INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of the
Rolling Plains Construction Employee Savings Trust

We were engaged to audit the accompanying statements of net assets available for benefits of the Rolling Plains Construction Employee Savings Trust as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the attachment required by Schedule H - Form 5500 for the year ended December 31, 2010. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5 which was certified by American United Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. The Plan administrator has obtained certification from the custodian as of and for the years ended December 31, 2010 and 2009, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the custodians, have been audited by us in accordance with U.S. generally accepted auditing standards and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of plan

The following is a brief description of the Rolling Plains Construction Employee Savings Trust (the "Plan") and is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General and eligibility

The Rolling Plains Construction Employee Savings Trust is a defined contribution employee benefit plan for eligible employees of Rolling Plains Construction, Inc., Desert Plains, Inc. and 1 Source Fire Stop, Inc.; collectively referred to as "Rolling Plains" throughout the remainder of the notes. Employees are eligible for participation after six months following employment and after attaining eighteen years of age as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions and investment options

Each year, participants can contribute up to the lesser of 100% of their eligible compensation or the limitation found in section 402(g) of the Internal Revenue Code of 1986, as amended. Eligible employees may also make catch-up contributions up to IRS limits. Participants are permitted to make rollover contributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their investment options as often as they choose. As of December 31, 2010, the Plan offered sixteen investment alternatives.

For the year ended December 31, 2010 and 2009, Rolling Plains made a five percent matching contribution per pay period based on those employees eligible to receive the contribution.

In addition to the matching contribution, Rolling Plains may elect to give an employer profit sharing contribution based on those employees who were eligible to receive these contributions. Contributions are subject to certain limitations. For the year ended December 31, 2010, Rolling Plains elected not to make any profit sharing contributions.

Participant accounts

Each participant's account is credited with the participant's elective deferral contributions, an annual allocation of employer contributions, and a daily allocation of each participant's account earnings or losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All contributions are participant directed.

Vesting

Participants are vested in the Company's matching contribution portion of their accounts plus actual earnings thereon based on years of continuous service. A participant is 100% vested after six years of credited service for the employer matching and profit sharing contributions.

Notes receivable from participants

Participants may borrow from their fund accounts up to a maximum equal to the lesser of 50% of such participants' vested interest in the Plan, or $50,000. Note terms range from 2 to 10 years. The notes are secured by the balance in the participant's account, and bear interest at the current market rate for similar notes under like circumstances. Interest rates are stated at rates ranging from 7.00% to 7.22%. Principal and interest is paid ratably through payroll deductions.

Participants are charged a $75 fee to set up a new note and $24 annually for continuing notes. These fees are deducted from their accounts.

Payment of benefits

On termination of service due to death, disability or retirement, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or an annuity. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Administrative expenses

Administrative expenses of the Plan are paid by the Plan and the Plan sponsor as provided in the Plan document. Certain administrative functions are performed by officers and employees of the Company. No such officer or employee receives compensation from the Plan.

Forfeitures

Forfeitures from nonvested accounts may be used to reduce future employer contributions. At December 31, 2010 and 2009, forfeited nonvested accounts totaled $-0- and $796, respectively.

Investment management fees and operating expenses

Certain investment management fees and operating expenses charged to the Plan for investments in group annuity separate accounts are deducted from income earned on a daily basis and are reflected as a component of net appreciation (depreciation) in fair value of investments.

2. Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment in the group annuity general account Fixed Option as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in net Assets Available for Benefits is prepared on a contract value basis.

Valuation of investments and income recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits payments to participants are recorded when paid.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Accounting estimates and assumptions

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Net appreciation (depreciation) of fair value of investments

The earnings, expenses, realized gains or losses, and unrealized appreciation (depreciation) in group annuity separate account investments are recorded in the accompanying financial statements as net appreciation (depreciation) in fair value of investments.

Recent accounting pronouncements

In January 2010, the FASB issued an amendment that requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. The amendment was adopted during the year ended December 31, 2010, and did not have a material impact on the Plan's financial position or Statement of Changes in Net Assets Available for Benefits.

In September 2010, the FASB issued an amendment, *Plan Accounting-Defined Contribution Pension Plans: Reporting Loans to Participants by Defined Contribution Pension Plans*, which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The amendment was effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented. This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting the new amendment. The adoption resulted in a reclassification of participant loans totaling $61,633 from investments to notes receivable from participants as of December 31, 2009. There was no impact to the net assets as of December 31, 2010 or 2009, as a result of the adoption.

Subsequent events

The Plan Administrator has evaluated subsequent events through October 14, 2011, which is the date the financial statements were issued.

The Plan was amended as of January 1, 2011 to include a Safe Harbor employer matching contribution.

3. Investments

The following list presents the values of individual investment alternatives that represent 5% or more of the Plan's net assets available for benefits at December 31, 2010 and 2009:

	2010	2009
Group annuity general account		
AUL Fixed Account	$ 60,587	$ 46,750
Group annuity separate account		
Amcent Large Company Value	58,888	40,819
Templeton Growth	55,021	36,995
Russell Lifepoints Bal Strategy	226,403	178,441
Russell Lifepoints Growth Strategy	172,240	131,734
Pimco High Yield Fund	44,023	-
Lord Abbett Mid-Cap Value	45,066	-

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated during the year ended December 31, 2010, as follows:

Group annuity general account account	$ 1,763
Group annuity separate account	78,714
	$ 80,477

4. Fair value measurements

Accounting guidance on fair value measurements and disclosures defines fair value, establishes a framework for measuring the fair value of assets and liabilities using a hierarchy system, and expands disclosures about fair value measurement. It clarifies that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the market in which the reporting entity transacts business.

The Plan's statement of net assets available for benefits contains Plan investments that are recorded at fair value on a recurring basis. The three-level valuation hierarchy for disclosure of fair value is as follows:

Level 1 uses quoted market prices in active markets for identical assets or liabilities.

Level 2 uses observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3 uses unobservable inputs that are not corroborated by market data.

When available, quoted market prices are used to determine the fair value of investments held in the Plan, and such items are classified within Level 1 of the fair value hierarchy. An example is mutual funds with available market prices. A description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below. The level to which an asset or liability is classified is based upon the lowest level of input that is significant to the fair value measurements. There have been no changes in valuation methodologies at December 31, 2010, compared to December 31, 2009.

There were no significant transfers between Level 1, 2, or 3 assets or liabilities during the year ended December 31, 2010.

Group annuity separate account investments: Valued in the form of accumulation units. The value of an accumulation unit of any investment account is determined at the close of each business day and is directly related to the net asset value of the shares of the underlying investment adjusted for any dividends or distributions received by AUL and the daily equivalent of any fee charged by AUL pursuant to the contract. Each investment account is invested by AUL exclusively in shares of a specific mutual fund or other investment entity as directed by the Plan and/or participant.

Group annuity general account investment: Funds allocated to the Fixed Option are placed in the AUL general account where they are invested in accordance with AUL's general account investment policy. AUL believes that contract value is an appropriate determination of fair value for the Fixed Option. Participant-initiated benefit-responsive Plan withdrawals from the Fixed Option and transfers between the Fixed Option and the variable investment options as allowed under the terms of the Plan and the Contract are performed at contract value. The Fixed Option has no liquid market value because it is not tradable or assignable, and there are no defined maturities of the cash flows.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2010 and 2009.

	2010			
	Level 1	Level 2	Level 3	Total

(a) The investments in this category primarily invest in equity securities of U.S. companies.
(b) The investments in this category primarily invest in equity securities of foreign companies.
(c) The investments in this category primarily invest in fixed income securities such as securities issued by the U.S. Government or corporations.
(d) The investments in this category seek to obtain long term appreciation and current year return by investing in a mixture of equities and fixed income securities.

5. Information certified by trustee

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by American United Life Insurance Company, the custodian of the Plan, as complete and accurate, except for comparing such information to information included in the Plan's financial statements and supplemental schedule.

	2010	2009
Investments:		
Group annuity separate accounts	$ 734,654	$ 541,680
Group annuity general account	60,587	46,750
Notes receivable from participants	67,857	61,633
Investment income	80,477	
Interest income on notes receivable from participants	3,616	

6. Related party transactions

All Plan investments are part of the Group Separate Account Annuity Contract and the Group Annuity Contract managed by American United Life Insurance Co. American United Life Insurance Company is one of the Plan's third party administrators and, therefore, these transactions qualify as party-in-interest transactions.

7. Group separate account annuity contract

The Plan has entered into an investment contract with American United Life Insurance Company; the Group Separate Account Annuity Contract. Under this contract, American United Life Insurance Company maintains the contributions in mutual fund investment vehicles. The mutual fund investment vehicles are made available by American United Life Insurance Company consisting of various mutual funds which have their own investment objectives and policies. The contract is included in the financial statements at contract value, (which represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses). The contract value approximates fair value.

8. Group annuity contract

The Plan has entered into a benefit-responsive group annuity contact issued by American United Life Insurance Company (AUL). The contract offers a fixed interest investment option through AUL's general account. Funds allocated to the fixed option are placed in the AUL general account where they are invested in accordance with AUL's general account investment policy. The objective of that investment policy is to maximize long-term, risk-adjusted returns. AUL's general account assets are predominately fixed-income investments. Interest rates are established and declared for new contributions that will be received in a calendar quarter. All contributions received during the quarter will earn that declared interest rate until the end of the calendar year next following the current year. At the beginning of each year, a new interest rate is established and declared for funds that have been held for a calendar year. All benefit-responsive Plan benefit payments are made at book value which equals principal invested plus interest earned. A participant may transfer any amount from the Fixed Option. However a participant may transfer funds to the Fixed Option only after 90 days have elapsed since the date of the last transfer from the Fixed Option. Contract value approximates fair value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: 1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), 2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, 3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or 4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

9. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. Income tax status

The Plan was amended and restated effective January 1, 2009, by adopting a volume submitter proto-type plan. The proto-type plan has obtained an opinion letter dated March 31, 2008 from the IRS that the Plan is qualified and the trust established under the Plan is tax-exempt under the appropriate sections of the Internal Revenue Code. The Plan has been amended since this determination letter was issued, however, Plan management believes that the Plan continues to be operated in compliance with the applicable provisions of the Code and the Plan is exempt from federal income taxes. Accordingly, no provision for income taxes has been included in the Plan's financial statements. Form 5500 tax returns for the years ended December 31, 2010, 2009, 2008 and 2007 remain open to examination by federal and state tax authorities.

12. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

13. Reconciliation of financial statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500:

	2010	2009
Net assets available for benefits per the financial statements	$ 866,035	$ 652,385
Distributed loan for financial statements in 2010 and for Form 5500 reporting in 2009	-	(4,216)
Net assets available for benefits per Schedule H of Form 5500	$ 866,035	$ 648,169

The following is a reconciliation of net increase in assets available for benefits per the financial statements to Schedule H of Form 5500:

	2010
Increase in net assets available for benefits per the financial statements	$ 213,650
Distributed loan for financial statements in 2010 and for Form 5500 reporting in 2009	4,216
Increase (decrease) in net assets available for benefits per Schedule H of Form 5500	$ 217,866

14. Plan errors

In 2010 and 2011, the Company determined that the matching contributions made by the Company were not in compliance with the terms of the plan's document. In addition, participant deferrals were not calculated on certain elements of plan compensation. The plan's management intends to consult a qualified ERISA attorney regarding the correction options available to the Plan. The impact on the Plan's financial statements has not been determined.

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
