INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of
The Aftercare Nursing Services, Inc.
Employee Stock Ownership Plan

We have audited the accompanying statements of net assets available for benefits of Aftercare Nursing Services, Inc. Employee Stock Ownership Plan as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Aftercare Nursing Services, Inc. Employee Stock Ownership Plan as of December 31, 2010 and 2009, and the changes in its net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description and Basis of Presentation

The following brief description of the Aftercare Nursing Services, Inc. Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

Aftercare Nursing Services, Inc. (the Company) established the Aftercare Nursing Services, Inc. Employee Stock Ownership Plan effective as of January 1, 1992. As of January 1, 2001, the Plan was amended and operates, in relevant part, as a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e) (7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act (ERISA). The Plan is administered by the Employee Benefits Administration Committee comprising up to three persons appointed by the Aftercare Nursing Services, Inc. Board of Directors.

During November 1993, September 1997 and September 1999, the Plan purchased the Company Class A common shares using the proceeds of acquisition loan borrowings guaranteed by the Company, and holds the common stock in a trust established under the Plan. The borrowings were repaid over a period of years by fully deductible Company contributions to the trust fund. As the Plan made each payment of principal, an appropriate percentage of stock was allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The borrowings were collateralized by the unallocated shares of common stock and were guaranteed by the Company. The lender has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan for the years 2010 and 2009 present separately the assets and liabilities and changes therein pertaining to:

(a) the accounts of employees with vested rights in allocated common stock (allocated) and

(b) common stock not yet allocated to employees (unallocated).

Eligibility

Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan after one year of service providing they worked at least 500 hours during such plan year. Participants who do not have at least 1,000 hours of service during such plan year or are not employed on the last working day of a plan year are generally not eligible for an allocation of Company contributions for such year.

Note 1. Plan Description and Basis of Presentation (continued)

Payment of Benefits

No distribution from the Plan will be made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company and its participating subsidiaries. Distributions are made in cash.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. During 2010 and 2009 the Company repurchased from participants 1,268 and 1,565 shares, respectively, at prices determined annually from the independent appraisal.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated shares for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the Employee Benefits Administration Committee shall direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation.

Note 1. Plan Description and Basis of Presentation (continued)

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20% per year after three years of service and are 100% vested after seven years of service. The vested percentage of the account of a participant who completes one hour of service on or after January 1, 2007 is 20% per year after two years and are 100% vested after six years of service.

Put Option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. The Plan was amended during 2001 to permit other eligible qualified plan participants to diversify up to 25% of their account balance into other, non company related, marketable securities. Diversification is offered to each eligible participant over a 6 year period. In each of the first 5 years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution.

Participant Accounts and Forfeitures

Employer contributions and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Forfeitures of terminated nonvested account balances allocated to remaining active participants at December 31, 2010 and 2009 totaled $159,561 and $108,479, respectively. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participant's beginning of the year account balances.

Note 1. Plan Description and Basis of Presentation (continued)

Benefits Payable

The Plans third party administrator determines annually the amounts payable in the succeeding year to prior plan participants. Accordingly the amounts payable at December 31, 2010 and 2009 to prior plan participants, totaled $74,131 and $91,142, respectively.

Reclassification

Certain amounts in the 2009 financial statements have been reclassified to conform with the 2010 presentation.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

Subsequent Events

The plan has evaluated subsequent events through October 6, 2011, the date the financial statements were available to be issued.

Cash and Cash Equivalents

For the purposes of the financial statements, the Company considers all highly liquid investments available for current use with an initial maturity of three months or less to be cash equivalents. This includes all money market accounts.

Note 2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition and Fair Measurements

The Plan Administrator is responsible for maintaining adequate records to disclose the interest in the Trust Fund of each Participant and Beneficiary under the Plan. These records include individual Accounts (including a company stock account for each participant), and credits and changes are made to these accounts. Distributions are charged to participants accounts as paid. The value of the trust fund is computed by the Trustee as of each valuation date. The value fair of any company common stock held is valued at fair value based upon an independent appraiser as of the close of business on each valuation date. This appraisal was based upon combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of Company assets and liabilities. The fair market value of company common stock held by the Trust is determined on a per share basis for each share of company common stock.

If available, quoted market prices are used to value investments. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Dividend income is accrued on the ex-dividend date.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.

The shares of company common stock are valued at estimated fair value on December 31, 2010 and 2009.

Accounting Change

Effective January 1, 2008 the Plan Administor changed the accounting for plan distributions. Previously, plan distributions were recorded as paid. Effective January 2008 plan distributions are recorded as earned. As a result of this change, 2009 distributions of $120,214 were actually accrued as of December 31, 2008.

Note 3. Tax Status

The Internal Revenue Service had determined and informed the Company by a letter dated September 11, 2002, that the Plan was qualified and that the trust established under the Plan was tax-exempt, under the appropriate sections of the Code. The Plan has been amended since receiving the initial determination letter, and the Internal Revenue Service has determined and informed the Company by letter dated September 4, 2007, that the Plan is qualified and that the trust established under the Plan is tax exempt, under the appropriate sections of the Code.

Note 3. Tax Status (continued)

The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Note 4. Administration of Plan Assets

The Plan's assets, which consist principally of Aftercare Nursing Services, Inc. class A common shares, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, which is reimbursed to the Trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

During 2010 and 2009, the Company elected to repurchase ESOP shares directly from eligible beneficiaries, and holds them as treasury stock. At December 31, 2010 and 2009 the Company held 13,031 and 11,763 shares of ESOP stock, respectively, as treasury stock.

Note 5. Investments

The Plan's investments are comprised of company stock. These investments, at December 31, 2010 and 2009, are presented in the following tables. Investments that represent 5% or more of the plan's net assets are separately identified.

	2010 Allocated	2009 Allocated
Aftercare Nursing Services, Inc. Common Stock:		
Number of shares	27,006	28,274
Cost	$ 3,138,043	$ 3,285,576
Fair value	$ 1,563,652	$ 1,685,136

Note 6. Employer Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan.
