NOTE A - DESCRIPTION OF THE PLAN

The following description of The SAVE Program for Employees of Viskase Companies, Inc. (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established to provide deferred compensation benefits to eligible employees. Under the Plan, all of the employees of Viskase Companies, Inc. ("Employer" or the "Company") who have met the eligibility requirements may elect to participate in the Plan. Employees who are covered by a collective bargaining agreement will be eligible only if their participation is provided for in the agreement. The Plan was amended and restated effective January 1, 2007. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Participation

Regular full-time employees may become Plan members ("Participants") upon employment.

Contributions

Effective January 1, 2007, employees are automatically enrolled in the Plan at 6%. An employee may choose to make contributions to the Plan of 1% to 6% of their regular pay ("Eligible Earnings") as a basic deduction contribution on a before-tax or after-tax basis. Participants who contribute the maximum 6% as a basic deduction contribution may contribute up to an additional 10% of Eligible Earnings as a supplemental deduction contribution on a before-tax or after-tax basis. Participants are allowed to change the amount of their basic deduction contribution and their supplemental deduction contribution once per month. Eligible Participants may elect to make catch-up contributions to the Plan, as defined in the Plan document.

In addition, participants covered under a collective bargaining agreement will receive an Employer matching contributions to the Plan are equal to 50% of the Participant's contributions up to 6% of Eligible Earnings. Participants' before-tax and after-tax contributions in excess of 6% of the Participant's Eligible Earnings are not eligible to receive Employer matching contributions.

Eligible employees, who are part of a collective bargaining agreement, will receive an Employer fixed contribution. The amount of such Employer fixed contribution shall be equal to 3% of Eligible Earnings. Non-collective bargaining participants receive an Employer matching contribution that is equal to 100% of the participant's contribution up to 3%, and 50% of the participant's contribution for the next 2%.

Participants are eligible for a Company variable contribution, a discretionary profit-sharing contribution of up to 3% of Eligible Earnings. There were no discretionary Company variable contributions for the year ended December 31, 2010. Eligible employees not covered under a collective bargaining agreement will receive the Company retiree contribution, a fixed annual retirement contribution of $1,000.

NOTE A - DESCRIPTION OF THE PLAN - Continued

Vesting

Participant contributions plus the earnings thereon are fully vested. Vesting in the Employer matching and fixed contributions and the earnings thereon is based on the number of years of credited service. A Participant is fully vested after three years of credited service. If a Participant voluntarily terminates before completing three years of credited service, contributions made by the Employer and earnings thereon are forfeited. If a Participant attains age 65 or becomes permanently and totally disabled, dies or is terminated by the Employer for reasons other than cause, the full value of the Employer contribution account is immediately vested.

Effective January 1, 2007, a Participant's vested interest in his or her qualified non-elective, qualified match, and safe harbor matching contribution accounts shall be at all times 100% vested. A Participant's vested interest in his or her Company fixed, Company variable and regular matching contribution accounts shall be zero percent until the Participant has completed three years of vesting service. Then, his or her vested interest shall be 100%. A Participant's vested interest in his or her Company retiree contribution account shall be zero percent until the Participant has completed five years of vested service. After that time, the Participant's vested interest will be 100%. Aside from the above, if a Participant is employed by the Company or a related company on his or her retirement date, date of his or her disability, or date he or she dies, or he or she is terminated from the Company for reasons other than cause, his or her vested interest shall be 100% in his or her Employer accounts.

Payment of Benefits

On termination of service, Participants with account balances in excess of $5,000 may elect to either receive a single-sum amount or defer payment until the April 1 following the year the Participant reaches age 70-1/2. Participants who terminate employment with account balances less than or equal to $5,000 receive a single-sum payment. Participants may choose to make a direct rollover into another qualified plan or into an Individual Retirement Account ("IRA"). Spouse beneficiaries may make a direct rollover into an IRA. Non-spouse beneficiaries may not make a direct rollover into an IRA. Participants may elect to receive installment payments under the Plan. Payment to any Participant must be made no later than the April 1 following the year the Participant reaches age 70-1/2, even if he or she has not retired. The Plan permits Participants to make withdrawals while they are employed. The Plan sets out the limits and priority of any withdrawal. The Plan permits hardship withdrawals of before-tax contributions in accordance with Internal Revenue Code ("IRC") requirements.

Notes Receivable from Participants

Participants may borrow from their vested fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of a Participant's account balance. The loans are secured by the balance in the Participant's account and bear interest at a rate commensurate with the interest rate charged by area banking institutions for loans made under similar circumstances. The period for loan repayment cannot exceed 5 years from the date of the loan, unless the loan is for the purchase of a principal residence, in which case the repayment period cannot exceed 10 years. Principal and interest are paid ratably through payroll deductions.

NOTE A - DESCRIPTION OF THE PLAN - Continued

Forfeitures

Forfeitures of a terminated Participant are required to be held by the Plan pending the Participant's possible return to employment and reinstatement in the Plan. If reinstatement does not occur by the end of the year following the year during which the Participant terminated employment, such forfeitures are reallocated to Participants on a pro rata basis. For the years ended December 31, 2010 and 2009, the balance of the forfeiture account was approximately $130,000 and $125,000, respectively. In 2010, no forfeitures were reallocated to Participants.

Administrative Expenses

Certain transactional charges are charged to the Plan in accordance with Plan provisions. All other expenses of maintaining the Plan are paid by the Company.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared under the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The contract value of the Plan's benefit-responsive investment contract (Prudential Retirement Insurance and Annuity Company ("Prudential") Guaranteed Income Fund) approximates fair market value for the year ended December 31, 2009. The statement of net assets available for benefits at December 31, 2010, presents the fair value of the investment in the collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract-value basis.

Adoption of New Accounting Guidance

In January 2010, the Financial Accounting Standards Board ("FASB") issued a pronouncement that requires new disclosures and reasons for transfers of financial assets and liabilities between Level 1 and Level 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and those disclosures should include a discussion of inputs and valuation techniques. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances and settlements instead of netting these charges. With respect to matters other than Level 3 measurements, the amendment is effective for periods beginning after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning after December 15, 2010. The Plan adopted the required disclosures.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Adoption of New Accounting Guidance - Continued

In September 2010, the FASB issued an amendment, "*Plan Accounting - Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans*," which provides guidance on how loans to participants should be classified and measured by defined contribution plans. That guidance requires participant loans to be classified as notes receivable from participants, which are segregated from Plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The Plan adopted this new guidance in its December 31, 2010 financial statements and has reclassified participant loans of $1,584,380 for the year ended December 31, 2009, from investments to notes receivable from participants. Net assets of the Plan were not affected by the adoption of the new guidance.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note D for a discussion of fair value measurements.

Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis.

Realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits as net appreciation in fair value of pooled separate accounts and mutual funds.

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect Participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

NOTE C - INVESTMENTS

The fair market value of investments that represent 5% or more of the Plan's net assets as of December 31, 2010 and 2009, are as follows:

	2010	2009
Pooled separate accounts		
Aronson, Johnson, Ortiz Large Cap Blend Fund	N/A	$ 2,916,896
Wellington Management Balanced Fund	N/A	3,576,842
Guaranteed income account		
Guaranteed Income Fund	N/A	25,102,674
Collective trust fund		
T. Rowe Price Stable Value Fund	$24,782,810*	N/A
Mutual fund		
T. Rowe Price Dividend Growth Fund	3,235,743	N/A

*Fair value of the T. Rowe Price Stable Value Fund is $25,712,155 at December 31, 2010.

NOTE D - FAIR VALUE MEASUREMENTS

The FASB has issued guidance that establishes a framework for measuring fair value under current accounting pronouncements that require or permit fair value measurement and enhances disclosures about fair value measurements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date in the principal or most advantageous market for the asset or liability. Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk.

Guidance establishes a three-tiered hierarchy of inputs to establish a classification of fair value measurements for disclosure purposes. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are as follows:

Level 1 - Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 - Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including the following:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.

NOTE D - FAIR VALUE MEASUREMENTS - Continued

- Inputs other than quoted prices that are observable for the assets or liabilities (including volatilities).

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs are unobservable for the asset or liability (including the entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability) and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Plan management uses the following methods and significant assumptions to estimate fair value of investments:

Pooled separate accounts - Valued at the net asset value provided by the administrator of the fund. The net asset value is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

Mutual funds - Valued at the net asset value of shares held by the Plan at year-end, which is obtained from an active market.

Guaranteed Income Fund - Valued at contract value, which approximates fair value.

Collective trust - Valued at the net asset value, which is based on the Plan's interest in the collective trust based on information reported by the investment advisor using the audited financial statements of the collective trust.

Investments valued at net asset value as a practical expedient as of December 31, 2010, consisted of the T. Rowe Price Stable Value Fund. This fund seeks to preserve principal investment while earning interest income. The fund will try to maintain a stable $1 unit price, but it cannot guarantee that it will be able to do so. The yield of the fund will fluctuate. The fund invests in investment contracts (wrap contracts) issued by insurance companies and other financial institutions, fixed income securities and money market funds to provide daily liquidity.

The net asset value of the fund is determined using the market value or fair value, if market data is unavailable, of the underlying securities. The fund allows for daily liquidity with no additional days' notice required for redemption for participant-directed transactions. Were the Plan to initiate a full redemption of the fund, the investment advisor reserves the right to temporarily delay withdrawal from the trust for up to 12 months in order to ensure that securities liquidations will be carried out in an orderly manner.

NOTE E - INVESTMENT CONTRACT WITH INSURANCE COMPANY

Through February 25, 2010, the Plan participated in a contract with Prudential through an investment in the Prudential Guaranteed Income Fund.

Under the contract that supports this group annuity product, Participants could ordinarily direct the withdrawal or transfer of all or a portion of their account balance at contract value. Contract value represented contributions made under the contract, plus earnings, less withdrawals and fees. When establishing interest crediting rates for this product, Prudential considered many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer's general account. These rates were established without the use of a specific formula. The minimum crediting rate under the contract was 1.5%.

The contract value of the benefit-responsive investment contract approximates fair market value for the year ended December 31, 2009. The Plan administrator does not believe that there are any events that would limit the Plan's ability to transact at contract value.

Interest is credited on contract balances using a single portfolio approach. Under this methodology, a single interest crediting rate is applied to all contributions made to the product regardless of the timing of those contributions. Interest crediting rates are reviewed on a semi-annual basis for resetting.

	2009
Average yields for Prudential Guaranteed Income Fund	
Based on actual earnings	2.5%
Based on interest rate credited to Participants	2.5

NOTE F - INFORMATION CERTIFIED BY THE CUSTODIAN AND TRUSTEES

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Prudential and Prudential Bank & Trust, F.S.B., the custodian and trustee, respectively, of the Plan from December 31, 2009 through February 25, 2010, and T. Rowe Price Trust Company, the trustee effective February 26, 2010 through December 31, 2010, have certified the investments of the Plan. The custodian and trustees have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2010 and 2009, except for the adjustment from fair value to contract value for fully benefit-responsive investment contracts through a collective trust at December 31, 2010.

- Investment (loss) income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2010.

- Schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2010.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE G - TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Employer by a letter dated January 13, 2011, that the Plan and related trust, as then designed, are in accordance with applicable sections of the IRC. The Plan administrator believes that the Plan is designed and is currently being operated, in all material respects, in accordance with the applicable sections of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any periods in progress. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2008.

NOTE H - RELATED-PARTY TRANSACTIONS

During the year ended December 31, 2010, certain Plan investments were managed by Prudential and T. Rowe Price Trust Company or an affiliate of Prudential or T. Rowe Price Trust Company. Prudential and T. Rowe Price Trust Company are the custodian and trustee, respectively, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE I - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, Plan accounts will become fully vested in the Employer contribution portion of their accounts.

NOTE K - SUBSEQUENT EVENTS

The Plan evaluates subsequent events occurring between the most recent balance sheet date and the date that the financial statements are available to be issued in order to determine whether the subsequent events are to be recorded in and/or disclosed in the Plan's financial statements and notes. As of October 10, 2011, no disclosure for subsequent events is required.
