MONTEREY MUSHROOMS, INC. TAX DEFERRED 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009 (See Independent Auditors' Report)

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Monterey Mushrooms, Inc. Tax Deferred 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan that was established on August 1, 1989 covering all eligible employees of Monterey Mushrooms, Inc. and its affiliates (collectively referred to as "the Company" or "Plan Administrator"), as defined in the Plan agreement. The Plan Administrator believes the Plan is designed and operated in compliance with the applicable requirements of the Internal Revenue Code and the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

The Plan was amended and restated in 2010 for certain legislative and regulatory changes. Participants should refer to Plan documents for specific changes made to the Plan. Effective March 18, 2010, the Plan was amended to 1) disallow matching contributions on the catch up portion of participants' withholdings, and 2) to disallow allocation of forfeitures to discretionary contributions and to instead apply forfeitures towards the first contribution made after the forfeiture amount is determined.

Administration – An Administrative Committee ("the Committee") manages the operation and administration of the Plan. Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company ("Principal") is the Plan's trustee, custodian, and maintains the records of participant data.

Contributions – Each year, participants may contribute up to 70% of eligible pretax annual compensation, as defined in the Plan not to exceed the maximum allowed by law. Participants who are 50 or older can elect to make catch-up contributions to the Plan, not to exceed the maximum allowed by law. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company may make discretionary matching contributions to the Plan as determined by the Board of Directors. In 2010, the Company matched one third of each participant's deferral, up to a maximum deferral percentage of 6% of eligible compensation. The Company's matching contribution is subject to certain eligibility requirements as outlined in the Plan document. The Company's matching contribution for 2010 in the amount of $317,696 was a receivable as of December 31, 2010 and was funded in 2011. In 2009, the Company matched 15% of each participant's deferral, up to a maximum deferral percentage of 6% of eligible compensation. The Company's matching contribution for year 2009 in the

amount of $130,795 was a receivable as of December 31, 2009 and was funded in 2010.

Participant Accounts – Each participant's account is credited with the participant's contribution, the Company's discretionary matching contribution, an allocation of Plan earnings or losses, and Plan fees as applicable to the Plan. Allocations of Plan earnings and losses are based on individual participant investment choices. All contributions/investments are participant directed. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Certain investment and fund fees are charged to the funds and participant accounts and are offset against plan investment income and losses. Participants should refer to the funds' prospectuses for further information on these fees.

Vesting – Participants are immediately vested in their contributions and rollover amounts, if any, plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of credited service at a rate of 20% per year beginning at the end of the first year. A participant is 100% vested after five years of credited service. Participants become fully vested in the event of death, disability, normal retirement age, or Plan termination.

Notes Receivable from Participants - Participants may borrow from their fund accounts up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. Since April 1, 2007, participant loans are allowed for financial hardship only. The loans are secured by the balance in the participant's account and bear interest at rates, which are commensurate with local prevailing rates as determined by the Plan Administrator. Outstanding loans carry interest rates which range from 4.25% to 8.25% at December 31, 2010 and 2009. Principal and interest is paid ratably through payroll deductions. Loans must be repaid within a five-year period, unless it is used for the purchase of a principal residence in which case the maximum repayment period may be longer. The Plan Administrator establishes the specific terms and conditions of such loans.

Payment of Benefits – Distributions from the Plan may only be made after specific events have occurred. Participants are eligible for a distribution upon termination of employment, death, retirement, disability or Plan termination and are paid in accordance with Plan provisions. Participants may be eligible to receive distributions up to their vested account balance in the case of financial hardship. Participants are eligible to receive in-service distributions upon attaining age $59^{1/2}$.

Forfeited Accounts – Forfeitures can be used to pay Plan expenses or reallocated to eligible participants. As of December 31, 2010 and 2009, the forfeiture account balance was $3,165 and $4,144, respectively.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements are prepared on the accrual basis of accounting in accordance with principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments of the Plan are reported at fair value as determined by Principal. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – As a result of the adoption of the Financial Accounting Standards Board's (FASB) Accounting Standards Update 2010-25, *Plan Accounting - Defined Contribution Plans*, the Plan retrospectively classified participant loans as notes receivable from participants in the financial statements and measured them at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Operating Expenses – Certain expenses incurred for administering the Plan are paid by the Company. Plan administration, investment advisory and management fees are paid by the Plan and charged to participant accounts. Participant loan fees are paid by participants.

Payment of Benefits – Benefits are recorded when paid.

Subsequent Events – The Plan has evaluated subsequent events through October 13, 2011, the date the financial statements were available to be issued.

NOTE 3 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 4 – CERTIFIED INFORMATION

In accordance with 29 CFR 2520.103.8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, information certified by Principal regarding the current value of assets held at December 31, 2010 and 2009, and transactions entered into during the year ended December 31, 2010, was used in the preparation of the accompanying financial statements and supplemental schedules. The following table includes the fair values of investment funds that represent 5% or more of the Plan's net assets:

NOTE 5 – FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual Funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end based on closing market prices.

Guaranteed Fixed Income Option: Valued at fair value based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Assets at Fair Value as of December 31, 2010

NOTE 6 – FIXED INCOME FUND

The Principal Fixed Income Guaranteed Option fund is valued at contract value as reported by Principal. Fixed Income Guaranteed Option funds held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive Guaranteed Fixed Income Option funds. The Principal Fixed Income Guaranteed Option fund is fully benefit-responsive. For the Principal Fixed Income Guaranteed Option fund there is an adjustment between contract value and fair value as reflected on the financial statements as of December 31, 2010 and 2009. The average yield earned by the Plan and the average yield credited to participants was approximately 2.32% for 2010 and 2.89% for 2009. The minimum crediting rate is 0% under the contract. The gross crediting interest rate is reset on a periodic basis and is based on the Plan's contract with Principal and ranged from 2.85% to 3.25% for 2010 and from 3.25% to 4.60% for 2009.

The gross crediting rate is reduced by a rate level service charge for record-keeping services.

NOTE 7 – RELATED PARTY TRANSACTIONS

Plan investments are managed by Principal. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 8 – TAX STATUS

The Plan has adopted a prototype plan, which received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2008. The Plan has been amended since, however, the Plan Administrator believes that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code and state statutes and is exempt from federal income and state franchise taxes.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by various taxing authorities and government agencies. The Plan Administrator has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; currently there is an IRS audit in progress. Plan management believes no material liability or adverse consequences will impact the Plan as a result of the audit. Information returns for years for which the applicable statutes of limitations have not expired are subject to examination by tax authorities.

NOTE 9 – PLAN TERMINATION AND/OR MODIFICATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to amend or terminate the Plan at any time, subject to the provisions of ERISA.

NOTE 10 – RECONCILIATION OF FORM 5500 TO FINANCIAL STATEMENTS

The financial statements are prepared on the accrual basis of accounting and reflect corrective distributions made to participants to pass non-discrimination

tests as of December 31, 2010 and 2009. Such corrective distributions are reflected on the Form 5500 on the cash basis.

NOTE 11 – NON-EXEMPT TRANSACTIONS

Certain participant contributions and loan repayments in the amount of $11,618 made by participants in 2008 and 2009 were not deposited with the custodian on a timely basis. Because of the delay in deposit of the amounts, these contributions are considered prohibited transactions under ERISA. The lost earnings (prohibited transaction amount) and the necessary excise tax filing were made by the Plan Sponsor in 2011.

NOTE 12 – SUBSEQUENT EVENT

As of October 13, 2011, some of the major financial market indices have decreased since December 31, 2010 and, consequently, the Plan's assets may have decreased in value.
