Independent Auditors' Report

Board of Trustees
Radiology, Ltd., P.L.C. Money Purchase Pension Plan
Tucson, Arizona

We have audited the accompanying statements of net assets available for benefits of Radiology, Ltd., P.L.C. Money Purchase Pension Plan (Plan) as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with U.S. generally accepted auditing standards established by the AICPA Auditing Standards Board. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Sponsor's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Radiology, Ltd., P.L.C. Money Purchase Pension Plan as of December 31, 2010 and 2009 and the changes in net assets available for benefits for the year ended December 31, 2010, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held for investment purposes at end of year for the plan year ended December 31, 2010 is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

RADIOLOGY, LTD., P.L.C. MONEY PURCHASE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2010

1. Description of plan:

The following description of the Radiology, Ltd., P.L.C. (Sponsor) Money Purchase Pension Plan (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan, originally established on January 1, 1983, has been amended from time to time. In March 2010, the Plan was restated to adopt the provisions of the Heroes Earnings Assistance and Relief Act (HEART) and the Worker, Retiree, and Employer Recovery Act (WRERA) effective January 1, 2008.

General:

The Plan is a defined contribution retirement plan covering all full-time employees of the Sponsor (except leased employees or nonassociate physicians) who have completed one year of service and are at least 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant contributions:

The Plan does not permit participant contributions. However, with the Sponsor's written consent, a rollover contribution from another qualified plan may be made by or for an eligible employee if certain conditions are met.

Employer contributions:

Employer contributions for a participant shall be equal to 16.44% of participant compensation and 5.4% of the amount of excess compensation. Excess compensation is a participant's compensation in excess of the integration level which is defined as 80% of the social security taxable wage base (\$106,800 for 2010 and 2009). Total contributions may not exceed \$49,000 for 2010 and 2009. The Sponsor's contributions for 2010 and 2009 met the minimum funding requirements of ERISA.

Participants' accounts:

Each participant's account is credited with the employer's contributions and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Vesting of employer contributions and actual earnings thereon is at 20% intervals per year beginning with completion of the participant's second year of service. Participants are fully vested after six years of credited service or upon attaining the Plan's normal retirement age of 62. The Plan defines a year of credited service to be a twelve-consecutive month period with at least 1,000 hours of service. Upon the death or disability of a participant, their account balance shall become fully vested.

RADIOLOGY, LTD., P.L.C. MONEY PURCHASE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEAR ENDED DECEMBER 31, 2010

1. Description of plan (continued):

Payment of benefits:

The Plan requires that upon separation of service due to death, disability, retirement or other reasons, a participant whose vested account balance is less than \$50,000 may take a lump sum distribution as soon as administratively practicable of their vested balance as valued on the last day of the immediately preceding Plan year if known, and if not known, on the last day of the second preceding Plan year. A participant whose vested account balance exceeds \$50,000 may elect to receive one of the following: 80% of their vested balance on or near the first January following the date they become eligible for a distribution, or 70% of their vested balance anytime following the date they become eligible for a distribution. This partial distribution will be based on the participant's vested account balance as valued on the last day of the immediately preceding Plan year if known, and if not known, on the last day of the second preceding Plan year. The remaining vested balance of the participant's account is distributed as soon as administratively practicable following a valuation of the Plan's accounts under either method. All distributions are required to be initiated upon the separated participant's attainment of 62 years of age.

Upon attaining normal retirement age, a participant may take an in-service distribution not exceeding 70% of their vested account balance during the Plan year. All distributions of any amount require the participant's consent.

Forfeitures:

Forfeitures of terminated participants' nonvested accounts are treated as a reduction to the employer's contribution. At December 31, 2010 and 2009, forfeited nonvested accounts totaled \$227,590 and \$177,883. Employer contributions were reduced by forfeited nonvested accounts in the amount of \$71,020 in 2010.

2. Summary of significant accounting policies:

Basis of accounting:

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates:

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Cash and cash equivalents:

The Plan considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

RADIOLOGY, LTD., P.L.C. MONEY PURCHASE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEAR ENDED DECEMBER 31, 2010

2. Summary of significant accounting policies (continued):

Cash and cash equivalents (continued):

The Plan places its cash with a credit institution. At times, such investments may be in excess of the SIPC insurance limit; however, the trustees do not believe the Plan is exposed to any significant credit risk on cash and cash equivalents.

Investment valuation and income recognition:

The Plan's investments are stated at fair value. See Note 4 for discussion of fair value measurements.

Purchases and sales of common stocks, corporate notes and bonds, United States government securities and mutual funds are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net appreciation in fair value of investments includes both realized and unrealized gains and losses on investments bought and sold as well as held during the year.

Payment of benefits:

Benefits paid to participants are recorded when paid.

Subsequent events:

The Plan has evaluated the events that have occurred subsequent to December 31, 2010 through October 14, 2011, the date that the financial statements were available to be issued. The Plan has determined that no events have occurred during this period that require adjustment to or disclosure in the financial statements other than as disclosed in Note 11. Management has no responsibility to update these financial statements for events and circumstances occurring after this date.

3. Federal income tax status:

The Internal Revenue Service has determined and informed the Plan by a letter dated July 16, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended and restated since receiving the determination letter. However, the Plan administrator and the Plan Sponsor believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of December 31, 2010 and 2009.

RADIOLOGY, LTD., P.L.C. MONEY PURCHASE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEAR ENDED DECEMBER 31, 2010

3. Federal income tax status (continued):

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2007.

4. Fair value measurements:

The Plan is subject to the provisions of ASC 820, *Fair Value Measurements and Disclosures*. Fair value is defined as the price to sell an asset or transfer a liability between market participants as of the measurement date. Fair value measurements assume the asset or liability is exchanged in an orderly manner; the exchange is in the principal market for that asset or liability (or in the most advantageous market when no principal market exists); and that the market participants are independent, knowledgeable, able and willing to transact an exchange. The new provisions also clarify that the reporting entity's nonperformance risk (credit risk) should be considered in valuing liabilities.

ASC 820 establishes a framework for measuring fair value by creating a hierarchy for observable independent market inputs and unobservable market assumptions and expands disclosures about fair value measurements. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). Considerable judgment is required in interpreting market data used to develop the estimates of fair value. Accordingly, the estimates presented in the financial statements are not necessarily indicative of the amounts that could be realized in a current market exchange. The use of different market assumptions and estimation methodologies may have a material effect on the estimated fair value.

The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

RADIOLOGY, LTD., P.L.C. MONEY PURCHASE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEAR ENDED DECEMBER 31, 2010

4. Fair value measurements (continued):

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets or active markets that the Plan does not have access to;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

At December 31, 2010, the fair value of assets measured on a recurring basis is as follows:

	<u>Fair value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Common stocks:				
Large cap growth	\$ 11,356,730	\$ 11,356,730

YEAR ENDED DECEMBER 31, 2010

4. Fair value measurements (continued):

At December 31, 2009, the fair value of assets measured on a recurring basis is as follows:

	<u>Fair value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Common stocks:				
Large cap growth	\$ 8,991,911	\$ 8,991,911		
Large cap value	6,682,063	6,682,063		
Small/mid cap growth	2,144,860	2,144,860		
Small/mid cap value	2,639,827	2,639,827		
International equity	6,049,604	6,049,604		
Equities blend	989,935	989,935		
Corporate bonds and notes	16,395,466	16,395,466		
U.S. government securities	2,124,803	2,124,803		
Mutual funds	<u>152,917</u>	<u>152,917</u>		
	<u>\$ 46,171,386</u>	<u>\$ 46,171,386</u>		

The following is a description of the valuation methodologies used for assets measured at fair value:

Common stocks, corporate bonds and notes, U.S. government securities and mutual funds are all valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Investments:

All of the Plan's assets are nonparticipant directed. The Plan has fiduciary contracts with five investment managers as defined under ERISA to manage its portfolios in accordance with the Plan's Investment Policy Statement. The Plan's trustees meet quarterly to review the performance of the Plan's investments.

At December 31, 2010, no investment represented 5% or more of the Plan's net assets. At December 31, 2009, the Plan held \$4,321,956 in the Merrill Lynch CMA Money Fund which represented 5% or more of the Plan's net assets.

Net appreciation in fair value of investments per the financial statements	<u>\$ 3,655,707</u>

The following is a reconciliation of other receivables per Form 5500 to the financial statements for the year ended December 31, 2010:

Other contributions per Form 5500	<u>\$ 323,006</u>
Accrued interest receivable per the financial statements	\$ 312,906
Other receivable per the financial statements	<u>10,100</u>
Cash equivalent funds per Form 5500	<u>\$ 323,006</u>

7. Plan termination:

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

RADIOLOGY, LTD., P.L.C. MONEY PURCHASE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEAR ENDED DECEMBER 31, 2010

8. Related party transactions:

Administrative costs of the Plan related to administration of participant accounts and benefits, accounting and legal fees are paid directly by the Sponsor. During 2010, these expenses were approximately \$72,800.

Certain accounting functions are performed by officers or employees of the Sponsor. No such officer or employee receives compensation from the Plan.

9. Risks and uncertainties:

The Plan invests in securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rate. In addition, the Plan invests in various investment securities that are exposed to risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Reclassifications:

Certain items in the 2009 financial statements have been reclassified to conform to the 2010 financial statement presentation. These reclassifications had no effect on net assets available for benefits at December 31, 2009 or the change in net assets available for benefits for the year then ended.

11. Subsequent event:

In February 2011, the Plan was amended to freeze all contributions to the Plan effective March 15, 2011. At that time, the Sponsor entered into a new adoption agreement that converted the Plan to a profit sharing and 401k plan with safe harbor provisions effective March 16, 2011.
