Independent Auditor's Report

To the Trustees of the
Playhouse Square Foundation
Defined Benefit Pension Plan and Trust
Cleveland, Ohio

We have audited the accompanying statements of net assets available for benefits of the Playhouse Square Foundation Defined Benefit Pension Plan and Trust (the Plan) as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of December 31, 2009, and the related statement of changes in accumulated plan benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of December 31, 2010 and 2009, and the changes therein for the years then ended and its financial status as of December 31, 2009, and changes therein for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of assets held (at end of year) and reportable transactions as of or for the year ended December 31, 2010, are presented for purposes of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Playhouse Square Foundation Defined Benefit Pension Plan and Trust

Notes To Financial Statements

Note 1. Description of Plan

The following description of the Playhouse Square Foundation Defined Benefit Pension Plan and Trust provides only general information. Participants should refer to the Plan document for a more complete description of its provisions.

General: The Plan is a noncontributory defined benefit pension plan covering all eligible employees of Playhouse Square Foundation (the Foundation), the plan sponsor. A hypothetical account is maintained for each participant in which contributions are credited for the benefit of the individual. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended and the Pension Protection Act of 2006.

Eligibility: Employee eligibility is based upon specific job titles as defined in the appendices of the Plan document and completion of at least one year of service. Eligible employees are classified as either Category 1 or Category 2 employees based upon their job title. Participants may enter the Plan on January 1 or July 1 following the completion of a year of eligible service. There is no minimum age requirement for participation in the Plan.

Contributions: At any time during the accounting period or at any other time permitted under the applicable sections of the Code, the employer shall contribute to the Plan, in cash, the amount actuarially determined to be necessary to fund all of the retirement and other benefits provided by the Plan and to satisfy the minimum funding standard, utilizing a reasonable and consistent method of funding.

Vesting: A participant shall be vested in their accrued benefit upon completion of three years of vesting service. A year of vesting service is defined as any Plan year in which the employer maintains the Plan and the participant completes at least 1,000 hours of service with the employer. Participants also vest in their hypothetical account balance if they are still employed upon attainment of age 62, become permanently disabled, or if the participant dies during employment.

Forfeitures: The Plan is a cash balance plan; therefore, participant accounts are only hypothetical. In the event that a participant terminates employment prior to meeting the vesting requirements, the forfeited funds will become part of the general assets of the Plan.

Pension benefits: For each year an employee is a participant in the Plan and works at least one hour for the Foundation, the participant is entitled to accrue a benefit. The benefit for Category 1 participants is the greater of ten times the participant's benefit compensation, as defined, or \$200. The benefit for Category 2 participants is the greater of 2% of compensation for each Plan year during which the participant earns a year of credited service, or \$250. Participants with vested benefits are entitled to a monthly annuity upon reaching retirement age. Unmarried participants are paid a monthly annuity for life while married participants receive joint and survivor annuity payments. A participant may also elect a lump-sum payment or installment payments.

Death and disability benefits: If a participant dies while still an employee, the actuarial equivalent of their vested benefit shall be paid to their designated beneficiary or beneficiaries. If a participant terminates employment due to a permanent disability, the participant shall be entitled to payment of the accrued benefit.

Expenses of the plan: The Foundation shall pay reasonable compensation for services rendered and expenses incurred in connection with the administration of the Plan. All expenses incurred in the investment of the assets of the Plan shall be deducted from the general Plan assets.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those amounts. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Actuarial present value of accumulated plan benefits: Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their years of credited service.

The accumulated plan benefits for active employees are based on their hypothetical account balance, on the date as of which the benefit information is presented (January 1, 2010). There were no significant amendments or demographic differences between the December 31, 2009 and January 1, 2010 valuation date. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by Libman, Kadavy & Company, Inc. and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The actuarial cost method used to determine the actuarial accrued liability and normal cost is the unit credit actuarial cost method. The significant actuarial assumptions used in the valuations as of January 1, 2010 were (a) life expectancy of participants (the 1994 Group Annuity Reserving Table (Blended) and the 2010 Applicable Table (Blended)), (b) retirement age assumptions (the assumed retirement age is 62), (c) investment return, and (d) ASC 960 discount rate (6.40%). The valuation included an assumed average rate of return of 4.19%. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Net appreciation in fair value of investments: The annual change in the difference between fair value and the cost of the investments and the gains and losses on the sale of investments, calculated using the specific identification method of determining the original cost of the investment, are reported in the statement of changes in net assets available for benefits as net appreciation in fair value of investments.

Playhouse Square Foundation Defined Benefit Pension Plan and Trust

Notes To Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Risks and uncertainties: The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the future financial statements.

New accounting pronouncements: In January 2010, Financial Accounting Standards Board (FASB) issued an amendment, *"Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements"* (Accounting Standards Update (ASU) 2010-06), which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that a reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes.

With respect to matters other than Level 3 measurements, the amendment was effective and adopted for periods beginning on or after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010 and has not yet been adopted. The guidance related to Level 3 measurements is not expected to have an impact on the Plan's financial statement disclosures as the Plan currently does not hold any Level 3 investments.

Recently issued accounting pronouncements: In May 2011, the FASB issued ASU 2011-04, *"Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs"*. ASU 2011-04 amended ASC 820, *"Fair Value Measurements and Disclosures"*, to converge the fair value measurement guidance in U.S. GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning on or after December 15, 2011.

Subsequent events: The Plan has evaluated events for potential recognition and/or disclosure through October 12, 2011, the date the financial statements were available to be issued.

Note 3. Investments

The following is a summary of the Plan's asset information, as of December 31, 2010 and 2009 and for the years then ended, included throughout the Plan's financial statements and supplemental schedules. The Plan's assets are held in a managed portfolio of funds administered by UBS Financial Services, Inc. The values of individual investments that represent 5% or more of the Plan's net assets are separately identified.

	2010	2009
Investments, at fair value

Virtus Multi-Sector Short-Term Bond Fund Class A	64,280	-
Other registered investment companies	219,712	-
	599,572	-
Interest bearing cash	15,720	466,909
Total investments at fair value	\$ 615,292	\$ 466,909

For the year ended December 31, 2010, the appreciation in value of Plan assets, including gains and losses on assets bought and sold, as well as held during the year, amounted to \$13,430. Interest and dividends amounted to \$20,549 and \$1,938 for the years ended December 31, 2010 and 2009, respectively.

Note 4. Fair Value Measurements

FASB establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy under FASB standards are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the assets or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Playhouse Square Foundation Defined Benefit Pension Plan and Trust

Notes To Financial Statements

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Shares of registered investment companies: Valued at quoted market prices which represent the net asset value of the shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31:

	2010			
	Level 1	Level 2	Level 3	Total

Notes To Financial Statements

Note 5. Tax Status

The Internal Revenue Service has determined and informed the sponsor, by a letter dated June 23, 2009, that the Plan is qualified and the trust established under the Plan is tax exempt under the appropriate sections of the Code. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. As of December 31, 2010 and 2009, management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to tax examinations by U.S. federal tax authorities for years before 2007.

Note 6. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the benefits in the order indicated in the Plan document.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions.

However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Note 7. Parties-in-Interest Transactions

The Plan has invested in shares of registered investment companies held in the custody of UBS Financial Services, Inc. Fees paid by the Plan for investment management services provided by UBS Financial Services, Inc. amounted to \$5,248 for the year ended December 31, 2010.

Notes To Financial Statements

Note 8. Reconciliation of Financial Statements to Form 5500

Plan contributions of \$270,000 were made to the Plan during 2011. Since the contributions were made within eight and a half months of December 31, 2010, the contributions have been designated for the 2010 Plan year for tax purposes on the Form 5500. However, the Plan only recognized \$170,125 in the 2010 financial statements as this was the amount required to meet the minimum funding requirements and funding policy.

The following is a reconciliation of net assets available for benefits per the financial statements as of December 31, 2010 to the Form 5500.

Net assets available for benefits per financial statements	\$ 777,195
Add contributions designated to the current plan year	<u>99,875</u>
Net assets available for benefits per Form 5500	<u>\$ 877,070</u>

The following is a reconciliation of the Plan's employer contributions per the financial statements for the year ended December 31, 2010 to the Form 5500.

Employer contributions per financial statements	\$ 170,125
Add contributions designated to the current plan year	<u>99,875</u>
Employer contributions per Form 5500	<u>\$ 270,000</u>

ACTUARIAL ASSUMPTIONS (continued)**Actuarial Methods**Actuarial Cost Method

The actuarial cost method used to determine the actuarial target liability and target normal cost is the Unit Credit Actuarial Cost Method, as required under IRC Section 430. The actuarial valuation date is the first day of the plan year.

Asset Valuation Method

Market value of all Trust Investments, plus any accrued but unpaid contributions to the Trust discounted to the Valuation Date.

Other Facts Relevant To The Valuation Of This PlanEmployee Data

An employee census as of the Valuation Date was supplied by the Company and included all employees in the Eligible Class. We did not audit the census.

Asset Data

Asset data as of the Valuation Date and contribution amounts and dates were supplied by the Company. We did not audit the asset data.

Changes in Actuarial Assumption or Methods

The valuation interest rates are the rates required per IRC Section 430, and the cash balance interest credit rate is the 30-year treasury rate for the third full month immediately preceding the first month of the Plan Year. This year the credit rate is 4.19% compared to 4.17% last year.

The mortality assumptions used are those mandated by the Internal Revenue Service for this valuation, per IRC Section 430. Since this plan has fewer than 500 participants, we use the unisex assumptions.

Events and Trends Which Have Not Been Taken Into Account

To the best of our knowledge, there has been no event or trend which has not been taken into account and which may require a material change in plan costs or required contribution rates. In addition, no Plan amendments adopted and effective after the valuation date of January 1, 2010 were considered for this Valuation, nor do any exist of which we are aware except statutory CPI increases in maximum benefits and considered compensation.
