Driftwood Hospitality Management, Inc. 401(k) Plan (the "Plan") was established effective August 1, 2000. The Plan was established for eligible employees of Driftwood Hospitality Management, LLC (the "Company") and is intended to comply with the Employee Retirement Income Security Act of 1974 ("ERISA") and Sections 401(a) and 501(a) of the Internal Revenue Code, as amended. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, employees participating in the Plan may contribute up to 15% of pre-tax compensation to the Plan, subject to the limits set forth by the Internal Revenue Service. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants who turn 50 during a Plan year can make additional pre-tax contributions pursuant to the Catch-Up Elective Contributions feature specified in the Economic Growth and Tax Relief Reconciliation Act of 2001 ("EGTRRA"). Contributions received from participants for 2010 and 2009 are net of payments of $63,475 and $99,667, respectively, made to certain active participants subsequent to year-end to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. The amounts are also included in the Plan's statement of net assets available for benefits as excess contributions payable at December 31, 2010 and 2009.

The Company, at the option of the Board of Directors, may contribute additional amounts to the Plan as a discretionary match of participant contributions. The Company makes a matching contribution to the employee's account for up to 2% of the employee's contribution for the year. Company contributions are credited to individual participants' accounts at the time the contribution is made and are allocated to a participant's account based on the participant's elections. Discretionary Company contributions for the years ended December 31, 2010 and 2009 were $250,732 and $245,631, respectively.

Participant Accounts: Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, allocations of Company discretionary contributions and investment earnings, and charged with withdrawals and an allocation of investment losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company contributions portion of participant accounts plus earnings thereon is based on years of continuous service. Amounts contributed by the Company for the benefit of each participant plus earnings thereon vest based on years of continuous service, as follows: less than 1 year, 0%; 1 year, 20%; 2 years, 40%; 3 years, 60%; 4 years, 80%; and, 5 or more years, 100%.

Notes Receivable from Participants: Participants may borrow from their investment fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes

NOTE A - PLAN DESCRIPTION (Continued)

receivable fund. Loans must be repaid within five years, or for the purchase of a primary residence, within thirty years. The loans are secured by the balance in the participant's account and bear interest at a fixed rate commensurate with local prevailing rates established at the time of the loan by the Plan administrator. Principal and interest is paid monthly through employee payroll deductions. Interest rates on existing participant loans range from 4.25% to 9.25% for the years ended December 31, 2010 and 2009.

Forfeited Accounts: Forfeitures of non-vested accounts are used to reduce Company contributions and to pay the Plan's administrative expenses. During 2010 and 2009 forfeited participant accounts of $32,272 and $26,876, respectively, were used to reduce the Company's contributions. During 2010 and 2009 forfeited participant accounts of $0 and $26,876, respectively, were used to pay certain administrative expenses of the Plan. Forfeited amounts at December 31, 2010, available to reduce the Company's future contributions were $8,934.

Payment of Benefits: On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service due to other reasons, a participant will receive the value of the vested interest in his or her account as a lump-sum distribution.

Investment Options: Upon enrollment in the Plan, a participant may direct employee contributions into any of the various investment options offered by the Plan. Participants may change their investment options and allocations annually. The Plan currently offers domestic equity, international, fixed income and money market mutual funds as investment options for participants.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements have been prepared on the accrual basis of accounting. The Plan recognizes participant contributions received as additions to net assets in the period received from participants through payroll deductions. Company contributions are recognized in the year in which the Company becomes obligated to make such contributions. Expenses are recorded when incurred in accordance with the accrual basis of accounting. Benefit payments are recorded when paid.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Investments are not insured or collateralized. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year. Certain management fees and operating expenses related to the Plan's investments are reflected as a reduction of investment income in the accompanying statements of changes in net assets.

All investment information included in the financial statements, notes and supplemental schedules was obtained from data that was prepared and certified as complete and accurate by Ascensus, the record keeper of the Plan, as agent for Frontier Trust Company, the trustee of the Plan. No auditing procedures

were performed by the independent certified public accountant with respect to the information certified as complete and accurate by the Plan trustee.

Use of Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events: The Plan has evaluated subsequent events through October 13, 2011, which is the date the financial statement were available to be issued.

NOTE C - INVESTMENT INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Ascensus, Inc. (Ascensus), the record keeper of the Plan, as agent for Frontier Trust Company, the trustee of the Plan, has certified that the following investment fair values and investment income included in the accompanying financial statements and supplemental schedules are complete and accurate.

NOTE D - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the assets or liabilities.
- Inputs that are derived principally from or corroborated by observable market data, by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement. These unobservable inputs reflect the Plan's own estimates for assumptions that market participants would use in pricing the asset or liability. Valuation techniques would typically include discounted cash flow models and similar techniques, but may also include the use of market prices of assets or liabilities that are not directly comparable to the subject asset or liability.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

The fair value measurement of an asset or liability within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Items Measured at Fair Value on a Recurring Basis: The following methods and assumptions were used by the Plan in estimating the fair value of financial instruments that are measured at fair value on a recurring basis under FASB ASC 820:

Mutual funds: Valued at the net asset value of shares held by the Plan at year-end as quoted on a national stock exchange.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There were no changes in the methodologies used during the years ended December 31, 2010 and 2009.

Fair Value of Assets: The fair value of the Plan's financial assets measured at fair value on a recurring basis at December 31, 2010 and 2009 by level within the fair value hierarchy are summarized as follows:

	Assets at Fair Value as of December 31, 2010

NOTE E - ADMINISTRATION

The Company is the Plan's administrator. The Plan is administered by certain employees of the Company as appointed by the Board of Directors of the Company. Frontier Trust Company is the Plan's trustee and custodian of its assets. Ascensus, Inc. is the Plan's record keeper and maintains participant account records and prepares periodic valuations and reports.

Expenses such as trustee, custodial, audit and legal fees are payable out of Plan assets, except where the Company directly assumes such expenses. For the 2010 and 2009 plan year, the Plan paid Frontier Trust Company $27,035 and $27,181, respectively, for trustee fees. For the 2010 Plan year, Plan management recorded the 2010 audit fees as an accounts payable at December 31, 2010 and intends to pay this amount from forfeitures in 2011. For 2009 all other administration expenses were paid by the Company, including audit fees.

NOTE F - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Ascensus prototype plan and related trust adopted by the Plan are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's legal counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

The Plan evaluates its uncertain tax positions in accordance with FASB ASC 740, *Income Taxes*, which states that management's determination of the taxable status of an entity, including its status as a tax-exempt entity, is a tax position subject to the standards required for accounting for uncertainty in income taxes. Management does not believe that the Plan has any significant uncertain tax positions that would be material to the financial statements. The Plan's tax returns for tax years 2007 to 2010 remain subject to

NOTE F - TAX STATUS (Continued)

examination by the Internal Revenue Service, generally for a period of three years after they are filed.

NOTE G - TERMINATION

Although it has not expressed any intent to do so, the Co mpany has the right u nder the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE H - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500 SCHEDULE H

As indicated in Note A, contributions received from participants are net of payments made to certain participants subsequent to year-end to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. The following is a reconciliation of the participant contributions reported in the financial statements to those reported on Form 5500 Schedule H:

	2010	2009
Participants contributions per the financial statements	$ 782,852	$ 794,906
Add: excess contributions reported on Form 5500 Schedule H, Part II, Line 2f, *Corrective distributions*	63,475	99,667
Participants contributions per Form 5500 Schedule H, Part II, Line 2a(1)(B)	$ 846,327	$ 894,573

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various mutual funds which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

Mutual fund investments may also include certain securities with contractual cash flows, such as asset backed securities collateralized by mortgage obligations and commercial mortgage backed securities, which may include certain securities backed by subprime mortgage loans. The value, liquidity, and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

NOTE J - PROHIBITED TRANSACTIONS

During the years ended December 31, 2009, 2008, and 2007, the Plan Sponsor failed to transmit to the Plan $36,370, $387,821 and $201,401, respectively, of withheld participant contributions and participant loan payments within the time period prescribed in the Code of Federal Regulations. Late payments result in a prohibited transaction inasmuch as a late remittance is deemed to create a loan to the Plan Sponsor.

On January 4, 2010 and on December 17, 2010, the Plan Sponsor made contributions to the Plan totaling approximately $1,800 to compensate for the lost earnings for the late remittances which occurred in the 2009, 2008 and 2007 Plan years.

NOTE K - SUBSEQUENT EVENT

The Plan paid benefits to participants totaling approximately $768,000 from January 1, 2011 through October 13, 2011.
