NOTE 1 DESCRIPTION OF PLAN

The following description of the Jerith Manufacturing Company, Inc. (the "Company") Union 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement and Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan and covers all union employees of the Company. Employees are eligible to participate in the Plan upon completing 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Due to a series of layoffs at the Company in prior years, the Plan incurred a partial termination. Consequently, all affected participants became 100% vested in their employer contributions; see Note 9 for more details. During 2010, the Plan was amended and restated effective January 1, 2010 to meet the requirements of various tax acts. No significant changes were made to the Plan's provisions.

Contributions

Employees electing to participate in the Plan may voluntarily make tax-deferred contributions up to 12% of their compensation, as defined, subject to certain limitations as mandated under the Internal Revenue Code (the "Code"). Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan offers a money market and various mutual fund options for participants.

The Company provides a matching contribution equal to 25 percent of each participant's contribution, up to a maximum of 6 percent of compensation, as defined. The matching Company contributions are invested as directed by the participant. Company matching contributions, made for the plan year ended December 31, 2010 were \$9,616. In addition, the Company may make profit sharing contributions to the Plan at the discretion of the Company's board of directors. There were no profit sharing contributions made for the plan year ended December 31, 2010.

Participant Accounts

Each participant's account is credited with the participant's contributions, participant's allocation of the Company contributions, Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on each participant's fund balance, as defined in the Plan document. The benefit to which a participant is entitled is that which can be provided from the participant's account.

Vesting

Participants are 100 percent vested, at all times, in their voluntary contributions and related investment earnings. Vesting of employer contributions is based on years of service accruing at 20 percent per year after completing one year of service. A participant becomes fully vested after six years of service. Prior to termination of employment, in the event of a participant's death, total and permanent disability, or retirement, all amounts credited to the participant's account become fully vested.

NOTE 1 DESCRIPTION OF PLAN (continued)

Payment of Benefits

The fully vested value of the participant's account is payable in a lump-sum distribution, upon termination of employment, retirement, death or disability. Terminated participants with balances in the Plan that are less than \$1,000 upon termination can be distributed at the plan administrator's discretion. The Plan also allows hardship distributions and in-service distributions for participants 59 ½ years of age and older.

Forfeited Accounts

At December 31, 2010, forfeited non-vested accounts totaled \$12,722. In general, these amounts can be used to reduce administrative expenses of the Plan and future employer contributions. However, due to the technical termination noted in Note 9, the balance at December 31, 2010 is to be reallocated to participants who should have been fully vested.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Administrative Expenses

Administrative expenses of the Plan are paid by the Plan and Company and are allocated among participants based on their percentage of total plan assets.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

NOTE 3 INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2010 and 2009. Accordingly, The Charles Schwab Trust Company, the custodian of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying statements of net assets available for benefits and the schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2010 and 2009 and the related investment income reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2010.

NOTE 5 FAIR VALUE MEASUREMENTS

FASB ASC 820-10, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and .

UNION 401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND**

NOTE 6 RELATED PARTIES

Certain Plan investments are managed by the custodian. Therefore, these transactions qualify as party-in-interest transactions. No fees were paid by the Plan for these services for the year ended December 31, 2010.

NOTE 7 TAX STATUS

The Plan obtained its latest determination letter, based on a Prototype Plan, on March 31, 2008 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax advisors believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and had concluded that as of December 31, 2010, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 8 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time or to terminate the Plan, subject to the provisions of ERISA. In the event of a Plan termination, participants will become 100% vested in their accounts.

Due to a series of layoffs at the Company over the 2008 and 2009 plan years, the plan administrator deemed there to be a partial plan termination. Consequently, any participant who was employed and/or left employment during the 2008 or 2009 calendar year will be fully vested in their employer contributions.

Some of these affected participants have already requested and received a full distribution of their vested account balance. Although in some cases the amounts distributed assumed a vesting percentage of less than 100%. Therefore, \$12,722 in forfeitures, which were available as of the report date, will be used to distribute the remaining balances due to those participants as they should have been paid as if they were 100% vested.

The plan administrator determined no subsequent events disclosures were required.
