and service of the employee or pre-88 early voluntary retirees who are age 55 and have at least 10 years of service. This supplement is paid to retirees until age 62 and one month if a retiree is under age 62 at retirement.

The Part B benefit is optional and requires employee contributions, which are combined with the Company contributions for enhanced benefits. Part B provides primary benefits and supplementary benefits. Employees are eligible to contribute to Part B after they have six months of service and attained at least age 21. Each employee participating in Part B for primary benefits will contribute 1.25% of his or her monthly base salary in excess of \$3,400. The primary benefit is based on employee contributions. The monthly lifetime benefit is 8.33% of the sum of all such employees’ contributions through retirement. The supplementary benefits payable under Part B are based on each participant’s final five-year average salary. Currently, the monthly benefit payment equals 1.00% of the employee’s average monthly base salary in excess of \$5,165.

YEARS ENDED DECEMBER 31, 2010 and 2009

1. DESCRIPTION OF THE PLAN (CONTINUED)

Participants are vested after earning five years of credited service. Employees hired by GM prior to 1988 may retire at any age with 30 or more years of credited service, or between the ages of 55 and 59 with age plus credited service equaling at least 85 “points.” Employees with 10 or more years of credited service may retire at any age prior to age 65 in the case of total and permanent disability or with 10 or more years of credited service and attainment of age 55. Employees at least age 65 are automatically vested.

The Plan has been amended, effective December 31, 2006. Under the amended Plan, benefits for active participants in the Plan as of December 31, 2006 who will be eligible for early or normal retirement on or before December 31, 2011 will be frozen on December 31, 2011. Benefits for all other active participants in the Plan were frozen on December 31, 2006.

Effective June 13, 2008, the Plan was amended to provide for supplemental payments to be paid from the trust to certain eligible associates who have elected to participate in the Voluntary Salaried Retirement Incentive Program (“VSRIP”). Supplemental payments were paid in 2008 and 2009 to approximately 50 participants who elected to participate in the VSRIP, ranging from \$35,000 to \$50,000, depending on the eligible participant’s age and credited service.

The Plan has met the minimum funding requirements of the Employee Retirement Income Security Act of 1974, as amended. The Company has the right under the Plan to discontinue such contributions at any time and to amend or terminate the Plan, consistent with applicable law.

The Company may amend, modify, suspend or terminate the Plan consistent with applicable law. No amendment, modification, suspension or termination of the Plan shall have the effect of providing that any amounts then held under the Plan may be used or diverted to any purpose other than for the exclusive benefit of members or their beneficiaries.

1. DESCRIPTION OF THE PLAN (CONTINUED)

Should the Plan terminate at some future time, its net assets will generally not be available on a pro-rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at the time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

The foregoing description of the Plan provides only general information. Participants should refer to the summary plan description for a more complete representation of the Plan's provisions. Copies of the summary plan description are available from the Company's human resources department.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General - The financial statements of the Plan are presented on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Valuation of Investments - Investments in the American Axle & Manufacturing, Inc. Defined Benefit Plan Master Trust (the "Master Trust") are stated at fair value. The shares of registered investment companies and units of money market funds are valued at quoted market prices that represent the asset value of the shares or units held by the Master Trust at year-end. Investments in hedge funds are stated at fair unit value; the fair values for the underlying investments held by these funds are based on quoted market prices where available or as determined in good faith by the investment advisors. Investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the average of the last reported bid and ask prices.

YEARS ENDED DECEMBER 31, 2010 and 2009

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements - The Plan uses fair value measurements in the preparation of its financial statements, which utilize various inputs, including those that can be readily observable, corroborated or are generally unobservable. The Plan utilizes market-based data and valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Additionally, the Plan applies assumptions that market participants would use in pricing an asset or liability, including assumptions about risk.

The measurement of fair value includes a hierarchy based on the quality of inputs used to measure fair value. Financial assets and liabilities are categorized into this three-level fair value hierarchy based on the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets and liabilities and the lowest priority to unobservable inputs.

The various levels of the fair value hierarchy are described as follows:

- Level 1 - Financial assets and liabilities whose values are based on unadjusted quoted market prices for identical assets and liabilities in an active market that the Plan has the ability to access
- Level 2 - Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable for substantially the full term of the asset or liability
- Level 3 - Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement

The use of observable market data, when available, is required in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement.

YEARS ENDED DECEMBER 31, 2010 and 2009

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and accumulated plan benefits at the date of the financial statements and the reported amounts of increases or decreases in net assets available for benefits and accumulated plan benefits during the reporting period. Actual results could differ from those estimates. The Master Trust invests in various securities, including registered investment companies and hedge funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Actuarial Present Value of Accumulated Plan Benefits - Accumulated plan benefits (see Note 3) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on various plan benefit formulas, as defined in the Plan document, depending upon the date of the retirement, death or termination of employment. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Subsequent Events - The Plan's management has evaluated subsequent events through October 12, 2011, the date that the accompanying financial statements were available to be issued. In 2011, the Company approved the merger of the Plan with the American Axle & Manufacturing, Inc. and Affiliated Corporation Salaried Cash Balance Pension Plan. The merger will be effective December 31, 2011.

3. ACCUMULATED PLAN BENEFITS

The Plan's actuary, Towers Watson, estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

3. ACCUMULATED PLAN BENEFITS (CONTINUED)

The accumulated plan benefit information as of January 1, 2010 and 2009 is as follows:

	<u>2010</u>	<u>2009</u>
ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS:		
Vested benefits for active participants	\$ 107,503,341	\$ 96,204,524

 TOTAL ACCUMULATED PLAN BENEFITS	 <u><u>\$ 111,775,467</u></u>	 <u><u>\$ 102,101,549</u></u>

Changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2010 are as follows:

INCREASE (DECREASE) IN ACCUMULATED PLAN BENEFITS ATTRIBUTABLE TO:	
Benefits accumulated	\$ 5,447,453
Interest due to decrease in discount period	6,387,787
Changes in actuarial assumptions	5,616,922
Benefits paid	<u>(7,778,244)</u>

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED DECEMBER 31, 2010 and 2009

3. ACCUMULATED PLAN BENEFITS (CONTINUED)

The more significant assumptions underlying the actuarial valuations are as follows:

Actuarial cost method:	
Funding purposes	Projected unit credit
Accumulated plan benefits	Unit credit
Weighted average discount rate for the	2010 - 6.10%
present value of accumulated plan benefits	2009 - 6.50%
Mortality basis	RP 2000 healthy mortality with white collar adjustments projected to 2015 using Scale AA
Employee turnover	A moderate rate
Retirement	A graduated scale

These actuarial assumptions were based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics. Due to the nature of these assumptions and the uncertainties inherent in setting these assumptions, it is at least reasonably possible that changes in the near term to these assumptions would be material to the financial statements.

4. INVESTMENTS AND FAIR VALUE (UNAUDITED)

The following is a summary of unaudited information regarding the Plan and the Master Trust, included in the Plan's financial statements, that was prepared by SEI Private Trust Company ("SEI"), the Plan's trustee and custodian. The Plan administrator has obtained certifications from the trustee that such information is complete and accurate.

6. INCOME TAX STATUS

The Plan obtained its latest determination letter on December 8, 2009, in which the Internal Revenue Service (“IRS”) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (“IRC”). The Plan administrator and the Plan’s tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. In addition, the Plan administrator is not aware of any unrecognized tax benefits as of December 31, 2010 or 2009. Therefore, no provision for income taxes has been included in the Plan’s financial statements. The Plan is no longer subject to federal income tax examinations by the IRS for years prior to 2007.

Plan Provisions — Salaried

Effective Date	March 1, 1994. Last Amended: December 15, 2010
Employees Covered Plan Year	Salaried employees of American Axle & Manufacturing Inc. hired before January 1, 2002. First: March 1, 1994 to December 31, 1994; second and later: calendar years beginning on or after January 1, 1995.
Eligibility	Part A: Immediately upon becoming a salaried employee of AAM. Part B: Age 21, six months of service, and elect to contribute.
Grandfathered Participants	Participants who are active and a participant on December 31, 2006, and will be eligible to retire under the plan on or before December 1, 2011.
Freeze Date	Benefits were frozen on December 31, 2006, for non-grandfathered participants and benefits will be frozen on December 31, 2011, for grandfathered participants.
Credited Service	Generally all periods of service for which the employee is paid; however, credited service is frozen on December 31, 2006 for non-grandfathered participants and on December 31, 2011, for grandfathered participants for benefit purposes. Service after the freeze dates is counted for vesting purposes and determining retirement eligibility. Credited service with GM is included for determining eligibility for AAM benefits for associates defined as Transitioned Associates under the Plan. For employees with less than five years of service at March 1, 1994, GM credited service before March 1, 1994, counts for AAM benefits as well as eligibility. All credited service counts for Part B benefits for employees who contribute at all times while eligible; otherwise only credited service while contributing counts for Part B benefits.

Benefit Formula All benefits were frozen as of December 31, 2006 for non-grandfathered participants and as of December 31, 2011 for grandfathered participants. Benefits are based on the credited service, basic benefit rate, and base pay as of the freeze date. There are no additional employee contributions after the freeze date.

Part A: Same as for Hourly.

Part B:

- ▶ Basic: Annual pension equals 100% of the Participant's contributions.
- ▶ Supplemental: Monthly pension is 1% of excess average monthly base pay times credited service. Excess average monthly base pay is the excess of average monthly base pay over 100 times the Part A basic benefit rate for Class D. Average monthly base salary is the average salary rate for the highest 60 months during the last 120 months of employment before the freeze date.

Accrued Pension: The sum of the accrued Part A and Part B pensions earned by the Participant and payable from the plan's normal retirement date as a single life annuity.

Participant Contributions 1.25% of monthly base salary in excess of \$3,400. No further contributions are required after 35 years. No contributions after the freeze date.

Benefits at
Retirement

- (a) Normal Retirement:
 - Eligibility: Age 65
 - Benefit: The accrued pension.
- (b) Early Retirement:
 - Eligibility: (1) Age 55 with at least 10 years of credited service, (2) if hired by GM before 1988, any age after completion of 30 years of credited service or (3) if hired by GM before 1988, age 55 with at least 85 points (sum of age and credited service). Service after the freeze date is counted for eligibility purposes.
 - Benefit: The accrued pension, reduced for early commencement, plus a supplement. Sample early retirement factors are as follows:

Benefits at
Retirement (cont.)

<u>Age</u>	1) On or after age 60 or 2) Pre 1988 hires with	Age 55 to 60 (Less Than 85 Points or Hired After 1987)
	a) 30 years of service or b) <u>85 points</u>	
65	100.0%	100.0%
62	100.0%	78.4%
60	86.7%	64.0%
55	57.9%	46.0%

For Participants hired by GM before 1988, reductions in Part A pensions are restored at age 62 if the Participant has at least 30 years of service, or if the sum of the Participant's age and credited service at retirement is at least 85.

- Supplements:
 - Early retirement supplement: Participants hired by GM before 1988 who retire with at least 30 years

of credited service are entitled to a monthly supplement until age 62. The amount is equal to the excess of a total benefit amount determined as for an hourly employee, over the sum of Participant's reduced Part A and Part B supplemental pensions. Supplements are prorated based on credited service as of the freeze date, for participants whose credited service was frozen for benefit accrual purposes, but continued to grow for benefit eligibility purposes.

- Interim supplement: For Participants hired by GM before 1988 who retire with less than 30 years of credited service, a monthly interim supplement is payable until age 62. The interim supplement is equal to a rate at age of retirement as described in the Hourly Plan summary multiplied by credited service, reduced by Part B Supplementary Benefits. Supplements are prorated based on credited service as of the freeze date, for participants whose credited service was frozen for benefit accrual purposes, but continued to grow for benefit eligibility purposes.
- All early retirement supplements are payable beyond age 62 for individuals born between 1938 and 1945. These supplements are payable to the Social Security retirement age in which 80% of the normal benefit is payable.

(c) Disability Retirement:

- Eligibility: Qualification for disability under age 65 and after completing at least 10 years of eligibility credited service.
- Benefit: The accrued pension without reduction for early commencement plus a temporary benefit. For participants born between 1938 and 1945, the temporary benefit is payable to the Social Security retirement age in which 80% of the normal benefit is payable. For all other participants, the temporary benefit is payable until age 62. The monthly temporary amount is determined as described in the Hourly Plan summary. If the Participant has at least 30 years of credited service and was hired by GM before 1988, an early retirement supplement is also payable. The unreduced accrued pension and the temporary benefit are both subtracted in calculating the early retirement supplement for a special early retirement. American Axle assumes the individual has been approved for SSDI unless the participant provides proof otherwise, and then receives the temporary benefit.

(d) Deferred Vested Retirement:

- Eligibility: Termination of employment before eligibility for retirement and for Part A and Part B supplemental pensions, after completing at least five years of service.
- Benefit: The full accrued pension is payable at age 65. A reduced pension is available as early as age 55. Sample reduction factors are as follows:

<u>Age</u>	<u>Factor</u>
65	100.0%
62	78.4%
60	64.0%
55	42.8%

(e) Early Retirement Window Retirement:

- An Early Retirement Window called the VSRIP (Voluntary Salaried Retirement Incentive Program) was offered in 2008 and 2009. Participants received up to three years (two in 2009) of age and/or service to attain retirement eligibility. The additional years of age and service are also reflected in the calculation of benefits and early retirement reduction factors.
- A cash balance account was also established under the plan and participants who did not need additional age or service to attain retirement eligibility received a \$50,000 account addition. Participants who did need additional age or service to attain retirement eligibility received a \$35,000 account addition.

Pre-retirement
Death Benefits

(a) Eligibility: Death while a Participant

(b) Benefits:

- Unmarried: Lump sum payment of the Participant's contributions plus interest.
- Participant who is married (for at least one year on the date of death) but not eligible to retire: Deferred pension equal to 50% of the Participant's accrued Part B (primary plus supplemental) benefit plus, if the Participant is vested, a deferred pension equal to 50% of the Participant's accrued Part A pension, both payable at the Participant's normal retirement age.
- Participant who is married (for at least one year on the date of death) and eligible to retire: An immediate pension of 65% of the Participant's accrued Part B (primary plus supplemental) pension plus 65% of the Participant's immediate Part A benefit under the automatic 65% joint and survivor form

- Forms of Payment
- (a) Pre-retirement Spouse's Pensions: Payable for the life of the spouse.
 - (b) Supplements and Temporary Pensions: Payable for the life of the Participant, but not beyond age 62 (extended beyond 62 for participants born between 1938 and 1945 to the Social Security retirement age at which 80% of the normal benefit is payable).
 - (c) Regular Pensions:
 - Normal form: Single life annuity.
 - Automatic option for married Participants: A reduced 65% joint and survivor annuity with the spouse as beneficiary. The reduction is 5% plus/minus 0.5% for each year above five that the spouse is younger/older than the Participant, respectively (reduction not less than zero). The reduction is restored if the spouse dies before the participant. For participants whose Part A early retirement reduction is restored at age 62, the joint & survivor reduction is based on the post 62 benefit. For disability retirements before 55, the continuation percentage is 50% (instead of 65%), the reduction is actuarial equivalent (instead of 0.5% per year) and the benefit payable to the surviving spouse is deferred until the date in which the participant would have attained age 55. The standard automatic spouse provisions apply once the disability pensioner attains age 55.
 - Other options: The Plan offers optional joint and survivor annuities.
 - (d) Contribution Withdrawals: Terminated Participants may elect to withdraw their contributions plus interest in a lump sum. Participants with less than five years of service who elect these options receive no other benefits. Participants who elect this option and have more than five years of service forfeit the employee-provided and supplementary portion of the Part B pension.
 - (e) Lump Sums: Lump sums are paid automatically to Participants whose employer-provided pensions have lump sum values of less than \$1,000 to the participant or \$5,000 to the beneficiary of a pre-retirement death benefit or an alternate payee. Lump sum values are based on the applicable interest rates which are the 3-segment corporate-bond rate basis under PPA with a look-back month of November and the applicable mortality table which is the IRS Prescribed Mortality for the Plan Year during which the participants' annuity starting date occurs. The cash balance account added as part of the 2008 and 2009 Early Retirement Windows may be paid as a single lump sum. (this applied only to the retirement incentive payments in the 2008 and 2009 VSRIP programs.)

Maximum Benefit and Pay	No benefit payable to a Participant can exceed the IRC Section 415 limit for the plan year. The amount of pay considered in figuring contributions of benefits for a year is limited by IRC Section 401(a)(17).
----------------------------	---

Coordination with GM Salaried Retirement Program	<p>For GM employees who became AAM employees on March 1, 1994:</p> <ul style="list-style-type: none">▪ GM will count AAM service towards eligibility for GM pensions.▪ The early retirement supplement will be prorated between the GM and AAM plans based on service.▪ The GM plan will credit 3% annual base salary increases in calculating GM Part B supplemental pensions provided the Participant leaves his contributions in the GM Plan until he/she terminates employment with AAM.

Plan Changes since Prior Valuation

The AAM Salaried Plan is expected to be amended in 2010 for the Voluntary Compliance Program (VCP). In the VCP, fourteen non-grandfathered non-highly compensated participants were granted an additional year of benefit accrual in 2009. The impact will be reflected as of December 31, 2010 for ASC 715-30 (formerly FAS87) and January 1, 2011 for all other purposes.

Funding and FAS 35 Purposes: The 2009 Early Retirement Window is reflected in the January 1, 2010 valuation.

Change in Assumptions and Methods Since Prior Valuation

Expenses	The assumed plan-related expenses added to the normal cost were changed to \$170,251 for 2010.
Interest Rate	<p>The discounting method used for the funding valuation changed from a yield curve from November 2008 based on yields in October 2008 to September segment rates based on bond yields through the preceding August.</p> <p>The discount rate for pension cost was decreased from 6.50% to 6.10%.</p>
Mortality	The healthy mortality used for contribution purposes was changed from the IRS 2009 Mortality (Non-Annuitant: RP 2000 projected to 2024 using scale AA (male and female) and Annuitant: RP 2000 projected to 2016) to IRS 2010 Mortality (Non-Annuitant: RP 2000 projected to 2025 using scale AA (male and female) and Annuitant: RP 2000 projected to 2017) using scale AA (male and female).
Terminated Vested Benefit Commencement Assumption	The terminated vested participants' assumed benefit commencement age was changed to age 60 at January 1, 2010.

Data Sources

Towers Watson used asset data supplied by the trustee. American Axle furnished participant data. American Axle furnished the dates and amounts of the 2009 contributions that will be paid in 2010, and accrued pension cost as of December 31, 2009. Data were reviewed for reasonableness and consistency, but no audit was performed. Assumptions or estimates were made by the Towers Watson actuaries when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Demographic information came from a participant census as of January 1, 2010.

Interest Rate

The funding valuation interest rate changed from the IRS prescribed yield curve based on bond yields during the October preceding the valuation date (i.e. “applicable month” of November), to the IRS prescribed segment rates, without transition, based on bond yields through the August preceding the valuation date (i.e. “applicable month” of September”).

Software Changes

In accordance with 1.430(d)-1(g)(3)(ii)(A), automatic approval has been granted for the first plan year for which all the provisions of 1.430(d)-1, 1.430(f)-1, 1.430(g)-1, 1.430(i)-1, and 1.436-1 are reflected of any changes to funding methods permitted by the Pension Protection Act. 2010 is the first plan year for which all of these provisions were reflected, and thus all funding method changes are automatically approved.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
