NOTES TO FINANCIAL STATEMENTS

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Anderson Copper and Brass Company Hourly Employees' Retirement Income Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

Anderson Copper and Brass Company, (the "Company") is the sponsor of the Plan. The Plan is a non-contributory defined benefit plan subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Effective August 28, 2006, the Plan was frozen. No additional participants shall be admitted to the Plan after that date. In addition, no additional benefits shall be earned under the Plan by any participant after December 31, 2007.

Participation

The Plan covers all union employees of the Company subject to a collective bargaining agreement between the Company and the United Steelworkers of America, AFL-CIO, and its Local No. 6738.

Vesting

Participants become fully vested after completion of five years of vesting service.

Funding

Contributions made to the Plan are based on actuarial computations of the amounts necessary to fund currently the Plan's normal (current service) costs. The Plan has met the minimum funding requirements of ERISA.

Benefits

Plan benefits are provided as follows:

Normal retirement - A participant's normal retirement date shall be the first day of the month coincident with or otherwise next following the attainment of age 65. A participant shall be entitled to an annual normal retirement income equal to his or her accrued retirement income as of his or her normal retirement date.

Early retirement - For retirement after the attainment of age 60 and 10 years of vesting service, the amount that would have been paid at normal retirement is reduced by a percentage (1/2% active members and 5/9% terminated members) for each month by which the early retirement date preceded the participant's attainment of age 65.

Benefits are based on each employee's years of credited service multiplied by a fixed benefit rate specified by the Plan.

NOTE A - DESCRIPTION OF THE PLAN - Continued

Benefits - Continued

Disbursements are made in the form of a lump sum if less than \$5,000.

Termination

While the Company has not expressed any intent to discontinue its contributions, it may do so subject to collective bargaining, if required, and the provisions of ERISA. In the event such discontinuance results in the termination of the Plan, the available net assets of the Plan will be allocated to participants' benefits, as prescribed by ERISA, generally in the following order:

1. Certain annuity benefits those former employees or their beneficiaries are receiving or that employees eligible for retirement would have been receiving had they retired.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC"), as discussed below.
3. All other vested benefits.
4. All non-vested benefits.

The PBGC guarantees some, but not all, vested retirement benefits and certain disability and survivor's pensions. See Note J.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that may affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Significant estimates are used in determining the actuarial present value of accumulated Plan benefits.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits (note C) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by employees to the valuation date. Accumulated Plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses are paid by the Plan unless paid by the Company.

Subsequent Events

The financial statements and related disclosures include an evaluation of events up through and including October 12, 2011, which is the date the financial statements were available to be issued.

NOTE C - ACCUMULATED PLAN BENEFITS

The Plan's actuary estimates the actuarial present value of accumulated Plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated Plan benefits as of December 31, 2009 and 2008, is as follows:

	<u>2009</u>	<u>2008</u>
Vested benefits		
Participants currently receiving payments	\$1,300,752	\$1,053,269
Other participants	<u>1,305,701</u>	<u>1,105,030</u>
	2,606,453	2,158,299
Non-vested benefits	<u>1,004</u>	<u>1,325</u>
Total actuarial present value of accumulated Plan benefits	<u>\$2,607,457</u>	<u>\$2,159,624</u>

Anderson Copper and Brass Company
Hourly Employees' Retirement Income Plan
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2010 and 2009

NOTE C - ACCUMULATED PLAN BENEFITS – Continued

The change in the actuarial present value of accumulated Plan benefits is as follows for the year ended December 31, 2009:

Actuarial present value of accumulated Plan benefits, beginning of year	\$2,159,624
Increase (decrease) during the year attributable to	
Interest	157,124
Change in actuarial assumptions*	409,678
Benefits paid	(131,665)
Benefits accumulated	<u>12,696</u>
Actuarial present value of accumulated Plan benefits, end of year	<u>\$2,607,457</u>

* Change in actuarial assumptions relates to change in mortality table and rate of return for 2009.

The significant actuarial assumptions underlying the actuarial computations are as follows:

Assumed rate of return on investments	2009 – 6.5% per annum
	2008 – 7.5% per annum
Mortality basis	2009 - RP 2000 Small Plan Combined Tables Projected to 2010
	2008 - RP 2000 Small Plan Combined Tables Projected to 2009
Normal retirement age	65

These actuarial assumptions are based on the presumption that the Plan will continue. If the Plan is terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

NOTE D - INVESTMENT IN MASTER TRUST

The Plan is a participant in the Marmon Retirement Master Trust (the “Master Trust”). The Plan’s investment in the Master Trust is stated at its equity in the net assets of the Master Trust representing 0% and 8.5% of the net assets of the Master Trust at December 31, 2010 and 2009, respectively. All investments are with, and the related income is derived from, the Master Trust. The Plan includes its equity in the net income of the Master Trust in the statements of changes in net assets available for benefits. Net income or loss of the Master Trust is allocated quarterly, on a daily weighted-dollar averaging basis, except for certain administrative expenses, which are attributable and charged specifically to the Plan.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE D - INVESTMENT IN MASTER TRUST - Continued

The investments of the Master Trust are recorded at fair value. The fair value of the Master Trust's investments is determined as follows:

1. Mutual funds - The fair value of the shares owned in the mutual funds is based on the NAV of the mutual funds on the last business day of the Plan year. The NAV of the mutual funds is based on the fair value of the underlying investments held by the funds, which are traded on an active market. There were no unfunded commitments and no redemption limitations or notice periods, but the investment advisor reserves the right to temporarily delay withdrawals from the mutual funds in order to ensure that the securities liquidations will be carried out in an orderly business manner.
2. Money market fund - Valued at their outstanding balances, which approximate fair value.

Income from investments, including interest income, is recorded as earned on an accrual basis. Dividends are recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis.

The Master Trust's assets are as follows as of December 31:

	<u>2009</u>
Assets	
Investments, at fair value	
Mutual funds	\$25,011,075
Money market fund	<u>132,358</u>

NOTE E - FAIR VALUE MEASUREMENTS

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provides a framework for establishing that fair value. The framework for determining fair value is based on a fair value hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Master Trust's assets measured at fair value on a recurring basis at December 31, 2010 and 2009, and the valuation techniques used by the Master Trust to determine those fair values.

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Master Trust has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. Significant Level 3 inputs include original transaction price, quoted prices for similar securities or assets in active markets, completed or pending third-party transactions in the underlying investment or comparable issuers, and changes in financial ratios or cash flows.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Master Trust's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Assets at fair value as of December 31, 2009

NOTE F - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Wells Fargo Bank, N.A. ("Wells Fargo"), the Plan's trustee, has certified that the following data included in the accompanying financial statements is complete and accurate:

- Plan interest in Marmon Retirement Master Trust, at fair value, as shown in the statements of net assets available for benefits as of December 31, 2009.
- Plan interest in Marmon Retirement Master Trust net investment income, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2010 and 2009.
- Investment information included in the Master Trust (note D).

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

NOTE G - INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service ("IRS") dated August 28, 2002, stating that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC") and, therefore, the related Master Trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

NOTE G - INCOME TAX STATUS - Continued

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

NOTE I - RELATED-PARTY TRANSACTIONS

Certain Plan assets are investment funds managed by Wells Fargo. These transactions and payments of any fees to Plan vendors, including payments to the trustee, qualify as party-in-interest transactions as defined by ERISA guidelines.

NOTE J - PLAN MERGER

On November 29, 2010, the Company consented to a merger of Anderson Copper and Brass Company Hourly Employees' Retirement Income Plan assets into Marmon Consolidated Defined Benefit Plan ("MCDBP") at the end of the day on December 31, 2010. As such, the Plan recorded a transfer out to account for the transfer of assets to MCDBP.

NOTE K - SUPPLEMENTAL INFORMATION (UNAUDITED)

The Plan presents its accumulated plan benefit information as of the beginning of the year as permitted under accounting principles generally accepted in the United States of America. Information regarding the Plan's beginning of year accumulated plan benefits at December 31, 2009 is included in Note C. Although a beginning of year valuation date is utilized by the Plan, the Plan's actuary has estimated the Plan's accumulated benefit obligation transferred to the MCDBP in connection with the merger discussed in Note J to be approximately \$2,300,000 at December 31, 2010.
