The Plan Administrator
Metavante Retirement Program:

We were engaged to audit the accompanying statement of net assets available for benefits of Metavante Retirement Program (the Plan) as of December 31, 2010 and 2009, the related statement of changes in net assets available for benefits for the years then ended, and the supplemental schedule H, line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 3 to the financial statements, which was certified by Marshall & Ilsley Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009 that the information provided to the plan administrator by the trustee is complete and accurate.

As further discussed in note 1 to the financial statements, the board of directors of Metavante Technologies, Inc. voted on September 30, 2009 to terminate the Plan. In accordance with accounting principles generally accepted in the United States of America, the Plan used the liquidation basis of accounting in presenting the accompanying financial statements as of and for the years ended December 31, 2010 and 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(1) Description of Plan

The following description of the Metavante Retirement Program (the Plan) is provided for general information purposes only. Participants should refer to the plan document for more complete information.

(a) General

The Plan is a defined contribution plan that is subject to the provisions of the ERISA. Fidelity National Information Services, Inc. is the administrator of the Plan, and the Marshall and Ilsley Trust Company (the Trustee), is the trustee and recordkeeper of the Plan. The Trustee holds all investments of the Plan.

On November 1, 2007, pursuant to a corporate separation transaction, Marshall & Ilsley Corporation (M&I), a public company, formed two separate unrelated public companies known as Metavante Technologies, Inc. and M&I. Prior to the separation transaction, Metavante employees participated in the M&I Retirement Program. As of November 1, 2007, Metavante established the Plan to hold the account balances of Metavante and its affiliate's employees and to provide for Metavante employee deferrals and employer contributions. Employee account balances were transferred from the M&I Retirement Program to the Plan as of November 1, 2007.

On September 30, 2009, the Compensation Committee of the Board of Directors of Metavante Technologies, Inc. voted to terminate the Plan effective as of the date immediately prior to the merger discussed below between Metavante Technologies, Inc. and Fidelity National Information Services, Inc. Upon termination of the Plan, all participants will become fully vested and will have the option to "roll over" their balances to the Fidelity National Information Services, Inc. plan, convert their accounts to an Individual Retirement Account (IRA) at the Trustee or another provider, or take a distribution. Fidelity National Information Services, Inc. was named the plan sponsor. In accordance with accounting principles generally accepted in the United States of America, the Plan used the liquidation basis of accounting in presenting the financial statements as of and for the years ended December 31, 2010 and 2009.

On October 1, 2009, Metavante Technologies, Inc. was acquired by Fidelity National Information Services, Inc. (FIS or Metavante). As of September 30, 2009, no additional contributions were allowed, no new participant loans were allowed, and the Plan was frozen to all new employees.

(b) Eligibility

Prior to the termination of the Plan, employees of Metavante and its subsidiaries were eligible to make employee contributions to the Plan upon employment commencement. Employees were eligible to receive the employer matching contributions and employer profit sharing contributions after one year of employment.

(c) Contributions

Prior to the termination of the Plan, upon election to participate, the participant designated under a salary redirection agreement the amount of the annual contribution (0% to 75% of compensation, as defined), subject to Internal Revenue Service (IRS) limitations. If employees were eligible, but did not elect to participate in the Plan, those employees were automatically enrolled in the Plan at a 3%

METAVANTE RETIREMENT PROGRAM

Notes to Financial Statements

pretax contribution rate. For participants who participated before January 1, 2008, but had less than a 3% pretax contribution rate, the participant was automatically enrolled in the Plan on January 1, 2008, at a 3% pretax contribution rate. In the year following automatic enrollment the contribution rate increased to 4%, in the year following to 5%, and the year following to 6% and remained at 6% unless a different contribution rate was elected. Participants had 90 days from the date automatic enrollment contributions were first withheld in which participants could have elected to receive a distribution of the amounts contributed to the Plan and automatic enrollment would have ceased.

Employees were allowed to change the amount of the annual contribution as often as they wished. Participants could elect to make post-tax contributions to the Plan through Roth 401(k) contributions. Metavante made a guaranteed matching contribution of 100%, up to a maximum of 6% of the participant's compensation. Metavante profit sharing contributions were discretionary only, as determined by the board of directors on an annual basis. Metavante profit sharing contributions made for years after 2007 vested when the participant completed two years of vesting service. Participants who reached age 50 by the end of the plan year had the ability to make catch-up contributions, subject to IRS limitations.

(d) *Vesting*

All employee contributions and related income were fully vested at all times. Metavante matching contributions were fully vested after two years of vesting service. Metavante profit sharing contributions vested at the earliest of the following dates:

- a. The date the participant completed at least five years of vesting service with respect to contributions made prior to 2007.
- b. The date the participant completed at least three years vesting service with respect to contributions made in 2007.
- c. The date the participant completed at least two years vesting service with respect to contributions made after 2007.
- d. The date of the participant's death while employed by Metavante and subsidiaries.
- e. The date of participant's attainment of age 65 or earlier disability.
- f. The date of termination of the Plan (or partial termination as to participants affected thereby) or the date of complete discontinuance of contributions by Metavante at a time when the participant is employed by Metavante or by a subsidiary.
- g. The date the participant's employment terminates due to reduction in force.

(e) *Forfeitures*

Forfeitures were created when participants terminate employment before becoming entitled to their full benefits under the provisions of the Plan. Forfeited nonvested accounts were used to reduce Metavante's contributions. During the years ended December 31, 2010 and 2009, employer

METAVANTE RETIREMENT PROGRAM

Notes to Financial Statements

contributions were reduced by \$0 and \$6,806, respectively. Ending balances of forfeited nonvested accounts at December 31, 2010 and 2009 were \$894 and \$0, respectively.

(f) *Benefit Payments*

Upon termination, death, retirement, in the event of disability, as defined, or financial hardship, a participant or beneficiary is entitled to withdraw his or her vested interest in a lump-sum payment, installment payments, single-premium nontransferable annuity contract, or a partial withdrawal for a specified amount (limited to two withdrawals per year). Participants who are 59½ or older may take pretax withdrawals for any reason.

(g) *Participant Accounts*

Individual accounts are maintained for each of the Plan's participants. Each participant's account is credited with the participant's contributions, the participant's share of Metavante's contributions, and the Plan's income (loss). Any related administrative expenses based on the participant's earnings or account balances are deducted from the participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(h) *Investment Options*

Participants are allowed to direct the investment of their 401(k) contributions (pretax or Roth), employer matching contributions, rollover contributions, profit sharing contributions, and any related earnings thereon into investment options designated by the Plan's Investment Committee in 1% increments. Participants are able to change their investment elections daily.

Dividends paid by FIS with respect to shares of FIS stock held by the Master Trust – FIS Company Stock Fund or by the Plan shall be paid to the Plan and reinvested in FIS stock.

(i) *Voting Rights*

Each participant shall be entitled to direct the trustee to vote and to direct the trustee with respect to the tender of any FIS common stock allocated to the participant's accounts in accordance with the terms of the Plan. Shares for which no direction is received shall not be voted.

(j) *Notes Receivable from Participants*

From January 1, 2008 to September 30, 2009, participants had the ability to receive a loan from the Plan. The minimum plan loan was \$1,000 and the maximum plan loan was the lesser of either: (1) \$50,000 minus the highest outstanding loan balance during the preceding 12 months; or (2) 50% of the participant's vested account balance, minus the highest outstanding loan balance during the preceding 12 months. Loans must be repaid in 5 years, unless the loan was used to purchase a primary residence, which the loan must then be repaid in 10 years. Interest rates on loans were based on prevailing market conditions and fixed over the term of the loan. The loans are secured by the balance in the participant's account. Principal and interest are paid ratably through payroll deductions. Interest rates on participant loans at December 31, 2010 and 2009 ranged from 3.64% to 8.50% and 3.64% to 10.50%, respectively.

(2) Summary of Significant Accounting Policies

(a) *Basis of Accounting*

The accompanying financial statements have been prepared on the liquidation basis of accounting.

(b) *Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) *Risks and Uncertainties*

The Plan utilizes various investment instruments, including mutual funds, money markets, and common collective fund. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

(d) *Contributions*

Contributions from employees were recorded in the period the employer made corresponding payroll deductions. Contributions from the employer match were accrued based upon amounts required to be contributed as determined by the plan document.

(e) *Investment Valuation and Income Recognition*

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 7 for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is presented on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently,

METAVANTE RETIREMENT PROGRAM

Notes to Financial Statements

December 31, 2010 and 2009

management fees and operating expenses are reflected as a reduction of investment return for such investments.

(f) *Notes Receivable from Participants*

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

(g) *Administrative Expenses*

Expenses incurred by the Plan shall be charged ratably to the account of each participant unless the plan administrator determines that, given the nature of the expense in question, it would be more reasonable to charge the account of a particular participant. Other direct and indirect costs of administering the Plan are paid by the Plan Sponsor.

(h) *Payment of Benefits*

Benefit payments to participants are recorded upon distribution. There was \$529,277 and \$2,782,969, allocated to participants who elected benefit payments, but were not yet paid as of December 31, 2010 and 2009, respectively.

(i) *Adoption of New Accounting Guidance*

On October 1, 2009, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalents)*. This ASU provides guidance for determining the fair value of certain investments that do not have readily determinable fair values and permits the use of unadjusted net asset values (NAV) or an equivalent measure as a practical expedient to estimate fair value. ASU 2010-12 is effective for financial statements issued for fiscal years beginning after December 15, 2009. The adoption of this new guidance did not have an impact on the statements of net assets available for benefits or the statements of changes in net assets available for benefits.

In January 2010, the FASB issued ASU 2010-06, *Fair Value Measurements and Disclosures*, which required entities to make new disclosures about recurring and nonrecurring fair value measurements including significant transfers in and out of Level 1 and Level 2 categories and provide information on purchases, sales, issuances, and settlements on a gross basis in the reconciliation of Level 3 measurements. ASU 2010-06 also clarifies existing fair value disclosures. ASU 2010-06 is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010. The adoption of this new guidance did not have an impact on the statements of net assets available for benefits or the statements of changes in net assets available for benefits; however, the required disclosures have been reflected in notes 6 and 7.

METAVANTE RETIREMENT PROGRAM

Notes to Financial Statements

December 31, 2010 and 2009

In September 2010, the FASB issued ASU 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*. ASU 2010-25 requires participant loans to be measured at their unpaid principal balance plus any accrued but unpaid interest and classified as notes receivable from participants. Previously, loans were measured at fair value and classified as investments. ASU 2010-25 is effective for fiscal years ending after December 15, 2010 and is required to be applied retrospectively. The adoption of ASU 2010-25 did not change the value of participant loans from the amount previously reported at December 31, 2009. Participant loans as of December 31, 2009 have been reclassified to notes receivable from participants to conform to the current year's presentation.

(3) Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certifications from Marshall & Ilsley Trust Company that all information provided by them is complete and accurate. The investments on the statement of net assets available for benefits, the investment activity reflected in the statement of changes in net assets available for benefits, and the investment information included in notes 4 and 6 and the supplemental schedule are presented solely in reliance on these certifications. As it relates to the investment in the M&I Stable Principal Fund, the trustee certified contract value, not fair value.

(4) Investments

The Plan's investments that represented 5% or more of the Plan's net assets available for benefits as of December 31, 2010 and 2009 are as follows:

	2010	2009
Marshall Mid Cap Growth Fund*	\$ 30,261,405	26,444,546
Marshall Large Cap Growth Fund*	32,557,910	32,899,609

Pimco Funds Total Return Fund	53,918,243	52,143,615

* Represents a party-in-interest.

During the years ended December 31, 2010 and 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

	2010	2009
Common stock	\$ 1,022	453,680
Equity mutual funds	37,560,812	60,581,013
Fixed income mutual funds	2,741,364	3,636,630
Net appreciation in fair value of investments	<u>\$ 40,303,198</u>	<u>64,671,323</u>

METAVANTE RETIREMENT PROGRAM

Notes to Financial Statements

See note 6 for information regarding net appreciation (depreciation) in fair value of Master Trust investments.

(5) M&I Stable Principal Fund

The Plan invests in the M&I Stable Principal Fund (the Fund), a common collective fund that invests primarily in traditional and synthetic investment contracts issued by insurance companies, banks and other financial institutions, and other authorized instruments, collectively "issuers," which are fully benefit-responsive.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the plan by M&I, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no limitations on participant withdrawals from the Fund for participant distributions, and there were no limitations on plan withdrawals from the Fund at December 31, 2010.

The Plan's interest in the Fund is calculated by applying the Plan's ownership percentage in the Fund to the total fair value of the Fund. The underlying assets owned by the Fund consist primarily of readily marketable fixed income securities with quoted market prices. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 and 2009 was \$44,309,096 and \$48,853,071, respectively.

The crediting interest rates are fixed for the life of the investment contract or they reset on a monthly or quarterly basis. The interest crediting rates are calculated based upon many factors, including current economic and market conditions, the general interest rate environment, and purchases and redemptions by unitholders. There is no relationship between future crediting rates and the adjustment to contract value reported in the statements of net assets available for benefits.

The Fund could be limited in its ability to transact with issuers at contract value, which could impact the ability of the Plan to transact at contract value, if the Fund raises its risk profile or is subjected to an extended period of significant cash outflow. M&I maintains strong risk parameters and works with its issuers before any risk parameter changes are contemplated. The Fund maintains cash, internal cash flow and a maturity ladder of investments to offset cash withdrawals. Further, the Fund manager may limit withdrawals in order to maintain sufficient liquidity. Therefore, the probability of the Fund losing its access to contract value transactions is not probable.

The average market yield of the Fund for the years ended December 31, 2010 and 2009 was 2.51% and 3.78%, respectively. The average yield earned by the Fund that represents the actual interest credited to participants for the years ended December 31, 2010 and 2009 was 3.24% and 3.36%, respectively.

(6) Interest in Master Trusts

Certain of the Plan's investment assets are held in trust accounts at the Trustee and consist of undivided interests in investments. These Master Trusts accounts were established by Metavante and administered by the Trustee. Use of the Master Trusts permits the commingling of the Plan's assets with the assets of the NYCE Corporation Employees' Tax Deferred Savings Plan for investment and administrative purposes. Although assets of both plans are commingled in the Master Trusts, the Trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

The Plan's assets and income in the Master Trusts at December 31, 2010 and 2009, respectively, are summarized as follows. Note that in the prior year, the money market fund investments were presented as Level 1 investments. They have been reclassified to conform to the 2010 presentation.

(7) Fair Value Measures

FASB ASC 820 established a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Plan recognizes transfers between levels of the hierarchy on the date of transfer. No significant transfers were noted for the years ended December 31, 2010 and 2009.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

- Mutual funds – Valued at the net asset value (NAV) of shares held by the Plan at year-end.
- Common stocks – Valued at the closing price reported on the active market on which the individual securities are traded.
- Money market funds – Valued at amortized cost, which approximates fair value.
- Common collective trust funds – Valued at the fair value of the underlying investments using observable inputs.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies

or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(8) Federal Income Tax Status

The Plan has requested, but has not received its own determination letter from the IRS. However, Metavante and the plan administrator believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and the Plan is tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

(9) Exempt Party-in-Interest Transactions

Certain plan investments are shares of common stock, mutual funds, a common collective fund, and Master Trusts managed by the Trustee, and these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

(11) Plan Termination

The plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, all participants would be 100% vested in their accounts.

As discussed in note 1, on September 30, 2009, the Compensation Committee of the Board of Directors of Metavante Technologies, Inc. voted to terminate the Plan.

(12) Subsequent Events

The Plan has evaluated subsequent events through October 13, 2011, the date the financial statements were issued, and no event has occurred through the evaluation date, which would impact the financial statements for the year ended December 31, 2010.
