PRAIRIE PACKAGING, INC. 401(K) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Prairie Packaging, Inc. 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan maintained for the benefit of eligible employees of Prairie Packaging, Inc. (the "Employer"). The Plan is designed as a qualified cash deferred arrangement pursuant to Section 401(k) of the Internal Revenue Code (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees become eligible to make employee contributions after attaining the age of 21 and completing 30 consecutive days of employment. Plan entrance dates are the first day of each month after a participant becomes eligible. Employees who became eligible after January 1, 2006 were automatically enrolled in the Plan and defer 3% of their compensation.

Employees become eligible for Employer matching and profit sharing contributions when they have completed one year of service, as defined, and are at least 21 years of age.

Contributions

Participants may make pre-tax contributions, at their direction, from 1% to 60% of annual compensation not to exceed maximum allowable amounts permitted by the IRC.

The Employer shall make a matching contribution to eligible employees in an amount equal to 100% of the first 3% and 50% of the next 2% of the participant's compensation contributed to the Plan. The Employer may also elect to make an additional discretionary matching contribution.

Employer profit sharing contributions are made as determined by the Employer's Board of Directors, not to exceed the maximum amount allowable as a deduction for federal income tax purposes. Employer discretionary non-elective profit sharing contributions are allocated based upon participant earnings.

Participant Accounts

Each participant's account is credited or charged with the participant's contribution, the Employer matching contribution, the Employer profit sharing contribution and allocation of: (a) investment income (loss) and (b) administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

PRAIRIE PACKAGING, INC. 401(K) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 1 - DESCRIPTION OF THE PLAN (continued)

Vesting

Participants are immediately vested in their contributions, any rollover contributions, and Employer matching contributions plus actual earnings thereon. A participant is 100% vested in the Employer's discretionary matching contribution after three years of service. Prior to January 1, 2008, a participant is 100% vested in the Employer's profit sharing contribution after five years of service. Those participants with less than three and five years of service have a 0% vested percentage in the discretionary matching contribution and profit sharing contribution. Effective January 1, 2008, a participant vests 20% each year after one year of service until becoming fully vested after five years of service for Employer non-elective contributions.

Investment Options

Participants must direct their salary deferral and Employer contribution to selected investments as made available by the Plan. Participants may change their investment options at any time. The Plan currently offers various mutual funds, collective trust funds and a guaranteed investment contract as investment options for Plan participants.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years except loans for the purchase of a primary residence that may be extended to a maximum of ten years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with prevailing rates charged on similar commercial loans. Interest rates range from 4.25% to 10.25%. Principal and interest are paid ratably through payroll deductions and mature at various dates through April 2019.

Payment of Benefits

Payments of benefits are made to participants or their beneficiaries on death, retirement at age 65, disability, or termination of employment. Benefits are payable in a lump sum or by other methods described in the Plan.

Forfeited Accounts

At December 31, 2010 and 2009, forfeited non-vested accounts totaled \$27,326 and \$20,535, respectively. The non-vested accounts at December 31, 2010, will be used to reduce future Employer's contributions first, and then used to pay any administrative expenses. Forfeitures used to reduce Employer contributions totaled \$116,866 and \$47,268 in 2010 and 2009, respectively.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements are prepared under the accrual method of accounting.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Change in Accounting Principles

The Plan adopted a new accounting standard, *Reporting Loans to Participants by Defined Contribution Pension Plans*, which provides clarification of how loans to participants should be classified and measured by defined contribution pension benefit plans. This guidance requires that loans to participants be reported as notes receivable from participants in the Statements of Net Assets Available for Benefits and be measured at their unpaid principal balance plus any accrued but unpaid interest. The Plan adopted this standard in its December 31, 2010 financial statements and has reclassified participant loans of \$2,231,713 from participant-directed investments to notes receivable from participants as of December 31, 2009. The Plan also reclassified interest income from participant loans of \$151,043 from investment income to interest income from notes receivable from participants for the year ended December 31, 2009. Net assets of the Plan were not affected by the adoption of this standard.

Investment Valuation and Income Recognition

The Plan's investment assets are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement dates. See Note 3 for discussion of fair value measurements.

Investment transactions are recorded on the trade-date basis. Investment income (loss) includes net appreciation or depreciation in fair value of investments and interest earned. Net appreciation or depreciation in fair value of investments includes investments purchased, sold and held during the year.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition (continued)

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and FASB ASC 962-325, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value for the Plan's guaranteed investment contract is based on the net asset value of the fund as reported by the investment advisor. As required by the FSP, the Statements of Net Assets Available for Benefits should present the fair value of the investment in the guaranteed investment contract from fair value to contract value relating to the investment contract. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans, if any, are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Certain administrative expenses of the Plan are paid by the Employer. Although the Employer has elected to pay some administrative expenses, it is not obligated to do so. If the Employer ceases to pay these expenses in the future, they will be paid by the Plan's Trustee out of the assets of the Plan.

NOTE 3 - FAIR VALUE MEASUREMENTS

The Plan measures, monitors and discloses its assets on a fair value basis in accordance with Financial Accounting Standards Board Accounting Standards Codification 820 (FASB ASC 820) *Fair Value Measurements and Disclosures*. FASB ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

PRAIRIE PACKAGING, INC. 401(K) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 3 - FAIR VALUE MEASUREMENTS (continued)

- Level 1 - Valuations based on unadjusted quoted prices for identical assets or liabilities in active markets;
- Level 2 - Valuations based on quoted prices for similar assets or liabilities or identical assets or liabilities in less active markets, such as dealer or broker markets; and
- Level 3 - Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable, such as pricing models, discounted cash flow models and similar techniques not based on market, exchange, dealer or broker-traded transactions.

The following is a description of the valuation methodologies used for instruments measured at fair value and their classification in the valuation hierarchy.

- Mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Mutual funds are considered Level 1 investments.
- Collective trust funds are stated at estimated fair values, which have been determined based on the unit values of the funds. Unit values are determined by the company sponsoring such funds by dividing the fund's net assets at fair value by its units outstanding at the valuation dates. The fair values of these investments are determined by reference to the respective fund's underlying assets, which are primarily marketable equity and fixed income securities. Collective trust funds are considered Level 2 investments.
- Guaranteed investment contracts are stated at fair value by discounting the related cash flows based on the current yields of similar instruments with comparable durations considering the credit worthiness of the issuer. Guaranteed investment contracts are considered Level 3 investments.

The following is a description of the nature and risk of the categories of assets by major security types.

Target-date portfolios: provide a diversified exposure to stocks, bonds, and cash for those investors who have a specific date in mind for retirement or another goal. These portfolios aim to provide investors with an optimal level of return and risk, based solely on the target date. The fund manager adjusts allocation among asset classes to more conservative mixes as the target date approaches.

NOTE 3 - FAIR VALUE MEASUREMENTS (continued)

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended:

	<u>2010</u>	<u>2009</u>
Balance, beginning of year	\$ 7,593,067	\$ 6,914,983
Interest	221,368	166,095

Balance, end of year	<u>\$ 8,980,252</u>	<u>\$ 7,593,067</u>

The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 - INVESTMENTS

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

NOTE 5 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into a fully benefit-responsive investment contract in the Marshall & Ilsley Stable Principal Fund (the "Fund") with Marshall & Ilsley Trust Company (M&I). The Fund primarily invests in guaranteed investment contracts (GICs) and other liquid guaranteed investment contracts (Synthetic GICs) issued by various investment products with similar characteristics. The guaranteed contract issuer is contractually obligated to repay the principal invested. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by M&I, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The fair value of the investment contract at December 31, 2010 and 2009 was \$8,980,252 and \$7,593,067, respectively.

The Fund could be limited in its availability to transact with issuers at contract value if the Fund raises its risk profile or is subjected to an extended period of significant cash outflow. M&I maintains strong risk parameters and works with its issuers before any risk parameter changes are contemplated. The Fund maintains cash, internal cash flow and a maturity ladder of investments to offset cash withdrawals. Further, the Fund manager may limit withdrawals in order to maintain sufficient liquidity. Therefore, the probability of the Fund losing its access to contract value transactions is remote.

All issuer transactions are guaranteed at contract value unless the Fund is found to have acted negligently, fraudulently or with intent to mislead the issuer.

	<u>2010</u>	<u>2009</u>
Average Yields:		
Based on actual earnings	2.51%	3.78%
Based on interest rate credited to participants	3.24%	3.36%

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in mutual funds, collective trust funds and a guaranteed investment contract managed by M&I. M&I acts as Trustee for those investments as defined by the Plan agreement and therefore, these transactions qualify as party-in-interest transactions as defined by ERISA Section 3(14)(G). Such transactions are allowable under Section 408(b)(8) of ERISA and the regulations promulgated thereunder. These investments had total market values of \$21,937,544 and \$16,334,803 at December 31, 2010 and 2009, respectively.

NOTE 7 - PLAN TERMINATION

The Employer reserves the right to alter, amend, or terminate the Plan. In the event of Plan termination, participants will become 100% vested in their accounts. Presently, there is no intention on the part of the Employer to terminate the Plan.

NOTE 8 - TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated March 24, 2004, stating that the Plan is qualified under Section 401(a) of the IRC and therefore, the related Trust is exempt from taxation. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 9 - OBLIGATION TO TERMINATED PARTICIPANTS

Amounts payable to employees who have withdrawn from participation and have submitted withdrawal requests totaled \$36,732 as of December 31, 2010. There were no amounts payable to participants as of December 31, 2009.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE 11 - PLAN AMENDMENTS

On March 19, 2009, the Plan was amended to comply with the final regulations under Section 415 (Final Regulations) of the IRC published on April 5, 2007. The amendment is intended as good faith compliance with the requirement of the Final Regulations. The amendment was effective as of January 1, 2008.

Effective January 1, 2010, the Plan was amended to comply with the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA) and certain other regulatory and legislative developments by restating the Plan into the framework of the Marshall & Ilsley Trust Company N.A. Defined-Contribution Volume Submitter Plan and Trust.

Management evaluated subsequent events through October 12, 2011, the date the financial statements were available to be issued. Events or transactions occurring after December 31, 2010, but prior to October 12, 2011, that provided additional evidence about conditions that existed at December 31, 2010, have been recognized in the financial statements for the year ended December 31, 2010. Events or transactions that provided evidence about conditions that did not exist at December 31, 2010, but arose before the financial statements were available to be issued have not been recognized in the financial statements for the year ended December 31, 2010.
