Report of Independent Auditors

The Participants and Administrator of the
Diesel, Inc. 401(k) Savings Plan

We were engaged to audit the accompanying statement of net assets available for benefits of Diesel, Inc. 401(k) Savings Plan as of December 31, 2010, and the related statement of changes in net assets available for benefits for the year then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management. Other auditors were engaged to audit the statement of net assets available for benefits of Diesel, Inc. 401(k) Savings Plan as of December 31, 2009. Their report, dated November 30, 2010, disclaimed an opinion on that financial statement as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3 as of and for the year ended December 31, 2010, which was certified by Massachusetts Mutual Life Insurance Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule as of and for the year ended December 31, 2010, taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Diesel, Inc. 401(k) Savings Plan

Notes to Financial Statements

December 31, 2010

1. Description of Plan

The following description of the Diesel, Inc. 401(k) Savings Plan (the Plan) provides general information about the Plan's provisions. Diesel, Inc. (the Company) is the plan sponsor. Participants should refer to the plan document and summary plan description for a more complete description of the Plan's provisions, copies of which may be obtained from the plan sponsor.

General

The Plan is a defined contribution plan covering all active employees of the Company. Employees who are age twenty-one or older are eligible to participate in the Plan after completing one year of service. Massachusetts Mutual Life Insurance Company (Mass Mutual) is the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Participants may elect to contribute up to 20% of pretax eligible compensation, as defined in the Plan (subject to the below limitations). The Company's match is calculated as 50% of the first 5% of eligible compensation that participants contribute to the Plan. The Company may also make a discretionary matching contribution up to a maximum of 6% of participants' eligible compensation. There was no such contribution made for the 2010 Plan year.

The Company may also make a discretionary profit-sharing contribution for eligible employees who are employed on the last day of the Plan year and have worked at least 501 hours during the Plan year. There was no such contribution made for the 2010 Plan year.

All contributions and earnings on contributions to the Plan are tax deferred and subject to restrictions imposed by the Internal Revenue Code of 1986 (the Code), as amended. Participant pretax contributions were limited to $16,500 for 2010 and 2009. Participants age 50 and older were allowed to make a pretax catch-up contribution of $5,500 for 2010 and 2009.

Participants direct their elective contributions into various investment options offered by the Plan and can change their investment options on a daily basis. The Company's contributions are allocated in the same manner as that of the participant's elective contributions.

1. Description of Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contribution plan earnings and administrative expenses. Allocations are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Company contributions are subject to a vesting schedule based on the number of years of continuous service as follows:

Years of Service	Vested Percentage
Less than one year	0%
One year (but less than two)	25%
Two years (but less than three)	50%
Three years (but less than four)	75%
Four years	100%

The Company considers one year of service to be at least 1,000 hours worked. Participants' interest in their accounts shall become 100% vested and non-forfeitable without regard to their credited years of service if they are employed by the Company on or after age 65, incur a permanent disability, die while employed by the Company, or if the Plan is terminated.

Forfeitures

As of December 31, 2010 and 2009, forfeited non-vested accounts totaled $17,113 and $10,530, respectively. Forfeitures are used to pay for administrative expenses of the Plan or reduce Company contributions to the Plan. During 2010, $10,258 was used to pay Plan expenses.

1. Description of Plan (continued)

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount equal to the lesser of (1) $50,000 less the participant's highest outstanding loan balance from the Plan during the year or (2) 50% of the participant's vested account balance, less any outstanding loan balance the participant may have. A participant may have two loans outstanding at any time. Interest rates on participant loans are based on the prime rate in effect at the time the loan is made, plus 2%. Interest charged on participant loans outstanding during 2010 ranged from 5.25% to 10.25%. The term of the loan shall not exceed five years, unless the proceeds are used to acquire a principal residence of the participant.

Payment of Benefits

On termination of service due to death, disability, retirement or termination, a participant or a participant's beneficiary is entitled to the entire vested amount allocated to the participant's account. For termination of service for other reasons, a participant will only receive the vested portion of his or her account. Distributions can be lump-sum payments or substantially equal installments.

Hardship withdrawals are permitted in accordance with the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS) and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan's provisions. Administrative expenses paid by the Plan include recordkeeping and trustee fees. Expenses relating to purchases, sales or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. All other administrative expenses of the Plan are paid by the Company.

1. Description of Plan (continued)

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100% vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Reclassifications

Certain prior year amounts in the statement of net assets available for benefits have been reclassified to conform to the current year presentation.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance, plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2010 or 2009. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the excess contributions to the applicable participants prior to March 15, 2011.

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 5 for further discussion and disclosures related to fair value measurements. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation in the fair value of its investments which consist of the realized gains and losses and the unrealized appreciation (depreciation) from those investments.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

New Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements*, (ASU 2010-06). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques

2. Summary of Significant Accounting Policies (continued)

and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 is effective for reporting periods beginning after December 15, 2009. Since ASU 2010-06 only affects fair value measurement disclosures, adoption of ASU 2010-06 did not affect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In September 2010, the FASB issued Accounting Standards Update 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans,* (ASU 2010-25). ASU 2010-25 requires participant loans to be measured at their unpaid principal balance plus any accrued by unpaid interest and classified as notes receivable from participants. Previously loans were measured at fair value and classified as investments. ASU 2010-25 is effective for fiscal years ending after December 15, 2010 and is required to be applied retrospectively. Participant loans have been reclassified to notes receivable from participants as of December 31, 2009.

In May 2011, the FASB issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures,* to converge the fair value measurement guidance in US generally accepted accounting principles (GAAP) and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures although certain of these new disclosures will not be required for non-public entities. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Subsequent Events

Management evaluated subsequent events for the Plan through October 11, 2011, the date the financial statements were available to be issued.

3. Investments

Individual investments that represent 5% or more of the Plan's net assets available for benefits are as follows:

	2010	2009
Mass Mutual Guaranteed Account (Note 4)*	**$ 882,484**	$ 788,726

* The fair value of the Plan's investment in the Mass Mutual Guaranteed Account was $953,595 and $827,744 at December 31, 2010 and 2009, respectively.

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held, notes receivable from participants and the adjustment from fair value to contract value for fully benefit-responsive investment contracts at December 31, 2010, and net appreciation in fair value of investments, interest, dividends and interest income on notes receivable from participants for the year ended December 31, 2010, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Mass Mutual, the trustee of the Plan.

4. Investment Contract with Insurance Company

Fully Benefit-Responsive Investment Contracts

The Plan invests in a fully benefit-responsive guaranteed investment contract (GIC). In accordance with ASC 946-210-20, the Statement of Net Assets Available for Benefits present these investment contracts at fair value; however, since these contracts are fully benefit-responsive, an adjustment is reflected in the Statements of Net Assets Available for Benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value of the fully benefit-responsive investment contracts represents contributions plus earnings, less participant withdrawals and administrative expenses. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

4. Investment Contract with Insurance Company (continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates was approximately 2.8% for 2010 and 3.1% for 2009.

The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3%. Such interest rates are reviewed on a quarterly basis for resetting. Certain events may limit the ability of the Plan to transact at contract value. Such events include but may not be limited to the following: (1) temporary absence; (2) change in position or other occurrence qualifying as a temporary break in service under the Plan; (3) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the employer; (4) cessation of an employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the plan sponsor's business; (5) removal from the Plan of one or more groups or classifications of participants; (6) partial or complete plan termination; or (7) plan disqualification. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable.

5. Fair Value Measurements

Fair value is defined under ASC 820, *Fair Value Measurements and Disclosures*, as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

5. Fair Value Measurements (continued)

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- quoted prices for similar assets and liabilities in active markets
- quoted prices for identical or similar assets or liabilities in markets that are not active
- observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based upon the lowest level input that is significant to the fair value measurement in its entirety.

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value by the Plan:

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Fully benefit-responsive investment contracts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2010 and 2009:

	2010			
	Level 1	**Level 2**	**Level 3**	**Total**

Total investments, at fair value	$ –	$ 3,352,782	$ 827,744	$ 4,180,526

(a) This category includes investments in highly diversified funds designed to remain appropriate for investors in terms of risk throughout a variety of life circumstances. These common/collective trust funds share the common goal of first growing and then later preserving principal and contain a mix of U.S. common stocks, U.S. issued bonds and cash. There are currently no redemption restrictions on these investments. The fair values of the investments in this category have been estimated using the net asset value per share.

5. Fair Value Measurements (continued)

Level 3 Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2010:

	Guaranteed Investment Account
Balance, beginning of year	$ 827,744
Unrealized gains relating to instruments still held at the reporting date	32,092
Purchases, sales, issuances and settlements (net)	93,758
Balance, end of year	$ 953,595

6. Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 and 2009 to the Form 5500:

	2010	2009
Net assets available for benefits per the financial statements	**$ 5,282,017**	$ 4,213,030

Net assets available for benefits per the Form 5500	**$ 5,290,082**	$ 4,264,257

6. Reconciliation of Financial Statements to the Form 5500 (continued)

The following is a reconciliation of total contributions per the financial statements to the Form 5500 for the year ended December 31, 2010:

Total contributions per the financial statements	$ 865,922
Less:	
Participant contribution receivable, current year	–
Employer contribution receivable, current year	–
Excess contributions, prior year	(61,872)
Add:	
Participant contribution receivable, prior year	7,728
Employer contribution receivable, prior year	2,917
Excess contributions, current year	8,065
Total contributions per the Form 5500	$ 822,760

7. Related-Party Transactions

Certain Plan investments are shares of pooled separate accounts and benefit-responsive investment contracts managed by Mass Mutual. Mass Mutual is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Mass Mutual for investment management services amounted to $39,454 and $29,833 for the years ended December 31, 2010 and 2009, respectively.

8. Tax Status

The underlying non-standardized prototype plan has received an opinion letter from the IRS dated April 23, 2002 stating that the form of the plan is qualified under Section 401(a) of the Code and therefore the related trust is tax-exempt. In accordance with Revenue Procedures 2010-6 and 2005-16, the plan administrator has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan is qualified and the related trust is tax-exempt.

8. Tax Status (continued)

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.
