NOTES TO FINANCIAL STATEMENTS

1) Description of Plan

The following description of the Vesta Intermediate Funding, Inc. Profit Sharing Plan & Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General –

The Plan is a defined contribution plan covering all employees of Vesta Intermediate Funding, Inc. (the "Company") who have three months of service, are age 21 or older, have elected to participate, and who are not members of a collective bargaining unit. The plan also includes a profit sharing contribution and a participant deferral election. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

B. Contributions –

Participants may elect to make voluntary pre-tax contributions from 1% up to 90% of their compensation into their participant deferral accounts through payroll deductions in accordance with annual dollar limitations established by the Internal Revenue Code. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The Plan also accepts Roth elective deferrals. The Company contributes 100% of elective deferrals up to 4% of eligible earnings as a safe harbor contribution. Additional amounts may be contributed at the option of the Company. No discretionary contributions were made during the year ended December 31, 2010.

C. Participant Accounts –

A separate account is maintained for each participant. The participants' accounts are invested in common/collective trusts and registered investment companies. The earnings are credited directly to participants' accounts on a daily basis. The participant and Company contributions are invested based upon participant direction. Participants may elect to change the allocation of their contributions and Company contributions among the available funds at any time. Participants are also able to redistribute accumulated contributions and earnings thereon among these funds.

D. Vesting –

Participants are always 100% vested in their deferral contributions and Company safe harbor contributions, plus actual earnings thereon.

VESTA INTERMEDIATE FUNDING, INC.
PROFIT SHARING PLAN & TRUST
Notes to Financial Statements

D. Vesting, Continued –

Participants vest in Company non safe harbor contributions plus earnings thereon in accordance with the following schedule:

<u>Years of Service</u>	<u>Percentage</u>
Less than 1	0%
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants become fully vested upon death while in the employ of the Company, upon disability retirement, upon reaching normal retirement age, or upon termination of the plan.

E. Payment of Benefits –

Upon termination of service due to retirement, disability, or death, a participant or designated beneficiary may elect to receive either a lump sum amount or installments equal to the value of the participant's account balance, subject to the vesting provisions of the Plan. The Plan also provides for hardship withdrawals and in-service withdrawals. Participants are eligible for in-service withdrawals after reaching age 59½ and at any age on account of financial hardship.

F. Forfeitures –

Former participants' nonvested balances in their 401(k) match and discretionary contribution accounts become forfeitable after distribution of the participants' entire vested account balance or after five consecutive "break in service" years (as defined in the Plan). Forfeitures will be used to reduce future Company safe harbor or discretionary contributions or may be used to pay Plan expenses. During 2010, no forfeited nonvested accounts were used to offset Company contributions. As of December 31, 2010 and 2009, there were no unallocated forfeitures.

G. Participant Loans –

Loans are available to participants in amounts up to 50% of their vested account balance with a minimum of \$500 and a maximum of \$50,000. No loans are available from Roth accounts. Loan repayments are required through payroll deductions. Loans bear interest at rates ranging from 4.25% to 10.25% as of December 31, 2010 and 2009. All loans are collateralized by the participant's account balance.

2) Summary of Significant Accounting Policies

A. Basis of Accounting –

The accompanying financial statements have been prepared on the accrual basis of accounting wherein additions to net assets and deductions from net assets are reflected in the period earned or incurred.

B. Estimates –

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

C. Investments –

The Plan's investments were held and managed by Fidelity Management Trust Company for the period October 1, 2010 to December 31, 2010; were held and managed by State Street Bank and Trust Company for the periods June 25, 2010 to September 30, 2010 and January 1, 2009 to January 5, 2009; and were held and managed by JPMorgan Chase Bank N.A. for the period January 5, 2009 to June 25, 2010. All investments are participant-directed as of December 31, 2010 and 2009.

Financial Accounting Standards Board Accounting Standards Codification 820 (FASB ASC 820), *Fair Value Measurement and Disclosures*, establishes a framework for measuring fair value by creating a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). A further description of the inputs used in the valuation of assets and liabilities under the three levels is as follows:

Level 1 – Inputs represent unadjusted quoted prices for identical assets or liabilities exchanged in active markets that the Plan has the ability to access.

Level 2 – Inputs include directly or indirectly observable inputs other than Level 1 inputs such as quoted prices for similar assets or liabilities exchanged in active or inactive markets, quoted prices for identical assets or liabilities exchanged in inactive markets, or other inputs that are considered in fair value determinations of the assets or liabilities.

Level 3 – Inputs are unobservable inputs and are significant to the measurement of assets and liabilities.

VESTA INTERMEDIATE FUNDING, INC.
PROFIT SHARING PLAN & TRUST
Notes to Financial Statements

C. Investments, Continued –

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The Plan's valuation methodologies may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010, and 2009.

- *Common/collective trusts.* Valued at the closing price reported by the trustee.
- *Registered investment companies.* Valued at the net asset value of shares held by the plan at year-end.

Plan assets measured at fair value in the financial statements as of December 31, 2010 are summarized in the following table by level within the fair value hierarchy:

	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
Common/collective trusts \$	-	\$ 266,383	\$ -	\$ 266,383
Registered investment companies	7,389,291	-	-	7,389,291
Total	<u>\$ 7,389,291</u>	<u>\$ 266,383</u>	<u>\$ -</u>	<u>\$ 7,655,674</u>

VESTA INTERMEDIATE FUNDING, INC.

Notes to Financial Statements

C. Investments, Continued –

Plan assets measured at fair value in the financial statements as of December 31, 2009 are summarized in the following table by level within the fair value hierarchy:

	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
Common/collective trusts \$	-	\$ 611,005	\$ -	\$ 611,005
Registered investment companies	5,403,073	-	-	5,403,073
Total	<u>\$ 5,403,073</u>	<u>\$ 611,005</u>	<u>\$ -</u>	<u>\$ 6,014,078</u>

D. Notes Receivable from Participants –

Notes receivable from participants consist of participant loans as described in Note 1.G. and are measured at their unpaid principal balance plus any accrued but unpaid interest.

E. Administrative Expenses –

Substantially all of the professional fees incurred in conjunction with the Plan are paid by the Company. Administrative and other expenses incurred in conjunction with the Plan are paid by the Plan.

F. Net Appreciation in Fair Value of Investments –

Net appreciation in fair value of investments includes both realized and unrealized gains and losses on investments. Realized gains and losses recognized on investments are calculated by comparing the sales proceeds to the value of the investment at the beginning of the Plan year. If the investment is purchased in the same year as the sale, the gain or loss is calculated by comparing the sales proceeds to the purchase price.

Unrealized gains and losses represent the difference between the investment's fair value at the end of the Plan year and the value of the investment at the beginning of the Plan year.

3) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

4) Investment Information Certified by the Trustees

The plan administrator has elected the method of annual compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, State Street Bank and Trust Company, and JPMorgan Chase Bank N.A., the trustees of the Plan have certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for plan benefits as of December 31, 2010 and 2009, the supplemental Schedule H, Part IV 4i - Schedule of Assets Held for Investment Purposes as of December 31, 2010, and the related investment activity reflected in the statement of changes in net assets available for plan benefits for the year ended December 31, 2010.

The fair values of individual investments that represent 5% or more of the net assets available for plan benefits at December 31, 2010 and 2009 are as follows:

		<u>2010</u>		<u>2009</u>
Allianz NFJ Small - Cap Value Fund	\$	412,758	\$	312,926

5) Party-in-Interest

Fidelity Management Trust Company, the trustee of the Plan, manages certain plan investments. Therefore, these transactions qualify as party-in-interest transactions and are denoted as such on the supplemental schedule of assets held for investment purposes. As noted in Note 2.C., State Street Bank and Trust Company and JPMorgan Chase Bank N.A. also served as trustees during 2010 and managed certain plan investments during those time periods. These transactions qualified as party-in-interest transactions during those time periods.

6) Reconciliation of Financial Statements to Form 5500

7) Income Taxes

On October 1, 2010 the Company adopted the Fidelity Management & Research Company Volume Submitter Defined Contribution Plan. Prior to October 1, 2010 the Company followed the Automatic Data Processing Prototype Safe Harbor Profit Sharing Plan. The Internal Revenue Service has determined and informed Fidelity Management & Research Company and Automatic Data Processing that the Prototype Plans are qualified and the trusts established under the Plan are tax-exempt, under the appropriate sections of the Internal Revenue Code. The plan administrator believes that the Plan was and is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Service Code. Therefore, they believe that the Plan is qualified and the related trust is tax-exempt as of the financial statement date.

8) Change in Plan Trustee

Effective October 1, 2010, the trustee of the Plan is Fidelity Management Trust Company. The former trustees, State Street Bank and Trust Company, handled all investment and administrative transactions from June 25, 2010 to September 30, 2010 and January 1, 2009 to January 5, 2009, and JPMorgan Chase Bank N.A., handled all investment and administrative transactions from January 5, 2009 to June 25, 2010.

9) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of full or partial termination of the Plan, participants will become 100% vested in their accounts.

10) Subsequent Events

Plan management has evaluated subsequent events through October 13, 2011, which is the date these financial statements were issued. All subsequent events requiring recognition as of December 31, 2010, have been incorporated into these financial statements herein.

11) Reclassifications

Certain reclassifications have been made to the 2009 financial statements to conform to presentations made in 2010.

NOTES TO FINANCIAL STATEMENTS

1) Description of Plan

The following description of the Vesta Intermediate Funding, Inc. Profit Sharing Plan & Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General –

The Plan is a defined contribution plan covering all employees of Vesta Intermediate Funding, Inc. (the "Company") who have three months of service, are age 21 or older, have elected to participate, and who are not members of a collective bargaining unit. The plan also includes a profit sharing contribution and a participant deferral election. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

B. Contributions –

Participants may elect to make voluntary pre-tax contributions from 1% up to 90% of their compensation into their participant deferral accounts through payroll deductions in accordance with annual dollar limitations established by the Internal Revenue Code. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The Plan also accepts Roth elective deferrals. The Company contributes 100% of elective deferrals up to 4% of eligible earnings as a safe harbor contribution. Additional amounts may be contributed at the option of the Company. No discretionary contributions were made during the year ended December 31, 2010.

C. Participant Accounts –

A separate account is maintained for each participant. The participants' accounts are invested in common/collective trusts and registered investment companies. The earnings are credited directly to participants' accounts on a daily basis. The participant and Company contributions are invested based upon participant direction. Participants may elect to change the allocation of their contributions and Company contributions among the available funds at any time. Participants are also able to redistribute accumulated contributions and earnings thereon among these funds.

D. Vesting –

Participants are always 100% vested in their deferral contributions and Company safe harbor contributions, plus actual earnings thereon.

VESTA INTERMEDIATE FUNDING, INC.

D. Vesting, Continued –

Participants vest in Company non safe harbor contributions plus earnings thereon in accordance with the following schedule:

<u>Years of Service</u>	<u>Percentage</u>
Less than 1	0%
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants become fully vested upon death while in the employ of the Company, upon disability retirement, upon reaching normal retirement age, or upon termination of the plan.

E. Payment of Benefits –

Upon termination of service due to retirement, disability, or death, a participant or designated beneficiary may elect to receive either a lump sum amount or installments equal to the value of the participant's account balance, subject to the vesting provisions of the Plan. The Plan also provides for hardship withdrawals and in-service withdrawals. Participants are eligible for in-service withdrawals after reaching age 59½ and at any age on account of financial hardship.

F. Forfeitures –

Former participants' nonvested balances in their 401(k) match and discretionary contribution accounts become forfeitable after distribution of the participants' entire vested account balance or after five consecutive "break in service" years (as defined in the Plan). Forfeitures will be used to reduce future Company safe harbor or discretionary contributions or may be used to pay Plan expenses. During 2010, no forfeited nonvested accounts were used to offset Company contributions. As of December 31, 2010 and 2009, there were no unallocated forfeitures.

G. Participant Loans –

Loans are available to participants in amounts up to 50% of their vested account balance with a minimum of \$500 and a maximum of \$50,000. No loans are available from Roth accounts. Loan repayments are required through payroll deductions. Loans bear interest at rates ranging from 4.25% to 10.25% as of December 31, 2010 and 2009. All loans are collateralized by the participant's account balance.

2) Summary of Significant Accounting Policies

A. Basis of Accounting –

The accompanying financial statements have been prepared on the accrual basis of accounting wherein additions to net assets and deductions from net assets are reflected in the period earned or incurred.

B. Estimates –

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

C. Investments –

The Plan's investments were held and managed by Fidelity Management Trust Company for the period October 1, 2010 to December 31, 2010; were held and managed by State Street Bank and Trust Company for the periods June 25, 2010 to September 30, 2010 and January 1, 2009 to January 5, 2009; and were held and managed by JPMorgan Chase Bank N.A. for the period January 5, 2009 to June 25, 2010. All investments are participant-directed as of December 31, 2010 and 2009.

Financial Accounting Standards Board Accounting Standards Codification 820 (FASB ASC 820), *Fair Value Measurement and Disclosures*, establishes a framework for measuring fair value by creating a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). A further description of the inputs used in the valuation of assets and liabilities under the three levels is as follows:

Level 1 – Inputs represent unadjusted quoted prices for identical assets or liabilities exchanged in active markets that the Plan has the ability to access.

Level 2 – Inputs include directly or indirectly observable inputs other than Level 1 inputs such as quoted prices for similar assets or liabilities exchanged in active or inactive markets, quoted prices for identical assets or liabilities exchanged in inactive markets, or other inputs that are considered in fair value determinations of the assets or liabilities.

Level 3 – Inputs are unobservable inputs and are significant to the measurement of assets and liabilities.

Notes to Financial Statements

C. Investments, Continued –

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The Plan's valuation methodologies may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010, and 2009.

- *Common/collective trusts.* Valued at the closing price reported by the trustee.
- *Registered investment companies.* Valued at the net asset value of shares held by the plan at year-end.

Plan assets measured at fair value in the financial statements as of December 31, 2010 are summarized in the following table by level within the fair value hierarchy:

	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
Common/collective trusts \$	-	\$ 266,383	\$ -	\$ 266,383
Registered investment companies	7,389,291	-	-	7,389,291
Total	<u>\$ 7,389,291</u>	<u>\$ 266,383</u>	<u>\$ -</u>	<u>\$ 7,655,674</u>

C. Investments, Continued –

Plan assets measured at fair value in the financial statements as of December 31, 2009 are summarized in the following table by level within the fair value hierarchy:

	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
Common/collective trusts \$	-	\$ 611,005	\$ -	\$ 611,005
Registered investment companies	5,403,073	-	-	5,403,073
Total	<u>\$ 5,403,073</u>	<u>\$ 611,005</u>	<u>\$ -</u>	<u>\$ 6,014,078</u>

D. Notes Receivable from Participants –

Notes receivable from participants consist of participant loans as described in Note 1.G. and are measured at their unpaid principal balance plus any accrued but unpaid interest.

E. Administrative Expenses –

Substantially all of the professional fees incurred in conjunction with the Plan are paid by the Company. Administrative and other expenses incurred in conjunction with the Plan are paid by the Plan.

F. Net Appreciation in Fair Value of Investments –

Net appreciation in fair value of investments includes both realized and unrealized gains and losses on investments. Realized gains and losses recognized on investments are calculated by comparing the sales proceeds to the value of the investment at the beginning of the Plan year. If the investment is purchased in the same year as the sale, the gain or loss is calculated by comparing the sales proceeds to the purchase price.

Unrealized gains and losses represent the difference between the investment's fair value at the end of the Plan year and the value of the investment at the beginning of the Plan year.

3) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

4) Investment Information Certified by the Trustees

The plan administrator has elected the method of annual compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, State Street Bank and Trust Company, and JPMorgan Chase Bank N.A., the trustees of the Plan have certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for plan benefits as of December 31, 2010 and 2009, the supplemental Schedule H, Part IV 4i - Schedule of Assets Held for Investment Purposes as of December 31, 2010, and the related investment activity reflected in the statement of changes in net assets available for plan benefits for the year ended December 31, 2010.

The fair values of individual investments that represent 5% or more of the net assets available for plan benefits at December 31, 2010 and 2009 are as follows:

5) Party-in-Interest

Fidelity Management Trust Company, the trustee of the Plan, manages certain plan investments. Therefore, these transactions qualify as party-in-interest transactions and are denoted as such on the supplemental schedule of assets held for investment purposes. As noted in Note 2.C., State Street Bank and Trust Company and JPMorgan Chase Bank N.A. also served as trustees during 2010 and managed certain plan investments during those time periods. These transactions qualified as party-in-interest transactions during those time periods.

7) Income Taxes

On October 1, 2010 the Company adopted the Fidelity Management & Research Company Volume Submitter Defined Contribution Plan. Prior to October 1, 2010 the Company followed the Automatic Data Processing Prototype Safe Harbor Profit Sharing Plan. The Internal Revenue Service has determined and informed Fidelity Management & Research Company and Automatic Data Processing that the Prototype Plans are qualified and the trusts established under the Plan are tax-exempt, under the appropriate sections of the Internal Revenue Code. The plan administrator believes that the Plan was and is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Service Code. Therefore, they believe that the Plan is qualified and the related trust is tax-exempt as of the financial statement date.

8) Change in Plan Trustee

Effective October 1, 2010, the trustee of the Plan is Fidelity Management Trust Company. The former trustees, State Street Bank and Trust Company, handled all investment and administrative transactions from June 25, 2010 to September 30, 2010 and January 1, 2009 to January 5, 2009, and JPMorgan Chase Bank N.A., handled all investment and administrative transactions from January 5, 2009 to June 25, 2010.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of full or partial termination of the Plan, participants will become 100% vested in their accounts.
