Report of Independent Certified Public Accountants

To the Administrative Committee
The Haskell Company Employee Stock Ownership Plan
Jacksonville, Florida

We have audited the accompanying statement of net assets available for benefits of The Haskell Company Employee Stock Ownership Plan (the "Plan") as of December 31, 2010, and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit. The statement of net assets available for benefits of the Plan as of December 31, 2009, was audited by other auditors whose report dated October 11, 2010, expressed an unqualified opinion on those statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of The Haskell Company Employee Stock Ownership Plan as of December 31, 2010, and the changes in net assets available for benefits for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of Schedule H, line 4i – Schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is a supplemental schedule required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

1. Description of Plan

The following brief description of The Haskell Company Employee Stock Ownership Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan Agreement for complete information.

General

The Haskell Company (the "Company") established the Plan effective as of January 1, 2008. The Plan operates as a leveraged employee stock ownership plan ("ESOP"), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the "Code") and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Plan purchased Company common stock using proceeds from a loan issued by the Company and the stock is held in a trust established under the Plan. The borrowing is to be repaid over a period of twenty years by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal, an appropriate percentage of stock is allocated to eligible participants' accounts in accordance with applicable regulations under the Code. The Company has no rights against the shares of common stock once they are allocated under the ESOP. The borrowing is collateralized by the unallocated shares of common stock.

Basis of Presentation

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to:

(a) the accounts of participants with vested rights in allocated common stock (allocated), and

(b) common stock not yet allocated to participants (unallocated).

Eligibility

Employees of the Company and its participating affiliated entities are generally eligible to participate in the Plan after one year of service provided they worked at least 1,000 hours during such plan year and have attained the age of 18. Participants, who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year, are generally not eligible for an allocation of Company contributions for such year.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's unallocated dividend and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan.

Payment of Benefits

Distributions of benefits are made in cash. In the event of retirement, total disability or death of a participant, benefits will commence no later than the last day of the Plan year following the Plan year on which a participant retires, suffers a disability, or dies while employed by the Company.

1. Description of Plan (Continued)

Distributions related to terminations may commence no later than one year after the end of the fifth Plan year following the Plan year in which the participant separated from service. The full benefits will be paid in either a lump sum, in five substantially equal annual installments, or in as many substantially equal annual installments as permitted under Code Section 409(o)(1)(C)(ii).

Regardless of the provisions listed above, any Company common stock allocated to a participant's account that was acquired by the Plan with the proceeds of a loan is not permitted to be distributed until the loan is completely repaid by the Plan. If a participant has met one of the conditions above, at the time the loan is repaid, the distribution must begin by the end of the year in which the loan is repaid.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the Administrative Committee shall direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the note payable.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Additionally, Plan earnings and administrative expenses are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

Forfeited Accounts

At December 31, 2010 and 2009, there were no forfeited non-vested accounts. During the year ended December 31, 2010, no forfeitures were allocated to remaining participants.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20% per year of service and are 100% vested after five years of service.

1. Description of Plan (Continued)

Put Option

Under Federal income tax regulations, the Company common stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a participant's right to demand that the Company buy any shares of its stock distributed to them for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Years of participation in The Haskell Company Tax Deferred Savings Plan (401(k)) (the "401(k) Plan") is considered when calculating the 10 year requirement. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. For those participants who elect to diversify, Company common stock will be liquidated and the proceeds will be transferred to the 401(k) Plan for investment at their discretion.

2. Summary of Significant Accounting Policies

This summary of significant accounting policies of the Plan is presented to assist in understanding the financial statements. The financial statements and accompanying notes are representations of the Plan's management. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the presentation of the financial statements.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

2. Summary of Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

Certain Plan expenses are deducted from participant's accounts and the remaining expenses are paid by the Company.

Subsequent Events

The Plan has evaluated subsequent events through the date of the report of independent certified public accountants, the date the financial statements were available to be issued.

3. Tax Status

The Plan has applied for but has not received a response from the Internal Revenue Service with regard to the qualification and tax exempt status of the Plan. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, they believe that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

4. Administration of Plan Assets

The Plan's assets, which consist principally of Company common stock, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and will make distributions to participants. The Trustee also administers the payment of interest and principal on the note payable, which is reimbursed to the Trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

5. Investments

The following table presents the Plan's investments in shares of the Company's common stock, which also represents 5% or more of the Plan's net assets at December 31:

	2010		2009	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	52,096	61,303	47,030	66,369
Cost	$ 18,875,944	$ 22,211,916	$ 17,040,380	$ 24,047,480
Fair value	$ 15,368,404	$ 18,084,301	$ 12,698,100	$ 17,919,630

5. Investments (Continued)

During 2010, the Plan's investments in the Company's common stock (including gains and losses on investments bought and sold as well as held during the year) appreciated in value by $2,834,975.

6. Fair Value Measurements

Authoritative guidance provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2010 and 2009. Following is a description of the valuation methodologies used for assets measured at fair value:

Company common stock: Valued at estimated fair value based upon independent appraisal. The appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of Company assets and liabilities.

Money market fund: Valued at estimated fair value based upon their quoted redemption prices and recent transaction prices of $1.00 per share, with no discounts for credit quality or liquidity restrictions. The Plan's investments in money market deposit accounts occasionally exceed federally insured balances.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

	Level 1	Level 2	Level 3	Total
Company common stock, at fair value	$ -	$ -	$ 33,452,705	$ 33,452,705
Money market fund	-	1,605,527	-	1,605,527
Total assets at fair value	$ -	$ 1,605,527	$ 33,452,705	$ 35,058,232

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2009:

	Level 1	Level 2	Level 3	Total
Company common stock, at fair value	$ -	$ -	$ 30,617,730	$ 30,617,730
Money market fund	-	1,432,383	-	1,432,383
Total assets at fair value	$ -	$ 1,432,383	$ 30,617,730	$ 32,050,113

There were no transfers between Level 1, Level 2, or Level 3 investments during the years ended December 31, 2010.

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2010:

Balance, beginning of year	$ 30,617,730
Unrealized gains relating to assets still held at the reporting date	2,834,975
Balance, end of year	$ 33,452,705

7. Loan Payable

On November 13, 2008, the Plan entered into a $25,844,637 term loan agreement with the Company. The proceeds of the loan were used to purchase 71,329 shares of the Company's common stock. Unallocated shares are collateral for the loan. The agreement provides for the loan to be repaid over twenty years. The scheduled amortization of the loan for the next five years and thereafter is as follows: 2011 - $985,547; 2012 - $1,027,334; 2013 - $1,070,893; 2014 - $1,116,299; 2015 - $1,163,630 and thereafter - $17,201,860. The loan bears interest at 4.24% per annum.

8. Party-In-Interest Transactions

Parties-in-interest are defined under the Department of Labor's regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer and certain others. The Company, on behalf of the Plan, paid a portion of administrative expenses. The Plan has entered into a term loan agreement with the Company (Note 7) to purchase shares of the Company's common stock. The Plan's investment in Company common stock and dividends earned qualifies as party-in-interest transactions. The Plan also invests in a money market fund issued by Charles Schwab, the custodian of the Plan; therefore, the investment qualifies as a party-in-interest transaction.

9. Risks and Uncertainties

The Plan invests in shares of the Company's common stock. This investment is exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with the investment, it is at least reasonably possible that changes in the values of the investment will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
