Report of Independent Auditors

The Employee Benefits Fiduciary Committee
Molex Incorporated Employees' 401(k) Savings Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the Molex Incorporated Employees' 401(k) Savings Plan as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Principal Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

December 31, 2010 and 2009, and Year Ended December 31, 2010

1. Description of the Plan

The following description of the Molex Incorporated Employees' 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined-contribution plan covering all regular employees (excluding leased employees, independent contractors, and seasonal and temporary employees) of Molex Incorporated (the Company) upon the first day of the calendar quarter coincident with, or next following, their dates of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Employees employed by the Company because of an acquisition shall not be eligible to participate in the Plan unless specific action to cover such employees is taken by the Company.

In 2007, the Company acquired Polymicro Technologies, LLC (Polymicro). Employees of Polymicro became eligible to participate in the Plan effective January 1, 2009.

Effective December 31, 2010, the Plan was merged into the Molex Incorporated Retirement and Savings Plan (the Molex Plan). Accordingly, plan assets of \$168,112,103 were transferred into the Molex Plan. The notes to the financial statements are presented and apply to the Plan prior to the merger.

Contributions

Participant contributions to the Plan are made with pretax dollars. Participants may contribute through payroll whole percentages of their compensation for the plan year up to a maximum of 25% of total compensation, as defined, subject to Internal Revenue Code (the IRC) limitations. Participants may also contribute amounts representing distributions from other qualified plans. For each plan year, an employer matching contribution is made each payroll period at a percentage determined in the sole discretion of the Board of Directors. For the years ended December 31, 2010 and 2009, the Company made a matching contribution equal to 25% of the first 4% of employee deferrals. The Plan also allows participants age 50 or older the ability to contribute catch-up contributions as permitted by the Internal Revenue Service (the IRS).

1. Description of the Plan (continued)

Payment of Benefits

Participants are eligible for a lump-sum distribution of their accounts upon termination of employment or the later of when the participant retires or reaches age 69, unless the participant has become disabled or can demonstrate financial hardship to the Administration Committee. Participants must begin receiving distributions in the year after they attain age 69 or, for nonowners, termination of service if later. Participants age 59 1/2 are eligible to take a withdrawal of their accounts prior to termination of employment.

Vesting

Participants are immediately vested in their contributions and Company contributions plus actual earnings thereon and, therefore, have a nonforfeitable interest in their accounts.

Participant Loans

Upon approval of request, a participant may receive a loan from the Plan. Participants may take loans up to 50% of their account balance, but not less than \$1,000 and up to a maximum of \$50,000. Loans are repaid over a period not to exceed five years, or up to ten years for the purchase of a personal residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator.

Participant Accounts

Each participant has an account, which consists of participant and matching contributions and allocations of earnings thereon, less any investment losses or withdrawals and allocation of plan expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Investments

Participants direct the investment of their accounts into various investment options offered by the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis in accordance with accounting principles generally accepted in the United States.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Administrative Expenses

Investment management and administrative record-keeping expenses of the Plan are paid by the Plan unless the Company elects to pay the expenses.

Investment Valuations and Income Recognition

Investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

2. Summary of Significant Accounting Policies (continued)

New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements* (ASU 2010-06). ASU 2010-06 amended Accounting Standards Codification 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each “class” of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 is effective for reporting periods beginning after December 15, 2009. Since ASU 2010-06 only affects fair value measurement disclosures, adoption of ASU 2010-06 did not affect the Plan’s net assets available for benefits or its changes in net assets available for benefits.

In September 2010, the FASB issued Accounting Standards Update 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU 2010-25). ASU 2010-25 requires participant loans to be measured at their unpaid principal balance plus any accrued but unpaid interest and classified as notes receivable from participants. Previously loans were measured at fair value and classified as investments. ASU 2010-25 is effective for fiscal years ending after December 15, 2010, and is required to be applied retrospectively. Adoption of ASU 2010-25 did not change the value of participant loans from the amount previously reported as of December 31, 2009. Participant loans have been reclassified to notes receivable from participants as of December 31, 2009.

2. Summary of Significant Accounting Policies (continued)

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2009. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Subsequent Events

Management evaluated subsequent events for the Plan through September 30, 2011, the date the financial statements were available to be issued.

3. Investments

All investment information disclosed in the accompanying financial statements, including investments held and notes receivable from participants at December 31, 2010 and 2009, and net appreciation in fair value of investments, interest, dividends, and interest income on notes receivable from participants for the year ended December 31, 2010, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the trustee.

Investments that represent 5% or more of the Plan's net assets at December 31, 2009, are as follows:

	<u>2009</u>
Principal Life Insurance Company pooled separate accounts:	
Bond and Mortgage Separate Account	\$ 10,373,142
Large Cap S&P 500 Index Separate Account	22,816,262

Vanguard Prime Money Market Fund	23,261,242
Vanguard Equity-Income Fund	8,335,061
Vanguard Total Bond Market Index Fund	8,743,992
Neuberger Berman Genesis Trust Fund	18,827,081
American Funds EuroPacific Growth Fund	13,906,156

3. Investments (continued)

During the year ended December 31, 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held, during the year) appreciated in value as follows:

Pooled separate accounts	\$ 7,818,007
Mutual funds	<u>9,265,799</u>
	<u>\$ 17,083,806</u>

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

Molex Incorporated Employees' 401(k) Savings Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

The level in the fair value hierarchy within which the fair value measurement is classified is determined based the lowest level input that is significant to the fair value measurement in its entirety.

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value by the Plan.

Mutual funds: Valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end.

Pooled separate accounts: Valued at NAV provided by the issuer on the last business day of the plan year.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2009:

	Level 1	Level 2	Level 3	Total
Mutual funds:				
Fixed income	\$ 17,079,053	\$ —	\$ —	\$ 17,079,053
U.S. equities	32,065,024	—	—	32,065,024
Money market fund	23,261,242	—	—	23,261,242
International equities	13,906,156	—	—	13,906,156
Pooled separate accounts:				
Balanced (a)	—	33,189,404	—	33,189,404
Lifecycle (b)	—	20,974,012	—	20,974,012
Total assets at fair value	\$ 86,311,475	\$ 54,163,416	\$ —	\$ 140,474,891

(a) This category includes pooled separate accounts with a diverse portfolio of stock, bond, inflation-protected securities, and money market funds designed to deliver stability. These funds seek to provide growth of capital and current income consistent with their current target allocation. There are no redemption restrictions on these investments.

(b) This category includes investments in highly diversified funds designed to remain appropriate for investors in terms of risk throughout a variety of life circumstances. These pooled separate accounts share the common goal of first growing and then later preserving principal and contain a mix of U.S. common stocks, U.S. issued bonds, and cash. There are no redemption restrictions on these investments.

Notes to Financial Statements (continued)

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions set forth in ERISA.

6. Income Tax Status

The Plan has received a determination letter from the IRS dated April 1, 2008, stating that the Plan is qualified under Section 401(a) of the IRC, and therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended and restated, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

7. Related-Party Transactions

The Plan holds units of pooled separate accounts managed by Principal Trust Company, the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA. Fees paid to Principal Trust Company by the Plan in 2010 were \$41,402, which related primarily to the administration of participant loans.

Molex Incorporated Employees' 401(k) Savings Plan

Notes to Financial Statements (continued)

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
