(1) Description of Plan

The following description of the Eye Health of Ft. Myers, Inc. and Affiliated Cos. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document and adoption agreement for a more complete description of the Plan's provisions. The Plan was adopted effective January 1, 1997 and is sponsored by Eye Health of Ft. Myers, Inc. and Affiliated Cos. (collectively "the Company").

(a) General

The Plan is a defined contribution plan generally covering all employees of the Company who have attained age 21 and completed 3 months of service. Eligible employees may make elective deferrals to the Plan and receive discretionary matching contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Contributions

Each year, participants may make elective salary deferral contributions, in whole percentages, up to the maximum amount allowable by law, as defined by the Plan. Participants may also contribute amounts representing rollover distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a variety of mutual funds as investment options for participants. The Company may contribute a discretionary matching amount determined by the Company at the end of the Plan year. The Company may also make discretionary, nonelective contributions to the Plan. During 2010 and 2009, the Company did not make any discretionary matching or nonelective contributions. Employer contributions, if any, are also invested at the direction of the participant.

(c) Participant Accounts

Each participant's account is credited with the participant's contribution, the Company' matching contributions and an allocation of Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Plan participants have daily access to their account via phone or internet and may change the allocation of their investments to any of the several investment options offered by the Plan.

(Continued)

(d) Vesting

Participants are immediately vested in their salary deferral contributions and the Company's discretionary matching and nonelective contributions, plus actual earnings thereon.

(e) Participants Loans

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the rate of prime plus two percentage points. Principal and interest is paid ratably through weekly payroll deductions over a term not to exceed five years.

(f) Payment of Benefits

On termination of service, death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in their account or periodic payments not to exceed the participant's life expectancy. A participant may also elect a direct rollover to a qualifying plan. The Plan also allows for hardship withdrawals as defined in the Plan document.

(2) Summary of Significant Accounting Policies

(a) Accounting Basis

The financial statements of the Plan are presented on the accrual basis of accounting.

(b) Payment of Benefits

Benefits are recorded when paid.

(c) Financial Accounting Standards

In June 2009, the Financial Accounting Standards Board (FASB) issued authoritative guidance establishing two levels of U.S. generally accepted accounting principles (GAAP) - authoritative and nonauthoritative - and making the Accounting Standards Codification (ASC) the source of authoritative, nongovernmental GAAP, except for rules and interpretive releases of the Securities and Exchange Commission. This guidance, which was incorporated into ASC Topic 105 - *Generally Accepted Accounting Principles*, was effective for interim and annual periods ending after September 15, 2009. The adoption changed certain disclosure references to U.S. GAAP, but did not have any other impact on the Plan's financial statements.

(Continued)

Participant loans have historically been classified as investments and measured at fair value in the Plan's statement of net assets available for plan benefits. However, in September 2010, the FASB issued Accounting Standards Update (ASU) No. 2010-25, *Plan Accounting - Defined Contribution Pension Plans (ASC Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans*. ASU No. 2010-25 requires participant loans to be classified as notes receivable from participants and measured at their unpaid principal balances plus any accrued but unpaid interest. ASU No. 2010-25 is effective for years ending after December 15, 2010, with early adoption permitted. The guidance in ASU No. 2010-25 has been applied retrospectively to the Plan's 2009 statement of net assets available for plan benefits.

(d) Valuation of Investments

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 11 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(e) Estimates in Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

(3) Investments

The fair value of individual investments that represent 5% or more of the Plan's net assets available for plan benefits as of December 31, 2010 and 2009, are as follows:

		2010	2009
Alliance Bernstein Growth and Income Fund Class A	$	138,170	110,965
Invesco S&P 500 Index Fund Class A	$	429,979	n/a
Invesco Van Kampen Capital Growth Fund Class A	$	299,970	205,507
Morgan Stanley Focus Growth Fund Class A	$	298,787	236,304
Morgan Stanley Global Strategist Fund Class A	$	179,884	145,340
Oppenheimer Global Fund Class A	$	92,370	72,168
Morgan Stanley Liquid Asset Fund	$	n/a	84,187
Morgan Stanley S&P 500 Index Fund A	$	n/a	342,474

(4) Information Certified by Trustee

The following is a summary of the unaudited information included in the Plan's financial statements that was prepared or derived from information prepared by State Street Bank and Trust Company. The plan administrator has obtained a certification from the trustee that the information is complete and accurate as of December 31, 2010 and 2009 and for the year ended December 31, 2010:

		2010	2009
Shares of registered investment companies	$	1,809,014	1,434,870
Participant contributions receivable	$	11,432	11,880
Participant loans	$	46,370	21,995
Net change in fair value of investments	$	248,980	n/a
Interest income on participant loans	$	2,359	n/a

The trustee's certification also covers the information presented in note 3 and the information included in the accompanying supplemental schedule of assets held for investment purposes at end of year.

(5) Income Tax Status

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the prototype plan was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal and state taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

(6) Party-in-Interest Transactions

Certain administrative expenses of the Plan, such as professional fees, may be paid directly by the Company.

(7) Excess Contributions

During the years ended December 31, 2010 and 2009, certain highly compensated employees contributed amounts that exceeded certain IRS limits. These contributions were refunded to the participants as taxable income in the following plan year. Participant contributions for the year ended December 31, 2010 are net of excess deferral contributions returned to participants totaling $31,753.

(8) Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for plan benefits per the financial statements as of December 31, 2010 and 2009 to Form 5500:

	2010	2009
Net assets available for plan benefits per the financial statements	$ 1,835,063	1,433,141
Less participant contributions receivable	(11,432)	(11,880)
Plus excess contributions payable	31,753	35,604
Net assets available for plan benefits per Form 5500	$ 1,855,384	1,445,021

The following is a reconciliation of contributions per the financial statements for the year ended December 31, 2010 to Form 5500:

Total contributions per financial statements	$ 153,778
Plus contributions receivable at December 31, 2009	11,880
Less contributions receivable at December 31, 2010	(11,432)
Plus excess contributions payable at December 31, 2010	31,753
Total contributions per Form 5500	$ 185,979

(9) Plan Termination

Although it has expressed no intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

(10) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

(11) Fair Value Measurements

FASB ASC Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the net asset value of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
