Independent Auditor's Report

To the Administrative Committee of
MADO Management, L.P. 401(k) Retirement Plan
Chicago, Illinois

We were engaged to audit the financial statements of the MADO Management, L.P. 401(k) Retirement Plan as of December 31, 2010 and 2009, and for the year ended December 31, 2010, and the supplemental schedule as of and for the year ended December 31, 2010, as listed in the accompanying index. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Great-West Life & Annuity Insurance Company, the trustee of the plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of MADO Management 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

The Plan is sponsored by the MADO Management, L.P. (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Eligibility

Employees are eligible to participate in the Plan after attaining the age of 21 and fulfilling a one-year work requirement. Eligible employees become participants in the Plan on the January 1, April 1, July 1, or October 1 immediately following the attainment of these requirements.

Contributions

Eligible employees can contribute a portion of their compensation as defined by the Plan, subject to certain limitations under the Internal Revenue Code (IRC). The Company provides a discretionary matching contribution based upon the contribution of the individual participants, as determined annually by the Company. The matching contribution for 2010 and 2009 was $.10 for each $1.00 contributed by a participant up to a maximum of 4% of the eligible participant's compensation. The Plan also provides for an additional discretionary Company contribution. The Company made no discretionary contribution in 2010 and 2009.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participants' contributions and Company contributions, as well as the participants' share of the Plan's income. Allocations of Plan income are based on the proportion that each participant's account balance bears to the total of all participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 – DESCRIPTION OF THE PLAN (continued)

Vesting

Under the provisions of the Plan, participants are immediately vested in their contributions plus actual earnings thereon. Company contributions plus actual earnings thereon vest as follows:

Participant's Years of Service	Company Contributions Vesting Percentage
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

Investment Options

Participants are able to direct their account into a variety of pooled separate accounts and a fixed account selected by the Plan's trustees. Pooled separate accounts are invested in mutual funds.

Participant Loans

A participant may borrow up to the lesser of $50,000 or 50% of his or her vested account balance, with a minimum loan of $1,000. Loans are repayable through payroll deductions over periods ranging up to 5 years, except for qualifying principal residential mortgage loans which must be payable within a reasonable time commensurate with the repayment period permitted by commercial lenders for similar loans. The interest rate is to be established by the Company.

Payment of Benefits

A participant who terminates employment, or qualifies for withdrawal due to hardship, death, disability or upon reaching age 59-1/2, is entitled to receive the vested portion of his or her account in a lump sum payment of their entire vested account balance or a single-sum payment of a portion of their vested account balance.

If a terminating participant's vested account balance does not exceed $1,000, the Plan will distribute the benefit in a lump sum as soon as administratively practicable. Vested account balances exceeding $1,000 are paid at the participant's discretion.

NOTE 1 – DESCRIPTION OF THE PLAN (continued)

Plan Expenses

Expenses incurred in the administration of the Plan are paid by the Company with the exception of loan and payment transaction fees, which are paid by participants of the Plan.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan were to terminate, participants would become fully vested in their account balances.

Income Tax Status

The Company adopted a Prototype Standardized Profit Sharing Plan with Cash or Deferral Arrangement. The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008 that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for the years prior to 2006.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a guaranteed investment contract. As required, the Statement of Net Assets Available for Benefits presents the fair value of the investment in the guaranteed investment contract. However, there is no adjustment of the investment in the guaranteed investment contract from fair value to contract value as fair value approximates contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with generally-accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to net assets and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan utilizes various investment instruments, including pooled separate accounts and a guaranteed investment contract. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 3 – INVESTMENTS

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

a. Total investments as shown in the accompanying statements of net assets available for benefits of $998,998 and $850,598 as of December 31, 2010 and 2009, respectively.

b. Net appreciation (depreciation) in fair value of investments as shown in the accompanying statements of changes in net assets available for benefits of $81,392 for the year ended December 31, 2010.

The fair value of individual investments that represent 5% or more of the Plan's net assets at December 31 are as follows:

	2010	2009
Great-West Guaranteed Portfolio Fund – Fixed Accounts	$ 127,104	$ 111,842
Oppenheimer Capital Appreciation A	67,710	59,124
Maxim Aggressive Profile II	104,499	93,208
Maxim Moderate Profile II	232,908	197,698
Lord Abbett Value Opportunities Fund	55,137	44,198
Maxim U.S. Government Securities Fund	103,133	83,738

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $81,392 as follows:

Pooled Separate Accounts	$81,392

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 4 – FORFEITED ACCOUNTS

At December 31, 2010 and 2009, forfeited nonvested accounts totaled $274 and $5, respectively. These amounts are to be used to reduce future Company contributions.

NOTE 5 – GUARANTEED INVESTMENT CONTRACT

The Plan invests in a fully benefit-responsive investment contract, the Guaranteed Portfolio Fund. The contract provides that participants execute Plan transactions at contract value. Contract value represents contributions made to the funds, plus earnings, less participant withdrawals. The interest rates are reset at different times based on various factors, including interest rates and the Consumer Price Index. Certain events, such as a Plan termination that would have a material and adverse effect on the investment contract, may limit the ability of the Plan to transact at contract value or may allow for the termination of the investment contract at less than contract value. At this time, the Company believes that any events that may limit the ability of the Plan to transact at contract value are remote.

The methodology to calculate performance based on the last day of the Plan year-end includes income earned by the fund's assets on the last day of the Plan year-end divided by the fair value of all the Plan assets, and the fund's interest distributed to Plan participants on the last day of the Plan year-end divided by fair value of all the Plan assets. The average yields are as follows:

	2010	2009
Based on actual earnings	2.43%	2.96%
Based on interest rate credited to participants	2.43%	2.96%

NOTE 6 – FAIR VALUE MEASUREMENTS

Generally-accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets.
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;

NOTE 6 – FAIR VALUE MEASUREMENTS (continued)

- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts are valued at the net asset value of units of the fund held by the Plan based on the fair value of the underlying investments of the fund. Pooled separate accounts do not have finite lives, unfunded commitments relating to these types of investments, or significant restrictions on redemptions.

Guaranteed investment contract is valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Participant loans are valued at amortized cost, which approximates fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the nature and risks of the categories of assets by major security type.

Bond funds: Includes investments in various bond strategies chosen by the participant including fixed-income securities that increase the coupon and/or principal payments at the rate of inflation and lower quality bonds with higher yields.

NOTE 6 – FAIR VALUE MEASUREMENTS (continued)

International funds: These funds primarily invest in securities of issuers in Europe and the Pacific Basin that the advisor believes has potential for growth. Most funds divide their assets among a dozen or more developed markets, and the remainder in emerging markets.

Asset allocation: Under normal circumstances, the portfolio invests primarily in other portfolios of the fund (Maxim Fund), as well as in other mutual funds that are part of the same group of investment companies as the profile portfolios. The profile invests in underlying portfolios according to an asset allocation program designed to meet an investor's risk tolerance, investment time horizons and personal objectives.

Small cap funds: These funds include investments in stocks of small companies and seek long-term capital growth. The funds aim to replicate the results of indices such as the S&P Small Cap 600 Index or Russell 2000 Index.

Mid cap funds: These investments seek capital appreciation primarily through investing in medium-sized companies or a combination of stocks from companies of all sizes. Blend funds contain investments of various sizes and characteristics and typically avoid high-priced growth stocks. Value funds focus on investing in stocks that are less expensive or growing more slowly than other stocks. Growth funds invest in stocks that are projected to grow faster than other large-cap stocks.

Large cap funds: Includes investments that seek to provide long-term growth of capital and income through primarily investing in common stocks. Value funds focus on investing in big companies that are less expensive or growing more slowly than other stocks. Growth funds invest in big companies that are projected to grow faster than other large-cap stocks.
