The United Launch Alliance Administrative Committee:

We were engaged to audit the accompanying statements of net assets available for benefits of the United Launch Alliance Retirement Plan for Employees in the Bargaining Units of the Space Systems Group (the "Plan") as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of non-exempt transactions for the year ended December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by State Street Bank & Trust Co., the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that State Street Bank & Trust Co. holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America as established by the American Institute of Certified Public Accountants and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Plan Description

The following description of the United Launch Alliance Retirement Plan for Employees in the Bargaining Units of the Space Systems Group (the “Plan”) provides only general information. Participants should refer to the Summary Plan Description and Plan Document for a more complete description of the Plan’s provisions.

General

The Plan was originally established effective May 2, 1994 covering bargaining unit employees of the Lockheed Martin Space Systems Group who were covered under several collective bargaining agreements. Pursuant to a Joint Venture Agreement dated as of May 2, 2005, by and between The Boeing Corporation and Lockheed Martin Corporation, United Launch Alliance LLC (the “Company”) assumed sponsorship of the Plan effective December 1, 2006 including assuming the assets and liabilities of the Plan. The Plan was formerly known as the Lockheed Martin Retirement Plan for Employees in the Bargaining Units of the Space Systems Group (065).

The Plan is a noncontributory defined benefit pension plan providing retirement benefits to eligible employees of the Company. Eligible employees are hourly employees of the Company as defined in and covered by the applicable Collective Bargaining Agreements in effect between the Company and the respective Unions. Also, all transferred employees, as defined, pursuant to the Joint Venture Agreement, continued to be eligible for the Plan. The Plan is subject to the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Transfer of Assets

On December 31, 2010, in conjunction with a plan spinoff, \$3,656,000 was transferred from the Plan to the Lockheed Martin Corporation Salaried Employee Retirement Program (“LMC plan”), which represented approximately 80% of the estimated assets due to the LMC plan in conjunction with the spinoff. The final amount due the LMC plan will be calculated by the Plan’s actuary and will follow transfer rules set forth by ERISA. This remaining balance, estimated to be approximately \$914,000, will be transferred to LMC plan in the fourth quarter of 2011 and has been accrued on the accompanying Statement of Net Assets as of December 31, 2010. See Note 3 for discussion of the Plan’s accumulated benefit obligation transferred to the LMC plan in connection with the spinoff.

Administration

The United Launch Alliance Administrative Committee is responsible for the oversight of the administration and operation of the Plan. The United Launch Alliance Investment Committee establishes, amends and monitors compliance with investment policies, and selects and monitors the trustee, investment managers, and outside investment advisors and consultants to the Plan. The Board of Directors of the Company is responsible for appointing the committees.

State Street Bank and Trust Company (“State Street” or “Trustee”) is the trustee of the United Launch Alliance Master Pension Trust (the “ULA Master Trust”), which is the funding vehicle for the Plan and certain other company sponsored plans. See Note 11, *Subsequent Events* for change in service providers effective January 1, 2011.

The Plan’s operating, investment and administrative expenses are generally charged against Plan assets as provided for in the Plan and Master Trust documents (see Note 2 – *Investments in ULA Master Trust and Income Recognition*).

Benefits

The Plan provides for retirement benefits based on an amount payable at a selected age and in a selected form and is generally based upon the employee’s accrued benefit. In general, the monthly benefit amount is calculated as a flat dollar rate determined under the effective collective bargaining agreement, multiplied by the number of years of credited service, as defined in the Plan document, depending on the date of termination or retirement. Normal retirement age is 65. The Plan also provides early retirement benefits at age 55 and other benefits upon meeting certain other conditions. Benefits are payable in the form of a joint and survivor annuity, single life annuity or other optional forms as further described in the Plan Document. Certain death and disability benefits are also available under the Plan if the prescribed criteria are met.

Vesting

Participants become fully vested upon completion of five years of service.

1. Plan Description (Continued)

Funding Policy

The Company's funding policy is to contribute annually an amount so as to meet the minimum funding requirements and as recommended by the Plan's actuary. No employee contributions are required or permitted. During 2010 and 2009, the Plan met the minimum funding requirements of ERISA. The Company contributed \$8,900,000 and \$0 in contributions for the 2010 or 2009 Plan years, respectively.

Termination of the Plan

Although the Company has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan, and it has reserved the right to do so. The rights of all affected participants to benefits accrued upon termination are nonforfeitable. Net assets of the Plan available to provide benefits would be allocated upon termination in accordance with the guidelines prescribed by the Plan and ERISA and its related regulations. If the Plan terminates, certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC"), a U.S. governmental agency. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under covered plans, and the amount of benefit protection is subject to certain limitations. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires estimates to be made that affect the amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the

United Launch Alliance
Retirement Plan for Employees in the Bargaining Units
of the Space Systems Group

Notes to Financial Statements (Continued)

2. Summary of Significant Accounting Policies (Continued)

financial statements. The most significant of these estimates relates to the determination of the accumulated plan benefits and the Plan's funded status. Actual results could differ from those estimates.

New Accounting Pronouncements

In January 2010, the FASB issued additional guidance related to fair value measurements to clarify existing disclosure requirements and require additional disclosure about fair value measurements. The guidance clarifies existing fair value disclosures about the level of disaggregation presented and about inputs and valuation techniques used to measure fair value for measurements that fall in either Level 2 or Level 3 of the fair value hierarchy. The additional disclosure requirements include disclosure regarding the amounts and reasons for the significant transfers in and out of Level 1 and Level 2 of the fair value hierarchy and separate presentation of purchases, sales, issuances and settlements of items within Level 3 of the fair value hierarchy. The guidance is effective for periods beginning after December 15, 2009 except for the disclosures about Level 3 activity of purchases, sales, issuances and settlements, which is effective for interim and annual reporting periods beginning after December 15, 2010. Effective January 1, 2010, the Plan adopted the provisions of the required additional guidance. The impact of the adoption of this standard was not material to the Plan's financial statements. Disclosures not required to be adopted until January 1, 2011 are not expected to be material to the Plan's financial statements. These disclosures are required to be provided only on a prospective basis.

Investments in ULA Master Trust and Income Recognition

The fair value of the Plan's interest in the ULA Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income (net of investment expenses) less actual distributions and administrative expenses.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see Note 6, *Fair Value Measurements and Disclosures*).

The change in net appreciation (depreciation) consists of both realized and unrealized gains and losses. Purchases and sales of investments are recorded on the trade date. Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned.

2. Summary of Significant Accounting Policies (Continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions for services rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to: (1) retired or terminated employees or their beneficiaries; (2) beneficiaries of employees who have died; and (3) present employees or their beneficiaries. Benefits for retired, terminated and disabled employees or their beneficiaries are based on each former employee's credited service prior to his or her termination or retirement date. Accumulated plan benefits for active employees are based on each employee's credited service preceding the valuation date. Benefits payable under all circumstances -- retirement, death, disability, and termination of employment -- are deemed included to the extent they are attributable to employee service prior to the valuation date.

The Plan's actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The effect of Plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective.

The Pension Protection Act of 2006, as amended by the Worker, Retiree and Employer Retiree and Employer Recovery Act of 2008 ("The Act"), requires that all single-employer defined benefit plans be fully funded within a seven-year period, beginning in 2008. Some provisions of The Act were effective January 1, 2006; however, most of the new provisions were effective January 1, 2008. The Act replaces the prior rules for funding with a new standard that is based on the Plan's funded status. Funding must be determined using specified interest rates and mortality sums. Adoption of the new requirements impact the Plan's liability and required prospective contributions. The Act also imposes certain benefit restrictions for qualified defined benefit plans that do not meet certain funding thresholds. Collectively bargained plans have a delayed effective date for application of the benefit restriction rules which is generally the earlier of (i) the end of an agreement ratified before January 1, 2008 and (ii) January 1, 2010. A plan's funded percentage is referred to as the Adjusted Funding Target Attainment Percentage ("AFTAP"). The 2010 AFTAP for the Plan is 104.73%. Because the Plan's AFTAP met the required threshold, the Plan is not subject to any benefit restrictions.

Payment of Benefits

Benefits are recorded when paid.

3. Accumulated Plan Benefits

The present value of accumulated plan benefits, as determined by the actuary is as follows:

	December 31,	
	2010	2009
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	\$ 24,806,658	\$ 23,934,260
Current and terminated employees with vested benefits	36,418,654	38,602,189
Total vested benefits	61,225,312	62,536,449
Non-vested benefits	4,357,680	3,156,816
Total actuarial present value of accumulated plan benefits	<u>\$ 65,582,992</u>	<u>\$ 65,693,265</u>

The following comprises the changes in accumulated plan benefits:

Actuarial present value of accumulated plan benefits as of December 31, 2009	\$ 65,693,265
Increase (decrease) during year attributable to:	
Interest accumulation	5,135,536
Benefit payments	(3,056,932)
Spin-off to Lockheed Martin Plan	(3,519,000)
Benefit accruals and participant experience	1,330,123
Net change	<u>(110,273)</u>
Actuarial present value of accumulated plan benefits as of December 31, 2010	<u>\$ 65,582,992</u>

Significant actuarial assumptions used in the 2010 and 2009 valuations were (a) life expectancy of participants (RP-2000 Blue Collar table with mortality improvements projected to 2015), (b) assumed retirement age of 61, and (c) an annual discount rate of

3. Accumulated Plan Benefits (Continued)

8.00% in 2010 and 2009. The spin-off to Lockheed Martin Plan reflects estimated liabilities. See Note 1, *Transfer of Assets*, for further information.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors would be applicable in determining the actuarial present value of accumulated Plan benefits.

4. Information Certified by the Plan's Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election and as requested by the plan administrator, the following information was not subjected to any auditing procedures performed by the Plan's independent certified public accountants except to compare the amounts to the financial statements:

- a. Investments as shown in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2010 and 2009
- b. Investment gain as shown in the accompanying Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2010
- c. Investment information provided in Note 5 as of December 31, 2010 and 2009, and for the year ended December 31, 2010

5. ULA Master Trust

The Plan had an interest in the ULA Master Trust as of December 31, 2010 and 2009 of approximately 37.3% and 43.7%, respectively. Each participating Plan has an undivided interest in the ULA Master Trust. Investment income and loss and related investment expenses are allocated to the individual participating plans based upon average monthly balances invested by each Plan.

6. Fair Value Measurements and Disclosures

The Company uses a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
 - quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Short-Term Investments: Short-term investments are valued at NAV, which is calculated at a unit price that is not quoted on an active market, and attempts to maintain a \$1 unit price. The unit price is based on the fair value of the underlying investments, which in general are traded on an active market with observable inputs. State Street determines the unit value.

6. Fair Value Measurements and Disclosures (Continued)

Equities: Common stocks are valued at the closing price reported in the active market in which the individual security is traded. Domestic and International equity funds (common collective trusts, registered investment companies and group trusts) are valued at the NAV which is based on the fair value of the underlying investments as determined by the respective Fund Manager.

Fixed Income: Both the U.S. Government and Credit Funds (common collective trusts and registered investment companies) are valued at the NAV which is based on the fair value of the underlying investments as determined by the respective Fund Manager.

Real Estate and Private Equity: The REIT fund (common collective trust) is valued at the NAV based on the fair value of the underlying investment as determined by the Fund Manager. Real estate and private equity limited partnerships are all calculated by a third party and is based on fair value of underlying investments and ULA Master Trust's share of the partnership. There is little to no market activity to determine the fair value of the investment and a significant degree of judgment is used in determining values. There are also certain restrictions on the sale of the investments and additional capital calls can be made. During the years ended December 31, 2010 and 2009, approximately \$2.61 million and \$2.34, respectively, of additional capital calls were made by the limited partnership and real estate funds.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

a. The short-term investment fund consists of a diversified portfolio of short-term obligations and deposits, including U.S. Treasury and agency obligations, corporate bonds, commercial paper, repurchase agreements, certificates of deposit, bankers' acceptances, time deposits, and floating-rate notes. The maximum maturity of any instrument in the fund is 13 months. The short-term investment fund provides for daily redemptions at NAV.

b. For domestic small cap equities, at least 90% of the portfolio is comprised of investments in common stocks generally traded on a major U.S. exchange with a minimum market capitalization of \$400 million and a maximum of \$2.5 billion at cost. The portfolio may not have more than 10% of market value in cash or cash equivalent investments. The domestic large cap equities

common/collective trust fund seeks an investment return that approximates as closely as practicable, before expenses, the performance of the Russell 1000 Index over the long-term. This fund may invest directly or indirectly in securities and other instruments, including in other pooled investment vehicles sponsored or managed by, or otherwise affiliated with the commingled fund trustee. The common/collective trust fund provides for daily redemption at NAV.

- c. International investments involve investments in registered investment companies, comprising of an emerging markets fund which seeks to capture the returns of large and small cap value stocks as measured by book to market ratio in selected emerging markets countries. The investment strategy employs a disciplined, quantitative approach, emphasizing broad diversification and consistent exposure to emerging markets value stocks, but does not attempt to track a specific equity index. Additionally, developed markets exposure is sought through a fund which invests primarily in a diversified portfolio of equity securities issued by non-U.S. companies from at least three different foreign countries, including emerging markets. This fund focuses on countries whose economic and political systems appear more stable and are believed to provide some protection to foreign shareholders, and invests primarily in medium-to-large well established companies based on standards of the applicable market. The registered investment companies provide for daily redemption at NAV.
- d. Fixed income investments involve investments in registered investment companies and common/collective trusts. These funds seek investment returns that approximates as closely as practicable, before expenses, the performance of the Barclays Capital U.S. Long Government/Credit Bond Index over the long-term. Investments involve directly or indirectly held securities and other instruments, including other pooled investment vehicles sponsored or managed by, or otherwise affiliated with the commingled fund trustee. Additional investments include a fund which invests primarily in investment grade debt securities but may invest up to 20% of its total assets in high yield securities rated B or higher by Moody's or equivalently rated by S&P or Fitch. This fund may invest up to 30% of its total assets in securities denominated in foreign currencies, and may invest beyond this limit in U.S. dollar-denominated securities of foreign issuers. This fund may also invest up to 15% of its total assets in securities and instruments that are economically tied to emerging market countries, and will normally limit its foreign currency exposure to 20% of its total assets. The registered investment companies and common/collective trust fund provide for daily redemption at NAV.
- e. Real estate investments include a common/collective trust fund which seeks an investment return that approximates as closely as practicable, before expenses, the performance of the Dow Jones U.S. Select REIT Index over the long-term. Investments involve directly or indirectly held securities and other instruments, including other pooled investment vehicles sponsored or managed by, or otherwise affiliated with the commingled fund trustee. Limited partnership funds include investments in opportunistic real estate and other related investments such as debt and special situations focusing in geographic regions such as Europe and the U.S. ULA commitments for these funds total \$7 million. The common/collective trust fund provides for daily redemption at NAV. The limited partnerships are subject to restrictions on redemptions as governed by the individual Partnership agreements.
- f. Private equity investments include a fund-of-funds limited partnership fund which seeks superior long-term capital appreciation by investing (structured by classes of interest) in a diversified group of venture capital investment funds (VC class), private equity investment funds (PE class), and

emerging markets investment funds (EM class), which are managed by seasoned investment managers and which generally are difficult for new investors to access. ULA Master Pension Trust participation in this fund is comprised as follows: 35% EM class; 40% PE class; and 25% VC class. Total ULA commitment is \$10 million. This fund has significant restrictions on redemption as governed by the partnership agreement.

The following table sets forth a summary of changes in the fair value of the Plan's level 3 investments for the year ended December 31, 2010:

	Real Estate and Private Equity (Limited Partnerships)
Balance, beginning of year	\$ 2,753,279
Realized gains/(losses)	(91,348)
Unrealized gains/(losses) relating to instruments still held at the reporting date	391,669
Purchases and issuances	2,612,120
Sales and settlements	(70,249)
Balance, end of year	<u>\$ 5,595,471</u>

The availability of observable market data is monitored to assess the appropriate classification of financial statements within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the year ended December 31, 2010, there were no significant transfers in or out of levels 1, 2, or 3.

7. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service ("IRS") dated December 17, 2001 stating that the Plan is designed in compliance with the applicable requirements of the Code. The Plan is required to operate in conformity with the Internal Revenue Code (the "Code") to maintain its tax-qualified status. The Plan has been amended since receiving the determination letter. However, the plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related Trust is tax exempt. The Company filed for a new determination letter on February 1, 2010 which is pending with the IRS.

Retirement Plan for Employees in the Bargaining Units

Notes to Financial Statements (Continued)

7. Income Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Party-in-Interest Transactions

The ULA Master Trust holds certain investments managed by the Trustee. Transactions in these investments are party-in-interest transactions. The ULA Master Trust and the Plan pay actuarial, audit, custodial, investment management, investment advisory and legal fees from the Trust. Such transactions constitute party-in-interest transactions. These transactions are exempt from the prohibited transaction rules.

During the plan years ending December 31, 2010 and 2009, Plan assets were inadvertently used to pay certain fees that were deemed to be not permissible plan expenses. This resulted in a non-exempt transaction with a party-in-interest. The Company has reimbursed the Plan for the amount, including earnings, and is in the process filing under the Voluntary Fiduciary Correction Program. See Supplemental Schedule of Non-Exempt Transactions.

9. Risks and Uncertainties

The ULA Master Trust invests in various investment securities. Investments in general, are subject to various risks, such as interest rate, credit and overall market volatility risk. Additionally, the value, liquidity and related income of the investment securities are sensitive to changes in economic conditions, including real estate values, delinquencies, and defaults and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. Certain investments (limited partnerships) are less liquid and have restrictions on their sale. Forced liquidation, although not expected at this time, may affect the estimated value of such investments. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the funded status of the Plan.

United Launch Alliance
Retirement Plan for Employees in the Bargaining Units
of the Space Systems Group

Notes to Financial Statements (Continued)

9. Risks and Uncertainties (Continued)

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the amounts reported in the financial statements and accompanying notes.

10. Commitments

The ULA Master Trust's investment in the limited partnerships contains future capital call commitments of up to \$17,000,000 of which \$5,923,423 had been invested as of December 31, 2010. During 2010, \$2,612,130 of capital calls were made and invested. Subsequent to year end, the ULA Master Trust increased its future capital commitments by \$4,000,000 related to a new limited partnership agreement entered into in 2011.

11. Subsequent Events

The Company has evaluated subsequent events through October 11, 2011, which is the date the financial statements were available to be issued.

Effective January 1, 2011 The Northern Trust Company ("Northern Trust") became the trustee of the ULA Master Trust and the Plan. Plan assets were transferred from State Street to Northern Trust in January 2011.

Benefit and Compensation Limits

Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$195,000 and the 401(a)(17) compensation limit of \$245,000.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

2008 Plan Year

Schedule SB, Part V—Summary of Plan Provisions

Effective Date	December 1, 2006 pursuant to the Joint Venture agreement dated May 2, 2005 between the Boeing Company and the Lockheed Martin Corporation ("LMC") Most recent amendment (6 th) effective September 26, 2008.
Plan Year	Calendar year.
Eligibility	Employees represented by participating Collective Bargaining Units are eligible on their date of employment.
Definitions	
Credited Service	One year for each plan year in which the participant completes 1,800 or more hours. Partial years of service are granted for each 150 hours if less than 1,800. Prior plan service was included for certain participants as of the effective date.
Continuous Service	An employee's period of employment commencing on the later of the effective date or hire date and ending at termination. Include prior plan continuous service for certain participants.
Actuarial Equivalence	<ul style="list-style-type: none">■ Optional forms (other than level income and lump sums) are determined based on an interest rate of 7% and UP-84 Mortality. Mortality is set back one year for single participants and three years for a contingent annuitant.■ Level income benefits are determined based on an interest rate equal to the greater of 5.50% or the current 417(e) interest rate.■ Lump sums are based on applicable interest and mortality as prescribed by the Secretary of the Treasury.

Schedule SB, Part V—Summary of Plan Provisions

Normal Retirement

Eligibility Requirement

Age 65.

Benefit

Cape, Vandenberg and San Diego IAM, EAA, and UAPP participants: $\$80 \times$ the number of years of Credited Service.

San Diego IUOE and IBEW participants: $\$80 \times$ the number of years of Credited Service.

This benefit is reduced by any benefit payable from the General Dynamics Corporation Hourly Employees' Retirement Plan ($\$34 \times$ years of Credited Service through May 2, 1994).

Former Cape Canaveral participants (NES): Can elect to have their benefits determined in accordance with the provisions of the Retirement Income Plan (RIP).

Early Retirement

Eligibility Requirement

Age 55.

Benefit

Monthly benefit computed as in Normal Retirement, reduced for payment commencing prior to age 65 in accordance with the following:

1. If the sum of the member's age at his benefit commencement date and his years of Continuous Service total 85 or more, or the member has attained age 62 and completed 10 years of service, benefits are unreduced as of the member's Early Retirement Date.
2. If the member does not meet the requirements of (1), the benefit payable at his Early Retirement Date is reduced by the lesser of:
 - a. $3.00\% \times$ the amount by which 85 exceeds the sum of his age + Continuous Service, or
 - b. 3.00% per year for each year between his Normal Retirement Date and his benefit commencement date.

Effective during 2008, the SSB plan was amended so that ULA will pay the difference between the subsidized and unsubsidized early retirement factors for heritage General Dynamics participants who were not retirement eligible as of the date of the formation of ULA (12/1/2006).

Disability Retirement

Eligibility Requirement

Ten years of Continuous Service and total and permanent disability.

Benefit

An unreduced monthly benefit computed as in Normal Retirement.

Postponed Retirement

Eligibility Requirement

Retirement after normal retirement date.

Monthly Benefit

Normal retirement benefit equal to the accrued benefit determined as of retirement date.

Preretirement Surviving Spouse's Benefit

Eligibility Requirement

Five years of Continuous Service.

Benefit

If the participant dies from active status after becoming eligible for Early Retirement, 50% of the monthly benefit the participant would have received if he had retired on the first of the month following his death. If the participant dies from terminated vested status after becoming eligible for Early Retirement, 50% of the monthly benefit the participant would have received if he had retired on the first of the month preceding or coincident with his death. If the participant had 5 years of service, but had not attained age 55 upon his death, the benefit is deferred to when he would have attained age 55.

Termination

Eligibility Requirement

Five years of Continuous Service.

Benefit

A monthly benefit computed as in normal retirement, payable at age 65. Actuarially equivalent benefits are payable as early as age 55.

Pension Improvement

Eligibility Requirement

Five years of Continuous Service.

Benefit

\$94 per month (for San Diego participants) or \$105 per month (for Cape Canaveral and Vandenberg participants) for the participant payable upon the attainment of age 65 and \$94/\$105 per month for participant's spouse, payable upon the spouse's attainment of age 65.

1. For a retired member with between five and ten years of Continuous Service, the \$94/\$105 benefit $\times$ a fraction equal to the number of years of Continuous Service at Retirement $\div$ 10.
2. For a vested member, the \$94/\$105 benefit $\times$ by a fraction equal to the number of years of Continuous Service at termination $\div$ the number of years from date of hire to age 65.

The Pension Improvement will continue to the spouse upon the participant's death. The amount of the Pension Improvement will be reduced by the Pension Improvement Benefit received from the General Dynamics Corporation Hourly Employees' Retirement Plan.

Form of Payment

Normal Form

- Life annuity for unmarried participants.
- 50% joint and survivor annuity for married participants.

Optional Forms

- 66-2/3%, 75%, and 100% joint and survivor annuity with pop up feature.
- Level income option at age 62 or age 65.
- Five and 10-year certain and life.

Changes in Plan Provisions for the January 1, 2010 Valuation

The January 1, 2010 funding valuation does not reflect any plan changes.

Changes in Plan Provisions for the January 1, 2009 Valuation

The January 1, 2009 funding valuation reflects the following plan changes:

- An increase in the annual pay limit under IRC Section 401(a)(17) from \$230,000 in 2008 to \$245,000 in 2009.
- An increase in the annual maximum benefit limit under IRC Section 415 from \$185,000 in 2008 to \$195,000 in 2009.
- An increase in the benefit multiplier for San Diego participants from \$66 to \$80 effective January 1, 2009.
- An increase in the benefit multiplier for Cape Canaveral and Vandenberg participants from \$70 to \$80 effective November 1, 2008.
- “General Dynamics” amendment: United Launch Alliance will pay the difference between the subsidized and unsubsidized early retirement factors for heritage General Dynamics participants who were not retirement eligible as of the date of the formation of United Launch Alliance (December 1, 2006).

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. The values on the signed Schedule SB will govern to the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB.

The actuarial valuation was conducted on an ongoing (not terminated) basis using personnel data furnished as of January 1, 2010 by United Launch Alliance, LLC. Asset information and the dates and amounts of contributions are based on information supplied by United Launch Alliance, LLC.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption change:

- A change in the assumed expenses payable from the trust from \$ 350,000 to \$250,000.

This change was made to better reflect the anticipated plan experience. This assumption change did not reduce the funding shortfall, as such approval of the Commissioner is not required.

The United Launch Alliance Administrative Committee:

We were engaged to audit the accompanying statements of net assets available for benefits of the United Launch Alliance Retirement Plan for Employees in the Bargaining Units of the Space Systems Group (the "Plan") as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of non-exempt transactions for the year ended December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by State Street Bank & Trust Co., the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that State Street Bank & Trust Co. holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America as established by the American Institute of Certified Public Accountants and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Plan Description

The following description of the United Launch Alliance Retirement Plan for Employees in the Bargaining Units of the Space Systems Group (the “Plan”) provides only general information. Participants should refer to the Summary Plan Description and Plan Document for a more complete description of the Plan’s provisions.

General

The Plan was originally established effective May 2, 1994 covering bargaining unit employees of the Lockheed Martin Space Systems Group who were covered under several collective bargaining agreements. Pursuant to a Joint Venture Agreement dated as of May 2, 2005, by and between The Boeing Corporation and Lockheed Martin Corporation, United Launch Alliance LLC (the “Company”) assumed sponsorship of the Plan effective December 1, 2006 including assuming the assets and liabilities of the Plan. The Plan was formerly known as the Lockheed Martin Retirement Plan for Employees in the Bargaining Units of the Space Systems Group (065).

The Plan is a noncontributory defined benefit pension plan providing retirement benefits to eligible employees of the Company. Eligible employees are hourly employees of the Company as defined in and covered by the applicable Collective Bargaining Agreements in effect between the Company and the respective Unions. Also, all transferred employees, as defined, pursuant to the Joint Venture Agreement, continued to be eligible for the Plan. The Plan is subject to the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Transfer of Assets

On December 31, 2010, in conjunction with a plan spinoff, \$3,656,000 was transferred from the Plan to the Lockheed Martin Corporation Salaried Employee Retirement Program (“LMC plan”), which represented approximately 80% of the estimated assets due to the LMC plan in conjunction with the spinoff. The final amount due the LMC plan will be calculated by the Plan’s actuary and will follow transfer rules set forth by ERISA. This remaining balance, estimated to be approximately \$914,000, will be transferred to LMC plan in the fourth quarter of 2011 and has been accrued on the accompanying Statement of Net Assets as of December 31, 2010. See Note 3 for discussion of the Plan’s accumulated benefit obligation transferred to the LMC plan in connection with the spinoff.

Administration

The United Launch Alliance Administrative Committee is responsible for the oversight of the administration and operation of the Plan. The United Launch Alliance Investment Committee establishes, amends and monitors compliance with investment policies, and selects and monitors the trustee, investment managers, and outside investment advisors and consultants to the Plan. The Board of Directors of the Company is responsible for appointing the committees.

State Street Bank and Trust Company (“State Street” or “Trustee”) is the trustee of the United Launch Alliance Master Pension Trust (the “ULA Master Trust”), which is the funding vehicle for the Plan and certain other company sponsored plans. See Note 11, *Subsequent Events* for change in service providers effective January 1, 2011.

The Plan’s operating, investment and administrative expenses are generally charged against Plan assets as provided for in the Plan and Master Trust documents (see Note 2 – *Investments in ULA Master Trust and Income Recognition*).

Benefits

The Plan provides for retirement benefits based on an amount payable at a selected age and in a selected form and is generally based upon the employee’s accrued benefit. In general, the monthly benefit amount is calculated as a flat dollar rate determined under the effective collective bargaining agreement, multiplied by the number of years of credited service, as defined in the Plan document, depending on the date of termination or retirement. Normal retirement age is 65. The Plan also provides early retirement benefits at age 55 and other benefits upon meeting certain other conditions. Benefits are payable in the form of a joint and survivor annuity, single life annuity or other optional forms as further described in the Plan Document. Certain death and disability benefits are also available under the Plan if the prescribed criteria are met.

Vesting

Participants become fully vested upon completion of five years of service.

Funding Policy

The Company's funding policy is to contribute annually an amount so as to meet the minimum funding requirements and as recommended by the Plan's actuary. No employee contributions are required or permitted. During 2010 and 2009, the Plan met the minimum funding requirements of ERISA. The Company contributed \$8,900,000 and \$0 in contributions for the 2010 or 2009 Plan years, respectively.

Termination of the Plan

Although the Company has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan, and it has reserved the right to do so. The rights of all affected participants to benefits accrued upon termination are nonforfeitable. Net assets of the Plan available to provide benefits would be allocated upon termination in accordance with the guidelines prescribed by the Plan and ERISA and its related regulations. If the Plan terminates, certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC"), a U.S. governmental agency. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under covered plans, and the amount of benefit protection is subject to certain limitations. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires estimates to be made that affect the amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the

Notes to Financial Statements (Continued)

2. Summary of Significant Accounting Policies (Continued)

financial statements. The most significant of these estimates relates to the determination of the accumulated plan benefits and the Plan's funded status. Actual results could differ from those estimates.

New Accounting Pronouncements

In January 2010, the FASB issued additional guidance related to fair value measurements to clarify existing disclosure requirements and require additional disclosure about fair value measurements. The guidance clarifies existing fair value disclosures about the level of disaggregation presented and about inputs and valuation techniques used to measure fair value for measurements that fall in either Level 2 or Level 3 of the fair value hierarchy. The additional disclosure requirements include disclosure regarding the amounts and reasons for the significant transfers in and out of Level 1 and Level 2 of the fair value hierarchy and separate presentation of purchases, sales, issuances and settlements of items within Level 3 of the fair value hierarchy. The guidance is effective for periods beginning after December 15, 2009 except for the disclosures about Level 3 activity of purchases, sales, issuances and settlements, which is effective for interim and annual reporting periods beginning after December 15, 2010. Effective January 1, 2010, the Plan adopted the provisions of the required additional guidance. The impact of the adoption of this standard was not material to the Plan's financial statements. Disclosures not required to be adopted until January 1, 2011 are not expected to be material to the Plan's financial statements. These disclosures are required to be provided only on a prospective basis.

Investments in ULA Master Trust and Income Recognition

The fair value of the Plan's interest in the ULA Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income (net of investment expenses) less actual distributions and administrative expenses.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see Note 6, *Fair Value Measurements and Disclosures*).

The change in net appreciation (depreciation) consists of both realized and unrealized gains and losses. Purchases and sales of investments are recorded on the trade date. Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned.

2. Summary of Significant Accounting Policies (Continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions for services rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to: (1) retired or terminated employees or their beneficiaries; (2) beneficiaries of employees who have died; and (3) present employees or their beneficiaries. Benefits for retired, terminated and disabled employees or their beneficiaries are based on each former employee's credited service prior to his or her termination or retirement date. Accumulated plan benefits for active employees are based on each employee's credited service preceding the valuation date. Benefits payable under all circumstances -- retirement, death, disability, and termination of employment -- are deemed included to the extent they are attributable to employee service prior to the valuation date.

The Plan's actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The effect of Plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective.

The Pension Protection Act of 2006, as amended by the Worker, Retiree and Employer Retiree and Employer Recovery Act of 2008 ("The Act"), requires that all single-employer defined benefit plans be fully funded within a seven-year period, beginning in 2008. Some provisions of The Act were effective January 1, 2006; however, most of the new provisions were effective January 1, 2008. The Act replaces the prior rules for funding with a new standard that is based on the Plan's funded status. Funding must be determined using specified interest rates and mortality sums. Adoption of the new requirements impact the Plan's liability and required prospective contributions. The Act also imposes certain benefit restrictions for qualified defined benefit plans that do not meet certain funding thresholds. Collectively bargained plans have a delayed effective date for application of the benefit restriction rules which is generally the earlier of (i) the end of an agreement ratified before January 1, 2008 and (ii) January 1, 2010. A plan's funded percentage is referred to as the Adjusted Funding Target Attainment Percentage ("AFTAP"). The 2010 AFTAP for the Plan is 104.73%. Because the Plan's AFTAP met the required threshold, the Plan is not subject to any benefit restrictions.

Payment of Benefits

Benefits are recorded when paid.

3. Accumulated Plan Benefits

The present value of accumulated plan benefits, as determined by the actuary is as follows:

	December 31,	
	2010	2009
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	\$ 24,806,658	\$ 23,934,260
Current and terminated employees with vested benefits	36,418,654	38,602,189
Total vested benefits	61,225,312	62,536,449
Non-vested benefits	4,357,680	3,156,816
Total actuarial present value of accumulated plan benefits	<u>\$ 65,582,992</u>	<u>\$ 65,693,265</u>

The following comprises the changes in accumulated plan benefits:

Actuarial present value of accumulated plan benefits as of December 31, 2009	\$ 65,693,265
Increase (decrease) during year attributable to:	
Interest accumulation	5,135,536
Benefit payments	(3,056,932)
Spin-off to Lockheed Martin Plan	(3,519,000)
Benefit accruals and participant experience	1,330,123
Net change	<u>(110,273)</u>
Actuarial present value of accumulated plan benefits as of December 31, 2010	<u>\$ 65,582,992</u>

Significant actuarial assumptions used in the 2010 and 2009 valuations were (a) life expectancy of participants (RP-2000 Blue Collar table with mortality improvements projected to 2015), (b) assumed retirement age of 61, and (c) an annual discount rate of

8.00% in 2010 and 2009. The spin-off to Lockheed Martin Plan reflects estimated liabilities. See Note 1, *Transfer of Assets*, for further information.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors would be applicable in determining the actuarial present value of accumulated Plan benefits.

4. Information Certified by the Plan's Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election and as requested by the plan administrator, the following information was not subjected to any auditing procedures performed by the Plan's independent certified public accountants except to compare the amounts to the financial statements:

- a. Investments as shown in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2010 and 2009
- b. Investment gain as shown in the accompanying Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2010
- c. Investment information provided in Note 5 as of December 31, 2010 and 2009, and for the year ended December 31, 2010

5. ULA Master Trust

The Plan had an interest in the ULA Master Trust as of December 31, 2010 and 2009 of approximately 37.3% and 43.7%, respectively. Each participating Plan has an undivided interest in the ULA Master Trust. Investment income and loss and related investment expenses are allocated to the individual participating plans based upon average monthly balances invested by each Plan.

6. Fair Value Measurements and Disclosures

The Company uses a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
 - quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Short-Term Investments: Short-term investments are valued at NAV, which is calculated at a unit price that is not quoted on an active market, and attempts to maintain a \$1 unit price. The unit price is based on the fair value of the underlying investments, which in general are traded on an active market with observable inputs. State Street determines the unit value.

Retirement Plan for Employees in the Bargaining Units
of the Space Systems Group

Notes to Financial Statements (Continued)

6. Fair Value Measurements and Disclosures (Continued)

Equities: Common stocks are valued at the closing price reported in the active market in which the individual security is traded. Domestic and International equity funds (common collective trusts, registered investment companies and group trusts) are valued at the NAV which is based on the fair value of the underlying investments as determined by the respective Fund Manager.

Fixed Income: Both the U.S. Government and Credit Funds (common collective trusts and registered investment companies) are valued at the NAV which is based on the fair value of the underlying investments as determined by the respective Fund Manager.

Real Estate and Private Equity: The REIT fund (common collective trust) is valued at the NAV based on the fair value of the underlying investment as determined by the Fund Manager. Real estate and private equity limited partnerships are all calculated by a third party and is based on fair value of underlying investments and ULA Master Trust's share of the partnership. There is little to no market activity to determine the fair value of the investment and a significant degree of judgment is used in determining values. There are also certain restrictions on the sale of the investments and additional capital calls can be made. During the years ended December 31, 2010 and 2009, approximately \$2.61 million and \$2.34, respectively, of additional capital calls were made by the limited partnership and real estate funds.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

common/collective trust fund seeks an investment return that approximates as closely as practicable, before expenses, the performance of the Russell 1000 Index over the long-term. This fund may invest directly or indirectly in securities and other instruments, including in other pooled investment vehicles sponsored or managed by, or otherwise affiliated with the commingled fund trustee. The common/collective trust fund provides for daily redemption at NAV.

- c. International investments involve investments in registered investment companies, comprising of an emerging markets fund which seeks to capture the returns of large and small cap value stocks as measured by book to market ratio in selected emerging markets countries. The investment strategy employs a disciplined, quantitative approach, emphasizing broad diversification and consistent exposure to emerging markets value stocks, but does not attempt to track a specific equity index. Additionally, developed markets exposure is sought through a fund which invests primarily in a diversified portfolio of equity securities issued by non-U.S. companies from at least three different foreign countries, including emerging markets. This fund focuses on countries whose economic and political systems appear more stable and are believed to provide some protection to foreign shareholders, and invests primarily in medium-to-large well established companies based on standards of the applicable market. The registered investment companies provide for daily redemption at NAV.
- d. Fixed income investments involve investments in registered investment companies and common/collective trusts. These funds seek investment returns that approximates as closely as practicable, before expenses, the performance of the Barclays Capital U.S. Long Government/Credit Bond Index over the long-term. Investments involve directly or indirectly held securities and other instruments, including other pooled investment vehicles sponsored or managed by, or otherwise affiliated with the commingled fund trustee. Additional investments include a fund which invests primarily in investment grade debt securities but may invest up to 20% of its total assets in high yield securities rated B or higher by Moody's or equivalently rated by S&P or Fitch. This fund may invest up to 30% of its total assets in securities denominated in foreign currencies, and may invest beyond this limit in U.S. dollar-denominated securities of foreign issuers. This fund may also invest up to 15% of its total assets in securities and instruments that are economically tied to emerging market countries, and will normally limit its foreign currency exposure to 20% of its total assets. The registered investment companies and common/collective trust fund provide for daily redemption at NAV.
- e. Real estate investments include a common/collective trust fund which seeks an investment return that approximates as closely as practicable, before expenses, the performance of the Dow Jones U.S. Select REIT Index over the long-term. Investments involve directly or indirectly held securities and other instruments, including other pooled investment vehicles sponsored or managed by, or otherwise affiliated with the commingled fund trustee. Limited partnership funds include investments in opportunistic real estate and other related investments such as debt and special situations focusing in geographic regions such as Europe and the U.S. ULA commitments for these funds total \$7 million. The common/collective trust fund provides for daily redemption at NAV. The limited partnerships are subject to restrictions on redemptions as governed by the individual Partnership agreements.
- f. Private equity investments include a fund-of-funds limited partnership fund which seeks superior long-term capital appreciation by investing (structured by classes of interest) in a diversified group of venture capital investment funds (VC class), private equity investment funds (PE class), and

emerging markets investment funds (EM class), which are managed by seasoned investment managers and which generally are difficult for new investors to access. ULA Master Pension Trust participation in this fund is comprised as follows: 35% EM class; 40% PE class; and 25% VC class. Total ULA commitment is \$10 million. This fund has significant restrictions on redemption as governed by the partnership agreement.

The following table sets forth a summary of changes in the fair value of the Plan's level 3 investments for the year ended December 31, 2010:

	Real Estate and Private Equity (Limited Partnerships)
Balance, beginning of year	\$ 2,753,279
Realized gains/(losses)	(91,348)
Unrealized gains/(losses) relating to instruments still held at the reporting date	391,669
Purchases and issuances	2,612,120
Sales and settlements	(70,249)
Balance, end of year	<u>\$ 5,595,471</u>

The availability of observable market data is monitored to assess the appropriate classification of financial statements within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the year ended December 31, 2010, there were no significant transfers in or out of levels 1, 2, or 3.

7. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service ("IRS") dated December 17, 2001 stating that the Plan is designed in compliance with the applicable requirements of the Code. The Plan is required to operate in conformity with the Internal Revenue Code (the "Code") to maintain its tax-qualified status. The Plan has been amended since receiving the determination letter. However, the plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related Trust is tax exempt. The Company filed for a new determination letter on February 1, 2010 which is pending with the IRS.

7. Income Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Party-in-Interest Transactions

The ULA Master Trust holds certain investments managed by the Trustee. Transactions in these investments are party-in-interest transactions. The ULA Master Trust and the Plan pay actuarial, audit, custodial, investment management, investment advisory and legal fees from the Trust. Such transactions constitute party-in-interest transactions. These transactions are exempt from the prohibited transaction rules.

During the plan years ending December 31, 2010 and 2009, Plan assets were inadvertently used to pay certain fees that were deemed to be not permissible plan expenses. This resulted in a non-exempt transaction with a party-in-interest. The Company has reimbursed the Plan for the amount, including earnings, and is in the process filing under the Voluntary Fiduciary Correction Program. See Supplemental Schedule of Non-Exempt Transactions.

9. Risks and Uncertainties

The ULA Master Trust invests in various investment securities. Investments in general, are subject to various risks, such as interest rate, credit and overall market volatility risk. Additionally, the value, liquidity and related income of the investment securities are sensitive to changes in economic conditions, including real estate values, delinquencies, and defaults and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. Certain investments (limited partnerships) are less liquid and have restrictions on their sale. Forced liquidation, although not expected at this time, may affect the estimated value of such investments. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the funded status of the Plan.

9. Risks and Uncertainties (Continued)

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the amounts reported in the financial statements and accompanying notes.

10. Commitments

The ULA Master Trust's investment in the limited partnerships contains future capital call commitments of up to \$17,000,000 of which \$5,923,423 had been invested as of December 31, 2010. During 2010, \$2,612,130 of capital calls were made and invested. Subsequent to year end, the ULA Master Trust increased its future capital commitments by \$4,000,000 related to a new limited partnership agreement entered into in 2011.

11. Subsequent Events

The Company has evaluated subsequent events through October 11, 2011, which is the date the financial statements were available to be issued.

Effective January 1, 2011 The Northern Trust Company ("Northern Trust") became the trustee of the ULA Master Trust and the Plan. Plan assets were transferred from State Street to Northern Trust in January 2011.
