INDEPENDENT AUDITORS' REPORT

Board of Directors
Union State Bank 401(k) Plan
Florence, Texas

We were engaged to audit the financial statements of Union State Bank 401(k) Plan as of December 31, 2010 and 2009, and for the year ended December 31, 2010, and supplemental schedule as of and for the year ended December 31, 2010, as listed in the accompanying table of contents. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by The Hartford and Union State Bank, the trustees of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustees hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained a certification from the trustees as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of Plan

The following description of the Union State Bank 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) salary reduction profit sharing plan covering all full-time employees of Union State Bank (the Company) who have completed six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year participants may elect to defer up to 100% of pretax annual compensation, as defined in the Plan, subject to Internal Revenue Service limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants. The Company makes discretionary contributions to the Plan in amounts determined annually by the Board of Directors. For the year ended December 31, 2010, the Company discretionary contributions totaled 4.25% of the participant's compensation. The Plan also allows the Company to make discretionary matching contributions. There were no discretionary matching contributions for the year ended December 31, 2010.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings. Allocations are based upon the participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary profit sharing contributions plus earnings thereon is based upon years of service. A participant is 100% vested after six years of credited service. In the event of death, disability, normal retirement age (65) and five years of participation, or if the Plan is discontinued, participants become 100% vested in all account balances.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 8.50 percent, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Participants receive account distributions in the form of a lump sum payment. Withdrawals by a participant while employed are limited to those requested due to event of financial hardship as defined by the Plan, or upon reaching the age of 59½ and fully vested.

1. Description of Plan

Forfeitures

If an employee terminates before his or her matching and discretionary contribution accounts have become fully vested, such portion of the account is forfeited. Participant forfeitures are used to reduce future employer matching contributions. Forfeitures totaled $ 20,101 in 2010.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

The Company absorbs a majority of the Plan administration expenses.

Subsequent Events

The Plan has evaluated subsequent events through October 7, 2011, the date the financial statements were available to be issued.

3. Investments

The following presents investments at December 31, 2010 and 2009 that represent five percent or more of the Plan's net assets:

	2010	2009
Franklin Templeton Moderate Target Fund; 29,587 and 34,732 shares, respectively	$ 482,459	$ 508,590
MFS Total Return Fund; 27,889 and 0 shares, respectively	314,689	-
Victory Special Value Fund; 41,522 and 39,357 shares, respectively	478,957	379,577
American Funds American Balance Fund; 0 and 19,988 shares, respectively	-	259,448
SEI Stable Asset Fund; 32,294 and 31,226 shares, respectively	405,725	393,466
Money Market Fund; 94,820 and 208,269 shares, respectively	94,820	208,269

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. Fair Value Measurements

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

U.S. Government Securities: Valued at the closing price reported in the active market in which the individual securities are traded.

Mutual Funds: The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Certificates of Deposit: Valued at fair value at quoted values by the broker acting as custodian.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

Assets at Fair Value

	Level 1	Level 2	Level 3	Total
December 31, 2010

	$ 3,178,032	$ -	$ -	$ 3,178,032

5. Related Party Transactions

The Company provides the Plan with certain management and administrative services for which no fees are charged.

Plan investments include interests in certain pooled separate accounts managed by Hartford Life Insurance Company as of December 31, 2010, and 2009. Hartford Life Insurance Company is custodian and, therefore, these investments and related investment transactions qualify as exempt party-in-interest transactions.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants' will become fully vested in their accounts.

7. Tax Status

The IRS has determined and informed the Company by a letter dated October 29, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any period in progress. The Plan administrator believes it is no longer subject to income tax examinations for the years prior to 2007.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

9. Information Prepared and Certified by Trustees
