We were engaged to audit the accompanying statements of net assets available for benefits of The Community Hospital Retirement Plan as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended, and supplemental schedules of assets (held at end of year) as of December 31, 2010, and reportable transactions for the year then ended. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 4, which was certified by KeyBank, N.A. and American United Life Insurance Company, the custodians of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodians hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the custodians as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the custodians is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the investment information certified by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The Community Hospital Retirement Plan

Notes to Financial Statements

December 31, 2010

1. Description of the Plan

The Community Hospital Retirement Plan (the Plan) is a noncontributory defined benefit plan, which provides retirement benefits for substantially all employees of the previously existing Community Hospital of Springfield and Clark County (the Hospital), which is now part of Springfield Regional Medical Center. The provisions of the Plan apply to an employee who became a participant on or after January 1, 1989 and before December 31, 2001. All employees participating in the Plan are also fully vested in the assets and benefits of a predecessor plan, which have been included in the accompanying financial statements.

In 2004, Catholic Health Partners (CHP) transferred its membership in Mercy Health System – Western Ohio Region (MHP), and Community Hospital Health Services Foundation (CHF) transferred its membership in the Hospital to Community Mercy Health Partners (CMHP), a newly formed company. CHP and CHF are the corporate members of CMHP each owning 50% of CMHP. CMHP provides management and oversight functions to Springfield Regional Medical Center, a wholly owned entity of CMHP. Sponsorship of the Plan was transferred from the Hospital to CMHP on December 17, 2006.

The Hospital amended the Plan effective December 31, 2001, to freeze participation and benefits. No employee may participate in the Plan after that date, so only eligible employees who were already participants on December 31, 2001, shall earn benefits under the Plan. Benefits became frozen on that date as well, so no years of credited service after 2001 and no compensation earned after 2001 shall count when calculating any participant's benefit. Years of service toward vesting may continue to be earned after 2001.

CMHP has agreed to voluntarily contribute such additional amounts as are necessary to provide assets sufficient to meet the benefits to be paid to Plan members. CMHP's present intention is to make additional contributions to pay for any unfunded plan liability that may result if the Plan were to be terminated. The Plan has met the Employee Retirement Income Security Act of 1974, as amended minimum funding requirements.

Should the Plan terminate at some future time, its net assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Expenses relating to purchases, sales or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. All other administrative expenses are paid by CMHP on behalf of the Plan.

2. Significant Accounting Policies

Information about the Plan agreement, the vesting and benefit provisions, and the PBGC's benefit guarantee is contained in the Plan's Summary Plan Description. Copies of this pamphlet are available from the Human Resources department of CMHP.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Contributions

Employer contributions are accrued in the period in which they become an obligation of the CMHP.

Benefit Payments

Benefit payments to participants are recorded when paid.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price) (see Note 5).

The Community Hospital Retirement Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair Value Measurements

The Plan follows the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement and Disclosure*. Fair value is defined under ASC 820 as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). To measure fair value, a hierarchy has been established that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs. As such, the hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy in ASC 820 are described below:

- Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.
- Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - quoted prices for similar assets and liabilities in active markets
 - quoted prices for identical or similar assets or liabilities in markets that are not active
 - observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means

The Community Hospital Retirement Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

- Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity. Level 3 inputs include management’s own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

New Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update (ASU) 2010-06, *Improving Disclosures about Fair Value Measurements*. ASU 2010-06 amended certain of the disclosures required under ASC 820. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each “class” of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 became effective for reporting periods beginning after December 15, 2009. Since ASU 2010-6 only affects fair value measurement disclosures, adoption of ASU 2010-6 did not affect this Plan’s net assets available for benefits or its changes in net assets available for benefit.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan’s financial statements.

2. Significant Accounting Policies (continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 3) represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on employees' compensation during the last five years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the highest five consecutive years, of the final ten years preceding the valuation date. Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included to the extent they are deemed attributable to employee service rendered to the valuation.

Subsequent Events

Management evaluated subsequent events for the Plan through October 13, 2011, the date the financial statements were available to be issued.

3. Actuarial Present Value of Accumulated Plan Benefits

The Plan's actuary has estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information as of December 31, 2009, was as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving payments	\$ 3,400,001
Other participants	26,605,967
	30,005,968

Nonvested benefits

Total actuarial present value of accumulated plan benefits	14,990
	<u>\$ 30,020,958</u>

The Community Hospital Retirement Plan

Notes to Financial Statements (continued)

3. Actuarial Present Value of Accumulated Plan Benefits (continued)

The changes in accumulated plan benefits between January 1, 2009 and December 31, 2009, were as follows:

Actuarial present value of accumulated plan benefits at beginning of year	\$ 31,926,124
(Decrease) increase during the year attributed to:	
Net actuarial losses accumulated	(1,722,426)
Increase for interest due to the decrease in the discount period	2,450,776
Benefits paid	<u>(2,633,516)</u>
Net decrease	<u>(1,905,166)</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 30,020,958</u>

Significant assumptions underlying the actuarial computations are as follows:

Assumed rate of return	8.0%
Retirement	At normal retirement age (65)
Mortality basis	RP 2000 Mortality table projected to 2008 using scale AA

These actuarial assumptions are based on the presumption that the Plan was frozen effective December 31, 2001. If the Plan were to terminate, different actuarial assumptions and other factors would be applicable in determining the actuarial present value of accumulated plan benefits.

The Community Hospital Retirement Plan

Notes to Financial Statements (continued)

4. Investments

KeyBank, N.A. and American United Life Insurance Company, collectively, the Plan custodians, hold the Plan's investments and execute all investment transactions. All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2010 and 2009, and interest and dividends and net appreciation in the fair value of investments for the years then ended, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Plan custodians.

The Plan's investments (including investments bought, sold, as well as held during the year) appreciated (depreciated) in fair value as follows for the years ended December 31:

	2010	2009
Mutual funds	\$ 2,183,451	\$ 4,332,780
Corporate bonds	23,749	(639,992)
U.S. government agency securities	2,300	—
U.S. treasury securities	18,899	702,201
Net appreciation in fair value of investments	\$ 2,228,399	\$ 4,394,989

The fair value of individual investments that represent 5% or more of the Plan's net assets available for benefit at December 31, was as follows:

	2010	2009
Vanguard 500 Index Portfolio	\$ 12,585,274	\$ 11,979,473
American Pacific Euro Growth Fund	5,374,928	4,912,892
T Rowe Price International Stock Fund	2,650,924	2,347,269

Notes to Financial Statements (continued)

5. Fair Value Measurements

In order to meet the requirements of ASC 820, the Plan utilizes three basic valuation approaches to determine the fair value of its assets and liabilities required to be recorded at fair value. The first approach is the cost approach. The cost approach is generally the value a market participant would expect to replace the respective asset or liability. The second approach is the market approach. The market approach looks at what a market participant would consider an exact or similar asset or liability to that of the Plan, including those traded on exchanges, to be valued at. The third approach is the income approach. The income approach uses estimation techniques to determine the estimated future cash flows of the Plan's respective asset or liability expected by a market participant and discounts those cash flows back to present value (more typically referred to as a discounted cash flow approach).

The global financial markets and banking system are subject to volatility, which could adversely impact the Plan. Certain of the Plan's assets and liabilities are exposed to various risks such as interest rate, market, and credit risks.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2010:

	Level 1	Level 2	Level 3	Total
Money market fund	\$ 447,798	\$ —	\$ —	\$ 447,798
Mutual funds:				
International fund	2,650,924	—	—	2,650,924

U.S. treasury securities	2,020,666	—	—	2,020,666
Unallocated insurance contract	—	266,877	—	266,877
Total	\$ 23,079,590	\$ 7,145,616	\$ —	\$ 30,225,206

The Community Hospital Retirement Plan

Notes to Financial Statements (continued)

5. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2009:

	Level 1	Level 2	Level 3	Total
Money market fund	\$ 424,560	\$ —	\$ —	\$ 424,560
Mutual funds:				
International fund	2,347,269	—	—	2,347,269
Index fund	11,979,473	—	—	11,979,473
Growth fund	4,912,892	—	—	4,912,892
Corporate bonds	—	4,309,287	—	4,309,287
U.S. government agency securities	—	2,520,438	—	2,520,438
U.S. treasury securities	2,210,373	—	—	2,210,373
Unallocated insurance contract	—	294,990	—	294,990
Total	\$ 21,874,567	\$ 7,124,715	\$ —	\$ 28,999,282

Following is a description of the valuation methodologies used for major categories of assets and liabilities measured at fair value:

Mutual funds and money market values – Valued at the closing price reported on the major market on which the individual securities are traded and are classified within Level 1 of the valuation hierarchy. The Plan does not adjust the quoted market price for such financial instruments.

Corporate bonds – Fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows, or published bid-ask spreads and are classified within Level 2 of the valuation hierarchy.

U.S. government agency securities – Fair values are estimated by using pricing models quoted prices of securities with similar characteristics or discounted cash flows, or published bid-ask spreads and they are classified within Level 2 of the valuation hierarchy.

The Community Hospital Retirement Plan

Notes to Financial Statements (continued)

5. Fair Value Measurements (continued)

U.S. treasury securities – are valued at the closing price reported on the major market (over the counter) on which the individual securities are traded and are classified within Level 1 of the valuation hierarchy. The Plan does not adjust the quoted market price for such financial instruments.

Unallocated insurance contract – Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The following is the summary of the inputs and valuation techniques as of December 31, 2010 and 2009, used for valuing Level 2 securities in the portfolio:

Securities	Key Input	Valuation Technique
Corporate bonds	Broker/Dealer	Income
U.S. government agency securities	Broker/Dealer	Market/Income
Unallocated insurance contract	Bond Yields	Income

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

6. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated April 25, 2002, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

The Community Hospital Retirement Plan

Notes to Financial Statements (continued)

6. Income Tax Status (continued)

U.S. generally accepted accounting principles require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more-likely-than-not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for the years prior to 2007.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Community Hospital Retirement Plan
EIN / PN: 31-0722120/ 001
Plan Year: 1/1/2010 to 12/31/2010

FUNDING ASSUMPTIONS

Actuarial assumptions are estimates of the occurrence of future events affecting the costs of the plan such as mortality rates, changes in compensation levels, retirement ages, rates of investment earnings, expenses, etc. The assumptions have been chosen to anticipate the long-range experience of the plan. The enrolled actuary will certify to the reasonableness of these assumptions, as required by ERISA.

The actuarial assumptions used in this year's valuation are as follows:

Target Liability Interest Rates	Segment rates (0.046,0.0665,0.0676)		
Effective Rate	6.65% per annum		
Salary Increases:	N/A		
Mortality:	IRS 2008 Generational Mortality Table		
Turnover:	Sarason Table T-6		
Retirement:	Normal Retirement Age under the plan or attained age at the end of the year, if greater		
Expenses in Target Normal Cost:	\$0 per annum		
Percent Married	80% of participants are assumed to be married		
Percent Electing J&S	Males:	100%	Females: 100%
Spouse Age Difference	Females are 3 years younger than males		

FUNDING METHODS

Valuation Date:	January 1, 2010
Asset Valuation	Plan assets are valued using a 3 year average, within a 90% - 110% corridor, as permitted under Code Section 430 (g)(3)(B).
Liabilities	Liabilities are calculated using the traditional unit credit method in accordance with IRS section 430 and related guidance.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Community Hospital Retirement Plan

EIN / PN: 31-0722120/ 001

Plan Year: 1/1/2010 to 12/31/2010

PLAN PROVISIONS (CONTINUED)

Average Compensation

Compensation averaged over the 5 consecutive years out of the last 10 years prior to his/her Normal Retirement Date producing the highest average prior to termination of employment or retirement.

Normal Retirement Benefit:

The greater of A or B

- A. 2% of Final Average Compensation minus 1.667% of Primary Social Security benefit multiplied by years of Credited Service up to thirty years
- B. The Participant's Employer Account Balance under the Prior Plan accumulated with credited interest to the date of determination

Accrued Benefit:

The amount of the Normal Retirement Benefit multiplied by a fraction, the numerator of which is credited Service up to the date of determination and the denominator of which is the credited Service assuming the participant would have remained employed and accrued Service at the maximum annual rate from his/her Employment Commencement Date until his/her Normal Retirement Date.

In no event will the pension benefit be less than that which can be provided by the Employer Account Balance under the prior plan as of December 31, 1988 with interest to the date of determination

Early Retirement Benefit

Eligibility: A participant's age plus the years of service is equal to 65.

Plan Year: 1/1/2010 to 12/31/2010

PLAN PROVISIONS (CONTINUED)

Pre-Retirement Death Benefit:

Eligibility: Vested Status

Benefit: a monthly benefit equal to the benefit that would have been payable if the participant had retired on the day before his death and elected the 50% Joint and Survivor Annuity Option.

The death benefit for a participant in the Prior Plan with an Employer Account Balance as of December 31, 1988 will be the greater of the death benefit above and that which can be provided by the Employer Account Balance with interest credited to date of death. If a participant is not married at time of death, a death benefit will be paid to his or her beneficiary equal to the Employer Account Balance credited with interest to date of death.

Disability Benefits:

Eligibility: Total and permanent disability

Benefit: The accrued normal retirement benefit as of the date of disablement, with payments beginning on the first of the month coincident with or next following such date. If the participant is eligible to receive disability benefits under a long-term disability program or other disability provided by the Employer, or form Worker's Compensation or any other related program, disability benefits will not be payable until such other disability benefits expire.

Vesting:

Participants will be vested in their accrued benefits, based on Years of Service, in accordance with the following schedule:

<u>Years of Service</u>	<u>Vesting Percent</u>
Less than 5 years	0%
5 years or more	100%

Forms of Benefit Payment:

- a. Life Annuity (Normal Form)
- b. 5-Year Certain and Life Annuity
- c. 10-Year Certain and Life Annuity
- d. 50% Joint and Survivor Annuity with named beneficiary
- e. 66 2/3% Joint and Survivor Annuity with named beneficiary
- f. 100% Joint and Survivor Annuity with named beneficiary
- g. Lump sum (upon eligibility for retirement only)

Optional forms are actuarially equivalent based upon 7.0% interest and the 1971 Group Annuity Mortality Table, for males projected to 1990 by scale D. No age set back for participant, and six years for an eligible beneficiary.

The actuarial basis for lump sum payments is the 1983 GAM Table blended 50% male/50% female and the 30-Year Treasury Bill rate in effect at the beginning of the plan year in which the single sum is payable.

Plan Year: 1/1/2010 to 12/31/2010

Method Change

A change in funding method was made for the above indicated plan year.

Interest Rate Change:

The actuarial value of plan liabilities calculated as of January 1, 2010, has been determined using segment rates as specified in Code Section 430(h)(2)(B) and (C), instead of using the full yield curve as specified in Code Section 430(h)(2)(D).

The IRS has granted automatic approval for these changes for plan years beginning in 2010.
