Hourly Employees' (Alexandria, Louisiana) Retirement Plan to UTLX Manufacturing LLC Hourly Employees' (Alexandria, Louisiana) Retirement Plan.

General

All hourly paid employees of UTLX Manufacturing LLC (the "Company") at its Alexandria, Louisiana facility are eligible to participate in the Plan. Eligibility to participate in the Plan commences after one hour of service for the purpose of the Company retirement contribution and after 31 days for purposes of participant and match contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

During 2009, the Company experienced an unusual level of layoffs. The Company is currently working with legal counsel to determine if a partial termination of the Plan has occurred. If a partial plan termination occurred during a Plan year, participants who were terminated during that year will be fully vested in their Plan account.

Contributions

Participants are permitted to make pretax contributions to the Plan in whole percentages not to exceed 10% of the participant's eligible compensation, as defined by the Plan, for the Plan year, subject to Internal Revenue Service ("IRS") limitations. In addition, participants meeting eligibility requirements are permitted to make catch-up contributions in whole percentages in accordance with IRS limitations.

The Company makes two types of contributions to the Plan - the retirement contribution and the matching contribution. The retirement contributions are at the rates per Participant Share, as defined by the Plan, multiplied by the Participant's Share Value, as defined by the Plan. The matching contribution is made in an amount equal to 25% of participants' pretax contributions (excluding catch-up contribution) up to 6% of the participants' compensation.

The Company shall contribute to the trust fund on behalf of each participant who is eligible to share in the retirement contribution for the Plan year, $1 for each share credited to such participant during the Plan year.

Investment Options

Participants can select from various fund options offered by the Plan. Participants may change their investments daily, subject to transfer restrictions that may be imposed by the investment fund companies.

NOTE A - DESCRIPTION OF THE PLAN - Continued

Participant Accounts

A separate account is maintained for each participant. Each participant's account is credited with the participant's contributions and the Company's matching contributions and an allocation of (1) Company retirement contributions and (2) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

A participant's portion of employer contributions and net income (loss) thereon will not vest until the completion of three years of service, as defined by the Plan, at which time the participant becomes 100% vested. Participant contributions and earnings thereon are always fully vested.

Payment of Benefits

The Plan offers three types of withdrawals: non-hardship (retirement or termination of service), hardship and age 59-1/2. Each withdrawal type has specific requirements for eligibility, as defined in the Plan.

Forfeitures

Forfeitures related to Company contributions (retirement and matching) are first used to restore the accounts of eligible participants who had breaks in service of less than five years. The remaining forfeitures in participants' matching and retirement accounts are used to reduce the Company contributions. As of December 31, 2009, forfeited non-vested accounts totaled $243,642. During 2010, forfeitures of $289,794 were used to reduce Company contributions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on an accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair market value.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Investment Valuation and Income Recognition - Continued

The value of the Plan's investments was determined as follows:

- Interest in collective trust funds - The fair value of the participation units owned in the collective trust funds is based on the net asset value of the collective trust funds on the last business day of the Plan year. The net asset value of the collective trust funds is based on the fair value of the underlying investments held by the funds. Participant transactions (issuances and redemptions) may occur daily. There were no unfunded commitments and no redemption limitations or notice periods, but the investment advisor reserves the right to temporarily delay withdrawals from the collective trust funds in order to ensure that the securities liquidations will be carried out in an orderly business manner.

- Interest in registered investment companies - The fair value of the shares owned in the registered investment companies is based on the net asset value of the registered investment companies on the last business day of the Plan year. The net asset value of the registered investment companies is based on the fair value of the underlying investments held by the funds, which are traded on an active market. There were no unfunded commitments and no redemption limitations or notice periods, but the investment advisor reserves the right to temporarily delay withdrawals from the registered investment companies in order to ensure that the securities liquidations will be carried out in an orderly business manner.

Guaranteed investment contracts ("GICs") in the INVESCO Stable Value Fund, which includes security-backed investment contracts, are valued at contract value. Contract value represents the principal balance of the investment contracts, plus accrued interest at the stated contract rate, less payment received and contract charges by the insurance company. The fair value of the investment contracts is based on the present value of the contract's expected cash flows, discounted by current market interest rates of similar instruments with comparable durations. Under the terms of the investment contracts, the crediting interest rates are determined based on each insurance company's applicable rate schedule. The investment fund's objective is to seek preservation of capital and maintain a stable interest rate. To achieve this investment objective, the fund invests in investment contracts offered by major insurance companies and other approved financial institutions and in certain types of high-quality fixed income securities. The fund invests in both traditional GICs and wrapper contracts, also known as synthetic GICs. In a traditional GIC, the contract issuer takes a deposit from the fund and purchases investments. The contract issuer is contractually obligated to repay the principal and a guaranteed rate of interest to the fund.

Income from investments, including interest income, is recorded as earned on an accrual basis. Dividends are recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis.

Net Appreciation in Fair Value of Investments

Net realized and unrealized appreciation is recorded in the accompanying statement of changes in net assets available for benefits as net appreciation in fair value of investments.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan provides that expenses related directly to the Plan may be charged to the Plan or paid by the Company at the Company's discretion.

Subsequent Events

The financial statements and related disclosures include an evaluation of events up through and including October 12, 2011, which is the date the financial statements were available to be issued.

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE D - FAIR VALUE MEASUREMENTS

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provides a framework for establishing that fair value. The framework for determining fair value is based on a fair value hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following table presents information about the Plan's assets measured at fair value on a recurring basis at December 31, 2009, and the valuation techniques used by the Plan to determine those fair values.

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. Significant Level 3 inputs include original transaction price, quoted prices for similar securities or assets in active markets, completed or pending third-party transactions in the underlying investment or comparable issuers, and changes in financial ratios or cash flows.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

(a) Based on quoted market prices in active markets at the close of business on December 31, 2009.

(b) The Plan held shares or interests in a collective trust fund at December 31, 2009, whereby the fair value of the investment held is estimated based on the net asset value per share of the collective trust fund.

The collective trust fund invests primarily in the stocks of large U.S. companies and is designed to follow the performance of the Standard & Poor's 500 index.

(c) The Plan held shares or interests in a collective trust fund at December 31, 2009, whereby the fair value of the investment held is estimated based on the net asset value per share of the collective trust fund.

The collective trust fund invests primarily in investment contracts made up of debt securities or units of collective trust funds issued by insurance companies, banks, or other financial institutions.

NOTE E - TAX STATUS

The Plan administrator believes that the Plan is being operated in all material respects in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt. A filing to receive an IRS determination letter will be completed in conformance with IRS guidelines relating to determination letter filing for a controlled group of companies.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE F - PLAN TERMINATION

While the Company has not expressed any intent to terminate the Plan or to discontinue its contributions to the Plan, it may do so subject to the provisions of ERISA. In the event of Plan termination, each participant becomes fully vested in the balance of his or her separate account. See Note H.

NOTE G - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
