Benchmark Bank Employees 401(k) Plan & Trust

We were engaged to audit the accompanying statement of net assets available for benefits of the Benchmark Bank Employees 401(k) Plan & Trust (the Plan) as of December 31, 2010 and the related statement of changes in net assets available for benefits and the supplemental schedule as of and for the year then ended. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by Section 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4 which was certified by John Hancock Life Insurance Company, the directed Trustee of the Plan (referred to as Trustee) as of and for the year ended December 31, 2010, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the Trustee that the information provided to the Plan administrator is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

We have compiled the accompanying statement of net assets available for benefits of the Benchmark Bank Employees 401(k) Plan & Trust as of December 31, 2009. We have not audited or reviewed the accompanying statement of net assets available for benefits and, accordingly, do not express an opinion or provide any assurance about whether the statement of net assets available for benefits is in accordance with accounting principles generally accepted in the United States of America.

Management is responsible for the preparation and fair presentation of the statement of net assets available for benefits in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the statement of net assets available for benefits.

Our responsibility is to conduct the compilation in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. The objective of a compilation is to assist management in presenting financial information in the form of financial statements without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the statement of net assets available for benefits.

1. Description of the Plan

The following description of the Benchmark Bank Employees 401(k) Plan & Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established effective by and among Benchmark Bank, Benchmark Title Services, LLC and Affiliated Mortgage Company (all collectively referred to as Employers) and their respective employees.

The Plan is a defined contribution plan covering eligible employees of the participating companies as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Vesting and Participation

Employees become eligible for participation as of date of hire, as defined by the Plan.

The balance in each participant's account representing salary reduction contributions is fully vested at all times and is not subject to forfeiture. The balance in each participant's account representing the Employers' matching contributions and discretionary nonelective contributions becomes 20% vested upon completion of 2 years of service, 40% after 3 years of service, 60% after 4 years of service, 80% after 5 years of service and 100% after 6 years or more of service.

Contributions

Participants may elect to contribute a portion of their pretax compensation in amounts not less than 2% of eligible compensation after the participant enters the Plan and for the first plan year of participation, then up to 100% of total compensation after the first year, subject to certain maximum limitations imposed by the Internal Revenue Code (generally in the amount of $16,500 for 2010). The Employers contribute a matching contribution to the Plan, which is equal to 100% of the salary reduction amount, not to exceed 4% of compensation each payroll period. Additionally, the Employers may make a discretionary nonelective contribution to the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Employers' matching contributions and discretionary nonelective contributions, and an allocation of Plan earnings and expenses not paid by the Employers. Earnings allocations are based on participant investment elections. Plan expense allocations are based either on a pro rata basis to each participant in relation to the balance of all participants' account balances or may be charged equally to each participant.

Investment Options

Upon enrollment in the Plan, a participant must direct contributions to selected investments as made available and determined by the Plan. Participants may change their investment options anytime throughout the year through the internet or direct phone access to the Plan's Trustees.

Participant Loans

Loans are not permitted from the Plan.

Forfeitures

Forfeitures represent the portion of non-vested benefit payments remaining in the Plan for all terminated employees. Forfeitures are allocated as an additional discretionary matching contribution.

Payment of Benefits

A participant may not make withdrawals from the Plan except in the event of total and permanent disability, retirement, or termination of employment or hardship. At normal retirement date, or such other date when the participant shall be eligible, the participant is entitled to receive the vested amount in his or her account.

Plan Termination

While there is no intention to do so, the employers reserve the right to terminate the Plan. In the event of termination of the Plan, the participants become fully vested in their employer contribution balances, and the net assets of the Plan will be distributed to the participants of the Plan in accordance with the provisions of the Employee Retirement Income Security Act of 1974.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

The accompanying financial statements for the year ended December 31, 2010 have been prepared from information prepared by the Plan's directed Trustee, John Hancock Life Insurance Company (Trustee). Such information has been certified as complete and accurate by the Trustee.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investments in pooled separate accounts are reported at fair value based on the quoted market price of the fund, which represents the net asset value of the shares held by the fund at year-end. Investments in guaranteed investment contracts are valued at the participation percentage of the respective Trustees' underlying assets. Cash is stated at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events for potential recognition and/or disclosure through the date these financial statements were issued.

3. Administration of Plan Assets

The Plan assets are held and managed by the Plan's Trustee as of and for the year ended December 31, 2010. The Trustee invests cash received, interest and dividend income as directed by the participants of the Plan. The Trustee also makes distributions to participants.

Certain administrative functions are performed by employees of the Employers. However, no such employees receive compensation from the Plan. All administrative fees and costs related to Plan investments were paid by the Plan.

4. Certified Financial Information

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the Plan's Trustee at December 31, 2010, except for comparing such information certified by the Trustee to information included in the Plan's financial statements and supplemental schedule.

The following tables present the fair value of the Plan's investments that were certified by the Plan's Trustee as of December 31, 2010.

5. Investment Contract with Insurance Company

A portion of the Plan's investments represent benefit-responsive guaranteed investment contracts with the Trustee. The Trustee maintains the contributions in a common collective trust fund. The fund is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by the Trustee, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the guaranteed investment contracts at December 31, 2010 and 2009 was $211,680 and $188,052, respectively. The crediting interest rate is based on the composite rate (as defined) (.30% to 1.25% at December 31, 2010). Such interest rates are reviewed on a monthly and annual basis for resetting.

Certain events limit the Plan's ability to transact at contract value with the Trustee. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The following table represents a summary of average yields of the guaranteed investment contract as of and for the year ended December 31, 2010:

Average yields:	
Based on actual earnings	.94% to 2.92%
Based on interest rate credited to participants	.44% to 1.63%

6. Income Taxes

The Plan obtained its latest determination letter on January 31, 2006, in which the Internal Revenue Service stated that, as then designed, the Plan was in compliance with the applicable requirements of the Internal Revenue Code (IRC). While the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed and being operated in compliance with the IRC.

7. Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for plan benefits.

8. Fair Value Disclosures

The fair value of an asset or liability is the price that would be received to sell that asset or paid to transfer that liability in an orderly transaction occurring in the principal market (or most advantageous market in the absence of a principal market) for such asset or liability. In estimating fair value, the Plan utilizes valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. Such valuation techniques are consistently applied. Inputs to valuation techniques include the assumptions that market participants would use in pricing an asset or liability. ASC Topic 820, "Fair Value Measurements and Disclosures," establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

- *Level 1 Inputs* - Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

- *Level 2 Inputs* - Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These might include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (such as interest rates, volatilities, prepayment speeds, credit risks, etc.) or inputs that are derived principally from or corroborated by market data by correlation or other means.

- *Level 3 Inputs* - Unobservable inputs for determining the fair values of assets or liabilities that reflect an entity's own assumptions about the assumptions that market participants would use in pricing the assets or liabilities.

In general, fair value is based upon quoted market prices, where available. If such quoted market prices are not available, fair value is based upon internally developed models that primarily use, as inputs, observable market-based parameters. Valuation adjustments may be made to ensure that financial instruments are recorded at fair value. These adjustments may include amounts to reflect counterparty credit quality and the Plan's creditworthiness, among other things, as well as unobservable parameters. Any such valuation adjustments are applied consistently over time. The Plan's valuation methodologies may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. While management believes the Plan's valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date. Furthermore, the reported fair value amounts have not been comprehensively revalued since the presentation dates, and therefore, estimates of fair value after the balance sheet date may differ significantly from the amounts presented herein.

Assets and liabilities measured at fair value at December 31, 2010 and 2009 are as follows:

	Fair Value Measurements Using		
	Level 1	Level 2	Level 3
December 31, 2010:			
Investments (1)	$ -	$ 4,462,130	$ -
December 31, 2009:			
Investments (1)	$ -	$ 3,030,492	$ -

(1) Investments are measured at fair value on a recurring basis, generally monthly.
