Report of Independent Public Accountants

To the Board of Trustees
HLW International LLP
Savings and Investment Plan

We were engaged to audit the accompanying statements of net assets available for benefits of HLW International LLP Savings and Investment Plan (the "Plan") as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010 and the supplemental Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 10, which was certified by Mid Atlantic Trust Company ("Mid Atlantic"), the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan:

The following description of HLW International LLP (the "Company") Savings and Investment Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all eligible employees. The Plan was effective January 1, 1983 and was subsequently amended on January 1, 2003. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions:

Each year, participants may contribute to the Plan up to 100% of their pre-tax compensation not to exceed the amount allowed by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Any amount rolled over to the Plan is fully vested and nonforfeitable. The Company may elect to make a matching contribution. For employees with five years or more of service as of April 1, 2006, the match is equal to 50% of salary deferral up to 6% of compensation. For employees with less than five years of service at that date, the match is equal to 33.33% of salary deferral up to 6% of compensation. Participants direct the investment of both employer and participant contributions into various investment options offered by the Plan.

Participant accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service. A participant is 20% vested after two years of service, with an additional 20% vesting for each additional year of service thereafter for employees hired prior to March 31, 2006. Effective April 1, 2006, for new employees, employer contributions vest immediately.

Note 1 - Description of Plan (concluded):

Eligibility:

An employee is eligible to participate in the Plan after completing one hour of service. For employees hired prior to March 31, 2006, the Company's match commences after one year of employment. Effective April 1, 2006, new employees are eligible for matching contribution after completing two years of service. Employees must be actively employed by the Company as of December 31st to be entitled to receive a matching contribution for that year. Employees may contribute to the Plan on the day that they satisfy the eligibility requirement. Entry into the Plan to receive matching contributions is on the first day of every quarter that coincides with or follows the date on which the eligibility requirements are met.

Forfeiture accounts:

At December 31, 2010 and 2009, forfeited nonvested accounts totaled $2,502 and $4,820, respectively. These amounts are used to reduce future employer contributions, subject to the Plan's provisions. Employer contributions were reduced by $2,502 from forfeited nonvested accounts for the year ended December 31, 2010.

Payment of benefits:

On termination of service due to death, disability or retirement, a participant may receive a lump-sum amount or any amount designated by the participant. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as permitted by the Plan.

Notes receivable from participants:

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% - 9.00%, which is charged at 1% per annum over the prime rate. Principal and interest are paid ratably through payroll deductions and must be repaid within five years unless the loan is used to buy or build a principal residence. Only one loan will be granted at a time and must be repaid in full before another can be requested. Loans mature at various dates through July 2036.

Note 2 - Summary of accounting policies:

Basis of accounting:

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits:

Benefit payments to participants are recorded when paid.

Plan expenses:

Administrative expenses of the Plan for the year ended December 31, 2010 were $33,504, consisting of investment management fees of $32,562 and other fees of $942. Loan initiation transaction fees of $100, are specifically charged to a participant's account.

NOTES TO FINANCIAL STATEMENTS

Note 2 - Summary of accounting policies (concluded):

Subsequent events:

The Plan has evaluated subsequent events through October 6, 2011, which is the date the financial statements were available to be issued.

Reclassifications:

Certain amounts in the 2009 financial statements have been reclassified to conform to the 2010 presentation.

Note 3 - Investments (unaudited):

The following presents investments that represent 5% or more the Plan's net assets:

	December 31,			
	2010		2009	
	Number of Units	**Fair Value**	Number of Units	Fair Value

*Account balance does not represent 5% or more of the Plan's net assets for the corresponding year.

Note 4 - Investment contract with insurance company:

The Plan has a benefit-responsive investment contract with Metropolitan Life Insurance Company ("Metropolitan"). Metropolitan maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Note 4 - Investment contract with insurance company (concluded):

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Metropolitan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 and 2009 was $1,413,417 and $1,081,474, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0% for each of the contract years ended December 31, 2010 and 2009. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2010	2009
Average yields:		
Based on actual earnings	**7.39%**	11.88%
Based on interest rate credited to participants	**3.28%**	3.38%

NOTES TO FINANCIAL STATEMENTS

Note 5 - Fair value measurements:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in inactive markets; or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated with observable market data.

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Financial assets carried at fair value at December 31, 2010 are classified in the tables below in one of the three categories described above:

	2010			
	Level 1	Level 2	Level 3	Total
Money market funds	$ -	$1,985,155	$ -	$ 1,985,155

Total assets at fair value	$9,386,421	$2,549,997	$1,081,474	$13,017,892

Investments in mutual funds are valued using market prices on active markets (Level 1). Level 1 instrument valuations are obtained from real-time quotes for transactions in active exchange markets involving identical assets. Money market funds and government bond funds are designated as Level 2 instruments and valuations are obtained from readily-available pricing sources for comparable instruments.

The Guaranteed Investment Contract is valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair market value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used at December 31, 2010 and 2009.

NOTES TO FINANCIAL STATEMENTS

Note 5 - Fair value measurements (concluded):

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2010.

	Beginning Balance as of January 1, 2010	Total Gain Realized and Unrealized	Purchase, Sales, Issuances and Settlements (Net)	Ending Balance as of December 31, 2010
Guaranteed Investment Contract	$1,081,474	$39,502	$ 292,441	$1,413,417
Total	$1,081,474	$39,502	$ 292,441	$1,413,417

Note 6 - Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 7 - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the Company's contribution portion in their account, as defined.

Note 8 - Party-in-Interest transactions:

The Plan allows participants to take loans against their account balance, which are considered exempt party-in-interest transactions.

Note 9 - Tax status:

The prototype plan sponsor has obtained an opinion letter dated October 26, 2010, in which the IRS stated that the restated prototype plan document was in compliance with applicable requirements of the Internal Revenue Code (the "IRC"). The plan administrator timely adopted the restated prototype plan. The plan administrator believes the Plan is currently being operated in accordance with the IRC.

NOTES TO FINANCIAL STATEMENTS

Note 9 - Tax status (concluded):

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.
