NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following description of the Mantaline Corporation (the Company) Employee Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who have completed three months of service, as defined, and attained 19 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may make voluntary 401(k) contributions equal to a percentage of their compensation, as defined. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan allows for employer matching and discretionary profit sharing contributions. The percentage of matching contributions and the amount of the discretionary profit sharing contributions are determined by the Company each year. There were no matching or discretionary profit sharing contributions authorized for 2010. All Company and participant contributions are subject to the limitations imposed under Internal Revenue Code (IRC) Section 404(a)(3)(A).

Participant Accounts

Each participant's account is credited with the participant's voluntary 401(k) contributions, the Company's matching contributions, an allocation of the Company's discretionary profit sharing contributions, and earnings or losses on those contributions. Plan earnings or losses are allocated daily based on each participant's balance within each fund. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account, as defined.

Vesting

Participants are immediately vested in voluntary 401(k) contributions plus actual earnings thereon. Vesting in the remainder of their account is based on years of continuous service with the participant being fully vested after three years of credited service. In the event of death, disability, or satisfying the conditions of early retirement, a participant will become fully vested.

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN (Continued)

Payment of Benefits

On termination of service, a participant may elect to receive distributions either as a lump-sum distribution equal to his or her account balance or periodic installments over a period not to exceed the participant's remaining life expectancy at the time payments begin. If the participant's account balance is less than \$1,000, the plan administrator may direct the custodian to make a lump sum distribution. Participants terminated for reasons other than death, disability, or retirement are entitled to receive their benefits as soon as administratively feasible. Distributions of a participant's 401(k) account balance may be authorized at any time by the plan administrator under certain hardship conditions.

Notes Receivable from Participants

Participants may receive loans of their account balances in amounts not to exceed those prescribed by Internal Revenue Service Regulations. Such loans bear interest at a reasonable rate commensurate with current interest rates charged for loans made under similar circumstances by persons in the business of lending money.

Forfeited Accounts

Forfeitures are temporarily held in a suspense account maintained within the Plan and are allocated to the participants in the same manner as discretionary profit sharing contributions.

The balance in the forfeiture account at December 31, 2010 and 2009, is zero. During 2010, no forfeitures were transferred to the suspense account and no amounts were allocated to participants' accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation

The Plan's investments are stated at fair value.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Payment of Benefits

Plan benefits are recorded when paid.

Plan Expenses

Expenses of the Plan are paid either by the Plan or the Company, as provided by the Plan document.

Subsequent Events

Management has evaluated subsequent events through September 14, 2011, the date the financial statements were available to be issued.

3. INVESTMENTS

Assets of the Plan are held in a trust administered by United of Omaha Life Insurance Company (United of Omaha). Investment of participants' voluntary contributions, and the Company's contribution into those funds, is at the direction of each participant. The accounts are credited with actual earnings or losses on the underlying investments and charged for Plan withdrawals and certain Plan expenses.

NOTES TO THE FINANCIAL STATEMENTS

3. INVESTMENTS (Continued)

Investments Exceeding 5% of Net Assets

At December 31, 2010 and 2009, the following investments represent 5% or more of the Plan's net assets:

	<u>2010</u>	<u>2009</u>
Mutual of Omaha:		
Mutual Directions 2	<u>\$ 163,172</u>	<u>\$ 164,533</u>
Mutual Directions 3	<u>\$ 253,178</u>	<u>\$ 207,580</u>
Mutual Directions 4	<u>\$ 532,682</u>	<u>\$ 524,755</u>
Mutual Directions 5	<u>\$ 311,773</u>	<u>\$ 255,471</u>
International Emerging Markets Fund	<u>\$ 187,124</u>	<u>\$ 184,106</u>
Guaranteed Account	<u>\$ 213,220</u>	<u>\$ 228,846</u>
T. Rowe Price Growth Stock Fund	<u>\$ 110,842</u>	

Investment Contract with Insurance Company

The Plan has entered into fully benefit-responsive investment contracts with United of Omaha. United of Omaha maintains the contributions in a general account. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contracts. Contract value, as reported to the Plan by United of Omaha, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a monthly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents, (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTES TO THE FINANCIAL STATEMENTS

3. INVESTMENTS (Continued)

Investment Contract with Insurance Company (continued)

The yields of the investment contracts for 2010 and 2009 are as follows:

	<u>2010</u>	<u>2009</u>
Based on actual earnings	3.42%	3.70%
Based on interest rate credited to participants	3.41%	3.69%

4. FAIR VALUE MEASUREMENTS

The various inputs that may be used to determine the fair value of the Plan's assets are summarized in three broad levels:

Level 1	Quoted prices in active markets for identical securities
Level 2	Other significant observable inputs (including quoted prices for similar securities, interest rates, credit risk, etc.)
Level 3	Significant unobservable inputs (including the Plan's own assumptions used to determine value)

The assets' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Generally, the Plan utilizes quoted market prices, and other relevant information generated by market transactions, to measure fair value when available. If quoted prices are not available, fair values are measured using independent pricing models or other model-based valuation techniques. In certain cases, the Plan may be required to make judgments about assumptions that market participants would use in estimating the fair value of financial instruments (Level 3 valuations).

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies utilized at December 31, 2010 and 2009.

Pooled separate accounts: Fair value is estimated based upon the quoted market prices of the securities included in the underlying funds, which includes a mix of mutual funds, collective trusts and managed accounts.

Guaranteed investment accounts: The guaranteed investment accounts are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment accounts is determined using an income approach by discounting the related cash flows based on current yields of similar investments with comparable duration and considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. INFORMATION CERTIFIED BY CUSTODIAN

In accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator has elected to restrict the scope of the auditor's examination with regard to statements or information prepared and certified by United of Omaha, the custodian.

United of Omaha has certified as to the completeness and accuracy of the investments it holds, changes in net assets arising from said investment activity, and the schedule of assets held at end of year as of December 31, 2010 and 2009, and for the year ended December 31, 2010.

NOTES TO THE FINANCIAL STATEMENTS

6. TAX STATUS

The Plan is a prototype plan provided by United of Omaha. United of Omaha has received an opinion letter, dated March 31, 2008, from the Internal Revenue Service. The opinion letter states that the prototype plan is acceptable under Section 401 of the Internal Revenue Code for use by employers for the benefit of their employees. Subsequently, the Plan has been amended. The plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

7. UNCERTAIN TAX POSITIONS

The Plan recognizes and discloses uncertain tax positions in accordance with GAAP. As of December 31, 2010 and 2009, and for the year ended December 31, 2010 the Plan did not have a liability for unrecognized tax benefits. The Plan is no longer subject to examination by federal and state taxing authorities prior to 2007.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

9. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by United of Omaha. United of Omaha is the custodian as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

11. SUBSEQUENT EVENT

The Company amended the Plan effective July 1, 2011, to provide for automatic enrollment into the Plan with a 3% deferral upon eligibility, with the option to elect out of participation.
