1. DESCRIPTION OF THE PLAN

The following description of the ITT Rule Savings Plan for Hourly Employees (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General — The Plan is a defined contribution plan sponsored by ITT Rule, a subsidiary of ITT Corporation (the "Company" or "Plan Sponsor"). All regular full-time hourly employees become eligible to participate in the Plan on the first day of January, April, July or October immediately following the completion of six months of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The ITT Corporation common stock is held in a trust account at The Northern Trust Company ("Northern"), which consists of an undivided interest in an investment account of the ITT Corporation Retirement Savings Trust (the "Master Trust"), a master trust established by the Company to serve this and other Company savings plans. Northern is the trustee of the Master Trust. Hartford Life Insurance Company ("Hartford") is the custodian of the Plan's remaining investment assets.

Investments in the Master Trust at December 31, 2010 and 2009, are shown on the Master Trust Schedule of Assets (Held at End of Year) as filed with the U.S. Department of Labor, Washington, D.C., under identification number 13-3744485. The Plan's proportionate share of the assets at December 31, 2010 and 2009, is also presented in that filing.

Contributions — Under the provisions of the Plan, allowable contributions are outlined as follows:

Participant Contributions — A participant may generally elect to save 2% to 25% of salary. A participant may designate savings as before-tax savings, after-tax savings, or any combination of the two. A participant who is a highly compensated employee may be limited to less than 25% due to the operation of certain tests required under the Internal Revenue Code (the "Code").

Employer Contributions — The matching employer contribution for the Plan is 50% of the first 4% saved by a participant. The Company also contributes a floor contribution equal to 2% of a participant's salary, whether or not the participant elects to save under the Plan. Participants have the option of investing the matching employer contributions in any available investment option.

Participant Accounts — Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the matching employer contribution, and investment earnings, and charged with withdrawals, loans, and investment losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options — Participants designate the Plan funds in which their contributions and the employer contributions are to be invested. All investments are participant-directed. Participant contributions can be invested in any or all of the various investment funds available in the Plan. In addition, participants can elect to have all or a portion of their Company contributions invested in the ITT Corporation Stock Fund held in the Master Trust (participant contributions may not be invested in the ITT Corporation Stock Fund). Participants may elect to allocate contributions among these funds in multiples of one percent (1%).

Vesting — The participant's interest in their contributions and the Company's floor contribution is fully vested at all times. The Company's matching contribution portion of the participant's account is vested 20% per year. A participant's account is 100% vested after five years of service.

Benefits to Participants — Participants, or their surviving spouse beneficiary, are entitled to the full vested value of their accounts following employment termination (including death, disability, or retirement) in a lump sum amount paid in cash or as a rollover to another qualified plan. In lieu of a lump sum payment, the participant can elect annual installment, life expectancy installment payments, or partial distributions.

Participants are allowed to withdraw, at any time, any portion of after-tax participant contributions and vested Company contributions, subject to Plan provisions.

Forfeitures — Forfeitures result from termination of employment before full vesting has occurred. Forfeited nonvested accounts totaling $99 and $600 were used to reduce employer contributions during 2010 and 2009, respectively.

Participant Loans — Participants may borrow from their account balance in any whole dollar amount, which must be at a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of the participant's vested interest in their account, reduced by the highest outstanding loan balance, if any, during the prior 12-month period. Loan terms range up to five years. A participant who is using a loan for the purchase of a primary residence may elect to repay the loan over a period of whole years between 1 and 15. Participants may have two loans outstanding at the same time. The loans are collateralized by the balance in the participant's account and bear interest, which is based on the prime rate as published in the Wall Street Journal on the last business day of the prior quarter, plus 1%. Principal and interest are paid ratably through payroll deductions. The interest rate is determined at the time the loan is processed, and shall remain in effect for the term of the loan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan utilizes various investment instruments, including pooled separate accounts which include guaranteed investment contracts ("GICs"), and its interest in the ITT Corporation Retirement Savings Trust. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. These risks could cause values realized on sale to differ from reported amounts in these financial statements.

Investment Valuation and Income Recognition — The Plan's investments are measured at fair value except for its benefit-responsive investment contracts, which are stated at fair value and then adjusted to contract value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price). A more detailed description of the individual types of securities can be found in Note 3.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses — The Plan Sponsor provides accounting and other administrative services to the Plan at no charge.

Benefits Paid to Participants — Benefit payments to participants are recorded upon distribution. There were no amounts allocated to accounts of participants who have elected to withdraw from the Plan but have not yet been paid as of December 31, 2010 and 2009.

Participant Loans — Participant loans are recorded at their unpaid principal balance, plus any accrued, but unpaid interest. In the event that a participant fails to make repayment for three consecutive months, the loan is considered to be in default. In the event default is declared, the outstanding loan balance and any accrued interest may be treated as a withdrawal prior to termination of employment subject to the withdrawal provisions outlined in the Plan document.

Recent Accounting Pronouncements — In September 2010, the Financial Accounting Standards Board ("FASB") issued guidance specifying that participant loans in defined contribution benefit plans should be classified as notes receivable from participants, which are segregated from Plan investments, and are measured at their unpaid principal balance, plus any accrued, but unpaid interest. The Plan elected to early adopt these changes in 2009, and accordingly, participant loans are classified as notes receivable from participants. These changes did not have a material effect on the statements of assets available for benefits.

In May 2011, the FASB issued guidance intended to achieve common fair value measurements and related disclosures between GAAP and international accounting standards. The amendments primarily clarify existing fair value guidance, and therefore, the amendments are not intended to change the application of existing fair value measurements guidance. However, the amendments include certain instances where a particular principle or requirement for measuring fair value or disclosing information about fair value measurements has changed. This guidance is effective for the periods beginning after December 15, 2011, and early application is prohibited. The requirements are not expected to have a material effect on the Plan's fair value measurements.

3. FAIR VALUE MEASUREMENT

The following is a description of the valuation methodologies and inputs used to measure fair value for major categories of investments.

- Pooled separate accounts ("PSAs") – The fair value of PSAs is estimated based on net asset value ("NAV"). While NAV for a PSA is quoted in a market that is not active, classification in the fair value hierarchy is based on the observability of the investments held in the PSA. Accordingly, the Plan has classified PSAs based on the lowest level input that is significant to NAV. There are no unfunded commitments related to the PSAs, and investments in PSAs can be redeemed on a daily basis. One of the Plan's PSAs invests in GICs (Note 7). PSAs are classified in Level 2 of the fair value hierarchy.

- ITT Corporation Stock Fund – The ITT Corporation Stock Fund is invested predominately in ITT Corporation common stock, which is traded on the New York Stock Exchange (NYSE) under the ticker symbol (ITT) and is valued at its NAV. The NAV of the ITT Corporation Stock Fund is computed based on the closing price of ITT common stock reported by the NYSE at the measurement date, plus the NAV of the short-term money market included in the ITT Stock Fund,

divided by the number of units outstanding. As all equity securities held by the Plan are publicly traded in active markets, the securities are classified within Level 1 of the fair value hierarchy.

In measuring Plan assets at fair value, a fair value hierarchy is applied which categorizes and prioritizes the inputs used to estimate fair value into three levels. The fair value hierarchy is based on maximizing the use of observable inputs and minimizing the use of unobservable inputs when measuring fair value. Classification within the fair value hierarchy is based on the lowest level input that is significant to the fair value measurement. The three levels of the fair value hierarchy are defined as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

- Level 2 inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices (in non-active markets or in active markets for similar assets or liabilities), inputs other than quoted prices that are observable, and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

- Level 3 inputs are unobservable inputs for the assets or liabilities.

In certain instances, fair value is estimated using quoted market prices obtained from an external pricing service. In obtaining such data from the pricing service, the Plan has evaluated the methodologies used to develop the estimate of fair value in order to evaluate whether such valuations are representative of fair value, including NAV. Additionally, in certain circumstances, the Plan may adjust NAV reported by an asset manager when sufficient evidence indicates NAV is not representative of fair value.

In September 2009, the FASB provided investors with a practical expedient for measuring fair value of investments in certain entities that calculate NAV. The practical expedient enables an entity holding investments in certain entities that calculate net asset value per share or its equivalent for which the fair value is not readily determinable, to measure the fair value of such investments on the basis of that net asset value per share or its equivalent without adjustment. The Plan adopted this guidance for the year ended December 31, 2009; however, application of the practical expedient did not have a material effect on the Plan's fair value measurements. No adjustments to the NAV reported by an asset manager have been recorded.

4. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

All Plan investments are held in funds managed by Northern and Hartford. Northern is the trustee of the Master Trust and Hartford is the custodian of the Plan's remaining investment assets. Therefore, these assets and related transactions qualify as exempt party-in-interest transactions.

The Plan's investment in the ITT Corporation Stock Fund consists of an undivided interest in an investment account of the Master Trust for ITT Corporation. The ITT Corporation Stock Fund is invested predominately in ITT Corporation common stock. As ITT Corporation is the Plan Sponsor, these transactions qualify as exempt party-in-interest transactions. Certain administrative functions are performed by the officers and employees of the Company (who may also be participants in the Plan) at no cost to the Plan.

These transactions are not deemed prohibited party-in-interest transactions, because they are covered by statutory or administrative exceptions from the Code and ERISA's rules on prohibited transactions.

5. INFORMATION CERTIFIED BY THE TRUSTEE AND CUSTODIAN

The following is a summary of the unaudited information of the Plan as of December 31, 2010 and 2009, and for the year ended December 31, 2010, included in the Plan's financial statements and supplemental schedule, that was derived from information prepared by Northern and Hartford and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee and custodian that such information is complete and accurate.

The Plan's investment in the ITT Corporation Stock Fund is held in a trust account at Northern. Investments consist of an undivided interest in an investment account of the Master Trust established by the Company and administered by Northern. Use of the Master Trust permits the commingling of trust assets with the assets of certain other Company savings plans for investment and administrative purposes. Although assets of participating plans are commingled in the Master Trust, supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans are maintained. The net investment income of the investment assets is allocated by Northern to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

Investment income relating to the Master Trust is allocated to the individual plans based upon the monthly balances invested by each plan.

The following table presents the fair value of investments in the Master Trust as certified by Northern at December 31, 2010 and 2009:

	2010	2009

7. STABLE ASSET FUND

The SEI Stable Asset Fund, one of the Plan's investment options, invests in a diversified portfolio of GICs and synthetic GICs issued by insurance companies, banks, and other financial institutions, which are valued at fair market value on the underlying investments and then adjusted by the issuer to contract value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made under the contract, plus earnings, less Plan withdrawals and administrative expenses.

The Plan expects that each unit will have a constant value of $1.00. Unanticipated events, such as a GIC issuer's inability to meet obligations or significant withdrawal requests by Plan participants, could affect the recoverability of assets, including the underlying investment securities of synthetic GICs. Therefore, there can be no assurance that a unit's value will remain constant at $1.00. The value of each unit is determined at the close of business each day by adding the value of all of the Plan's assets, subtracting all accrued expenses and liabilities, and dividing by the number of units outstanding. There are no unfunded commitments or redemption restrictions related to the fund.

Distributions from net investment income are declared on a daily basis and are reinvested into additional units on the first business day of the following month.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The investment contracts had an average yield for the year ended December 31, 2010, of 0.89%. The credited interest rate for the investment contracts had a range from 0.291% to 9.875% as of December 31, 2010. The investment contracts include GICs with scheduled maturities from January 15, 2011 to December 20, 2054, and synthetic GICs with no fixed maturity.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

9. PLAN TERMINATION

Although it has not expressed to do so, the Company has the right to terminate the Plan subject to the provisions set forth in ERISA. If the Plan is terminated for any reason, all accounts shall become fully

vested and non-forfeitable. At the time of termination, the Plan shall be valued and distributions to participants shall be made.

10. FEDERAL INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Plan administrator by a letter dated May 23, 2002, that the Plan is qualified and the Master Trust established under the Plan is tax-exempt, under the appropriate sections of the Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan and Master Trust continue to qualify under the applicable provisions of the Code and, as a result, the Plan's net investment income is exempt from taxation. Therefore, no provision for income taxes has been included in the Plan's financial statements.

11. SUBSEQUENT EVENTS

For the year ended December 31, 2010, subsequent events were evaluated through October 10, 2011, the date the financial statements were available to be issued.

The Plan was amended and restated in 2010 and an application for a determination letter was filed on January 31, 2011, under Filing Cycle E.

On January 12, 2011, ITT Corporation announced plans to separate its businesses into three distinct, publicly traded companies. We expect this separation to have minimal to no impact on the Plan.

Effective July 1, 2011, the Plan changed its custodian from Hartford Life Insurance Company to JP Morgan Retirement Plan Services LLC.
