(1) Description Of The Plan

The following brief description of Red Hawk Industries, LLC 401(k) Plan and Trust (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined contribution retirement plan. The Plan was adopted January 1, 2000. Beginning in 2000, the entry date for the Plan was after three months of active employment and obtaining the age of eighteen. The Plan does not cover employees covered by a collective bargaining agreement or employees who are non-resident aliens who receive no U.S. earned income from the employer. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Change In Plan Administrator

During 2009, UTC Fire & Security (the "Company") changed its plan administrator from Retirement Planning Services Plan Administrators ("RPS") to Fidelity Investments Institutional Operations Company, Inc. ("Fidelity"). The assets were transferred in December 2009. As part of the transfer, all funds were transferred from the funds held by RPS to replacement funds designated by the Company. Participants had the option to re-allocate the funds at their discretion.

Contributions

Each participant may elect to contribute up to 100% of the participant's compensation, not to exceed IRS limits, and have such amounts contributed to the Plan as before-tax contributions. Such contributions are excluded from a participant's taxable compensation in accordance with the provisions of Section 401(k) of the Internal Revenue Code (IRC).

As described in Note 6, effective December 31, 2007, contributions to the Plan were discontinued. Accordingly, no contributions were reported in the financial statements for the years ended December 31, 2010 and 2009.

Participant Accounts

Separate accounts are maintained for each participant and are credited with the participant's contributions, employer safe harbor and extra contributions, and rollover contributions, if any, including the allocations of earnings and losses to these accounts. Participants direct the investment of their accounts by electing the percentages they wish to allocate between investment alternatives. Participants can change their investment allocations at their

discretion by communicating directly with the Plan custodian via telephone or internet. On a quarterly basis, employees receive an individual statement indicating their contributions and earnings based on the specific option chosen.

Notes Receivable From Participants

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. The minimum loan amount is $1,000. Each loan is secured by the participant's vested interest and is made from that participant's account. Loans must be repaid within five years unless the loan is for the purchase of a primary residence for the participant, in which event it may be repaid over a period of time that may not exceed thirty years. Interest rates are set by the Plan documents at one percent above the prime rate at the time the loan inaugurated. All loans are repaid by the participant directly.

Vesting

Participants are immediately vested in their voluntary contributions and in their employer safe harbor matching contributions, plus actual earnings thereon. There are no forfeitures as there have been no non-elective contributions to date.

Payment Of Benefits

Distributions from the Plan occur either as a result of separation from the Company or as a result of proven hardship, in accordance with definitions as set forth in the Plan Agreement. Distributions of amounts not exceeding $5,000 are in the form of lump sum. Distributions of amounts in excess of $5,000 are in the form of a lump sum, direct rollover into another plan, an annuity distribution, or any combination thereof, at the election of the participant.

Administration And Expenses

Fees for the investment managers and audit fees are paid out of assets of the Plan. The Company pays all other fees incurred by the Plan and provides personnel who perform various administrative services.

(2) Summary Of Significant Accounting Policies

Basis Of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Use Of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation And Income Recognition

The fair value of the Plan's investments are reflected on the face of the financial statements and are based on quoted market prices for those investments or other information, as certified by the Plan custodian. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. The net appreciation or deprecation in the fair value of investments includes both unrealized and realized gains and losses during the Plan year.

Fair Value Measurements

The Plan follows *Fair Value Measurements*, which among other things requires enhanced disclosures about investments that are measured and reported at fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan has mutual fund investments which are considered to be Level 1 hierarchy. The Plan does not have any Level 2 or Level 3 investments.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment Of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan's management has performed an evaluation of subsequent events through October 6, 2011, which is the date the financial statements were available to be issued and considered any relevant matters in the preparation of the financial statements and footnotes.

(3) **Financial Data Certified By The Investment Company Administered Trust Fund**

The plan administrator has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA for the years ended December 31, 2010 and 2009. Accordingly, as permitted under such election, for the years ended December 31, 2010 and 2009 through the date of the change in plan administrators, Nationwide Life Insurance Company, has certified all financial data relative to the investment assets, transactions, and income, and the schedules of investments. In addition, for the year ended December 31, 2010, Fidelity Investments Institutional Operations Company, Inc. has certified all financial data relative to the investment assets, transactions, and income, and the schedules of investments.

(4) **Investments**

The following presents investments that represent 5% or more of the Plan's net assets as of December 31, 2010 and 2009:

	2010	2009
Fidelity Freedom K 2010, 62,857 and 84,421 shares, respectively	$ 797,022	$ 979,200

Fidelity Freedom K 2020, 167,699 and 189,394 shares, respectively	2,211,951	2,263,258
Fidelity Freedom K 2025, 170,378 and 208,595 shares, respectively	2,283,065	2,515,658
Fidelity Freedom K 2030, 92,263 and 94,980 shares, respectively	1,254,781	1,158,755
Fidelity Freedom K 2035, 52,920 and 59,069 shares, respectively	729,233	725,962
Fidelity Freedom K 2040, 44,820 and 49,562 shares, respectively	621,205	612,091

(5) **Income Tax Status**

The Plan is an adoption of a regional prototype plan, under Retirement Planning Service, Inc., which has received a notification letter from the Key District Director having jurisdiction with the Plan. The Revenue Service permits the employer to rely on the notification letter. Therefore, the employer will not submit the Plan to the Internal Revenue

Service for an advance determination as to whether the Plan meets the qualification requirements of section 401 of the Internal Revenue Code of 1986 with respect to the Plan's initial qualification.

The Plan follows *Accounting for Uncertainty in Income Taxes*, which requires the Plan to determine whether a tax position (and the related tax benefit) is more likely than not to be sustained upon examination by the applicable taxing authority, based solely on the technical merits of the position. The tax benefit to be recognized is measured as the largest amount of benefit that is greater than fifty percent likely of being realized upon settlement, presuming that the tax position is examined by the appropriate taxing authority that has full knowledge of all relevant information. During the year ended December 31, 2010, the Plan Sponsor evaluated its tax positions to determine the existence of uncertainties, and did not note any matters that would require recognition or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan is no longer subject to U.S. federal tax audits on its Form 5500 by taxing authorities for fiscal years ending prior to December 31, 2007. The years subsequent to this year contain matters that could be subject to differing interpretations of applicable tax laws and regulations. Although the outcome of tax audits is uncertain, the Plan believes no issues would arise.

(6) **Plan Termination And Operational Failure**

The Company purchased Red Hawk Industries, LLC via stock purchase. The Company became the sponsor/owner of the 401(k) plan of the acquired company by operation of law. The Company should have merged the 401(k) plan with the existing Plan of the Company; however, instead the Company mistakenly froze the acquired plan and requested acquired employees to roll their balances over to the Company Plan or required them to take an in-service withdrawal. This mistake was an operational failure which caused the Plan to be out of compliance with IRS regulations and jeopardized its tax qualified status. Since at least August of 2006, the Company has been participating in the Voluntary Correction Program ("VCP") with the IRS, a process designed to return the Plan to IRS compliance.

In September 2007, the Company approved a merger of the Plan with UTC Savings Plan. Since the Plan was still undergoing the VCP with the IRS, the merger was delayed until the completion of VCP. Due to this pending action, the Company discontinued all contributions to the Plan effective December 31, 2007. Effective January 1, 2008, the employees of the Company were eligible to participate in the UTC Savings Plan. The assets of the Plan will be transferred to the UTC Savings Plan if and when the Plan completes the VCP.

(7) **Party-In-Interest Transactions**

The Plan holdings include assets in funds administrated by the Plan custodians. As of December 31, 2010 and 2009, the fair value of investments held by the Plan custodians was $9,642,912 and $10,299,627, respectively

(8) **Risks And Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
