To the Trustees and Plan Administrator
Perfect Plastic Printing Corporation
401(k) Profit Sharing Plan
St. Charles, Illinois

We were engaged to audit the financial statements of the Perfect Plastic Printing Corporation 401(k) Profit Sharing Plan (the "Plan") as of December 31, 2010 and 2009 and for the year ended December 31, 2010, and the supplementary schedules as of and for the year ended December 31, 2010 as listed in the accompanying table of contents. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note E, which was certified by Nationwide Trust Company, FSB, the Custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplementary schedules. We have been informed by the Plan Administrator that the Custodian holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the Custodian as of and for the years ended December 31, 2010 and 2009 that the information provided to the Plan Administrator by the Custodian is complete and accurate.

Schedule H that accompanies the Plan's Form 5500 filing does not disclose on Line 4a that the employer failed to transmit to the Plan, participant contributions within the time period as described by the Department of Labor's regulations. Disclosure of the information, which is considered material to the financial statements taken as a whole, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The required disclosures omitted from Form 5500 Schedule H, Line 4a are included in these financial statements as supplementary information at page 16.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A--DESCRIPTION OF PLAN

The following brief description of the Perfect Plastic Printing Corporation 401(k) Profit Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is sponsored by Perfect Plastic Printing Corporation (the "Company") for employees that meet specific eligibility requirements. The Plan, designated as a defined contribution plan, was originally established on May 31, 1989, and was restated on March 3, 1992 and May 31, 2002. The Plan provides for contributions to be made under salary deferral agreements pursuant to Section 401(k) of the Internal Revenue Code (the "IRC"). Employees of the Company are eligible to enter the plan on the January 1st or July 1st coinciding with or next following the date the employee has met the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income and Security Act of 1974 ("ERISA"). On May 31, 2007, the Plan was amended to change the plan year-end from May 30th to December 31st.

Contributions

Eligible participants may elect to contribute pre-tax compensation to the Plan by means of a salary deferral agreement up to the maximum amount as permitted by law. At the end of the Plan year, the Company may make a discretionary profit sharing contribution to the Plan in accordance with Plan provisions, and a discretionary matching contribution equal to a percentage of each participant's salary deferral. Contributions are subject to limitations as provided in the IRC and as described in the Plan. Salary deferral contributions are funded proximate to the withholding date, except for those contributions described in Note J. Discretionary contributions are funded annually after the close of the Plan year and within statutory time frames. Participants may also contribute amounts representing distributions from other qualified plans. Additional contributions, designated as "catch up" contributions, may be deferred by those participants who have attained the age of fifty, which are subject to a maximum limit per year as provided in the IRC.

The discretionary matching contribution of the Company is based upon a uniform percentage of each participant's elective salary deferral up to 6% of compensation. This contribution is allocated to those participants who are actively employed on the last day of the Plan year. For the years ended December 31, 2010 and 2009, there was no matching contribution.

All contributions are participant-directed into various investment options offered by the Plan.

The Company did not make any discretionary profit sharing or match contributions for the years ended December 31, 2010 and 2009.

Participant Accounts

Each participant's account is credited or charged, as applicable, with the participant's contribution and allocations of (a) the Company's discretionary contributions, if any, (b) the Plan's net earnings or losses, and (c) the Plan's administrative expenses. Allocations are based on participant earnings or account balances or compensation, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A--DESCRIPTION OF PLAN-continued

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's discretionary contributions plus actual earnings thereon is based on years of credited service. A participant is 100% vested after six years of credited service, in accordance with the following vesting schedule:

Vesting Service	Percentage Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Participants who attain the normal retirement age of 65, or who terminate employment due to death or disability, are 100% vested in their account balances.

Investment Options

Upon enrollment in the Plan, a participant may direct employee and employer contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time. One option of the Plan represents guaranteed investment income with Nationwide Trust Company, FSB (the "Custodian"). The fund has a fixed minimum rate of interest that is adjusted annually. The remaining options represent interests in registered investment companies, which are valued at fair market value as of the last day of the Plan year.

Payment of Benefits

Vested benefits are payable after termination of employment or plan termination. Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments over a period not greater than one's assumed life expectancy.

Upon termination of service for other reasons, a participant with a vested account balance not in excess of $1,000 receives a lump-sum cash distribution as soon as administratively feasible. A participant with vested account balances in excess of $1,000 (not including rollover account balances) may consent within a certain time period to receive a lump sum distribution or annual installments over a period not more than one's assumed life expectancy. A terminated participant with vested account balances in excess of $1,000 may maintain an investment in the Plan, subject to required minimum benefit payments provided by federal regulations.

Participants may also elect to receive hardship withdrawals prior to termination of employment from their deferral contribution account, as defined in Plan provisions.

NOTE A--DESCRIPTION OF PLAN-continued

Forfeitures

During the Plan years ended December 31, 2010 and 2009, forfeited non-vested accounts totaled $6,117 and $4,075, respectively. These amounts can be used to reduce Company contributions or Plan expenses as applicable. For the plan years ended December 31, 2010 and 2009, forfeitures were not used to reduce either employer contributions or Plan expenses.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 reduced by the excess of the highest outstanding balance of loans during the one-year period prior to the date of the loan over the current outstanding balance of loans, or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 3.25% to 8.25%, which are commensurate with local prevailing rates. Loan terms may not exceed 5 years unless the loan is obtained for the purchase of a participant's residence, in which case the loan term is at the discretion of the Plan Administrator. Principal and interest are typically paid ratably through payroll deductions.

NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

As described in FASB ASC 946 *Financial Services – Investment Companies*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by ASC 946, the statement of net assets available for benefits presents the fair value of investment contracts as well as any adjustment to the fully benefit-responsive investment contract from fair value to contract value. At December 31, 2010 and 2009, management deemed that fair value of the investment contract approximated contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Valuation of Investments and Income Recognition

Investments are reported at fair value, except for the guaranteed fixed fund, using quoting market price on the last day of the plan year. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

The BOA – Guaranteed Investment Fund is a guaranteed investment contract that is fully benefit responsive and is stated at fair value on the last day of the Plan year. The custodian computes the fair value of the fund based upon quoted market prices of the underlying securities at year end. Contract value is considered the relevant measurement used in the calculation of participant withdrawals or other permitted transactions under the terms of the plan. Contract value represents the accumulated contributions plus accrued net earnings less distributions. The statement of changes in net assets available for benefits is prepared on contract value basis. See Note D.

NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-continued

Valuation of Investments and Income Recognition-continued

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative expenses

The Company bears the cost of some administrative expenses. The remainder is paid within the Plan. Administrative expenses paid within the Plan are recorded when paid.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and during the reporting period. Actual results could differ from those estimates.

Date of Management's Review

Subsequent events were evaluated through October 14, 2011, which is the date the financial statements were available to be issued.

NOTE C--FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy, consisting of three broad levels, gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

NOTE C--FAIR VALUE MEASUREMENTS-continued

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Should an investment be re-characterized from one level to another level, Plan management would state the basis for the change. Under such circumstances the Plan would report the transfers in and transfers out at the beginning of the Plan quarter when change occurs.

Gains and losses (realized and unrealized) are reported as net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Following is a description of the valuation methodologies used for Plan assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Level I Fair Value Measurements:

The fair value of shares (or units) of registered investment companies are based on quoted net asset values of the shares held in active markets by the Plan at year-end.

Level 3 Fair Value Measurements:

The Guaranteed Investment Fund, which is a fully benefit responsive investment contract, is based upon current yields on quoted prices having comparable durations. Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The valuation represents discounting of related cash flows based on current yields of similar instruments with comparable durations and creditworthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE C--FAIR VALUE MEASUREMENTS-continued

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009.

NOTE D--GUARANTEED INVESTMENT FUND WITH INSURANCE COMPANY

The Plan has entered into a fully benefit-responsive investment contract with the Custodian known as the guaranteed investment fund (the "Fund") who maintains the contributions in a general account under the existing contract. The fund is credited with the accumulation of contributions, plus earnings and/or losses on the underlying investments and charged for participant withdrawals. The Fund is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The Fund is included in the financial statements at contract value at December 31, 2010 and 2009, which approximates fair value, as reported to the Plan and certified by Nationwide Trust Company FSB. Contract value represents contributions made under the contract, plus earnings at the then current guaranteed rate, less participant withdrawals. Participants may direct the withdrawal or transfer of all or a portion of their investment at contract value subject to provisions defined within the contract. There are no reserves for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates for the year ended December 31, 2010 was approximately 3.80% and 3.70%, respectively. The average yield and crediting interest rates for the year ended December 31, 2009, was approximately 4.05% and 3.95%, respectively. The crediting interest rate is announced annually by Nationwide and is guaranteed against change for the twelve months.

Certain remote events limit the ability of the Plan to transact at contract value with the insurance company. Such events include (1) exchanges which are more than 20% of the guaranteed fund, as determined on the date which the amount to be exchanged will be released from the contract (the 20% will be reduced by all exchanges which have been made at book value during the twelve calendar months preceding the date of the exchange) as well as the market value adjustment at the time of the exchange (2) termination of the Plan, partial termination of the Plan, or a merger with another plan (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal, or (4) the Plan Sponsor's election to transfer the entire value of the fund to a successor fund. The Plan Administrator does not believe that the occurrence of any such value event that would limit the Plan's ability to transact at contract value with participants is probable.

NOTE E--INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN (UNAUDITED)

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the Custodian, Nationwide Trust Company FSB, as of December 31, 2010 and 2009 and for the year ended December 31, 2010. Except for comparing such information as certified by the Custodian to information included in the Plan's financial statements and supplementary schedules, the Plan's independent auditors did not perform any auditing procedures on the certified investments.

* 48 and 46 registered investment company options for the years ended December 31, 2010 and 2009, respectively.

Participant-directed investments that represent 5% or more of the Plan's net assets as of December 31, 2010 and 2009 are as follows:

	2010	2009
Participant-directed investments at fair value:		
BOA - Guaranteed Investment Fund	$ 3,011,534	$ 2,887,684
Registered investment companies:

Van Kampen Equity & Income A	549,145	607,509
Growth Fund of America R3	517,568	514,924

During the year ended December 31, 2010, the Plan's investments in registered investment companies (including investments bought, sold and held during each year) appreciated in value by $734,891. Interest earned on the guaranteed investment fund was $111,708 for the year ended December 31, 2010.

NOTE F--TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated September 14, 2001, that the Plan and related trust, as then designed, was in compliance with applicable requirements of the Internal Revenue Code ("the IRC"). Although the Plan has been amended, since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax exempt.

NOTE F--TAX STATUS-continued

The plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress. The plan administrator believes that the plan is no longer subject to income tax examinations for years prior to 2001.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The plan administrator has analyzed tax positions taken by the plan and has concluded that, as of December 31, 2010, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability (or asset) or that would require disclosure in the financial statements.

NOTE G--RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by the Custodian and, therefore, these transactions qualify as party-in-interest transactions.

A third party administrator also performs administrative and recordkeeping services for the Plan and receives fees paid by the Company for these services.

Certain employees of the Company provide administrative services for the Plan and the Company is not reimbursed for their services.

During the year ended December 31, 2010, the Company absorbed a portion of the Plan's administration costs.

NOTE H--RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 at December 31, 2010:

	2010
Net assets available for benefits per the financial statements	$ 9,889,061
Amounts accrued as excess contributions refundable	1,303
Net assets available for benefits per Form 5500- Schedule H	$ 9,890,364

The following is a reconciliation of employee contributions per the financial statements to Schedule H of Form 5500 at December 31, 2010:

	2010
Total employee contributions per the financial statements at December 31, 2010	$ 444,757
Amounts accrued as excess contributions refundable	1,303
Total employee contributions per Schedule H to the Form 5500 at December 31, 2010	$ 446,060

NOTE I--RISKS AND UNCERTANTIES

The Plan's assets are invested directly and indirectly in various investment securities which are purchased or managed by the Custodian. The investments are exposed to various risks such as interest rate, market, and credit risks. The Plan's assets are subject to the changes in value of these underlying investments, including the potential for bankruptcy of one or more of the companies in which they are invested.

The Plan also invests in securities which may have contractual cash flows that include asset backed securities, collateralized mortgage obligations, commercial mortgage backed securities or subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, changes in value, delinquencies or defaults. Shifts in the market's perception of the issuers and changes in interest rates may affect these investments adversely.

Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

The participants who have borrowed from the Plan are all employees of the Company in the Chicago area, and their ability to repay the loans could be affected by the economic conditions in the industry in general, the economic conditions in the Chicago metropolitan area or the economic situation of the Company itself.

NOTE J--PLAN TERMINATION

While the Company has not expressed any intent to terminate the Plan, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, all participants' account balances would become fully vested.
