Independent Auditor's Report

The Administrative Committee
Master Chemical Corporation
Pension Plan and Trust
Perrysburg, Ohio

We were engaged to audit the statements of net assets available for benefits of the Master Chemical Corporation Pension Plan and Trust as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended, and the supplemental schedules of assets (held at end of year) and reportable transactions as of or for the year ended December 31, 2010. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3 to the financial statements, which was certified by The Trust Company of Toledo, trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Significant accounting policies followed in preparing the financial statements of Master Chemical Corporation Pension Plan and Trust (the Plan) are presented below.

Basis of Accounting

The accompanying financial statements of the Plan have been prepared using the accrual method of accounting. Such financial statements present the net assets available for benefits and changes in such assets.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

The net appreciation (depreciation) in fair value of investments includes investments purchased, sold and held during the year. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefit payments to participants or their beneficiaries are recorded upon payment.

Administrative Expenses

The Plan's sponsor, Master Chemical Corporation (the Company), pays all administrative expenses, including all internal costs of administering the Plan.

NOTE 2 - DESCRIPTION OF PLAN

The following is a brief description of the Plan's provisions. Participants should refer to the Plan agreement and "Summary Plan Description" for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Except as discussed in the succeeding paragraph, the Plan provides that all employees of the Company who work 1,000 or more hours per year, have completed six months of service and are at least 20-1/2 years of age are covered under the Plan.

The Board of Directors of the Company approved on December 4, 2003 the decision to freeze all benefits under the Plan effective February 29, 2004, subject to the provisions set forth in ERISA. As a result, all participants who had completed six months of service on or before February 29, 2004, were fully vested in the Plan. Participants cease to accrue additional credit service subsequent to February 29, 2004.

Funding Policy

The Company contributes to the Plan an amount determined annually by actuarial calculation, designed to fund the Plan's normal cost requirement and to amortize the Plan's unfunded liabilities. The Company contributed \$200,000 in 2010 and 2009, which exceeded the minimum funding requirements of ERISA.

Benefits

Under terms of the Plan, participants are eligible for monthly benefit payments upon reaching the normal retirement age of 65 with 10 years of service. Monthly benefit payments are equal to the sum of 30% of average monthly compensation (as defined in the Plan) plus 16% of average monthly compensation in excess of the participant's covered compensation (as defined in the Plan). The normal retirement benefit is reduced by 4% for each year of service less than 25 years.

The Plan provides for early retirement benefits, upon reaching age 55 with 15 years of service, late retirement benefits, and surviving spouse benefits. Upon termination of employment prior to becoming eligible for early or normal retirement benefits, a participant is entitled to a percentage of their normal retirement benefit. This benefit commences at age 65 unless the participant elects to receive a reduced benefit at an earlier date.

The normal method of paying retirement benefits is a monthly payment for the lifetime of the participant, in the form of a qualified joint and survivor annuity, commencing on the participant's normal retirement date. Upon retirement or termination of employment, a participant may, however, elect a lump sum benefit payment. Such form of payment is equal to the actuarial equivalent of the participant's vested accrued benefit.

NOTE 3 - SUMMARY OF INFORMATION CERTIFIED BY THE TRUSTEE

The Trust Company of Toledo is the trustee and investment manager of the Plan and has been granted discretionary authority concerning purchases and sales of investments in the trust fund subject to direction by the Administrative Committee.

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Net assets available for benefits at December 31, 2010 and 2009 of \$4,872,830 and \$4,668,549, respectively.
- Investment income for the years ended December 31, 2010 and 2009 of \$401,763 and \$577,140, respectively.

During the years ended December 31, 2010 and 2009, the Plan's investments appreciated in fair value, as follows:

	<u>2010</u>	<u>2009</u>
Common stocks	\$ 16,426	\$ -
Mutual funds	307,526	506,704
Corporate bonds	<u>1,367</u>	<u>2,091</u>
Net appreciation in fair value of investments	<u>\$ 325,319</u>	<u>\$ 508,795</u>

The fair value of individual investments representing 5% or more of the Plan's net assets available for benefits at December 31, 2010 and 2009, are as follows:

	<u>2010</u>	<u>2009</u>
Money market funds:		
Northern Institutional Prime Obligation Portfolio	\$ -	\$ 585,752
Farmers & Merchants Money Market Savings Deposit	500,000	500,000
Signature Bank Money Market Savings Deposit Fund	500,000	500,000

Mutual funds:		
Vanguard Institutional Index	1,929,364	1,710,778
Harbor International	646,842	586,164

The Plan's independent auditors did not perform any auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

NOTE 4 - FAIR VALUE MEASUREMENTS

Fair Value Measurements, FASB ASC 820-10 (ASC 820-10), defines fair value and establishes a framework for measuring fair value, and expands disclosures about fair value measurements. ASC 820-10 requires the use of valuation techniques that should be consistently applied. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. In that regard, ASC 820-10 establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level of an asset or liability within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets of the Plan measured at fair value at December 31, 2010 and 2009:

Common Stocks: Valued at the latest closing price quoted on active markets.

Mutual and Money Market Funds: Valued at the net asset value of shares held quoted on active markets.

Corporate Bonds: Fair value is estimated using pricing models, quoted prices of securities with similar characteristics, or discounted cash flows except for bonds that are not publicly traded and are valued at cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes the Plan's assets (there were no liabilities) measured at fair value as of December 31, 2010 and 2009, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value:

<u>2010</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

NOTE 5 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to present participants or their beneficiaries.

Calculations of the actuarially determined present value of accumulated plan benefits were made by consulting actuary, Scott C. Otermat & Associates. Significant assumptions underlying the December 31, 2010 and 2009 actuarial calculations include: (a) discount rates based on corporate bond rate yield curves for segmented maturity ranges. The three segmented rates used are 2.94%, 5.82% and 6.46% for the actuarial calculation as of December 31, 2010 and 4.60%, 6.65% and 6.76% as of December 31, 2009, (b) retirement at age 65, (c) assumed mortality rate based on published statistical data which is updated annually to the date of valuation, and (d) no assumed annual salary increases as a result of freezing benefits under the Plan.

The actuarial present value of accumulated plan benefits, as determined by the consulting actuary as of December 31, 2010 and 2009, is summarized as follows:

	<u>2010</u>	<u>2009</u>
Vested benefits:		
Participants receiving benefits	\$ 3,273,277	\$ 2,947,401
Other vested benefits	<u>2,208,542</u>	<u>2,201,165</u>

NOTE 6 - PLAN TERMINATION

Although the Company has frozen the Plan as described in Note 2, it has not taken any action to terminate the Plan. However, it may do so at any time. Under the provisions of ERISA, if the Plan is terminated, all participants become 100% vested in benefits earned as of the termination date. Assets of the Plan will be distributed to all eligible participants in accordance with the priorities established by ERISA. Also, the Company may be obligated to make termination payments to the Plan, and participants may be eligible for continuation of benefits under insurance provided by the Pension Benefit Guaranty Corporation (PBGC). Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

MASTER CHEMICAL CORPORATION PENSION PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 7 - FEDERAL INCOME TAXES

The Internal Revenue Service has issued a favorable determination letter dated January 17, 2002, stating that the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code and is exempt from federal income taxes under Section 501(a). The Plan was amended and restated effective January 1, 2003, however, the plan administrator believes the Plan continues to qualify as a tax-exempt plan.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 9 - SUBSEQUENT EVENTS

Management evaluated subsequent events through October 6, 2011, the date the financial statements were available to be issued. Events or transactions occurring after December 31, 2010, but prior to October 6, 2011 that provided additional evidence about conditions that existed at December 31, 2010, have been recognized in the financial statements for the year ended December 31, 2010. Events or transactions that provided evidence about conditions that did not exist at December 31, 2010 but arose before the financial statements were available to be issued, have not been recognized in the financial statements for the year ended December 31, 2010.

This information is an integral part of the accompanying financial statements.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
