KMI, INC., EMPLOYEE RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENT
December 31, 2009 and 2008

NOTE A - DESCRIPTION OF PLAN

The following description of the KMI, Inc. Employee Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of the Company working more than 500 hours per year who have one month of service and have reached age twenty. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Assets of the Plan are held by Fidelity Management Trust Company.

Contributions - Each year, participants may contribute up to \$16,500 (\$22,000 if over age 50) of pre-tax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their account among various investment options offered by the Plan. The Plan currently offers a full line of investment options through Fidelity Management Trust Company. The Company match is discretionary. The Company began matching contributions effective January 1, 2007 at a rate of 50% of the employee contribution not to exceed 4% of salary. Employees must be employed on the last day of the plan year to earn a matching contribution. Additional profit sharing amounts may be contributed at the option of the Company's board of directors and are invested in the participant directed accounts at Fidelity Management Trust. Contributions are subject to certain limitations.

Participant Accounts - Each participant has an account with Fidelity Management Trust Company. The participant chooses among the various investment options for the deferral and any Company match and Company discretionary contribution.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is vested 33% for each year of service after the first year.

Participant Loans - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 3.25% to 9.5%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through regularly scheduled payroll deductions.

Payment of Benefits - On termination of service due to death, disability or retirement, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts - At December 31, 2009, forfeited non-vested accounts totaled \$7,451. These accounts will be used to pay Plan expenses.

Plan Administrative Costs - The Plan shares administrative costs with the Plan sponsor, Kvichak Marine Industries, Inc.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Should the investment contract be terminated, surrender charges or adjustments could affect the assets available for benefits. Participant loans are valued at their outstanding balances, which approximate fair value. Purchases and sales of securities are recorded on a trade-date basis.

Payment of Benefits– Benefits are recorded when paid.

NOTE C - INVESTMENTS

NOTE D - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Statement No. 157, *Fair Value Measurements* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Statement No. 157 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- a. Quoted prices for similar assets or liabilities in active markets,
- b. Quoted prices for identical or similar assets or liabilities in inactive markets,
- c. Inputs other than quoted prices that are observable for the asset or liability,
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Registered investment companies: Valued using quoted market prices in an active market.

Pooled separate accounts: Valued at the net asset value of shares held by the Plan at year end.

Participant loans: Valued at amortized cost

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual Funds				
FA Freedom 2020	\$ 482,714	\$ -	\$ -	\$ 482,714

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2008:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual Funds				
Maxim US Government Securities Fund	\$ -	\$ 246,324	\$ -	\$ 1,261,349

Total assets at fair value	<u>\$ -</u>	<u>\$ 1,403,028</u>	<u>\$ 52,378</u>	<u>\$ 1,455,406</u>

During 2009, the Plan's level 1 investments (including gains and losses on investments bought and sold as well as held during the year) appreciated in value by \$419,904 which is reported in the accompanying statement of changes in net assets available for benefits.

The net change in level 3 assets is as a result of the receipt of contributions receivable during 2009 and the net loans to participants during 2009.

NOTE E - RELATED PARTY TRANSACTIONS

There are no related party transactions other than normal participation in the plan by employee-owners.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE G - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated October 9, 2003, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

NOTE G - TAX STATUS (continued)

Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

**NOTE I - RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H
OF FORM 5500**

For the plan year ended December 31, 2009, Schedule H, Form 5500 includes employer contributions receivable and employee contributions receivable of \$5,527 and \$20,400, respectively, not included in the accompanying statement of net assets available for benefits. Employee and employer contributions on Schedule H include these amounts for the year ended December 31, 2009, which are not included in the accompanying statement of changes in net assets available for benefits. For the plan year ended December 31, 2008, the financial statements included employee contributions receivable from the Plan sponsor of \$12,774, not included in Schedule H, Form 5500.

NOTE J – SUBSEQUENT EVENTS

Management has evaluated subsequent events through September 10, 2010, the date on which the financial statements were available to be issued.
