Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 24 — Change in Actuarial Assumptions

Interest and mortality rates were updated from 2009 to 2010 in accordance with PPA and plan sponsor elections. Beginning with the 2010 valuation, the yield curve used to determine the target liability and target normal cost was changed from the full yield curve with a 2-month look-back to the segment yield curve with 2-month look-back

Schedule SB, Line 25 — Change in Method

A change was made to the valuation system to determine the funding target and target normal cost. This change did not materially affect liability amounts and qualified for automatic IRS approval under final Section 430 regulations.

As required by the final Section 430 regulations, the allocation of disability benefit costs was changed from the ratio of the participant's service to their service at first eligibility, to the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service to their service at each decrement age.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial methods

Asset methods

We used financial data submitted by the trustee as of the valuation date without further audit. Customarily, this information would not be verified by a plan's actuary. We have reviewed the information for internal consistency and we have no reason to doubt its substantial accuracy.

The asset valuation method is an annual average of the adjusted market value over the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate based on IRS guidance (for 2008 and 2009, the third segment rate based on IRS guidance was less than the expected rate of return). This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts
- **Disabled participants:** Participants who become disabled before retirement continue to earn credited service during their disability. We have valued these participants using the assumption that they will remain disabled until normal retirement.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Minimum funding methods

Target liability for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- This plan provides disability benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated and amended through January 1, 2010 are included in this valuation.

- **Plan amendments:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
- **Shutdown benefits:** We are not aware of any corporate actions that would create shutdown benefits; therefore, they are excluded.
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions**

Plan year	January 1, 2010
Status of the plan	The plan has some union participants with ongoing benefit accruals. New employees are not eligible to participate in the plan.
Significant events that occurred during the year	None
Definitions	
▪ Covered employees	Employees become participants upon completion of one year of Service, and the attainment of age 21.
▪ Contributions	The Company assumes the full cost of the Plan.
▪ Credited service	<p>Completed years of continuous employment. A year of continuous employment is any year in which the employee has worked at least 1,000 hours.</p> <p>Notwithstanding the foregoing, for the determination of the Retirement Benefit, all Credited Years of Service earned as of December 31, 2008 will be frozen and no additional Credited Years of Service will be earned after December 31, 2008. Participants may continue to earn Credited Years of Service to determine eligibility under Early Retirement. The preceding two sentences do not apply to the extent they conflict with the provisions of any collective bargaining agreement covering a Participant.</p>
▪ Average Annual Compensation	<p>The highest Average Annual Compensation (including commissions) during any five consecutive years of the ten years preceding the earlier of actual or normal retirement. (Include overtime and bonus, up to 10% of base compensation, as a part of pensionable earnings, effective July 1, 1997.)</p> <p>Notwithstanding the foregoing, for any Retirement Benefit commencing payment on or after January 1, 2009, only Annual Compensation earned prior to the earlier of:</p> <ul style="list-style-type: none"> (i) the Participant's actual retirement date or (ii) January 1, 2009 <p>will be used in calculating the Average Annual Compensation, which is used to calculate the Retirement Benefit. The preceding sentence does not apply to the extent it conflicts with the provisions of any collective bargaining agreement covering a Participant.</p>
▪ Average Monthly Compensation	The highest consecutive 60-month average of compensation prior to the earlier of the date of termination or age 65.

Schedule SB, Part V — Summary of Plan Provisions

▪ Covered Compensation

The taxable wage bases in effect under Section 230 of the Social Security Act for each year in the 35-year period ending with the year in which the participant attains his Social Security Retirement Age. In determining a participant's Covered Compensation for any Plan Year, the taxable wage based for the current Plan Year and any subsequent Plan Year shall be assumed to be the same as the taxable wage based in effect as of the beginning of the Plan Year for which the determination is made.

Notwithstanding the foregoing, for any Retirement Benefit commencing payment on or after January 1, 2009 only Covered Compensation earned prior to the earlier of:

- (i) the Participant's actual retirement date or
- (ii) January 1, 2009

will be used to calculate the Covered Compensation, which is used to calculate the Retirement Benefit. The preceding sentence does not apply to the extent it conflicts with the provisions of any collective bargaining agreement covering a Participant.

Normal retirement

▪ Eligibility

Age 65 and completion of 5 years of Service

▪ Benefit

1.4% of the Average Annual Compensation up to the covered compensation limit plus 1.9% of the Average Annual Compensation over the Covered Compensation Limit times completed years of Continuous Service up to 25 years.

The amount of Normal Retirement Benefit is reduced by the amount of annuity under any other qualified employee benefit plans maintained by the employer or by the employer's parent Company.

Schedule SB, Part V — Summary of Plan Provisions

Minimum Benefit

The annual Normal Retirement Benefit of a Participant who is a highly compensated employee in 1989 or 1990 shall not be less than the value of his accrued benefit on December 31, 1988 (December 31, 1989 in the case of a Participant who was a highly compensated employee in 1990 but not in 1989) under the terms of the Plan as then in effect and determined as if the Participant had terminated employment on that date.

For participants from Sharon Herald Company, the Minimum Benefit shall not be less than the following table:

Average Monthly Compensation		Monthly Retirement Income	
\$	0.00 – 100.00	\$	25
	100.01 – 200.00		38
	200.01 – 300.00		50
	300.01 – 400.00		63
	400.01 – 500.00		75
	500.01 – 600.00		88
	600.01 – 700.00		100
	700.01 – 750.00		113
	750.01 – 800.00		125
	800.01 – 850.00		138
	850.01 and over		150

The preceding table is subjected to the following:

1. The maximum monthly pension payable to a participant of the ITU shall be \$100.
 2. The maximum monthly pension for participants over age 59 on March 28, 1975 shall be \$125.
-

For participants from Joplin Pension Plan, the Minimum Benefit shall be equal to the accrued benefit through June 1, 1979 plus future service accruals under the Joplin plan formula based on the frozen 1979 annual compensation.

Schedule SB, Part V — Summary of Plan Provisions

For participants from the Medford Mail Tribune, the Minimum Benefit shall be equal to the profit sharing balance as of December 31, 1979 under the Medford Profit Sharing Plan, credited with interest at 5% to Normal Retirement Age, and divided by an annuity factor.

For participants from the Retirement Income Plan for Employees of Free Press Company who were participants on December 31, 1983, the Minimum Benefit shall be equal to the benefit under the Free Press Plan based on service to Normal Retirement Date.

For participants from the Essex County newspapers Pension Plan who were participants on January 31, 1984, the Minimum Benefit shall be equal to the accrued benefit to February 1, 1984 plus future service accruals under the Essex plan formula based on frozen 1984 annual compensation.

For participants from News-Sun, Inc. the Minimum Benefit shall be equal to the profit sharing balance as of September 30, 1985 under the News-Sun, Inc. Profit Sharing Plan, credited with interest at 5% to Normal Retirement Age, and divided by an annuity factor.

For participants from Stockton of May 1, 2003, each participant will accrue one year of past service every year of future service earned after May 1, 2003 up to 9 years.

Effective October 31, 2006 the Oneonta Daily Star, the Pittsburgh Press-Republica, the Danbury News Times, the Sunbury Daily Item, the Traverse City Record – Eagle and the Santa Cruz Sentinel were sold. Participants affected by this sale were vested in their accrued benefits under the Plan. In addition, these participants were credited with 4 additional years of service and 4 additional years of age (“4+4”) for determining eligibility for early retirement benefits. This enhancement will only be granted if an eligible participant remains employed by the buyer for at least 4 years and benefit may not commence while the participant remains employed by the buyer. The sales of these newspapers were taken into account in 2006 for expense purposes.

Schedule SB, Part V — Summary of Plan Provisions**Early retirement**

▪ Eligibility	<p>Any one of the following conditions:</p> <ul style="list-style-type: none"> (a) age 55 and completion of 10 years of Service. (b) age 62 with at least 25 years of Credited Service (c) age 55 and 25 years of Credited Service and age plus Service equals or exceeds 85 if retirement is after July 1, 1997 and before January 1, 2001, or (d) 25 years of Credited Service and age plus Service equals or exceeds 85 if retirement is on or after January 1, 2001
▪ Benefit	<p>A deferred benefit to begin at Normal Retirement Age equal to the amount accrued to date of retirement. Payment may commence immediately, in which case the Early Retirement Benefit is reduced by 5% for each year prior to Normal Retirement. However, if an active participant retires after attainment of (b), (c), or (d) above, there is no reduction to the Early Retirement Benefit.</p>

Dependent Benefit

▪ Eligibility	<p>Upon the death of an active participant prior to age 65 but after completion of 10 years of Continuous Service and after the sum of age plus Service equals or exceeds 55.</p>
▪ Benefit	<ul style="list-style-type: none"> (a) Retired early on the first of the month next following his date of death, (b) Elected the contingent annuitant option with one-half payable to the contingent annuitant, (c) Named the eligible dependent as his contingent annuitant, and (d) Been entitled to receive as a retirement benefit the amount he was expected to have accrued at his Normal Retirement Date (based on his Average Annual Compensation and Service preceding his date of death). <p>In addition, active employees who have at least 5 years of Service and do not already qualify for the benefit described above, and terminated employees with deferred vested benefits are eligible for spouse's benefits commencing on the date the deceased employee would have been age 55.</p>

Report of Independent Auditors

To the Retirement Committee
The Retirement Plan for Employees of Dow Jones
Local Media Group

We were engaged to audit the accompanying statements of net assets available for benefits of The Retirement Plan for Employees of Dow Jones Local Media Group as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information referred to in Note 7, which was certified by JPMorgan Chase Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Retirement Plan for Employees of Dow Jones Local Media Group

Notes to Financial Statements

December 31, 2010

1. Description of the Plan

The following description of the Retirement Plan for Employees of Dow Jones Local Media Group (the “Plan”) is provided for general information only, and in no way replaces or alters the full, official Plan agreement, which is the controlling document and which, in any dispute, shall govern. Participants can refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a noncontributory defined benefit pension plan sponsored by Dow Jones Local Media Group (the “Company” or “Plan Sponsor”), a wholly owned subsidiary of News Corporation. The Plan covers substantially all employees of the Company and its subsidiaries and affiliated companies, The Times-Herald Record, Seacoast Newspapers, and The Stockton Record. The Plan provides for pension, death and disability benefits. It is subject to the regulations of the Employee Retirement Income Security Act of 1974 (“ERISA”) and the Internal Revenue Code of 1986, as amended (the “Code”).

Effective January 1, 2007, the Plan was closed to newly hired employees. The Plan was amended and restated effective as of January 1, 2009 to cease new benefit accruals after that date for all active participants except those covered under certain collective bargaining agreements. Employees will continue to vest in the Plan.

Pension Trust

Responsibility for administering the day-to-day operations of the Plan rests with the Company. The management and control of the Plan’s assets and final discretionary authority and control over the Plan’s assets rest with News Corporation, the parent of the Plan Sponsor.

Pension Benefits

Participants became eligible upon attainment of age 21 and completion of one year of service, provided that they worked at least 1,000 hours during such Plan year. Participants become fully vested after five years of service. The Plan provides no partial vesting for fewer than five years of service. Pension earnings are limited to \$195,000 for the years ended December 31, 2010 and 2009.

Retirement Plan for Employees of Dow Jones Local Media Group

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Terminated vested participants are entitled to receive benefits beginning at the normal retirement age of 65, although retirement benefits are also available upon attainment of early retirement age, subject to limitations set forth in the Plan. Employees who terminate after the completion of ten years of service but prior to eligibility for normal or early retirement shall be entitled to a deferred vested benefit equal to their accrued benefit as of the date of termination commencing upon satisfaction of the appropriate age requirement.

Benefit payments are paid in the form of a life annuity for single participants and a joint and survivor annuity for married participants unless the participant elects a different form of payment. For married participants, spousal consent is required to change payment methods.

If a participant's actuarial equivalent of the accrued benefit is less than \$10,000, the participant may be paid a lump-sum payment as soon as practicable after his/her termination date.

Effective May 31, 2010, the Plan was frozen to future pension accruals for union employees of the Medford Graphic Comm International Union.

Preretirement Death and Disability Benefits

The surviving spouse of an active or terminated participant is entitled to certain benefits, as defined in the Plan document, in the event that the participant dies prior to receiving benefit payments. In order to be eligible, certain requirements as described in the Plan document must be satisfied.

Active employees who are disabled prior to normal retirement and after completion of five years of service may retire and receive a deferred benefit commencing at normal retirement age or early retirement age, at the participant's election.

Administrative Expenses

The Plan incurs administrative expenses directly related to the Plan which consist primarily of actuarial fees, trustee fees, investment manager fees and Pension Benefit Guaranty Corporation ("PBGC") fees. These expenses are reported on the statement of changes in net assets available for benefits as administrative expenses. Administrative expenses related to the News America Incorporated Master Trust ("Master Trust") are allocated to the Plan and are reflected in the net investment income from the Master Trust. Expenses relating to purchases, sales or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. All other administrative expenses are paid by the Company on behalf of the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting. Certain prior year amounts have been reclassified to conform to the current year presentation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments

Effective January 1, 2009, the Plan invested in the Master Trust and transferred approximately \$116 million of assets to JPMorgan Chase Bank, N.A. (the “Trustee”) from the Plan’s former trustee. The Plan’s interest in the net assets and investment income of the Master Trust as of December 31, 2010 and 2009, as reported in the financial statements, was determined based on the beginning of the year value of the Plan’s interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses (see Note 8). The investments in the Master Trust are valued at fair value determined by the Trustee, using available quoted market prices or fair values provided by investment managers for common collective trusts and limited partnerships. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the “exit price”) in an orderly transaction between market participants at the measurement date.

News Corporation, the Company’s parent, established the Master Trust whereby the assets of the Plan are commingled for investment purposes with the assets of the following plans:

- News America Incorporated Employees’ Pension and Retirement Plan
- The New York Post Craft Union Pension Plan
- Pension Plan for Union Employees of Fox Television Station, Inc.
- Fox Pension Plan

Retirement Plan for Employees of Dow Jones Local Media Group

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Under the terms of the master trust agreement, participating plans do not have a right or title to any specific assets of the Master Trust, but the plans have an undivided beneficial interest (i.e., accumulated share) in the Master Trust. Under the terms of the master trust agreement, the Trustee determines the current value of the entire Master Trust and the accumulated share of each of the plans in such manner as the Trustee in its reasonable discretion shall prescribe, but in accordance with a method consistently applied. Ownership is represented by a record of proportionate dollar interest.

The fair value of each plan's initial contribution to the Master Trust, as applicable, represented each plan's respective accumulated share at the date the Master Trust was created or when the plans transferred into the Master Trust. Thereafter, investment income, losses and expenses of the Master Trust are allocated proportionately to the fair value of each plan's accumulated share as of the valuation date. Contributions, benefit payments and certain administrative expenses are assigned to each plan on the specific identification basis. Participants should refer to the master trust agreement for more complete information.

The Plan's investment in the Master Trust is stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

In accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, ("ASC 820") the Plan classified its investments as of December 31, 2010 and 2009 based upon an established fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value (see Note 8). The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 – Quoted prices in markets that are not considered to be active or financial instruments without quoted market prices, but for which all significant inputs are observable, either directly or indirectly.

Retirement Plan for Employees of Dow Jones Local Media Group

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Level 3 – Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Common stocks, mutual funds, and publicly traded partnerships are valued at the closing price reported on the active market for which the individual securities are traded. Mutual funds are valued at the net asset value ("NAV") of the shares held by the Master Trust. Common/collective trusts and short-term investment funds are valued at the NAV of the units provided by the fund issuer but not reported on an active exchange. Forward currency contracts are valued at fair value, as determined by the Master Trust's investment managers (or independent third parties on behalf of the investment managers), using quoted forward foreign currency exchange rates. Corporate and government obligations and partnerships traded in active markets on national and international securities exchanges are valued at closing prices on the last business day of the year. Securities traded in markets that are not considered active are valued based on a compilation of primary observable market information, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency.

U.S. and non-U.S. government obligations consist primarily of investment grade securities rated A- or higher by Standard & Poor's ("S&P") or non-rated U.S. municipal bonds, U.S. treasury notes, U.S. treasury bonds, non-U.S. treasury bills and sovereign debt from foreign nations. Significant inputs for the valuation of these securities include benchmark yields, base spreads, sector curves, yield to worst convention, rating updates, prepayment schedules, adjustments for material event notices, and reported changes.

U.S. government agency obligations consist primarily of collateralized mortgage obligations including interest only, principal only, planned amortization, accretion, and targeted amortization loans, which are bonds backed by the Federal National Mortgage Association, Federal Home Loan Mortgage Corporation, or Federal Agricultural Mortgage Corporation. Significant inputs for the valuation of these securities include treasury or floating index, benchmarks, prepayment speeds, swap curves, collateral performance and type, and cash flows.

U.S. corporate obligations include primarily investment grade convertible and non-convertible fixed income bonds and structured notes rated primarily BBB- or higher by S&P. Fair value of convertible obligations are based on a compilation of primary observable market information,

Retirement Plan for Employees of Dow Jones Local Media Group

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

imputed based on the conversion ratio and other security specific information, or broker quote in a non-active market. Significant inputs for the valuation of convertible and non-convertible obligations include benchmark yields, base spreads, adjustments for corporate actions, and reported trades.

Non-U.S. corporate obligations include foreign convertible and non-convertible fixed income bonds primarily rated A- or higher by S&P. Fair value for these investments is based on evaluated data provided by the pricing vendors. Significant inputs for the valuation of these securities include benchmark yields, base spreads, and adjustments for corporate actions.

Assets within Other consist of non-government mortgage and asset backed securities, which are primarily rated A- or higher by S&P. Significant inputs for the valuation of these securities include swap curves, base spreads, prepayment speeds, cash flows, ratings updates, yield to worst convention, collateral type and performance, and adjustments for factors such as issuer creditworthiness.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Risks and Uncertainties

The Master Trust invests in various mutual funds and other marketable securities, common collective trusts and limited partnerships. Investment securities are exposed to various risks such as interest rate, market and credit risk. Other than the investments in derivatives, as discussed in Note 9, the Master Trust's exposure to credit loss in the event of nonperformance of investments is limited to the carrying value. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risk in the near term could materially affect the amounts reported in the accompanying financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Retirement Plan for Employees of Dow Jones Local Media Group

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic benefit payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) the beneficiaries of deceased employees and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' highest average monthly compensation received in any five consecutive full calendar years before normal retirement date. Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits as determined by the Plan's actuary, Mercer Human Resources Consulting, Inc. (see Note 4), is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

New Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update ("ASU") 2010-06, *Improving Disclosures about Fair Value Measurements* ("ASU 2010-06"). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 was effective for reporting periods beginning after December 15, 2009. Since ASU 2010-06 only affects fair value measurement disclosures, adoption of ASU 2010-06 did not affect the Plan's net assets available for benefits or its changes in net assets available for benefits.

Retirement Plan for Employees of Dow Jones Local Media Group

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. Generally Accepted Accounting Principles (“GAAP”) and IFRSs (“ASU 2011-04”)*. ASU 2011-04 amended ASC 820 to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (“IFRSs”). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan’s financial statements.

3. Funding Policy

The cost of the Plan is actuarially determined by the Projected Unit Credit method. The unfunded accrued liabilities are being amortized over 5 to 40 years.

Contributions to the Plan are made annually by the Company in amounts, as recommended by the consulting actuary, sufficient to fully provide for employees’ benefits upon reaching normal retirement age. The Plan has met the minimum funding requirements of ERISA.

4. Accumulated Plan Benefits

The following table presents the accumulated plan benefits of the Plan as of December 31, 2009, as determined by the Plan's actuary as reported in ASC 960, *Plan Accounting – Defined Benefit Plans*:

	December 31, 2009
Accumulated plan benefits	
Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 116,526,793
Other participants	66,264,733

	Year Ended December 31, 2009
Changes in accumulated plan benefits	
Actuarial present value of accumulated plan benefits as of December 31, 2008	<u>\$ 183,830,896</u>
Increase (decrease) during the year attributable to:	
Benefits accumulated and net actuarial losses	1,310,349
Benefits paid	(12,083,145)
Interest due to decrease in the discount period	12,439,294
Net increase	<u>1,666,498</u>
Actuarial present value of accumulated plan benefits as of December 31, 2009	<u>\$ 185,497,394</u>

Retirement Plan for Employees of Dow Jones Local Media Group

Notes to Financial Statements (continued)

4. Accumulated Plan Benefits (continued)

Significant assumptions underlying the actuarial computations are:

Interest rate	7% per annum, compounded annually
Mortality basis	RP 2000 Mortality Combined Health Active/Retiree Health Table (Projected to 2015 with Scale AA)
Retirement age	Greater of age at normal retirement date and age on the valuation date

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

5. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan document to discontinue its contributions at any time and to amend or terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions taking into account those paid out before termination.
- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire in the three-year period would have been receiving if they had retired with benefits in the normal form of an annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- c. Other vested benefits insured by the PBGC up to the applicable limitations (discussed below).
- d. All other vested benefits (vested benefits not insured by the PBGC).

Retirement Plan for Employees of Dow Jones Local Media Group

Notes to Financial Statements (continued)

5. Plan Termination (continued)

- e. All nonvested benefits.
- f. Any surplus assets of the Plan remaining after the payment of all expenses and liabilities shall revert to the Company in the proportion determined by the Retirement Board of the Company.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the level of benefits guaranteed by the PBGC.

6. Tax Status

The Plan has received a determination letter from the Internal Revenue Service ("IRS") dated April 12, 2010, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States require the Plan administrator to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the plan is no longer subject to income tax examinations for years prior to 2007.

7. Information Certified by the Trustee

All investment information disclosed in the accompanying financial statements, including the Plan's interest in the Master Trust as of December 31, 2010 and 2009 and the net investment income from the Master Trust for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee.

8. NAI Master Trust

At December 31, 2010 and 2009, the Plan's interest in the net assets of the Master Trust was approximately 13% and 15%, respectively.

The following table presents the net assets available to participating plans of the Master Trust as of December 31, 2010 and 2009:

9. Derivative Instruments

Derivatives are financial securities whose characteristics and value depend on the characteristics and value of an underlying security.

The Master Trust invests in registered investment companies and unregulated pooled vehicles or limited partnership interests with the understanding that the pools can purchase derivatives consistent with its offering documents and prospectus. In these cases, the Master Trust itself does not directly hold any such derivative securities.

In addition, the Master Trust invests in certain separately managed accounts which may invest directly in derivative securities. These include: exchange-traded futures, over-the-counter (“OTC”) options, forward currency contracts, OTC Credit indices, mortgage derivatives, and convertible bonds. The Master Trust’s separately managed accounts are permitted to use derivatives primarily to hedge risk. However, in certain cases they may be used for other purposes.

Forward Currency Contracts

The Master Trust has investments that are denominated in foreign currencies and utilizes forward currency contracts to manage a portion of the currency exposure for these investments. When utilizing forward currency contracts, the Master Trust gives up the opportunity to profit from favorable exchange rate movements during the term of the contract. Certain risks arise upon entering forward currency contracts from the potential inability of counterparties to meet the terms of their contracts. The Master Trust manages this risk by evaluating the credit risk of potential counterparties and by applying appropriate limits to trading relationships.

The Master Trust held 17 and 24 forward currency contracts at December 31, 2010 and 2009, respectively. The fair value recorded as receivables was \$1,740,298 and \$672,221 at December 31, 2010 and 2009, respectively. The fair value recorded as liabilities was \$985,701 and \$635,348 at December 31, 2010 and 2009, respectively. At December 31, 2010 and 2009, the notional amount of the forward currency contract receivables was approximately \$66,042,000 and \$68,001,000, respectively, representing the maximum loss that the portfolio would have incurred if the Master Trust completed its agreed-upon exchanges to all of these contracts but its counterparties failed to complete their agreed-upon exchanges. Forward currency contract receivables were primarily denominated in Japanese Yen and Euro at December 31, 2010 and Euro, Japanese Yen and Norwegian Kroner at December 31, 2009.

9. Derivative Instruments (continued)

During 2010 and 2009, the Net Investment Income (loss) associated with forward currency contracts was approximately \$2,660,000 and \$(2,365,000), respectively, and was recorded as Net appreciation (depreciation) – Other within the Net Investment Income for the Master Trust (see Note 8).

10. Subsequent Events

The Plan has completed an evaluation of all subsequent events through October 13, 2011, which is the date the financial statements were available to be issued, and concluded no subsequent events occurred that required recognition or disclosure.
