Independent Auditor's Report

To the Plan Administrator
Dunlap Community Hospital
Employees' Pension Plan

We were engaged to audit the financial statements and supplemental schedules of Dunlap Community Hospital Employees' Pension Plan (the "Plan"), formerly known as Dunlap Memorial Hospital Employees' Pension Plan, as of December 31, 2010 and 2009 and for the year ended December 31, 2010, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Reliance Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the Trustee as of December 31, 2010 and 2009 and for the year ended December 31, 2010 that the information provided to the plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Dunlap Community Hospital Employees' Pension Plan

Notes to Financial Statements December 31, 2010 and 2009

Note 1 - Plan Description

The following brief description of Dunlap Community Hospital Employees' Pension Plan (the "Plan"), formerly known as Dunlap Memorial Hospital Employees' Pension Plan, is provided for general information purposes only. Participants should refer to the plan document for more complete information.

General - The Plan is a defined benefit pension plan covering substantially all employees of Dunlap Community Hospital (the "Hospital"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). On October 28, 2008, the board of directors, as permitted by the plan document, approved to amend the Plan effective December 31, 2008. Under the amended Plan, participants had their accrued benefits frozen as of December 31, 2008 (Freeze Date). Effective January 1, 2009, no new participants were permitted into the Plan.

Eligibility and Vesting - Employees who are at least 21 years old became participants in the Plan following completion of one year of service in which they worked at least 1,000 hours. Participants are fully vested for normal retirement benefits after seven years of service.

Funding - Contributions are made by the Hospital in actuarially determined amounts. Annual contributions meet the minimum funding requirements of ERISA.

Contributions - The Hospital maintains a funding standard account with annual contributions to the Plan determined on an actuarial basis, but in no instance below the minimum required by Section 412 of the Internal Revenue Code. All contributions to the Plan are made by the Hospital. No voluntary employee contributions are allowed.

Normal Retirement Benefit - The normal retirement benefit is a benefit for life, equal to the product of (a) the sum of 0.45 percent of average annual earnings up to covered compensation and 0.90 percent of average annual earnings in excess of covered compensation and (b) completed years and months of credited service, not to exceed 35 years. The yearly benefit shall not be less than \$240.

Early Retirement Benefit - Early retirement is provided upon attainment of age 55 and completion of 20 years of credited service. The early retirement benefit is calculated as a percentage of the accrued benefit as of the early retirement date based on the age of the nearest birthday.

Late Retirement Benefit - The Plan provides for late retirement benefits which are based on the greater of the actuarial equivalent of the benefit determined as of normal retirement date and the benefit based on service and earnings to the late retirement date.

Death Benefit - The Plan provides for death benefits upon completion of three years of qualified service.

Note 1 - Plan Description (Continued)

Subsequent Event - The financial statements and related disclosures include evaluation of events up through and including September 12, 2011, which is the date the financial statements were available to be issued.

Note 2 - Summary of Significant Accounting Policies

Benefit Payments - Distributions to beneficiaries are recorded when distributed by the Plan.

Administrative Fees - Certain administrative fees incurred were paid by the Hospital.

Use of Estimates - The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties - Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, employee compensation, and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the statement of net assets available for benefits.

Investment Valuation - The Plan's investments are stated at fair value. Investments in common collective trust funds are stated at fair value, based on the fair market values of the underlying assets. All other investments are valued based on quoted market prices. See Note 7 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3 - Unaudited Investment Information

Reliance Trust Company (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment results included in the accompanying financial statements and supplemental schedules of assets held at end of year and reportable transactions are based solely on information provided by the Trustee. Additionally, the Plan invests in certain assets managed by the Trustee.

Significant investments are as follows:

	2010	2009
Common collective trust funds:		
Reliance Advisory Trust Inv IE Portfolio	\$ 179,775	\$ 188,604
Reliance Advisory Trust Inv FI Portfolio	602,082	650,120
Reliance Advisory Trust Inv SM Portfolio	281,239	254,033
Reliance Advisory Trust Inv LC Portfolio	794,310	808,149

Note 4 - Benefits

The actuarial present value of accumulated plan benefits was determined by Standard Retirement Services, Inc., consulting actuaries. The most recent calculations of the estimated present value of accumulated plan benefits attributable to participants in the Plan, which were made as of December 31, 2009 and 2008, are as follows:

	2009	2008
Actuarial Present Value of Accumulated Plan Benefits		
Vested benefits:		
Participants currently receiving benefit payments	\$ 640,816	\$ 534,560
Other participants	1,271,774	1,529,027
Participants entitled to deferred benefits	178,411	27,253
Total vested benefits	2,091,001	2,090,840
Nonvested benefits	7,268	33,326
Total actuarial present value of accumulated plan benefits	\$ 2,098,269	\$ 2,124,166

Dunlap Community Hospital Employees' Pension Plan

Notes to Financial Statements December 31, 2010 and 2009

Note 4 - Benefits (Continued)

The changes in the actuarial present value of the accumulated plan benefits for the years ended December 31, 2009 and 2008 are as follows:

	2009	2008
Actuarial Present Value of Accumulated Plan		
Benefits - Beginning of year	\$ 2,124,166	\$ 2,254,718
Increase (decrease) during the year		
attributable to:		
Benefits accumulated	18,817	147,298
Interest due to the decrease in the discount		
period	152,067	153,231
Benefits paid to participants	(196,781)	(431,081)
Net decrease	(25,897)	(130,552)
Actuarial Present Value of Accumulated Plan		
Benefits - End of year	<u>\$ 2,098,269</u>	<u>\$ 2,124,166</u>

Certain of the assumptions underlying the actuarial computations for the plan years ended December 31, 2009 and 2008 are summarized as follows:

Actuarial valuation method	-	PPA Smoothed Market Value with 24 month phase-in
Assumed rate of return on investments	-	7.50%
Mortality basis	-	2009 - IRS 2010 optional combined valuation 2008 - IRS 2009 optional combined valuation
Retirement age	-	65 years of age in 2009 and 2008

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Dunlap Community Hospital Employees' Pension Plan

Notes to Financial Statements December 31, 2010 and 2009

Note 5 - Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Note 6 - Tax Status

The Plan obtained its latest determination letter on December 25, 1998, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The Hospital has applied for a new determination letter and the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2010 and 2009 and the valuation techniques used by the Plan to determine those fair values.

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

Dunlap Community Hospital Employees' Pension Plan

Notes to Financial Statements December 31, 2010 and 2009

Note 7 - Fair Value Measurements (Continued)

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

- (a) This class represents investments in actively managed common collective trust funds that invest in a variety of equity mutual funds. Investments are valued at the net asset value per share multiplied by the number of shares held as of the measurement date.

Dunlap Community Hospital Employees' Pension Plan

Notes to Financial Statements December 31, 2010 and 2009

Note 7 - Fair Value Measurements (Continued)

- (b) This class represents investments in actively managed common collective trust funds with investments in fixed-income mutual funds. Investments are valued at the net asset value per share multiplied by the number of shares held as of the measurement date.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the end of the reporting period. There were no significant transfers between levels of the fair value hierarchy during 2010.

Note 8 - Subsequent Events

Subsequent to year end, the Plan's investment portfolio has incurred a significant decline in fair value, consistent with the general decline in financial markets. However, because the values of individual investments fluctuate with market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined.
