To the Trustees of
Yellowstone Landscape Group, Inc. 401(k) Profit Sharing Plan

We have audited the accompanying statement of net assets available for benefits of Yellowstone Landscape Group, Inc. 401(k) Profit Sharing Plan (the "Plan") as of December 31, 2010, and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2010, and the changes in net assets available for benefits for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2010 and schedule H, line 4a - schedule of delinquent participant contributions for the year ended December 31, 2010, together referred to as "supplemental information," are presented for the purpose of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

YELLOWSTONE LANDSCAPE GROUP, INC. 401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2010

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Yellowstone Landscape Group, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, which was established January 1, 2010, is a defined contribution plan covering substantially all employees of Yellowstone Landscape Group, Inc. and its subsidiaries (collectively the "Company"). Following the completion of one year of service and the attainment of age 21, employees are eligible to participate in the Plan on the first day of the month coinciding with or next following the meeting of the eligibility requirements. Participants began participant contributions on April 1, 2010. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Two members of the Company's management are trustees of the Plan.

Plan Merger

Effective January 1, 2010, the BIO Landscape & Maintenance 401(k) Plan and Piedmont Landscape Contractors, LLC 401(k) P/S Plan (collectively the "Merged Plans") were merged into the Plan. Assets of the Merged Plans did not occur until June 2010 and May 2010, respectively. The total amount of assets transferred was $857,548.

Contributions

Participants may elect to make salary deferral contributions to the Plan up to 100% of eligible compensation excluding bonuses, subject to limits provided under the Internal Revenue Code (IRC). Participants who have attained the age of 50 within the Plan year are permitted to make catch-up contributions in accordance with the IRC. Participants may stop their salary deferral contributions at any time. Participants may change their salary deferral contribution on the first day of each Plan year and on the first day of the seventh month of the Plan year. Pursuant to the Plan agreement, the Company may make discretionary matching and profit sharing contributions. Participants are eligible to receive the employer match or the profit sharing contributions if they (1) are participants at the Plan year-end and (2) have completed more than 1,000 hours of service in the Plan year, or are terminated in the Plan year due to death, retirement, or total and permanent disability. For 2010, the Company did not make any matching or profit sharing contributions. The Plan is participant directed and participants may change their investment options at any time.

Participants may make rollover contributions to the Plan subject to the approval of the Plan administrator.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions, Plan earnings, and Plan administrative expenses. Allocations are based on a participant's eligible compensation or account balance, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Vesting

Participants are at all times fully vested in their contributions, rollover contributions, and the appreciation or depreciation thereon. Vesting in the Company's contributions plus earnings thereon is based on years of continuous service. Participants vest 20% per year after one year of service and are 100% vested after five years of service.

Forfeited Accounts

Forfeitures result from a participant's non-vested employer matching and profit sharing contributions. Forfeitures of non-vested employer matching and profit sharing contributions shall be used to reduce employer contributions. The forfeitures balance at December 31, 2010 was $398. No forfeitures were used in 2010.

Payment of Benefits

A participant shall be immediately vested upon death, retirement, or total and permanent disability. Normal retirement age under the Plan is the later of attainment of age 65 or the fifth anniversary of the first day of the Plan year in which participation in the Plan commenced. Participants with a rollover contribution may receive a distribution at any time, limited to the total of their rollover contribution and related earnings. The Plan also allows for hardship withdrawals from a participant's pre-tax deferral account. Participants receive their distributions in a lump-sum amount equal to the value of the participant's vested interest.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of their vested balance for the purpose of meeting certain specified financial situations as determined by the Plan administrator. The loans bear interest at reasonable rates and are secured by the participant's vested account to the extent of the principal amount of the loan plus accrued interest. Principal and interest are paid ratably through payroll deductions for periods ranging up to five years, or longer for the purchase of a primary residence. Participants may only have one loan outstanding at any time. Principal and interest payments on notes receivable from participants from the Merged Plans began January 1, 2010.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their account balances.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Investments

Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses of the Plan are paid by the Company or the Plan.

Federal Income Taxes

The Plan has adopted a non-standardized prototype plan, which obtained its latest opinion letter dated March 31, 2008 in which the Internal Revenue Service (IRS) stated that the prototype document satisfies the applicable provisions of the IRC. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, contributions to the Plan and earnings from its assets are not currently taxable to the Plan or its participants.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, 2010 will be the first year the Plan files a return.

NOTE 3 - PLAN INVESTMENTS

Investments that represent 5% or more of the Plan's net assets at December 31, 2010 are separately identified below:

During 2010, the Plan's investments (including gains and losses on investments bought, sold, and held during the year) appreciated in fair value as follows:

Managed Accounts	$48,024

NOTE 4 - FAIR VALUE MEASUREMENTS

The *Fair Value Measurements and Disclosures* Topic ("ASC 820") clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value, and requires additional disclosure about the use of fair value measurements in an effort to make the measurement of fair value more consistent and comparable.

Various inputs are used in determining the fair value of the Plan's investments. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. In addition, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy, including the types of plan investments that fall under each category and the valuation methodologies used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices that are in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Managed Accounts: Investments are held in separately managed accounts, which are valued at account unit value. The underlying investments of the separately managed accounts include mutual funds, money market accounts, and exchange traded funds. Investments in mutual funds, money market accounts, and exchange traded funds are valued at net asset value (NAV) of shares held by the Plan at year-end. NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market. The Plan has no unfunded commitments and no contractual obligations to further invest in the accounts.

Level 3 - Inputs to the valuation methodology are unobservable inputs (i.e. projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The inputs and methodologies used for valuing securities are not an indication of the risk associated with investing in those securities.

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010:

Description	Level 1	Level 2	Level 3	Total

Total investments at fair value		$1,091,091		$1,091,091

NOTE 5 - RISKS AND UNCERTAINTIES

The Plan provides for various investments. In general, such investments are exposed to various risks such as significant world events, interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Notes receivable from participants qualify as party-in-interest transactions. These party-in-interest transactions are covered by an exemption from the prohibited transaction provisions.

NOTE 7 - NONEXEMPT TRANSACTIONS

During 2010, there were unintentional delays by the Company in submitting participant contributions and loan repayments in the aggregate amount of $59,338. The Company plans on replacing lost earnings in 2011.

NOTE 8 - CONCENTRATION OF CREDIT RISK

Financial instruments that potentially subject the Plan to concentrations of credit risk principally consist of cash. The Plan places its cash in financial institutions. At times, such cash investments may be in excess of federally insured limits.

NOTE 9 - SUBSEQUENT EVENTS

Effective April 1, 2011, the Plan replaced Cornelius Van Den Handel as trustee of the Plan with Kenneth A. LaLonde.

The Plan has evaluated subsequent events through October 14, 2011, the date the financial statements were available to be issued.
