VEOLIA ES TECHNICAL SOLUTIONS 401(K) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS December 31, 2010 and 2009

NOTE 1 - Description of the Plan

The following description of the Veolia ES Technical Solutions 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the summary plan description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Veolia ES Technical Solutions, LLC (the "Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All employees who have completed at least 90 days of service with the Company, as defined in the Plan, and are age 18 or older are eligible to participate. Upon enrollment in the Plan, a participant may direct employer and employee contributions to any combination of available investment options.

Contributions

Each year, participants may contribute up to 75% of pretax annual compensation (salary reduction contributions), as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). The company matches 50% of the participant's contribution, up to 6% of eligible compensation. Contributions are subject to certain limitations as established by the Internal revenue Code of 1984, as amended.

Participant Accounts

Each participant's account is credited with the participant's salary reduction contributions, rollover contributions and an allocation of the company's contributions and plan earnings (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their salary reduction and rollover contributions plus earnings thereon. Participants who leave the Plan because of death, early or normal retirement, or disability retirement, as defined in the Plan, are considered 100% vested. Company matching contributions and earnings thereon vest in accordance with provisions of the Plan as follows:

<u>Vesting Years of Service</u>	<u>Percentage Vested</u>
1	20%
2	40%
3	60%
4	80%
5	100%

VEOLIA ES TECHNICAL SOLUTIONS 401(K) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS December 31, 2010 and 2009

NOTE 1 - Description of the Plan

Forfeited Accounts

As of December 31, 2010 and 2009, forfeited nonvested accounts totaled \$1,301 and \$119,748, respectively. These accounts will be used to reduce future company contributions. For the year ended December 31, 2010, Company contributions were reduced by \$186,657 from forfeited nonvested accounts.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the plan agreement. The Plan provides for normal retirement at age 65 and inservice withdrawals can begin on or after attaining age 59 1/2. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment, installments, or an annuity. Participants experiencing financial hardship may withdraw a portion of this account balance as defined in the Plan.

The Plan provides for an automatic payout in the form of a single lump-sum distribution to participants that have account balances with a value of \$5,000 or less upon termination of employment. If a participant's account balance exceeds \$5,000, he or she may elect to defer payment. Notwithstanding, distributions shall commence following a participant reaching age 70-1/2.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. These loans are secured by the balance in the participant's account. The loans bear interest at rates that range from 3.25% to 9.25%, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through payroll deductions.

In September 2010, the Financial Accounting Standards Board (FASB) released Accounting Standards Update (ASU) 2010-25, Reporting Loans to Participants by Defined Contribution Pension Plans. The ASU clarifies how loans to participants should be classified and measured by defined contribution pension benefit plans. Participant loans were previously classified as investments at fair value. The ASU requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. As required under the ASU, the Plan has retrospectively adopted the ASU for the Plan year ended December 31, 2009.

The adoption of the ASU impacted the classification of participant loans on the statement of net assets available for benefits, but had no impact on net assets available for benefits.

Termination of Plan

Although it has not expressed any intent to do so, the company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

VEOLIA ES TECHNICAL SOLUTIONS 401(K) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS December 31, 2010 and 2009

NOTE 1 - Description of the Plan

Administrative Expenses

The company pays a portion of the Plan's administrative expenses.

Reclassification

For comparability, certain 2009 amounts have been reclassified to conform with classifications adopted in 2010.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are valued at fair value using quoted market prices. Fully benefit responsive guaranteed investment contracts are recorded at contract value.

Net appreciation or depreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represents the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

The plan invests in mutual funds that determine their fair value using the net asset value (NAV) of the funds. The NAV is determined by each fund's trustee using the fair value of the underlying securities within the fund at year end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

VEOLIA ES TECHNICAL SOLUTIONS 401(K) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS December 31, 2010 and 2009

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Risks and Uncertainties

The Plan invests in various mutual funds and group annuity contracts. Investments, in general, are subject to various risks, including credit, interest, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in values of investment securities will occur in the near term, and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Fair Value of Financial Instruments

Accounting Standards Codification ("ASC") Topic 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- > Quoted prices for similar assets or liabilities in active markets;
- > Quoted prices for identical or similar assets or liabilities in inactive markets;
- > Inputs other than quoted prices that are observable for the asset or liability;
- > Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The plan sponsor is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the plan sponsor has not historically adjusted the prices obtained from the pricing services.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Subsequent Events

Management has evaluated the impact of all subsequent events through October 14, 2011, the date the Plan's financial statements were available to be issued, and determined that all subsequent events have been appropriately recognized and disclosed in the accompanying financial statements. Management feels that no such material events occurred subsequent to year end that would require disclosure.

NOTES TO FINANCIAL STATEMENTS December 31, 2010 and 2009

NOTE 3 - Information Prepared and Certified by Trustee (Unaudited) (cont.)

During the year ended December 31, 2010, the Plan's investments (including gains and losses on investments bought, sold, and held during the year) appreciated in value as follows:

Mutual funds - net appreciation	\$ 9,330,073
Group annuity contract interest	691,553
Interest on notes receivable from participants	<u>118,094</u>
Net Investment Income Certified by Trustees	<u>\$ 10,139,720</u>

The following is a description of the valuation methodologies used for the Plan's investments measured at fair value as of December 31, 2010.

Mutual Funds: Values at the net asset value ("NAV") of shares held by the plan at year end.

Group annuity contract: Valued at fair value, by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

There have been no changes in the valuation methodologies used during the year ended December 31, 2010.

The table below presents the balances of investments held by the Plan measured at fair value on a recurring basis by level within the hierarchy.

NOTE 4 - ING Fixed Account

The Plan offers an investment option of an ING Group Annuity Contract which is a benefit-responsive investment contract. This type of investment is designed to allow the fund to maintain a constant net asset value ("NAV") and to protect the funds in extreme circumstances. ING maintains the contributions in a general account, which is credited with earnings and charged for participant withdrawals and administrative expenses. ING is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The contract accrues interest using a formula called the "crediting rate." Interest is credited to accounts on a daily basis. Once credited, the interest becomes a part of principal; therefore, plan accounts earn compound interest. The contract provides a guarantee that the crediting rate will not fall below 3.40% in 2010 and 2009. The crediting interest rate was 3.75% at December 31, 2010 and 2009. The average yield was 3.75% for the years ended December 31, 2010 and 2009.

An investment contract is generally valued at contract value, rather than fair value, to the extent it is fully benefit-responsive. Contract value, as reported to the Plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are currently no reserves against contract values for credit risk of the contract issuer.

NOTES TO FINANCIAL STATEMENTS December 31, 2010 and 2009

NOTE 4 - ING Fixed Account (cont.)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g. divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan, or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

An issuer may change or terminate a contract at any time. In the event that the market value of the fund's covered assets is below their contract value at the time of such termination, ING may pay out the full value without fees or market value adjustments.

NOTE 5 - Amount Owed to Participants Withdrawing From the Plan

No amounts were owed to participants who have withdrawn from the Plan as of December 31, 2010 and 2009, respectively.

NOTE 6 - Parties In Interest

Certain plan investments are shares of mutual funds managed by the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to \$10,071 for the year ended December 31, 2010.

NOTE 7 - Tax Status

The Plan obtained its latest determination letter on December 18, 2003, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The plan administrator believes that the Plan, as amended, is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt at the financial statement date.

NOTES TO FINANCIAL STATEMENTS December 31, 2010 and 2009

NOTE 7 - Tax Status (cont.)

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there were no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2007.

NOTE 8 - Excess Contributions

Participant contributions include excess contributions which will be refunded to participants subsequent to year end as the contributions were determined to be in excess of maximum contribution levels allowed under the IRC. A liability for excess contributions payable in the amount of \$268,704 and \$223,691 has been reflected in the accompanying statements of net assets available for benefits as of December 31, 2010 and 2009, respectively.

NOTE 9 - Transfers Out of Plan

Effective December 31, 2010, the Plan merged with and into the Veolia Environmental Services North America Corp. 401(k) Retirement Plan (the "VESNA Plan"), formerly known as Veolia ES Solid Waste 401(k) Retirement Plan. As part of this merger, the Plan's remaining net assets of \$99,504,180 have been transferred out of the Plan in January, 2011 and a corresponding payable to the VESNA Plan has been recorded on the Statement of Net Assets Available for Benefits as of December 31, 2010.

Subsequent to year end, on January 1, 2011, the Company and designated subsidiaries became a participating employer in the VESNA Plan and adopted the provisions of the Plan.

NOTE 10 - Reconciliation of Financial Statements to Schedule H Form 5500

The financial statements have been prepared using the accrual method of accounting while the Plan's form 5500 has been prepared on the modified cash-basis method of accounting. The reconciliation between the financial statements and form 5500 are as follows:

	2010	2009
