The preparation of the financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from these estimates.

Contributions

Contributions from the Company and participants are accrued as they become obligations of the Company, as determined by the Plan's Administrator, and in the period in which they are deducted from participants' pay, in accordance with salary deferral agreements.

Investment Valuation and Income

The investments of the Plan are stated at fair value as of the end of the year and are subject to market or credit risks customarily associated with equity investments. Fair value measurements are determined in accordance with Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic No. 820, “*Fair Value Measurements*,” which defines fair value, establishes a framework for measuring fair value, and expands disclosures about assets and liabilities measured at fair value. The Plan adopted FASB ASC Topic No. 820 effective January 1, 2008, and such adoption did not have a material impact on the financial statements of the Plan. See Note D for information related to the Plan’s valuation methodologies under FASB ASC Topic No. 820.

Investment gains and losses are accounted for using the average cost basis of the securities sold. The net realized and unrealized gains and losses on investments include realized gains and losses on sales of investments during the year and unrealized increases or decreases in the market value of investments held at year end. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Fully Benefit-Responsive Investment Contracts

The Plan accounts for synthetic guaranteed investment contracts at contract value in accordance with FASB ASC Topic 962, “*Plan Accounting – Defined Contribution Pension Plans*.” A synthetic guaranteed investment contract is an investment contract in which the Plan owns the underlying assets and purchases fully benefit-responsive wrapper contracts from independent third parties, which provide market value and cash flow risk protection to the Plan. As required by FASB ASC Topic 962, the accompanying statements of net assets available for benefits presents the fair values of the investment in the common collective trust fund, as well as the adjustment of the investment from fair value to contract value relating to such investment contracts. The accompanying statements of changes in net assets available for benefits are prepared on a contract-value basis. As of December 31, 2010, contract-value approximated fair value.

Payment of Benefits

Benefits are recorded when paid.

B. Summary of Significant Accounting Policies – continued

Recently Issued Accounting Pronouncement

In September 2009 the FASB issued Accounting Standards Update (“ASU”) 2009-12, *“Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).”* ASU 2009-12 amended ASC 820 to allow entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with investment company accounting. The Plan adopted the guidance in ASU 2009-12 for the reporting period ended December 31, 2009, and has utilized the practical expedient to measure the fair value of investments within the scope of this guidance based on the investment’s NAV. In addition, as a result of adopting ASU 2009-12, the Plan has provided additional disclosures regarding the nature and risks of investments within the scope of this guidance. Refer to Note D for these disclosures. Adoption of ASU 2009-12 did not have a material effect on the Plan’s net assets available for benefits or its changes in net assets available for benefits.

In January 2010 the FASB issued ASU 2010-06, *“Improving Disclosures about Fair Value Measurements.”* ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each “class” of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis.

With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 became effective for reporting periods beginning after December 15, 2009, and was adopted by the Plan during the year ended December 31, 2010.

In September 2010 the FASB issued ASU No. 2010-25, *“Plan Accounting – Defined Contribution Pension Plans (ASC 962): Reporting Loans to Participants by Defined Contribution Pension Plan.”* ASU 2010-25 requires participant loans be classified as notes receivable from participants. Previously, loans were classified as investments. This standard became effective for financial statements issued for fiscal years ending after December 15, 2010, and became adopted by the Plan in the year ended December 31, 2010.

D. Fair Value Measurements

FASB ASC Topic 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and establishes a three-tier hierarchy that is used to identify assets and liabilities measured at fair value. The hierarchy focuses on the inputs used to measure fair value and requires that the lowest level input be used. The three levels defined in FASB ASC Topic 820 are as follows:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities. An active market for the asset is defined as a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis. The Plan's Level 1 investments as of December 31, 2010 and 2009, consist of the cash reserve account and mutual funds.
- Level 2 – Inputs other than quoted prices included in Level 1 that are either directly or indirectly observable for the asset as of the reporting date. These inputs are derived principally from, or corroborated by, observable market data. As of December 31, 2010 and 2009, the Plan's Level 2 investments consist of a stable value fund.
- Level 3 – Pricing inputs include significant inputs that are generally less observable from objective sources. These inputs may be used with internally developed methodologies that result in management's best estimate of fair value. There are no Level 3 assets.

FASB ASC Topic No. 820 requires that we describe the methodologies used to measure the fair value of assets and liabilities. We have described below the methodology used to measure each major category of assets and liabilities. The December 31, 2009, hierarchy has been revised to conform to the current year presentation of participant loans as note receivables rather than investments. There have been no other changes in the methodologies used at December 31, 2010 and 2009.

E. Information Certified by the Trustees

The Plan Administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator limited auditing procedures with respect to the investment information certified by State Street Bank and Trust Company as of December 31, 2010, which included total investments as of December 31, 2010, and the total investment income for the year ended December 31, 2010, and the period from April 1, 2009 through December 31, 2009, and all information included in the Form 5500 Supplemental Schedule H, Line 4i – schedule of assets (held at end of year). Investment income for the period from January 1, 2009 through March 31, 2009, was certified by Orchard Trust Company.

F. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Plan in a letter dated March 31, 2008, that the base prototype of the Plan is qualified and the form of trust established under the Plan is tax-exempt under the appropriate sections of the Code. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is being designed and is currently being operated in compliance with the applicable requirements of the Code.

The Company was made aware of various document and operational failures with respect to the 401(k) Plan, which have been discovered internally, by consultants, auditors, and by outside legal counsel. Because the Company is committed to maintaining the qualified status of the 401(k) Plan, the Company has corrected operational errors which are capable of self-correction, within the meaning of the Employee Plan Compliance Resolution System ("EPCRS") under Rev. Proc. 2008-50, and completed a Voluntary Compliance Program ("VCP") submission in 2010.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

G. Reconciliation of Financial Statements to Form 5500 – continued

The reconciling items noted above are due to the difference in the method of accounting used in preparing the Form 5500 as compared to the Plan's financial statements. The modified cash basis of accounting was used in 2010 and 2009 in preparing the Form 5500, whereas the Plan's financial statements have been prepared on the accrual basis of accounting as required by GAAP.

H. Parties-in-Interest Transactions

The Plan invests in a stable pooled fund and cash reserve account managed by Diversified Investment Advisors and State Street Bank and Trust Company, respectively, as of December 31, 2010. These entities act as record-keeper and trustee, respectively, for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

I. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, all amounts credited to participants' accounts will become 100% vested.

J. Subsequent Events

In preparing the accompanying financial statements, management of the Company has evaluated all subsequent events and transactions for potential recognition or disclosure through October 11, 2011, the date the financial statements were available for issuance.

Effectively April 1, 2011, the Plan was amended to include Greatwide Freight Brokerage, LLC as a participating employer in the Plan. Greatwide Freight Brokerage, LLC is a subsidiary of Greatwide Logistics Services.
