St. Laurent Paperboard Hourly Savings Plan

Notes to Financial Statements

December 31, 2010

1. Description of the Plan

The following description of the St. Laurent Paperboard Hourly Savings Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions. St. Laurent Paperboard (U.S.), Inc. was the Plan's sponsor until July 31, 2003. Effective July 31, 2003, St. Laurent Paperboard (U.S.), Inc. merged into Stone Container Corporation. Stone Container Corporation assumed the role of the Plan's sponsor effective July 31, 2003. On November 1, 2004, Stone Container Corporation's name was changed to Smurfit-Stone Container Enterprises, Inc. (the Company), and it continues to be the Plan's sponsor. The Company is a wholly owned subsidiary of Smurfit-Stone Container Corporation (SSCC).

General

The Plan is a defined contribution plan covering all eligible hourly employees at facilities identified with St. Laurent Paperboard (U.S.), Inc. prior to the merger into the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

On December 18, 2008, the Administrative Committee of the Smurfit-Stone Container Corporation Retirement Plans (the Committee) engaged a third party to evaluate whether the Smurfit-Stone Container Corporation Stock Fund (the SSCC Stock Fund), one of the investment options in the Plan, should be liquidated. In connection with the engagement, the Committee determined that it was appropriate to have the third party exercise the Committee's fiduciary responsibilities with respect to the continued offering of the SSCC Stock Fund and with respect to the continued holding of Smurfit-Stone Container Corporation Common Stock (SSCC Common Stock) in the SSCC Stock Fund. Effective as of December 31, 2008, the Plan was amended to appoint the third party as named fiduciary and investment manager, giving the third party the authority to determine the disposition of the SSCC Common Stock held by the SSCC Stock Fund. As of February 23, 2010, the third party has sold 100% of the SSCC Common Stock held by the SSCC Stock Fund as of December 31, 2009. The proceeds from the sale of SSCC Common Stock were reinvested in the T. Rowe Price Stable Value Fund.

1. Description of the Plan (continued)

On January 26, 2009, SSCC and its U.S. and Canadian subsidiaries filed a voluntary petition for relief under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court in Wilmington, Delaware. On the same day, the Company's Canadian subsidiaries also filed to reorganize under the Companies' Creditors Arrangement Act (CCAA) in the Ontario Superior Court of Justice in Canada. Effective as of the opening of business on February 4, 2009, the Company's common stock was delisted from the NASDAQ Global Select Market, and the trading was suspended. The Company's common stock was quoted on the Pink Sheets Electronic Quotation Service under the ticker symbol SSCCQ.PK. SSCC emerged from its Chapter 11 and CCAA bankruptcy proceedings on June 30, 2010. Upon emergence, SSCC merged with and into its wholly owned subsidiary, Smurfit-Stone Container Enterprises, Inc. (SSCE). SSCE changed its name to Smurfit-Stone Container Corporation.

Contributions

Each year, participants may contribute from 1% to 20% of eligible compensation, as defined by the Plan, depending on the amount permitted for the particular location. The Company makes a matching contribution in varying amounts depending on the location where the participant is employed. The Company's matching contributions are invested according to participant direction. All contributions are subject to applicable limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's matching contribution, and plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after five years of service, vesting in 20% increments after each year of service.

1. Description of the Plan (continued)

Investment Options

Upon enrollment in the Plan, the participant may direct contributions into various trusteed mutual funds or common trust funds. All contributions are participant-directed.

Forfeitures

Forfeitures of non-vested employer contributions are used to reduce future employer contributions. At December 31, 2010, the Plan held approximately $40,451 in forfeitures, which will be used to offset future employer contributions, compared to $36,158 at December 31, 2009. During 2010 and 2009, $0 was used to reduce employer contributions.

Distributions

Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or installments. All distributions are in cash. Participants who have attained the age of 70 1/2 receive distributions in accordance with the Internal Revenue Service (IRS) minimum required distribution rules.

Participant Loans

Prior to 2008, participants at certain locations, depending on the terms of the collective bargaining agreement, were permitted to borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one year to five years or up to ten years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan's administrator. Principal and interest are paid ratably through monthly payroll deductions.

1. Description of the Plan (continued)

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the statements of net assets available for benefits.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Administrative Expenses

Legal expenses are generally paid by the Company, and other administrative expenses may be paid by the Plan.

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2010 or 2009. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (continued)

Withdrawals

Withdrawals are recorded when paid.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). See Note 4 for the discussion and disclosures related to fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common collective trust (T. Rowe Price Stable Value Fund). The statements of net assets available for benefits present the fair value of the investment in the common collective trust as well as the adjustment from fair value to contract value for fully benefit-responsive investment contracts. The fair value of the Plan's interest in the T. Rowe Price Stable Value Fund is based on information reported by the issuer of the common collective trust at year-end. The contract value of the T. Rowe Price Stable Value Fund represents contributions plus earnings, less participant withdrawals and administrative expenses.

Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method.

Reclassifications

Certain prior period amounts have been reclassified to conform to the current year presentation. The reclassifications had no effect on total net assets available for benefits.

New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-06, *Improving Disclosures about Fair Value Measurements*. ASU 2010-06 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each class of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. Since ASU 2010-06 is not expected to have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In September 2010, the FASB issued ASU 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*. ASU 2010-25 requires participant loans to be measured at their unpaid principal balance plus any accrued but unpaid interest and classified as notes receivable from participants. Previously, loans were measured at fair value and classified as investments. ASU 2010-25 is effective for fiscal years ending after December 15, 2010, and is required to be applied retrospectively. Adoption of ASU 2010-25 did not change the value of participant loans from the amount previously reported as of December 31, 2009. Participant loans have been reclassified to notes receivable from participants as of December 31, 2009.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP to IFRSs*. ASU 2011-04 amended ASC 820 to converge the fair value measurement guidance in U.S. generally accepted accounting principles (GAAP) and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurements requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures (although certain of these new disclosures will not be required

for nonpublic entities). The amendments are to be applied prospectively and are effective for annual periods beginning December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held, notes receivable from participants, and the adjustment from fair value to contract value for fully benefit-responsive investment contracts at December 31, 2010 and 2009, and net appreciation/depreciation in fair value of investments, interest and dividends, and interest income from notes receivable from participants for the years ended December 31, 2010 and 2009, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by T. Rowe Price, the trustee of the Plan.

The fair values of individual investments that represent 5% or more of the Plan's net assets available for benefits at fair value are as follows:

	December 31

T. Rowe Price Summit Cash Reserves Fund (1,416,342 and 1,369,084 shares of mutual fund, respectively)	**1,416,342***	1,369,084

*Fund balance was not greater than 5% of net assets available for benefits as of December 31, 2010.

3. Investments (continued)

During 2010 and 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	Year Ended December 31	
	2010	**2009**
Mutual funds	**$ 3,919,599**	$ 6,037,230
Common stock	**(10,460)**	(58,005)
Common trust funds	**94,898**	120,426
	$ 4,004,037	$ 6,099,651

4. Fair Value Measurements

ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (i.e., an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs when measuring fair value.

The standard describes three levels of inputs that may be used to measure fair value:

- Level 1 – Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.
- Level 2 – Inputs are quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly.
- Level 3 – Valuations are observed from unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following tables set forth by level within the fair value hierarchy the Plan's investment assets and investment liabilities at fair value. As required by ASC 820, assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

4. Fair Value Measurements (continued)

The Plan's investments in mutual funds and common stock are stated at fair value based on quoted market prices at year-end. The fair value of the Plan's interest in common trust funds is based on the net asset value reported by the issuer of the common/collective trust at year-end.

Fair Value on a Recurring Basis

Investments measured at fair value on a recurring basis are categorized in the tables below based upon the level of input to the valuations.

	December 31, 2010			
	Level 1	**Level 2**	**Level 3**	**Total**

	$ 28,279,922	$ 5,312,706	$ –	$ 33,592,628

(a) This category includes investments in highly diversified funds designed to remain appropriate for investors in terms of risk throughout a variety of life circumstances. These common/collective trust funds share the common goal of first growing and then later preserving principal and contain a mix of U.S. common stocks, U.S.-issued bonds, and cash. There are currently no redemption restrictions on these investments. The fair values of the investments in this category have been estimated using the net asset value per share.

(b) This category includes a common/collective trust fund that is designed to deliver safety and stability by preserving principal and accumulating earnings. This fund is primarily invested in guaranteed investment contracts and synthetic investment contracts. Participant-directed redemptions have no restrictions. The fair value of this fund has been estimated based on the fair value of the underlying investment contracts in the fund as reported by the issuer of the fund. The fair value differs from the contract value. As previously discussed in Note 2, contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

(c) This category includes a common/collective trust fund that is designed to protect capital with low-risk investments and includes cash, bank notes, corporate notes, government bills, and various short-term debt instruments. There are currently no redemption restrictions on this investment. The fair value of the investment in this category has been estimated using the net asset value per share.

5. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31	
	2010	**2009**
Net assets available for benefits per the financial statements	**$ 38,509,347**	$ 33,608,203
Adjustment from contract value to fair value for fully benefit-responsive contracts	**189,904**	141,739
Net assets available for benefits per the Form 5500	**$ 38,699,251**	$ 33,749,942

The following is a reconciliation of net realized and unrealized appreciation in fair value of investments per the financial statements to the Form 5500:

	Year Ended December 31, 2010
Net realized and unrealized appreciation in fair value of investments per the financial statements	$ 4,004,037
Change in the adjustment from contract value to fair value for fully benefit-responsive investment contracts	48,165
Net realized and unrealized appreciation in fair value of investments per the Form 5500	$ 4,052,202

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts.

7. Plan Tax Status

The Plan has received a determination letter from the IRS dated November 24, 2008, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code), and therefore, the related trust is exempt from taxation. Subsequent to this determination letter by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan's administrator believes that the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

8. Subsequent Events

On May 27, 2011, the Company merged with and into a subsidiary of Rock-Tenn, who assumed sponsorship of the Plan. The merger had no effect on the Plan during 2010, and its impact on future years is being evaluated by management.

In 2009 a lawsuit was filed in the United States District Court against the Plan's Administrative Committee alleging violation of ERISA and asserting that the Administrative Committee members breached their fiduciary duties to the Plan's participants and beneficiaries by allegedly making imprudent investments with the Plan's assets, making misrepresentations and failing to disclose material adverse facts concerning the Company's business condition, debt management and viability, and not taking appropriate actions to protect the Plan's assets. On May 23, 2011, a settlement was reached whereby approximately $7,800,000 will be allocated to the participants of all the related Company plans. Each plan participant shall receive his or her prorated share of the settlement amount after the allocation is determined.

Management has evaluated subsequent events through October 13, 2011, the date the financial statements were available to be issued.
