INDEPENDENT AUDITORS' REPORT

To the Plan Administrator and Participants of
Century Aluminum of West Virginia, Inc./United Steelworkers of America Savings Plan:

We were engaged to audit the financial statements and supplemental schedules of Century Aluminum of West Virginia, Inc./United Steelworkers of America Savings Plan (the "Plan") as of December 31, 2010, and for the year then ended, listed in the Table of Contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 10, which was certified by T. Rowe Price Retirement Plan Services, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee that the information as of and for the year ended December 31, 2010 provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to express, and we do not express, an opinion on the accompanying financial statements and supplemental schedules taken as a whole as of and for the year ended December 31, 2010. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

We have also audited the accompanying statements of net assets available for benefits of the Plan as of December 31, 2009, and the related statements of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009, and the changes in net assets available for benefits for the year then ended in conformity with accounting principles generally accepted in the United States of America.

CENTURY ALUMINUM OF WEST VIRGINIA, INC./ UNITED STEELWORKERS OF AMERICA SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

1. DESCRIPTION OF THE PLAN

The following brief description of the Century Aluminum of West Virginia, Inc./United Steelworkers of America Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

General — The Plan, established February 7, 1989, is a defined contribution plan for all employees covered by a collective bargaining agreement in effect between Century Aluminum of West Virginia, Inc. (the "Company") and the United Steelworkers of America, and who participated in the Kaiser Aluminum and Chemical Corporation/United Steelworkers of America Savings Plan on February 6, 1989. All other West Virginia union employees are eligible for the Plan after they have completed a probationary period of 90 working days. The Plan trust services and recordkeeping services are provided by T. Rowe Price.

Contributions — Participants may elect to have the Company defer up to 100% of their hourly wage subject to Internal Revenue Service limitations. Annual plan pre-tax contributions were limited to \$16,500 for 2010 and 2009; participants 50 years of age or over may make additional catch-up contributions of \$5,500 for 2010 and 2009. The Company does not make contributions to the Plan.

Vesting — Participants are vested immediately in their contributions plus actual earnings thereon.

Participant Accounts — Participants may elect to have their contributions invested in one or all of the investments listed in Note 4. Effective April 1, 2010, the Plan was amended to eliminate Century Aluminum Company common stock as an investment election option. Any existing investments in the Century Aluminum Company common stock will remain unless directed otherwise by the participant.

After March 31, 2010, participant contribution investment elections that included Century Aluminum Company common stock were automatically redirected to a T. Rowe Price Retirement Fund based on the participant's birth year.

All contributions are nonforfeitable and participants can transfer balances between funds quarterly.

Payment of Benefits — Subject to provisions in the Plan, participants are entitled to distributions upon reaching age 59 1/2 or earlier in the case of retirement, death, termination, or hardship. Upon proof of an immediate and heavy financial need, amounts contributed may be withdrawn for a hardship purpose. Certain income tax penalties may apply to withdrawals or distributions (including participant loan defaults) prior to age 59 1/2.

Notes Receivable from Participants — Participants may borrow from their fund account a minimum loan amount of \$1,000, up to \$50,000 or 50% of their account balance, whichever is less. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loan fund. Loan terms range from one to five years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. The interest rate for loan transactions in 2010 and 2009 were 3.25%. Principal and interest is paid ratably through weekly payroll deductions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Fully Benefit-Responsive Investment Contracts — As required by the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 946-210-45, the statements of net assets available for benefits presents investment contracts at fair value as well as an additional line item showing an adjustment of fully benefit-responsive contracts from fair value to contract value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive under the terms of the Plan. The statement of changes in net assets available for benefits is presented on a contract value basis.

Investment Valuation and Income Recognition — The Plan's investments are reported at fair value, except for fully benefit-responsive investment contracts, which are adjusted from fair value to contract value. Contract value represents contributions made under the contract, plus interest at the contract rate, less funds used to pay Plan benefits. Investments in mutual funds are stated at the funds' net asset values per share on the last business day of the Plan's year-end. Investments in common stock of Century Aluminum Company are valued at the last reported sales price on the last business day of the Plan's year-end. See Note 3 and Note 5 for a discussion of the valuation of the investments in the common trust funds.

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a component of net appreciation in the fair market value of such investments.

Participant Loans — Participant loans are classified as notes receivable from participants and are valued at their unpaid principal balance plus any accrued, but unpaid interest.

Use of Estimates — The preparation of financial statements in accordance with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Administrative Expenses — Administrative expenses of the Plan are paid by the Company.

New Accounting Standards Adopted — The accounting standards initially adopted in the 2010 financial statements described below affected certain note disclosures but did not impact the statements of net assets available for benefits or the statement of changes of net assets available for benefits.

In January 2010, the FASB issued FASB ASU 2010-06, "*Fair Value Measurements and Disclosures: Improving Disclosures about Fair Value Measurements*" (ASU 2010-06), which amends FASB ASC 820, "*Fair Value Measurements and Disclosures*." The update provides additional disclosures for transfers into and out of Levels 1 and 2 fair value hierarchy and separate disclosures about purchases, issuances and settlements relating to Level 3 fair value hierarchy measurements and clarifies certain other existing disclosure requirements. In addition ASU 2010-06 amends guidance on employers' disclosures about postretirement benefit plan assets to require that disclosures be provided by classes of

assets instead of by major categories of assets. ASU No. 2010-06 is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010. ASU No. 2010-06 did not have any impact on the net assets available for benefits or changes in the net assets available for benefits.

In September 2010, the FASB issued FASB ASU 2010-25, "*Plan Accounting — Defined Contribution Pension Plans (Topic 962), Reporting Loans to Participants by Defined Contribution Pension Plans.*" ASU 2010-25 requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. In addition, participant loans will be excluded from fair value measurement. ASU No. 2010-25 is effective for periods ending after December 15, 2010 and will be applied retrospectively to all prior periods. ASU No. 2010-25 requires a change in the financial statement presentation and additional disclosures and did not have any impact on the net assets available for benefits or changes in the net assets available for benefits.

3. FAIR VALUE MEASUREMENTS

Fair value measurements are based on GAAP using an established framework for measuring and disclosing fair value for the various financial instruments within the Plan.

Fair value is defined as "the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date." Fair value represents an exit price and that exit price should reflect all the assumptions that market participants would use in pricing the asset or liability.

Valuation techniques used to measure fair value are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's estimates and judgment about future events. These two types of inputs create the following fair value hierarchy:

Level 1 — Valuations are based on quoted prices for identical assets or liabilities in an active market.

Level 2 — Valuations are based on quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; and model-derived valuations for which all significant inputs are observable or can be corroborated by observable market data.

Level 3 — Assets or liabilities whose significant inputs are unobservable. Valuations are determined using pricing models and discounted cash flow models and includes management judgment and estimation which may be significant.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methods used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2010.

Common Trust Funds — The fair value of the investments in the common trust funds is determined by the fund trustee based on the fair value of the underlying securities within the fund, which represent the net asset value of the shares held by the Plan at year-end.

Mutual Funds — The fair value of the investments in the mutual funds are based on observable market quotations and are valued at the closing price reported on the active market on which the individual securities are traded.

Common Stock — The fair value of these securities is based on observable market quotations and is valued at the closing price reported on the active market on which the individual securities are traded.

The following table sets forth by level within the ASC 820 fair value hierarchy the Plan's financial assets that are accounted for at fair value on a recurring basis. Our assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and the placement within the fair value hierarchy levels.

The Plan had no Level 3 assets for the years ended December 31, 2010 and 2009.

4. INVESTMENTS

In 2010, the Company amended the Plan eliminating Century Aluminum Company common stock as an investment election option. Effective April 1, 2010, participant contribution investment elections that included Century Aluminum Company common stock were automatically redirected to a T. Rowe Price Retirement Fund based on the participant's birth year. Any existing investments in the Century Aluminum Company common stock will remain unless directed otherwise by the participant.

As of December 31, 2010 and 2009, participants could elect the following T. Rowe Price investment options:

- American Growth Fund of America
- Balanced Fund
- Goldman Sachs Mid Cap Value A Fund
- International Growth and Income Fund
- Rainier Small/Mid Cap Equity Fund
- New Horizons Fund
- PIMCO Total Return Fund
- Loomis Sayles Small Cap Value Fund

5. INVESTMENT IN STABLE VALUE FUND

Employee contributions to common trust funds are maintained by T. Rowe Price in the T. Rowe Price Stable Value Fund (the "Fund"). Participant contributions and rates of return are guaranteed by T. Rowe Price. The accounts are credited with interest earnings on the underlying investments and charged for Plan withdrawals. The common trust funds with T. Rowe Price are benefit-responsive contracts and therefore, are included in the Plan's financial statements at contract value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Limitations on the Ability of the Fund to Transact at Contract Value:

Restrictions on the Plan — Participant-initiated transactions are those transactions allowed by the Plan, including withdrawals for benefits, loans or transfers to noncompeting funds within a plan, but excluding withdrawals that are deemed to be caused by the actions of the Plan Sponsor. The following employer initiated events may limit the ability of the Fund to transact at contract value:

- A failure of the Plan or its trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA
- Any communication given to Plan participants designed to influence a participant not to invest in the Fund or to transfer assets out of the Fund
- Any transfer of assets from the Fund directly into a competing investment option
- The establishment of a defined contribution plan that competes with the Plan for employee contributions
- Complete or partial termination of the Plan or its merger with another plan

Circumstances that Impact the Fund — The Fund invests in assets and enters into “wrapper” contracts issued by third parties. A wrap contract is an agreement by another party, such as a bank or insurance company to make payments to the Fund in certain circumstances. Wrap contracts are designed to allow a stable value portfolio to maintain a constant net asset value (NAV) and protect a portfolio in extreme circumstances. In a typical wrap contract, the wrap issuer agrees to pay a portfolio the difference between the contract value and the market value of the underlying assets once the market value has been totally exhausted.

The wrap contracts generally contain provisions that limit the ability of the Fund to transact at contract value upon the occurrence of certain events. These events include:

- Any substantive modification of the Fund or the administration of the Fund that is not consented to by the wrap issuer
- Any change in law, regulation, or administrative ruling applicable to a plan that could have a material adverse effect on the Fund’s cash flow
- Employer-initiated transactions by participating plans as described above

In the event that wrap contracts fail to perform as intended, the Fund’s NAV may decline if the market value of its assets declines. The Fund’s ability to receive amounts due pursuant to these wrap contracts is dependent on the third-party issuer’s ability to meet their financial obligations. The wrap issuer’s ability to meet its contractual obligations under the wrap contracts may be affected by future economic and regulatory developments.

The Fund is unlikely to maintain a stable NAV if, for any reason, it cannot obtain or maintain wrap contracts covering all of its underlying assets. This could result from the Fund’s inability to promptly find a replacement wrap contract following termination of a wrap contract. Wrap contracts are not transferable and have no trading market. There are a limited number of wrap issuers. The Fund may lose the benefit of wrap contracts on any portion of its assets in default in excess of a certain percentage of portfolio assets.

The difference between the fair value and contract value of the Fund at December 31, 2010 and 2009 is shown below. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

	2010	2009
T. Rowe Price Stable Value Fund at fair value	\$3,036,090	\$3,218,267
T. Rowe Price Stable Value Fund at contract value	<u>2,926,353</u>	<u>3,121,623</u>
Adjustment to contract value	<u>\$ 109,737</u>	<u>\$ 96,644</u>

The average yield and interest crediting rate for the T. Rowe Price Stable Value Fund during 2010 and 2009 was as follows.

	2010	2009
Average yield:		
Based on annualized earnings (1)	3.65 %	4.23 %
Based on interest rate credited to participants (2)	4.10	4.26

(1) Computed by dividing the annualized one-day GAAP earnings of the fund's December 31, 2010 and 2009, respectively, investments (irrespective of the interest rate credited to the unit holders in the fund) by the fair value of its investments on that date.

(2) Computed by dividing the annualized one-day earnings credited to the unit holders on December 31, 2010 and 2009, respectively, (irrespective of the actual earnings of the investments in the fund) by the fair value of the fund's investments on that date.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to amend, suspend or terminate the Plan at any time and for any reason, subject to the terms of the collective bargaining agreement. In the event the Plan terminates, the participants remain fully vested in their accounts and all account balances will be distributed in the form and manner determined by the Plan Administrator.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds and common trust funds managed by T. Rowe Price. T. Rowe Price is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. In addition, certain Plan investments are shares of Century Aluminum Company common stock. Century Aluminum Company is a related party of the Plan sponsor, and therefore, these transactions qualify as exempt party-in-interest transactions.

8. RISKS AND UNCERTAINTIES

The Plan utilizes various investment instruments, including mutual funds, Century Aluminum Company common stock and common trust funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

9. FEDERAL INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with the Internal Revenue Code (IRC). The Plan has been amended since receiving the opinion letter. However, the Company and the Plan administrator believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2007.

10. INFORMATION CERTIFIED BY THE TRUSTEE

The following is a summary of information regarding the Plan as of December 31, 2010 and 2009, and for the year ended December 31, 2010, included in the Plan's financial statements and supplemental schedules, that was prepared by or derived from information prepared by T. Rowe Price, the trustee of the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that such information is complete and accurate as of and for the year ended December 31, 2010, this information is unaudited.

12. SUBSEQUENT EVENTS

We have evaluated all subsequent events through October 14, 2011, the date the financial statements were issued.

IRS Determination Letter Received in January 2011 — The Internal Revenue Service has determined and informed the Company by a letter dated January 31, 2011, that the Plan and related trust are designed in accordance with the Internal Revenue Code (IRC).

Voluntary Compliance Program (“VCP”) Filing — In September 2011, our Trustee filed a VCP with the IRS related to the status of certain participant loans outstanding. During 2011, the Company identified operational failures in the Plan, including plan loan failures. The Company submitted a Voluntary Correction Program (“VCP”) filing with the IRS in September 2011 requesting a compliance statement and approval of the correction method for these operational failures identified in the Plan.

While the amount of the potential plan loan failures is less than \$500,000, the operational failures identified in the VCP could potentially affect the tax status of the Plan.
