TEMPCO ELECTRIC HEATER CORPORATION
401 (k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 & 2009

A. DESCRIPTION OF PLAN

The following description of the Tempco Electric Heater Corporation Employees' 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General. The Plan is a defined contribution plan covering all non-union employees of the Company who have three months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Contributions. Employer contributions to the plan are determined by the Board of Directors. Participants may contribute up to 25 percent of their annual wages. The Employer matched 10 percent of the employee contributions for all of 2009 and through October of 2010. Since October 2010 the Employer matched 15 percent of the employee contributions.

3. Participant Accounts. Each participant's account is credited with an allocation of (a) the Employee's contribution, (b) the Company's contribution, and (c) Plan earnings. Allocations are based on participant's account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. Individual accounts are maintained for each of the Plan's participants to reflect the participant's share of the Plan's income, the Company's contributions, and the participant's contributions.

4. Vesting. Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

5. Payment of Benefits. On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her account, or annual installments over a specified period.

6. Participant Loans. The plan allows the participants to take loans from the plan. The participants may borrow up to 50% of their vested balance, to a maximum of $50,000. The loans are secured by the participant's interest in the plan, bear interest at a reasonable rate and are to be repaid within five years or in the case of home purchase within ten years.

401 (k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 & 2009

B. SUMMARY OF ACCOUNTING POLICIES

1. Date of Management's Review. Subsequent events were evaluated through September 20, 2011, which is the date the financial statements were available to be used.

2. Basis of Accounting. The financial statements of the Plan are prepared using the accrual method of accounting. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of the net assets available for the benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

2. Investment Valuation and Income Recognition. The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurement. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

3. Payment of Benefits. Benefits are recorded when paid.

C. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying Statement of Net Assets Available for Benefit. The methods used to measure fair value may produce an amount that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

TEMPCO ELECTRIC HEATER CORPORATION
401 (k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 & 2009

C. FAIR VALUE MEASUREMENTS (continued)

December 31, 2010	Fair Value	Fair Value Measurements Using: Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
Mutual Funds	$ 4,415,250	$ 4,415,250	$ -
Common Collective Trusts	565,584	-	565,584
Participant Loans	156,248	-	156,248
Total	$ 5,137,082	$ 4,415,250	$ 721,832

The fair value measurement accounting literature established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements:

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 3 Fair Value Measurements:

The common collective trusts and participant loans are not actively traded and significant other observable inputs are not available. The common collective trust investment is fully benefit responsive, and as described in Note B, contract value is the relevant measurement. Contract value, as reported to the Plan by Fidelity Investments, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The fair value of participant loans approximates the amortized cost of the loans because the loans are secured by each participant's account balance.

F. TAX STATUS

The Plan has adopted a prototype plan from Fidelity Investments on October 27, 1998. The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code, and, accordingly, the trust's net investment income is exempt from income taxes. TEMPCO ELECTRIC HEATER CORPORATION
401 (k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 & 2009

A. DESCRIPTION OF PLAN

The following description of the Tempco Electric Heater Corporation Employees' 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General. The Plan is a defined contribution plan covering all non-union employees of the Company who have three months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Contributions. Employer contributions to the plan are determined by the Board of Directors. Participants may contribute up to 25 percent of their annual wages. The Employer matched 10 percent of the employee contributions for all of 2009 and through October of 2010. Since October 2010 the Employer matched 15 percent of the employee contributions.

3. Participant Accounts. Each participant's account is credited with an allocation of (a) the Employee's contribution, (b) the Company's contribution, and (c) Plan earnings. Allocations are based on participant's account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. Individual accounts are maintained for each of the Plan's participants to reflect the participant's share of the Plan's income, the Company's contributions, and the participant's contributions.

4. Vesting. Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

5. Payment of Benefits. On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her account, or annual installments over a specified period.

6. Participant Loans. The plan allows the participants to take loans from the plan. The participants may borrow up to 50% of their vested balance, to a maximum of $50,000. The loans are secured by the participant's interest in the plan, bear interest at a reasonable rate and are to be repaid within five years or in the case of home purchase within ten years.

B. SUMMARY OF ACCOUNTING POLICIES

1. Date of Management's Review. Subsequent events were evaluated through September 20, 2011, which is the date the financial statements were available to be used.

2. Basis of Accounting. The financial statements of the Plan are prepared using the accrual method of accounting. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of the net assets available for the benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

2. Investment Valuation and Income Recognition. The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurement. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

3. Payment of Benefits. Benefits are recorded when paid.

C. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying Statement of Net Assets Available for Benefit. The methods used to measure fair value may produce an amount that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

C. FAIR VALUE MEASUREMENTS (continued)

December 31, 2010	Fair Value	Fair Value Measurements Using: Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
Mutual Funds	$ 4,415,250	$ 4,415,250	$ -
Common Collective Trusts	565,584	-	565,584
Participant Loans	156,248	-	156,248
Total	$ 5,137,082	$ 4,415,250	$ 721,832

The fair value measurement accounting literature established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements:

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 3 Fair Value Measurements:

The common collective trusts and participant loans are not actively traded and significant other observable inputs are not available. The common collective trust investment is fully benefit responsive, and as described in Note B, contract value is the relevant measurement. Contract value, as reported to the Plan by Fidelity Investments, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The fair value of participant loans approximates the amortized cost of the loans because the loans are secured by each participant's account balance.

D. INVESTMENTS

Upon enrollment in the Plan, a participant may direct employee contributions to any of thirty-five investment options. Participants may change their investment options daily. Investments are held with Fidelity Investments in pooled separate accounts.

E. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

F. TAX STATUS

The Plan has adopted a prototype plan from Fidelity Investments on October 27, 1998. The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code, and, accordingly, the trust's net investment income is exempt from income taxes. The prototype plan has obtained a favorable tax determination letter from the Internal Revenue Service. The Plan sponsor believes that the Plan continues to qualify and to operate as designed.
