ELLCON NATIONAL, INC. 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Ellcon National, Inc. (the "Company") 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who have completed at least one year of service and are age twenty-one or older. The Plan's entry dates are the first day of the January, the first day of April, the first day of July and the first day of October. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 100 percent of their eligible compensation, as defined in the Plan. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, a money market account and a guaranteed interest account as investment options for participants. Additional discretionary matching and profit sharing amounts may be contributed at the option of the Company's board of directors. There were no discretionary Company contributions for the year ended December 31, 2010. Contributions are subject to certain limitations.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching and profit sharing contribution portion of their accounts is based on years of continuous service. A participant is 20 percent vested after two years of service and an additional 20 percent vested for each year of service thereafter. A participant is fully vested after six years of credited service.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at the prime lending rate plus 1 percent. Interest rates range from 4.25 percent to 9.25 percent, which is commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through periodic payroll deductions.

(Continued)

NOTE 1 - DESCRIPTION OF THE PLAN, Continued

Payment of benefits

Upon termination of service due to death, disability, retirement or other reasons, a participant with an account balance in excess of \$1,000 may elect to receive the value of the vested interest in his or her account as a lump-sum payment, combination of lump-sum and installment payments, or installment payments. Participants with vested account balances less than \$1,000 or for termination of service for other reasons, will receive the value of the vested interest in his or her account as a lump-sum distribution. Active employees may withdraw vested funds subject to certain withdrawal rules as defined in the Plan.

Forfeited accounts

At December 31, 2010 and 2009, forfeited non-vested accounts totaled \$19,702 and \$14,892, respectively. These accounts will be used first to reduce plan administrative expenses and then to reduce future employer contributions. No forfeitures were used to reduce employer contributions accounts in 2010.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACTIVITIES

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

All expenses of maintaining the Plan are paid by either the Plan or the Company, as provided in the Plan document.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACTIVITIES, Continued

Subsequent events

The Plan has evaluated subsequent events through October 14, 2011, the date the financial statements were available to be issued.

Recently issued accounting pronouncements

In September 2010, the Financial Accounting Standards Board (the "FASB") issued an amendment, *Plan Accounting – Defined Contribution Pension Plans Topic 962: Reporting Loans to Participants by Defined Contribution Pension Plans*, Accounting Standards Update ("ASU") 2010-25, which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented.

This amendment was adopted for the year ended December 31, 2010 and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. This adoption resulted in a reclassification of participant loans totaling \$224,716 and \$236,959 from investments to notes receivable from participants as of December 31, 2010 and 2009, respectively. There was no impact to the net assets available for benefits as of December 31, 2010 and 2009, as a result of the adoption.

In January 2010, the FASB issued an amendment, *Fair Value Measurements and Disclosures - Improving Disclosures about Fair Value Measurements* ASU 2010-06, which requires new disclosures about transfers of financial assets and liabilities between levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the amendment was effective and adopted for periods beginning on or after December 15, 2009. There was no impact on the Plan as a result of the adoption of these amendments. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010. The Plan is currently evaluating the impact of the guidance related to Level 3 measurements on its disclosures.

FASB ASU 2009-12, *Calculate Net Asset Value per Share (or Its Equivalent)* amended the FASB Accounting Standards Codification ("ASC") 820 to allow entities to use net asset value ("NAV") per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with investment company accounting. Adoption of ASU 2009-12 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

NOTE 3 - TRUSTEE CERTIFICATIONS

The following is a summary of the Plan's asset information as of December 31, 2010 and 2009, and for the year ended December 31, 2010, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the trustee and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that the information provided to the plan administrator by the trustee related to the following assets is complete and accurate. Accordingly as permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL's") Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets:

	<u>December 31,</u>	
	<u>2010</u>	<u>2009</u>
Investments at fair value:		
Mutual funds	\$ 3,501,337	\$ 3,809,631
Money market funds	306,160	347,851
Guaranteed contract	1,070,889	1,223,618
Notes receivable from participants	<u>224,716</u>	<u>236,959</u>
	<u>\$ 5,103,102</u>	<u>\$ 5,618,059</u>

The trustee also certified to the completeness and accuracy of \$509,198 net appreciation in fair value of investments, \$38,891 of interest and dividends and \$13,587 of interest on notes receivable from participants related to the aforementioned Plan assets for the year ended December 31, 2010.

NOTE 4 - GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan provides an investment option to invest in a non benefit-responsive guaranteed interest account with ING. ING maintains the contributions in a general account. The account is credited with a guaranteed and fixed rate of return. The guaranteed interest account is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan by ING.

Since the guaranteed interest account is non benefit-responsive, fair value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed interest account.

The guaranteed interest account promises contract value for a benefit event, such as a termination, death, disability or retirement. However, there is a market value adjustment, which is also called a surrender charge, when funds are withdrawn prior to their maturity or for a non-benefit event, such as a withdrawal from the account for a change in investment option. The guaranteed interest account does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

ING is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon the issuer, but may not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rate of the contract will track current market yields on a trailing basis.

Average yields:		
Based on annualized earnings ⁽¹⁾	3.00%	3.00%

⁽¹⁾ Computed by dividing the annualized one-day actual earnings of the contract on the last day of the plan year by the fair value of the investments on the same date.

NOTE 5 - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 5 - FAIR VALUE MEASUREMENTS, Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds and Money market funds: Valued at the Net Asset Value ("NAV") of units held by the Plan at year end.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

NOTE 5 - FAIR VALUE MEASUREMENTS, Continued**Changes in fair value and related gains and losses**

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$548,089 as follows:

Investment income:	
Mutual funds	\$ 509,198
Interest and dividends	<u>38,891</u>

NOTE 6 - RELATED-PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by ING. ING is the trustee, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to related parties for investment management services approximated \$2,800 for the year ended December 31, 2010.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

NOTE 8 - TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated November 7, 2001, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has since been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be substantiated upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for the years prior to 2007.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 - EXCESS CONTRIBUTIONS

Employer contributions for the years ended December 31, 2010 and 2009 are shown net of excess contributions of \$290 and \$7,060, respectively. These refunds are required to satisfy the relevant nondiscrimination provisions of the Plan.

NOTE 11 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	<u>December 31,</u>

Excess contributions payable as of December 31, 2009	<u>(7,060)</u>
Net decrease per Form 5500	<u><u>\$ (512,978)</u></u>

NOTE 12 - PLAN ERRORS AND PROHIBITED TRANSACTIONS

During 2010, the plan sponsor inadvertently failed to make deposits of approximately \$36,000 of participant deferrals within the timeframe as required by the DOL. The DOL considers late deposits, without regard to materiality, to be prohibited transactions. The general rule for deposits of 401(k) withholdings requires that the employer remit withheld employee 401(k) deferrals to the Plan as of the earliest date on which such amounts can reasonably be segregated from the employer's general assets, but in no event later than 15 business days after the end of the month in which the contributions were withheld. Management believes that assets can reasonably be segregated within 7 business days; therefore, any amount remitted after 7 days is considered late. The plan sponsor made deposits ranging from 8 days to 32 days after the date in which the contribution was withheld and intends to file a Form 5330 and pay any applicable excise tax. The excise tax payments will be made from the plan sponsor's assets and not from the assets of the Plan. In addition, participant accounts will be credited with the amount of investment income which would have been earned had participant contributions been remitted on a timely basis.
