Independent Auditor's Report

To the Participants of the
Magnolia Gardens Nursery 401(k) Plan
Houston, Texas

We were engaged to audit the accompanying statements of net assets available for benefits of the Magnolia Gardens Nursery 401(k) Plan (the Plan) as of December 31, 2010, the related statement of changes in net assets available for benefits for the year then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management. The accompanying statement of net assets available for benefits of Magnolia Gardens Nursery 401(k) Plan for the year ended December 31, 2009, was audited by Hidalgo, Banfill, Zlotnik, & Kermali, P.C.'s, independent accountants, which merged with LaPorte, Sehrt, Romig, Hand on December 1, 2010. Hidalgo, Banfill, Zlotnik, & Kermali, P.C.'s report dated October 1, 2010, disclaimed an opinion on the 2009 financial statements for the same reason as described in the following paragraph.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by ING Life Insurance and Annuity Company, the custodian of the Plan, except for comparing information with the related information included in the financial statements and supplemental schedule. The Plan Administrator has informed us that the custodian holds the Plan's assets and executes transactions. The plan administrator has obtained certifications from the custodian regarding the completeness and accuracy of the information summarized in Note 3 that was provided to the Plan Administrator by the custodian as of and for the year ended December 31, 2010, and as of December 31, 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Description of the Plan

The following description of the Magnolia Gardens Nursery 401(k) Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established and became effective on December 1, 1996. On December 3, 2009, the Plan was restated effective January 1, 2009 to incorporate amendments for the Pension Protection Act and Heart Act, Final 415 Regulations, and adopt a specific ADP safe harbor formula. The Plan restatement also incorporates the Plan amendment on February 1, 2009 which allows pre-retirement distributions of all or a portion of the vested amount to a participant.

The Plan is a defined contribution plan, covering all full-time employees of TNM Corporation doing business as Magnolia Gardens Nursery (the Company) who have twelve months of service with a minimum age of twenty-one. Employees of a collective bargaining unit, leased employees, and non-resident aliens are not covered. The Plan is subject to the provisions of the Employee Retirement Act of 1974 (ERISA).

Contributions

Each year, per Internal Revenue Code (IRC) regulations, participants may contribute a certain percentage of their compensation to the Plan, up to a fixed dollar amount. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions ($5,500 in 2010 and 2009).

For Plan years beginning on and after January 1, 2008, the Company contributes a safe harbor match of 100% of the first 3% of participant's compensation plus 50% of the elective contribution of the participant to the extent that such elective contributions exceed 3% but do not exceed 5% of the participant's compensation. These amounts are mandatory contributions by the Company. The Company has the option to make additional contributions at the option of the Company's board of directors, which are subject to certain limitations.

Forfeited Accounts

At December 31, 2010 and 2009, forfeited non-vested accounts totaled $33,119 and $61,265, respectively. These forfeitures will be used to reduce future administrative expenses and employer contributions. During 2010, the Company used $31,438 of forfeited non-vested accounts to reduce employer contributions.

Investment Options

The Plan is self-directed and participants can choose from seventeen mutual funds and the ING Fixed Account at their discretion. Participants may change their investment options at any time.

Note 1. Description of the Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with a prorated allocation of administrative expenses. Allocations are based on participant earnings, number of participants, or account balances, as defined. The amount to which a participant is entitled is the benefit that can be provided from the participant's vested accounts. A participant is 100 percent vested after 6 years of credited service.

Notes Receivable from Participants

Participants may borrow up to 50% of their vested account balance. The loans are secured by the balance in the participant's vested account and bear an interest rate which is determined by the Plan Administrator. Principal and interest is paid ratably through monthly payroll deductions or ACH.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. The safe harbor match contributed by the Company is immediately vested. The vesting on any additional contributions by the Company is based on the participants' years of continuous service. A participant is vested at the rate of 20% each year, beginning after two years of service.

Payment of Benefits

On termination of service due to death, disability, retirement, or severance, if the vested interest exceeds $5,000, a participant (or its beneficiary) may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. If the vested interest does not exceed $5,000, then the benefit may be distributed in a single lump sum payment, or as a rollover to an individual retirement account (IRA), as soon as possible without the consent of the participant.

Risk and Uncertainties

The Plan's investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Plan Termination

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the employer contributions allocated to their accounts.

Reclassifications

Certain reclassifications have been made to the prior year financial statements in order for them to be in conformity with the current year presentation.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting, except for distributions which are recorded when paid. Investment contracts held by a defined-contribution plan are required to be reported at fair value.

However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in the ING Fixed Account. Contract value for this account is based on the net asset value of the fund as reported by the investment advisor. The Statement of Net Assets Available for Benefits presents the fair value of the investment in this account as well as the adjustment of the investment in this account from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Notes Receivable from Participants

In September 2010, FASB issued an amendment, *Plan Accounting-Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan Document. This amendment requires retrospective application to all periods presented.

This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this amendment. The adoption resulted in a reclassification of participant loans totaling $12,642 and $27,907, from investments to notes receivable from participants as of December 31, 2010 and 2009, respectively. There was no impact to the net assets as of December 31, 2010 or 2009, as a result of the adoption.

Tax Status

The Plan is an adoption of a standard prototype arrangement designed by Sungard Corbel, LLC. The Company received a determination letter dated March 31, 2008 from the Internal Revenue Service that qualified the Plan as tax-exempt under the appropriate sections of the IRC. Although the Plan has been amended since this letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 2. Summary of Significant Accounting Policies (Continued)

Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2007.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Administrative Expenses

The Company pays substantially all administrative expenses.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded when received. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 3. Information Certified by Custodian (Unaudited)

The following is a summary of the Plan's asset information as of December 31, 2010 and 2009, and for the year ended December 31, 2010, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by ING Life Insurance and Annuity Company, the custodian, and furnished to the Plan Administrator.

The Plan Administrator has obtained certifications from the custodian that the information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

Note 3. Information Certified by Custodian (Unaudited) (Continued)

	2010	2009
Investments, at Fair Value		
Mutual Funds	**$ 1,718,294**	$ 1,399,881

Total Investments, at Fair Value	**$ 2,016,526**	$ 1,693,436
Notes Receivable from Participants	**$ 12,642**	$ 27,907

The custodian also certified to the completeness and accuracy of $299,252, of net appreciation in fair value of investments and $1,051, of interest and dividends related to the aforementioned investments for the year ended December 31, 2010.

The fair values of individual investments which represent 5% or more of the Plan's total net assets available for benefits as of December 31, 2010 and 2009, are as follows:

	2010	2009
Mutual Funds		
Oppenheimer Developing Markets	**$ 366,823**	$ 303,500
T. Rowe Price Mid-Cap Growth Fund	**160,663**	136,416

ING Real Estate Fund - Class A	**135,639**	105,819
ING Fixed Account	**298,232**	293,555

Note 4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

Note 4. Fair Value Measurements (Continued)

- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual Funds: Valued at quoted market prices, which represent the net asset value (NAV), of shares held by the Plan at year end.

ING Fixed Account: Valued at fair value by adjusting contract value by a calculation using 7-year Treasury Bond rate plus 0.25%, the Fixed Account standard credited rate, and a surrender value percentage dependent upon contract years. As of December 31, 2010, the surrender value percentage is 100%. (see Note 5).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

Balance, End of Year	**$ 298,232**	$ 293,555

Note 4. Fair Value Measurements (Continued)

In September 2009, FASB issued an amendment, *Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent),* ASU 2009-12, which provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of the investments within the scope of this guidance can now be determined using net asset value (NAV) per share as a practical expedient, when the fair value is not readily available, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using net asset per share (or its equivalent) as of December 31, 2010 and 2009:

December 31, 2010	**Fair Value**	**Unfunded Commitment**	**Redemption Frequency**	**Redemption Notice Period**

(a) Such investment options often emphasize investments in stocks of multinational or global companies. The focus includes opportunities based on assets located outside the United States, including emerging markets.

(b) These investment options focus on stocks primarily of United States companies. Typical investments include purchasing equity shares of corporations that are incorporated in the U.S.

Note 4. Fair Value Measurements (Continued)

(c) This category consists of funds invested primarily in bonds and other debt instruments. The exact type of debt the fund invest in will depend on its focus, but investments may include government, corporate, municipal and convertible bonds, along with other debt securities like mortgage-backed securities.

(d) Other Categories of funds that seeks both growth and income, with stability of principal, through portfolios that includes stocks, bonds, and cash instruments. Investors can select from a series of investment options based on their general comfort level for risk.

Note 5. Insurance Contract with Insurance Company

In 2003, the Plan entered into a benefit-responsive investment contract, ING Fixed Account, with ING Life Insurance and Annuity Company ("ING"). ING maintains the investment in a general account. The contract is included in the accompanying financial statements at contract value as reported to the Plan by ING. The ING Fixed Account issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 and 2009 was $303,615 and $293,555, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3 percent. The average yield based on actual earnings and based on interest rate credited to participants for the contract was 3.00% for the years ended December 31, 2010 and 2009. Such interest rates are reviewed on an annual basis for resetting ING's determination of credited interest rates reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets. A market value adjustment may apply to amounts withdrawn at the request of the Plan administrator.

Certain events limit the ability to the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable. ING has the option to payout the current value of the contract only after completion of five contract years. As of December 31, 2010, over six contract years were complete.

Note 6. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the financial statements to the Form 5500 for the years ended December 31, 2010 and 2009:

	2010	2009
Net Assets Available for Benefits, per Financial Statements	**$ 2,029,073**	$ 1,726,755
Differences in:		
Investments	**12,642**	27,907
Notes Receivable from Participants	**(12,642)**	(27,907)
Net Assets Available for Benefits, per Form 5500	**$ 2,029,073**	$ 1,726,755

The following is a reconciliation of the increase in net assets available per the financial statements to the Form 5500 for the year ended December 31, 2009:

Net Increase in Net Assets per Financial Statements	$ 308,485
Plus: Prior Year Adjustment of Employee Contributions	4,086
Net Increase in Net Assets per the Form 5500	$ 312,571

Note 7. Party-in-Interest

Certain Plan investments are shares of mutual funds managed by ING Life Insurance and Annuity Company. ING Life Insurance and Annuity Company is the record keeper and custodian and, therefore, these transactions qualify as party-in-interest transactions.

The Plan administrative expenses are paid by the Company. The Company is the sponsor as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

During the years ended December 31, 2010 and 2009, the Company paid fees and expenses on behalf of the Plan in the amount of $18,937 and $20,992, respectively.

Note 8. Subsequent Events

The Plan Administrator has evaluated subsequent events through the date that the financial statements were available to be issued, October 5, 2011, and determined that no events occurred that require disclosure. No subsequent events occurring after this date have been evaluated for inclusion in these financial statements.
