Independent Auditors' Report

Rowan Pension Plan:

We were engaged to audit the accompanying statements of net assets available for benefits of the Rowan Pension Plan (the "Plan") as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by JPMorgan Chase Bank, N.A. ("JPMorgan"), the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2010 and 2009, and for the years then ended, that the information provided to the plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements. The form and content of the information included in the financial statements, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the DOL Rules and Regulations for Reporting and Disclosure under ERISA.

ROWAN PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

1. DESCRIPTION OF THE PLAN

The following brief description of the Rowan Pension Plan (the “Plan”) is provided for general informational purposes only. Participants should refer to the Plan’s Summary Plan Description for more complete information.

General – The Plan is a defined benefit pension plan covering eligible employees of Rowan Companies, Inc. (“Rowan”) and its drilling company subsidiaries. The Plan Administrative Committee of Rowan and the plan administrator control and manage the operation and administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Pension Benefits – Employees are entitled to pension benefits upon retirement after three years of service, as defined by the Plan. There is no partial vesting of benefits. The Plan provides for normal retirement benefits upon reaching the age of 60 and for early retirement benefits between the ages of 40-59. The Plan also has provisions for death benefits and for benefits payable upon meeting certain other conditions.

Upon retirement, the amount of annual benefits under the Plan for participants hired before January 1, 2008, is determined under a traditional defined benefit formula as 1.75% of the compensation base, as defined in the Plan, multiplied by the number of years of service. The Plan provides for an annual cost-of-living adjustment to benefits of up to 2%. Employees hired on or after January 1, 2008, are subject to a cash balance benefit formula. Such employees are credited with an amount every year equal to 5% of their cash compensation paid during the year. The account balance is also credited with interest each quarter based on the 10-year Treasury rate.

On June 30, 2009, the traditional defined benefit formula under the Plan was frozen. Effective with the amendment and restatement of the Plan on July 1, 2009, the Plan transitioned to the new cash balance formula for future benefits as described above. A participant’s total benefit is calculated as the sum of (i) the value of traditional defined benefit at June 30, 2009 (“Frozen Benefit”) plus (ii) the cash balance benefit which increases annually. In addition, employees whose age plus years of vesting service on June 30, 2009 was equal to 50 or greater will receive annual transition pay credits as defined in the plan document. Future benefits under the new cash balance formula will accrue at a lower amount than the traditional defined benefit formula.

Plan Termination – Rowan expects to continue the Plan indefinitely but reserves the right to terminate it by duly adopted written resolutions of its Board of Directors.

In the event the Plan terminates, the assets of the Plan will be allocated, as prescribed by Section 4044 of ERISA and its related regulations, generally to provide the following benefits in the order indicated:

ROWAN PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2010 AND 2009

- (1) Vested benefits insured by the Pension Benefit Guaranty Corporation (the "PBGC") up to the applicable limitations (discussed below).
- (2) All other vested benefits (those not insured by the PBGC).
- (3) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested, normal retirement age benefits and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefit should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Use of Estimates – The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and the actuarial present value of accumulated plan benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Assets of the Plan are held by JPMorgan Chase Bank, N.A. (the "Trustee") under a trust agreement adopted by Rowan within the Master Trust Under Various Employee Benefits Plans of Rowan Companies, Inc. and its Related Companies (the "Master Trust"). The terms of the trust agreement provide "investment managers" and the Trustee with full discretionary authority for the purchase and sale of investments.

The investments are stated at fair value as determined by the Trustee based on the latest quoted market values of the underlying securities. The Trustee determines the Plan's interest in the market value of the Master Trust's net assets and related investment income in accordance with a computational method agreed upon by the Plan administrator and the Trustee. See *Note 3 – Investment in Master Trust* for the Master Trust's investments by level within the fair value hierarchy as of December 31, 2010 and 2009.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned and dividends are recorded on the ex-dividend date. The net increase in fair value of investments consists of the net change in unrealized gains (losses) in fair values

ROWAN PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

and realized gains (losses) upon the sale of investment securities. The net change in unrealized gains (losses) and realized gains (losses) upon sale are determined using the fair values as of the beginning of the year or the purchase price if acquired during the year.

As defined in Financial Accounting Standards Board (“FASB”) Accounting Standards Codification 820 *Fair Value Measurements and Disclosures* (“FASB ASC 820”), fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance.

FASB ASC 820 also establishes a fair value hierarchy that requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. FASB ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used to measure fair value as follows:

- Level 1: quoted prices in active markets for identical assets or liabilities;
- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or
- Level 3: unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Money market fund: This fund is valued using unadjusted quoted market prices for identical assets.

Mutual funds: Valued at the net asset value (“NAV”) of shares held by the plan at year end.

ROWAN PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

Commingled funds and 103-12 investment entities: The Master Trust's interest in the commingled funds and 103-12 investment entities is stated at NAV provided by the administrator of the funds. The NAV is based on the value of the underlying assets owned by the funds, minus its liabilities, and divided by the number of units outstanding. The funds are classified within level 2 of the valuation hierarchy because the underlying investments are traded in an active market.

Limited partnership: The fund's valuation of real estate and mortgage loans and bonds payable use significant unobservable inputs.

Contributions – Contributions to the Plan from the Company are recorded in the period that the Plan's actuary determines they relate to except that a contribution receivable is recorded to the extent that amounts due are pursuant to formal commitments as well as legal or contractual requirements in existence at the end of the Plan year.

Payment of Benefits – Benefits are recorded when paid.

Expenses of the Plan – Most expenses incurred in the administration of the Plan and the Master Trust are paid by the Master Trust and allocated to the participating plans. These expenses include fees and expenses of the Trustees, fund managers and consultants. Any other expenses incurred in the operation of the Plan are paid by Rowan.

Actuarial Present Value of Accumulated Plan Benefits – Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on eligible earnings and credited service on the date on which the benefit information is presented (the "valuation date"). Benefits payable under all circumstances (retirement, death, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Management's Review of Subsequent Events – In preparing the accompanying financial statements, Plan management has reviewed all known events that have occurred after December 31, 2010, and through October 14, 2011, for inclusion in the financial statements and footnotes.

New Accounting Pronouncements – In January 2010, FASB issued Accounting Standards Update ("ASU") No. 2010-06, *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements* ("ASU No. 2010-06"), which amends Accounting Standards Codification ("ASC") Subtopic No. 820-10, relating to fair value measurements, adding new disclosure requirements for Levels 1 and 2, separate disclosures of purchases, sales, issuances, and settlements relating to Level 3 measurements and clarification of existing fair value disclosures. A portion of ASU No. 2010-06 requiring

expanded disclosure of activity for Level 3 assets and liabilities will be effective for fiscal years beginning after December 15, 2010. The adoption of this standard did not impact the Plan's financial statements.

3. INVESTMENT IN MASTER TRUST

The Master Trust Under Various Employee Benefits Plans of Rowan Companies, Inc. and its Related Companies commingles, for investment and administrative purposes, Plan assets with those of another plan sponsored by a Rowan subsidiary. The Plan's interest in the Master Trust represents 5% or more of net assets available for benefits

The net assets of the Master Trust at December 31, 2010 and 2009, were as follows:

ROWAN PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2010 AND 2009

The Plan's interest in the Master Trust's total investment units was approximately 87% as of December 31, 2010 and 2009, with the balance attributed to the other Rowan-sponsored plan.

In accordance with FASB ASC 820, the following table presents the Master Trust's investments as of December 31, 2010 and 2009:

	<u>2010</u>	<u>2009</u>
Level 1:

4. FUNDING POLICY

Contributions to the Plan are made solely by Rowan in amounts not less than that required by ERISA. Annual contributions are computed by the Plan's actuary, which used the projected unit credit actuarial cost method for the plan years ended December 31, 2010 and 2009.

The Internal Revenue Code ("IRC") generally requires that estimated annual employer contributions be made through quarterly installments, with final amounts paid by September 15 of the following year. Rowan elected to contribute \$63,781,000 to the Plan for 2010, which met the funding requirement for 2010.

ROWAN PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

5. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

6. INCOME TAX STATUS

The Internal Revenue Service (“IRS”) has determined and informed Rowan by a letter dated July 17, 2002, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Though the Plan has been amended since that date, the Plan administrator and Rowan believe that the Plan continues to be designed and is currently being operated in compliance with the applicable requirements of the IRC.

US GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

7. PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are managed by JPMorgan, the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

ROWAN PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

8. ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary, Mercer Human Resource Consulting, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of January 1, 2010 were:

- i. Life expectancy of active participants and nondisabled pensioners (RP-2000 Combined Healthy Mortality Table for males and females with a blue collar adjustment projected to 2010 with Scale AA).
- ii. Retirement age assumptions (ages 50-59 – 2%, age 60 – 40%, age 61 – 5%, age 62 – 40%, ages 63-64 – 5%, age 65 – 40%, ages 66-69 – 5% and age 70 – 100%).
- iii. Disability assumptions (age 20 – 0.09%, age 25 – 0.1%, age 30 – 0.11%, age 35 – 0.12%, age 40 – 0.15%, age 45 – 0.215%, age 50 – 0.33%, age 55 – 0.58% and age 60 – 1.18%).
- iv. Cost of living increase of up to 1.75% per annum, compounded annually.
- v. Discount rate of 8% per annum (unchanged from prior year)

The following changes in actuarial assumptions were made since the prior valuation:

- The cost of living increase of benefit assumption was changed from 1.95% to 1.75% to better reflect expected experience.
- The form of payment assumption was updated for the traditional benefit to better reflect expected experience under the plan.
- The mortality assumption for participants becoming disabled after 2007 was updated to be the same as the healthy mortality assumption.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

ROWAN PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

The accumulated plan benefits information at January 1, 2010 and 2009 is as follows:

	2010	2009
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving benefits	\$ 183,255,264	\$ 176,399,862
Active participants	101,347,729	97,363,573
Inactive participants with deferred benefits	60,223,131	51,474,161
	<u>344,826,124</u>	<u>325,237,596</u>

Total actuarial present value of accumulated plan benefits	<u>\$ 345,626,790</u>	<u>\$ 331,548,824</u>

The change in the actuarial present value of accumulated plan benefits from January 1, 2009, to January 1, 2010, is attributed to the following:

Actuarial present value of accumulated plan benefits at January 1, 2009	<u>\$ 331,548,824</u>
Increase (decrease) during the year attributable to:	
Benefits accumulated	10,516,789
Increase for interest due to the decrease in the discount period	25,807,329
Benefits paid	(17,914,429)
Change in actuarial assumptions	(3,304,358)
Change in plan provisions	<u>(1,027,365)</u>
Net increase	<u>14,077,966</u>
Actuarial present value of accumulated plan benefits at January 1, 2010	<u>\$ 345,626,790</u>

9. NAV PER SHARE

In accordance with FASB ASU No. 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, the Plan expanded its disclosure to include the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the net asset value per share or its equivalent for which the fair value is not readily determinable as of December 31, 2010 and 2009. For the Plan, such assets include investments in common collective trust funds and 103-12 investments.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2010 AND 2009

The following tables for December 31, 2010 and 2009, sets forth a summary of the Master Trust's investments with a reported NAV.

Fair Value Estimated Using NAV per Share						
December 31, 2010 and 2009						
	Fair Value as of 12/31/2010 *	Fair Value as of 12/31/2009 *	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period

Intech/Janus Risk Managed Large Cap Growth Fund (c)	39,039,303	32,492,172	None	Immediate	None	1 day

* The fair value of the investment has been estimated using the NAV of the investment.

- (a) The fund invests in a well-diversified portfolio that is representative of the broad domestic bond market consisting primarily of government, corporate, mortgage-backed and asset-backed securities with maturities of greater than one year.
- (b) The fund seeks investment results that correspond generally to the price and yield performance of the MSCI All Country World Index ex USA.
- (c) The underlying premise of the strategy for the fund is to build portfolios of companies whose price variability is designed to produce returns in excess of the benchmark.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial methods

Asset methods

The asset valuation method is an average of the adjusted market value for each month during the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.
- **Transferred participants:** The liability for employees who have transferred into another plan of the plan sponsor have been included with the liability for terminated vested participants

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.

- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Maximum deductible contribution method

Calculations of maximum deductible contributions include the excess of the funding target computed using the projected unit credit method over the minimum funding target. The objective of the projected unit credit method is to fund each participant's benefits under the plan as they accrue, taking into consideration expected future compensation increases. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows

- An individual's **projected funding target** is the present value of benefits based on credited service as of the beginning of the plan year and projected compensation that would be used in the calculation of the benefit on each expected separation date. If multiple decrements are used, the projected funding target for an individual is the sum of the component projected funding targets associated with the various anticipated separation dates.
- The plan's **projected funding target** is the sum of the projected funding targets for all participants under the plan. The excess of the plan's projected funding target over the plan's funding target is included in the "cushion amount."

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan, as restated and amended through July 1, 2009, are included in this valuation.

- **Most recent plan amendments included:** There have been no amendments since the restatement.
- **Plan amendments excluded:** None.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* Not applicable.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Late retirement increases:**
 - Active participants: The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement increases only apply to participants who defer retirement beyond 70 ½.
 - Deferred vested participants: Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions**Plan provisions**

Following is a summary of the major plan provisions used to determine the plan's financial position for the traditional formula. It should not be used in determining plan benefits

Traditional formula

Effective date	The Plan was amended and restated in its entirety effective July 1, 2009.
