We were engaged to audit the accompanying statements of net assets available for benefits of the A Raymond Tinnerman Manufacturing, Inc. Retirement Savings Plan (the Plan) as of November 1, 2010 and December 31, 2009, and the related statements of changes in net assets available for benefits for the period from January 1, 2010 through November 1, 2010 and the year ended December 31, 2009. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note F, which was certified by State Street Bank and Trust Company and Wilmington Trust Retirement and Institutional Services Company, the trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that Wilmington Trust Retirement and Institutional Services Company held the Plan's investment assets and executed investment transactions as of December 31, 2009 and for the period May 11, 2009 to November 1, 2010, and that State Street Bank and Trust Company held the Plan's investment assets and executed investment transactions for the period January 1, 2009 to May 10, 2009. The Plan administrator has obtained certifications from the trustees as of and for the period ended November 1, 2010 and as of and for the year ended December 31, 2009, that the information provided to the Plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As further discussed in Note A to the financial statements, the Plan sponsor elected to merge the Plan into another existing Plan effective November 1, 2010. In accordance with accounting principles generally accepted in the United States, the Plan has changed its basis of accounting from the ongoing plan basis used for the year ended December 31, 2009 to the liquidation basis for the period ended November 1, 2010.

NOTES TO FINANCIAL STATEMENTS

NOTE A - DESCRIPTION OF THE PLAN

The following description of the A Raymond Tinnerman Manufacturing, Inc. Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was a defined contribution plan covering all eligible employees of A Raymond Tinnerman Manufacturing, Inc. (the Company). Eligible employees were defined as any employee that was not an excludable employee. Excludable employees included union employees whose employment was governed by a collective bargaining agreement, certain nonresident aliens who had no earned income from sources within the United States and leased employees. The Plan included amendments that permitted union employees from the Flemingsburg, Kentucky facility to participate in the Plan. Provided an employee was not an excludable employee, they were eligible to participate in the Plan on their hire date. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). In 2009, the Company acquired certain assets and liabilities of Tinnerman Palnut Engineered Products, Inc., including the Plan.

Effective November 1, 2010, the Plan and its related trust were merged into the A Raymond Corporate NA, Inc. 401(k) Plan (the Merger). Under the terms of the Merger, the Plan fully vested each participant in their accounts. The effect of this Merger is shown as a transfer out in the accompanying statement of changes in net assets available for benefits.

Contributions

Each year, participants could contribute up to 50% of pretax annual compensation not to exceed \$16,500, as defined in the Plan. In addition, as permitted by law, the Plan allowed participants who have attained age 50 to make additional "catch-up" contributions not to exceed \$5,500. Participants could also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants directed the investment of their contributions into various investment options offered by the Plan. The Company contributed matching contributions in an amount equal to 50% of the participant's salary deferrals that did not exceed 6% of the participant's compensation. Additional employer contributions including employer basic contributions, qualified non-elective contributions and special employer contributions could be contributed at the option of the Company. Company contributions were allocated at the ratio that an eligible employee's compensation bore to the total compensation of all eligible employees, as defined in the Plan. The Company effectively suspended all Company matching of 401(k) contributions as of January 1, 2009 for the Plan. Matching of 401(k) contributions was reinstated as of November 1, 2009.

Participants' Accounts

Participant and Company contributions were transferred to an independent trustee who deposited the funds to each participant's individual account. Participants directed the investment of contributions to their accounts. Investments available to participants included money market, fixed income, and equity funds. Participants could change investment options daily.

Vesting

Participants were immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon was based on years of service. Prior to November 1, 2010, a participant was 100% vested after five years of service.

Forfeitures

Forfeitures were created when participants terminated employment before becoming entitled to their full benefits under the Plan. The forfeited amounts could be used by the Plan for various purposes, such as payment of Plan expenses and reducing employer contributions. Forfeitures in 2010 and 2009 were \$56,559 and \$68,933, respectively.

Notes Receivable from Participants

Participants could borrow from their fund accounts up to a maximum of \$50,000 or 50% of their account balance, whichever was less. The loans were secured by the balance in the participant's account and bore an interest rate that a bank or other professional lender would charge for making a loan in a similar circumstance and ranged from 5.25% to 10.20%.

Payment of Benefits

If the participant's vested account balance was \$1,000 or less, they had the option either to directly transfer some or all of the account to another eligible retirement plan or to receive a distribution in a single sum. If the participant's vested account balance was greater than \$1,000, they had the option to delay their distribution to age 70 ½ or the end of the year in which they retired, transfer some or all of their account to another eligible retirement plan or to receive a distribution in a single sum.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's policy was to prepare its financial statements on the accrual basis of accounting.

Investments

The Plan's investments were stated at current market value. The change in the difference between current value and the cost of investments was reflected in the Statement of Changes in Net Assets Available for Benefits as unrealized appreciation or depreciation. The realized gain or loss on the sale of investments was the difference between the proceeds received and the cost of the investments sold. Securities listed on any generally recognized stock exchange were valued at the last sale price reported on any such exchange on the valuation date, or, if there were no sales on the valuation date, then on the quoted bid price on the valuation date. See Note C for discussion of fair value measurements.

The FASB guidance on Defined Contribution Pension Plans requires that investment contracts held by a defined-contribution plan be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the stable value fund as well as the adjustment from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits was prepared on a contract value basis.

Notes Receivable from Participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans were reclassified as distributions based upon the terms of the Plan document.

Costs

Plan administration costs were absorbed by the Plan, while legal and audit fees were paid by the Company.

Use of Estimates

The presentation of financial statements in conformity with U.S. generally accepted accounting principles required the Plan administrator to make estimates and assumptions that affected certain reported amounts and disclosures. Accordingly, actual results may have differed from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through October 12, 2011, which is the date the financial statement were available to be issued.

Recent Accounting Pronouncements

In January 2010, the FASB issued additional guidance related to fair value measurements and the related disclosure requirement. The guidance requires plans to disclose investments that transfer in and out of Level 1 and 2 and the reasons for those transfers (effective in fiscal 2011). Additionally, in the reconciliation of changes in the fair value of investments using significant unobservable inputs (Level3), plans should present separately information about purchases, sales, issuances and settlements (effective in fiscal 2012). The adoption of this guidance is not expected to have a material impact to the Plan's financial statements.

In September, 2010, the FASB issued guidance to amend generally accepted accounting principles (GAAP) related to the classification and measurement of loans to participants by defined contribution pension benefit plans. Previous guidance required loans to participants to be classified as plan investments, which are generally measured at fair value in accordance with GAAP. The new guidance requires that loans to participants are classified as notes receivable from participants and measured at their unpaid principal balance plus any accrued but unpaid interest. The new guidance is effective for periods ending after December 15, 2010 to be applied retrospectively.

NOTE C - FAIR VALUE INSTRUMENTS

The ASC *Fair Value Measurements and Disclosure* defines fair value and provides guidance for measuring fair value and expands disclosures about fair value measurements in accordance with accounting principles generally accepted in the United States of America. *Fair Value Measurements and Disclosure* does not require any new fair value measurements, but rather applies to all other accounting pronouncements that require or permit fair value measurements.

Fair Value Measurements and Disclosure establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobserved inputs (Level 3). The three levels of the fair value hierarchy are described below:

**A RAYMOND TINNEMAN MANUFACTURING, INC.
RETIREMENT SAVINGS PLAN**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE C - FAIR VALUE INSTRUMENTS – CONTINUED

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quotes prices that are observable for the assets or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liabilities fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in the methodologies used in 2010 and 2009.

Mutual funds (RIC's): Valued at the net asset value ("NAV") of shares held by the plan at year end.

Stable value fund: Valued at the net asset values of such fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan held no assets as of November 1, 2010; therefore, there are no related disclosures of fair value measurements.

NOTE D - PLAN TERMINATION

The Company had the right under the Plan to terminate the Plan subject to the provisions of ERISA. The Plan could also terminate if the Company was dissolved, declared bankrupt or insolvent, or merged with another company (see NOTE A). In the event of a plan termination, participants became 100% vested in their accounts.

NOTE E - TAX STATUS

The Plan obtained its latest determination letter on September 3, 2004, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan was amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan was designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes was included in the Plan's financial statements.

RETIREMENT SAVINGS PLAN**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE E - TAX STATUS - CONTINUED

Accounting principles generally accepted in the United States of America required Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan took an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The Plan administrator analyzed the tax positions taken by the Plan, and concluded that as of November 1, 2010, there were no uncertain positions taken or expected to be taken that would have required recognition of a liability (or asset) or disclosure in the financial statements. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE F - INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

Effective May 11, 2009, the Plan's investments and notes receivable from participants were held by Wilmington Trust Retirement and Institutional Services Company, the trustee of the Plan. Prior to May 11, 2009, the Plan's investments and notes receivable from participants were held by State Street Bank and Trust Company, former trustee of the Plan.

All investment and notes receivable from participants information disclosed in the accompanying financial statements was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the trustees in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE I - RISKS AND UNCERTAINTIES

The Plan invested in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities would occur in the near term and that such changes could have materially affected participants' account balances and the amounts reported in the statement of net assets available for benefits.
