NOTE A--DESCRIPTION OF PLAN

The following brief description of the Corrugated Supplies Company, L.L.C. 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is sponsored by Corrugated Supplies Company, L.L.C. (the "Company") for employees that meet specific eligibility requirements. The Plan, designated as a defined contribution plan, was originally established on September 1, 1997, and was most recently restated January 1, 2010 and amended April 19, 2011 (see Note K). The Plan provides for contributions to be made under salary deferral agreements pursuant to Section 401(k) of the Internal Revenue Code (the "Code"). Employees of the Company, twenty-one years or older, are eligible to participate on their first day of employment. The Plan is subject to the provisions of the Employee Retirement Income and Security Act of 1974 ("ERISA").

Contributions

Eligible participants may elect to contribute pre-tax deferred compensation to the Plan by means of a salary deferral agreement up to the maximum limit permitted by law. Contributions are, thus, subject to limitations as provided in the Code and as described in the Plan's provisions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Salary deferral contributions are funded proximate to the withholding date. Participants may also contribute amounts representing distributions from other qualified plans in accordance with Plan provisions. Participants direct the investment of their contributions into various investment options offered by the Plan and may elect to change their investment options at any time. During any period in which there is no participant direction on file with the Trustees as to the investment of a participant's account, 100% of that participant's account will be invested in the investment option designated from time to time by the Trustees as the default investment. The Plan currently offers 18 investment options.

Effective March 1, 2008, unless eligible employees affirmatively elect otherwise, their compensation will be reduced by 2%, the "Automatic Enrollment Rate." For each payroll period in which they are an active participant, the Company will make a pre-tax deferral contribution in such amount on the participant's behalf.

The Company may make discretionary matching and/or profit sharing contributions to the Plan at the end of the Plan year in accordance with Plan provisions. Eligible employees share in the Company's matching contribution regardless of the amount of service completed during the Plan year. To be eligible to receive the Company profit sharing contributions, participants must be twenty-one years or older, have completed 1,000 hours of service and be employed on the last day of the Plan year.

Participant Accounts

Each participant's account is credited with the participant's contribution, if any, and allocations of (a) the Company's contribution, if any, (b) Plan earnings or losses, (c) forfeitures of terminated participants' nonvested accounts, and (d) charged with an allocation of administrative expenses. Allocations are based on participant account balances or compensation, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A--DESCRIPTION OF PLAN-continued

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and discretionary profit sharing contributions of their accounts plus actual earnings thereon is based on years of credited service, as presented below. A participant is 100 percent vested after six years of credited service. Participants who attain the normal retirement age of 65 or who terminate employment due to death or disability become 100 percent vested in their account balances.

Years of Credited Service	Vested Percentage
Less than 1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 reduced by the excess, if any, of the participants highest outstanding balance of loans from the Plan during the one-year period ending on the day before the date of the new loan over the current outstanding balance of loans as of the date of the new loan, or 50 percent of their vested interest in the Plan. The loans are collateralized by the participant's account balance and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. The interest rates applied to current loans outstanding range from 4.00 percent to 9.25 percent. Principal and interest is paid through payroll deductions.

Payment of Benefits

Upon termination of employment due to death, disability, retirement or Plan termination, a participant is entitled to 100 percent of their account balance. For termination of employment for other reasons, a participant is entitled to 100 percent of the participant's contributions and the vested portion of the Company's contributions based upon the Plan's vesting provisions. Married participants will automatically receive a joint and 50 percent survivor annuity, unless an alternative form of payment is elected. Unmarried participants will automatically receive a life annuity, unless an alternative form of payment is elected. Alternative payment methods include a single lump-sum payment, installments over a period of not more than the participants assumed life expectancy or through a purchase of a different form of annuity,

Account balances in excess of $5,000 (not including rollover account balances) will be made as soon as administratively feasible following the date the Plan Administrator receives a written request for distribution.

Mandatory distributions less than $5,000 (not including rollover account balances) will be paid in a single lump-sum payment. These distributions will be made if a participant does not elect to have such distribution paid directly to an eligible retirement plan specified by the participant in a direct rollover.

In-service withdrawals, subject to certain restrictions, are also permitted.

NOTE A--DESCRIPTION OF PLAN-continued

Forfeited Accounts

Forfeited nonvested accounts may be used to reinstate any previously forfeited amounts of certain former participants who are rehired. The remaining forfeitures will be first used to pay administrative expenses of the Plan, as directed by the employer. Any remaining amounts will be used to reduce future employer contributions.

At December 31, 2010 and 2009 forfeited nonvested accounts totaled $2,449 and $10,836, respectively. During the year ending December 31, 2010, the Plan used $12,473 of forfeited nonvested accounts to reduce the matching contribution for the Plan year 2009.

Allocated insurance contracts

The Plan has purchased allocated insurance contracts for eligible participants from an insurance company in accordance with Plan provisions. These contracts are appropriately reported on Schedule A of the Form 5500 and excluded from the accompanying financial statements in accordance with accounting principles generally accepted in the United States of America and ERISA regulations.

NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value at December 31, 2010 and 2009. The Statement of Changes in Net Assets Available for Benefits is thus prepared on the contract value basis as of December 31, 2010.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements and during the reporting period. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments in shares of registered investment companies are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-continued

Investment Valuation and Income Recognition-continued

The Fixed Fund is a common investment trust that is fully benefit-responsive and is stated at fair value on the last day of the Plan year. The Custodian computes the fair value of the fund based upon quoted market prices of the underlying securities held by the fund at year-end. Contract value is considered the relevant measurement used in the calculation of participant withdrawals or other permitted transactions under the terms of the Plan. Contract value represents the accumulated contributions plus accrued net earnings less distributions. The statement of changes in net assets available for benefits is prepared on contract value basis. See Note E.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions in accordance with the Plan's provisions.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Company bears most administrative costs of the Plan.

Date of Management's Review

Management of the Plan has evaluated subsequent events through October 10, 2011, which is the date the financial statements were available to be issued.

NOTE C--FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy, consisting of three broad levels, gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE C--FAIR VALUE MEASUREMENTS-continued

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Should an investment be re-characterized from one level to another level, Plan management would state the basis for the change. Under such circumstances the Plan would report the transfers in and transfers out at the beginning of the Plan quarter when change occurs.

Gains and losses (realized and unrealized) are reported as net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for Plan assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Level 1: The fair value of registered investment companies are based on quoted net asset values of the shares held by the Plan at year-end.

Level 2: The common investment trust account, which is a fully benefit-responsive investment contract, is based upon current yields or quoted prices of similar investments having comparable durations.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE C--FAIR VALUE MEASUREMENTS-continued

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009.

NOTE D--INFORMATION CERTIFIED BY CUSTODIAN (UNAUDITED)

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for the Plan year ended December 31, 2010 and 2009. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the Custodian, Reliance Trust Company, as of December 31, 2010 and 2009. Except for comparing such information as certified as being complete and accurate by the Custodian to information included in the Plan's financial statements and supplemental schedules, the Plan's independent auditors did not perform any auditing procedures on the certified investments.

The Plan has entered into a fully benefit-responsive investment contract with the Custodian that includes, as one investment option, the Fixed Fund (the "Trust"). This common investment trust is credited with the accumulation of contributions, plus earnings on the underlying investments at a guaranteed rate and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The Trust is included with investments on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits.

NOTE E--FIXED FUND INVESTMENT CONTRACT-continued

Contract value, as reported and certified to the Plan by the Custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The fair value of the investment contract at December 31, 2010 and 2009 was $962,234 and $1,076,678, respectively.

The crediting interest rates of the Trust at December 31, 2010 and 2009 were approximately 2.35% and 3.51%, respectively. The average yields of the Trust's interest rates were 1.49% and 1.93% at December 31, 2010 and 2009, respectively. Interest is credited to a participant's account daily, based on its daily balance at the established effective rate of interest that reflects the performance of the underlying portfolio. The Trust's crediting interest rate will vary based upon the different methodologies of the underlying investments. (Refer to Plan agreement for a description of the various methodologies applied within the Trust). Participants will receive the principal and accrued earnings credited to their accounts on withdrawal for allowed events. These events include transfers to other Plan investment options, and payments because of retirement, termination of employment, disability, death and in-service withdrawals as permitted by the Plan.

If the Fund was to be discontinued, the value of the funds to be disposed would be determined in accordance with contract provisions, which includes an interest component. There are no reserves for credit risk of the contract issuer or otherwise. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

NOTE F--RELATED PARTY TRANSACTIONS

Hartford Retirement Services, LLC performs recordkeeping services for the Plan. RSM McGladrey Retirement Resources perform certain administrative services for the Plan. Reliance Trust Company is the nondiscretionary trustee for the Plan. Fees paid by the Company to Hartford Retirement Services, LLC, RSM McGladrey Retirement Resources and Reliance Trust Company are not material to the financial statements.

Certain employees of the Company provide administrative services for the Plan and are not reimbursed for their services by the Plan. Certain other administrative expenses are paid by the Company on behalf of the Plan. These amounts are not material to the financial statements.

NOTE G--PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE H--TAX STATUS

On March 31, 2008, the Internal Revenue Service stated that the prototype plan document, subsequently adopted by the Plan, as then designed qualified under section 401(K) of the Internal Revenue Code (the "IRC"). The Plan has been amended since receiving the determination letter. The Plan has not received a determination letter specific to the Plan itself; however, the Plan Administrator and the Plan's legal counsel believe that the Plan is currently designed and in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress. The Plan Administrator believes that the Plan is no longer subject to income tax examinations for years prior to December 31, 2007.

NOTE H--TAX STATUS-continued

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan Administrator has analyzed tax positions taken by the plan and has concluded that, as of December 31, 2010, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements.

NOTE I--RISKS AND UNCERTAINTIES

The Plan's assets are invested directly and indirectly in various investment securities which are purchased or managed by the Custodian. These investments are exposed to various risks such as interest rate, market, and credit risks. The Plan's assets are subject to the changes in the value of those underlying investments, including the potential for bankruptcy of one or more of the companies in which they are invested.

The Plan also invests in securities which may have contractual cash flows that include asset backed securities, collateralized mortgage obligations, commercial mortgage backed securities or subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, changes in value, delinquencies or defaults. Shifts in the market's perception of the issuers and changes in interest rates may affect these investments adversely.

Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

The participants who have borrowed from the Plan are all employees of the Company in the Chicago area, and their ability to repay the notes could be affected by the economic conditions in the industry in general, the economic conditions in the Chicago metropolitan area or the economic situation of the Company itself.

NOTE K--PLAN AMENDMENTS

Effective January 1, 2010, the Plan was amended and restated in its entirety to comply with the Pension Protection and Heart Act and other applicable laws. Vesting, under the Plan restatement, in the Company's discretionary contribution portions of their accounts plus actual earnings thereon is based on years of credited service, as defined in the Plan document. A participant is 100 percent vested after six years of credited service. Prior to the amendment and restatement, participants were 100 percent vested after seven years of credited service.

When the Plan was restated to comply with applicable laws effective January 1, 2010, the Plan inadvertently excluded union employees as eligible to participate in the Plan. Accordingly, effective January 1, 2010, the Plan was amended to correct the drafting error to include union employees as eligible to participate in the Plan.

Effective January 1, 2010, the Plan was amended to include eligible employees of Rus Corr, LLC and CSC – Indiana, LLC for purposes of eligibility, vesting, and contribution allocation.

Effective February 18, 2010, the Plan was amended to comply with the Final 415 IRS Regulations and other applicable laws. The amendment did not result in any reduction of vested benefits or of net assets available for benefits.

Effective April 19, 2011, the Plan was amended to include eligible employees of CSC – Atlanta, LLC for purposes of eligibility, vesting, and contribution allocation.

NOTE L--SUBSEQUENT EVENTS

The Company made discretionary profit sharing contributions to the Plan during 2010. Certain ineligible participants received a share of the allocation of these contributions. In total, $19,250 was allocated to ineligible participants. These ineligible participants forfeited these contributions during Plan year 2011. The forfeited accounts may be first used to pay administrative expenses of the Plan, as directed by the employer. Any remaining amounts may be used to reduce future employer contributions.

NOTE M--RECLASSIFICATIONS

Certain prior year amounts have been reclassified to conform to the current year presentation. These reclassifications have no effect on previously reported changes in net assets available for benefits or net assets available for benefits.

2010 Fee and Compensation Disclosure Report

This document is intended to assist a plan administrator ("you") in understanding the fees and compensation associated with your plan. If your plan is required to complete a *Form 5500 Schedule C* , this report identifies the different types of reportable compensation paid with respect to the Hartford product utilized by the retirement plan.

As permitted under the Schedule C reporting rules, compensation is disclosed in the attached report as an actual dollar amount, an estimate, or a formula or rate.

- Where it is an actual dollar amount, no further notation is provided.
- Where it is an estimate, we have used a reasonable method to arrive at the estimate and described the method used to arrive at the estimated amount.
- Where a formula or rate is provided, the formula may be disclosed under the Schedule C reporting rules. Alternatively, for purposes of Schedule C or for your fiduciary review of the compensation paid with respect to the plan's product, you may calculate an actual or estimated dollar amount by multiplying the rate by the total assets to which it applies. Thus, much of the compensation information being provided can be expressed in the form of a formula.

Please note that all compensation is being reported for the 2010 calendar year. This report includes compensation actually paid to or by The Hartford within the 2010 calendar year as part of your Hartford product. This report does not include amounts deducted from plan assets and paid to third parties (other than The Hartford). In addition, the report does not include compensation related to investments held by the plan that are not serviced on our recordkeeping system. You should contact your other service providers for reportable compensation information. You may also receive information on the compensation reported here directly from other service providers.

Please note that we have provided suggested service codes with respect to services provided through our Hartford product. These service codes are listed in the 2010 Instructions for Schedule C (Form 5500). Please review with your experienced benefits counsel and other professionals to determine the most appropriate service codes for your plan.

Please contact your Hartford Client Service Team should you require additional information regarding the compensation paid to or by The Hartford with respect to your plan.

Information provided in this document and related materials we provide are not intended to be and shall not be deemed tax advice, tax form preparation services, legal advice or accounting or other professional services. We strongly encourage you to review all Schedule C and other Form 5500 materials with experienced benefits counsel and other professionals.

The list includes any investment option held by the plan during the 2010 calendar year. To arrive at an estimate of the dollar amount that Hartford received from each fund, multiply the rate of fees received from each fund by your plan's year-end balance (or if the fund was liquidated prior to year end, the balance on the liquidation date) and, if applicable, the per participant fee by the number of participants in the fund at year end (or the liquidation date if earlier). This will be an estimate because your plan's balance and number of participants will vary over the course of the year, so the year-end balance and number of participants may be higher or lower than the daily balance. In addition, these fees are calculated on a daily basis.

[2] Please note that Hartford Retirement Services, LLC's affiliate, Hartford Securities Distribution Company, Inc., receives the sales compensation (12b-1 fees) portion of this amount. After compensating the plan's broker-dealer firm, if applicable, any residual amount is paid to Hartford Retirement Services, LLC.
