Koch Filter Corporation Employee 401(k) Retirement Plan
Notes to Financial Statements
December 31, 2010 and 2009

Note A – Description of Plan

The following description of the Koch Filter Corporation Employee 401(k) Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General: The Plan was formed on September 1, 1994 and is sponsored by Koch Filter Corporation (the “Company”). The Plan is a defined contribution plan covering all employees of the Company who have met the eligibility requirements (attained age twenty-one and completed one year of service.) It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) and includes a deferred salary arrangement under Section 401(k) of the Internal Revenue Code (“IRC”). During 2010, the Company was purchased by Tomkins plc.
2. Contributions: Each year, participants may contribute up to 50% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified plans. The Company may make contributions to the Plan at the discretion of the Board of Directors. For the year ended December 31, 2010, the Company contributed 50% of the first 4% of compensation that an eligible participant contributed to the Plan. Contributions are subject to certain limitations.
3. Participant Accounts: Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution(s) and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
4. Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant becomes 100% vested after six years of credited service.
5. Investment Options: Upon enrollment in the Plan, participants may direct the investment of their accounts into various investment options offered by the Plan. They may change their investment options among those investments provided at any time during the Plan year.
6. Payment of Benefits: Upon termination of service or attaining normal retirement age, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account, or periodic payments not exceeding the participant's life expectancy. Hardship withdrawals are also allowed as defined in the Plan agreement.
7. Forfeited Accounts: The non-vested portion of former participants' accounts may be used to reduce the amount of future Company contributions and pay administrative expenses. Forfeited accounts totaled \$1,550 and \$372 at December 31, 2010 and 2009, respectively. During the Plan year ended December 31, 2010, forfeitures totaling \$372 were used to reduce the amount of employer matching contributions.

Note B – Summary of Significant Accounting Policies

1. Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“GAAP”).
2. Recent Accounting Pronouncements: In January 2010, the Financial Accounting Standards Board (“FASB”) issued guidance which expands the required disclosures about fair value measurements. In particular, this guidance requires (i) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for periods beginning after December 15, 2009 except for (ii) above which is effective for fiscal years beginning after December 15, 2010. The Plan has adopted this guidance for the 2010 Plan year with no material impact on the Plan’s financial statements.
3. Use of Estimates: The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.
4. Investment Valuation and Income Recognition: The Plan’s investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the Plan year.
5. Payments of Benefits: Benefits are recorded when paid.
6. Administrative Expenses: Administrative expenses of the Plan are paid by the Company or Plan participants, as defined in the Plan agreement.
7. Risks and Uncertainties: The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participants’ account balances and the amounts reported in the financial statements.
8. Subsequent Events: Subsequent events for the Plan have been considered through the date of the Independent Auditor’s Report which represents the date the financial statements were available to be issued.

Note C – Information Certified by the Plan’s Custodian

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company (“John Hancock”), the custodian of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2010 and 2009, the Schedule of Assets (Held at End of Year) at December 31, 2010, and the related investment income reflected in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2010.

Note D – Investments

The following table presents investments that represent 5% or more of the Plan’s net assets available for benefits:

	December 31

Pooled separate accounts:		
American Funds Balanced Fund	\$ 223,556	\$ 202,097
T. Rowe Price Equity Income Fund	185,804	160,903

Capital Appreciation Fund	248,847	200,079
Blackrock Global Allocation Fund	137,524	less than 5%

For the Plan year ended December 31, 2010, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$256,316.

Note E – Fair Value Measurements

FASB Accounting Standards Codification (“ASC”) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Quoted market prices in active markets for identical assets or liabilities. An active market for the asset or liability is a market in which the transaction for the asset or liability occurs with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data, such as quoted prices for similar assets or liabilities or model-derived valuations.
- Level 3: Unobservable inputs that are not corroborated by market data. These inputs reflect a company’s own assumptions about the assumptions a market participant would use in pricing the asset or liability.

Koch Filter Corporation Employee 401(k) Retirement Plan
Notes to Financial Statements (Continued)
December 31, 2010 and 2009

Note E – Fair Value Measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Pooled separate accounts: Valued at the net asset value ("NAV") of units held by the Plan at year end. The NAV is determined by dividing the net assets, at fair value, of the fund by the number of units outstanding on the day of valuation. Pooled separate accounts are comprised, primarily, of shares of registered investment companies held through subaccounts of a separate account of an insurance company at December 31, 2010 and 2009, respectively. The Plan has concluded that the NAV as adjusted (for mutual fund dividends, mutual fund splits and administrative maintenance charges and other items) and reported by the insurance company approximates fair value of the investments. The investments are redeemable at the adjusted NAV under agreements with the insurance company. However, it is possible that the redemptions rights may be restricted or eliminated in the future. Due to the nature of the investments, changes in the market conditions, liquidity requirements, and the economic environment may significantly affect the NAV of the registered investment companies and, consequently, the fair value of the Plan's investments.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis at December 31, 2010:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts:

Note E – Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis at December 31, 2009:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Growth (a)	\$ -	\$ 641,493	\$ -	\$ 641,493
Aggressive growth (b)	-	588,454	-	588,454
Growth & income (c)	-	441,243	-	441,243
Lifestyle (d)	-	125,444	-	125,444
Conservative (g)	-	193,226	-	193,226
Total assets at fair value	<u>\$ -</u>	<u>\$ 1,989,860</u>	<u>\$ -</u>	<u>\$ 1,989,860</u>

- a) Growth: Pursues capital appreciation foremost by investing in equity securities across domestic and international markets and across certain market capitalizations; may be exposed to all market risks.
- b) Aggressive Growth: Rapid growth and appreciation are the key objectives by utilizing domestic, international or emerging country equity markets and market capitalizations, including heavier concentrations or through riskier techniques than core growth strategies.
- c) Growth and Income: Seeks a balance between a high level of income and the growth of capital, with a higher degree of emphasis on growth from exposure to various equity allocations.
- d) Lifestyle: Seeks to achieve a balance between a high level of current income and growth of capital by investing in both fixed income and equity securities.
- e) Lifecycle: Model portfolios designed to provide a balance of growth, income and capital conservation through a mix of equity and fixed-income exposures based on a participant's age and projected retirement date, adjusting asset allocations and associated risk levels with the objective of becoming more conservative as the target date approaches.
- f) Income: A high level of current income is sought by broadly investing in fixed-income securities through various sectors of the bond market and gaining exposure to various types of credit and interest rate risk.
- g) Conservative: Seeks to achieve maximum current income consistent with preservation of principal and liquidity by investing in high-quality U.S. dollar dominated money market.

Note F – Related Party Transactions

Certain administrative services are provided by the Company at no cost to the Plan and certain administrative costs incurred by the Plan are paid by the Company.

Certain Plan investments are invested in pooled separate accounts managed by John Hancock. John Hancock is the custodian of the Plan and, therefore, these transactions qualify as party-in-interest.

Notes to Financial Statements (Continued)
December 31, 2010 and 2009

Note G – Income Tax Status

The Internal Revenue Service ruled on March 31, 2008 that the Non-Standardized Prototype Plan (the prototype of ASC Institute LLC upon which the Plan is based), as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and therefore, believes that the Plan is qualified and the related trust is tax exempt.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Note H – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note I – Reconciliation of Financial Statements to Form 5500
