Note A - Description Of Plan

The following description of Access Health Care LLC 401(k) Profit Sharing Plan (the Plan) (formerly, Access Health Care LLC 401(k) Profit Sharing Plan and Trust) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a prototype profit sharing plan covering all eligible employees of Access Health Care, LLC and its participating affiliates (collectively, the Sponsor). The Plan was originally effective January 1, 2002, has been amended subsequently and was most recently restated on January 1, 2010. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

The elective deferral component of the Plan requires attaining the age of 21 and completing three consecutive months of service. Eligibility requirements for the Sponsor contributions are attaining the age of 21 and completing one year of service. Participants are credited with a year of service for any Plan year in which 1,000 hours are worked, using the equivalency method of crediting hours. Under this method, employees are credited with 190 hours per month for each month in which an hour of service is worked.

Contributions

Each year participants may contribute from 1% to 96% of their pretax annual compensation, as defined by the Plan, up to statutory annual limits. In addition, the Plan allows post-tax contributions, catch up contributions and distributions from qualified plans, annuity contracts, and other eligible plans as defined in the Plan instrument. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Sponsor matches each participant's deferral in an amount equal to 100% of the first 3% and 50% of greater than 3%, but less than 5% of the participant's deferred compensation. Matching contributions are calculated each payroll period.

The Plan also allows profit sharing and nonelective contributions. The Sponsor did not make any profit sharing or nonelective contributions for the years ended December 31, 2010 and 2009.

Participant Accounts

Each participant's account is credited with the participant's salary deferral contributions, an allocation of the Sponsor contributions, and Plan earnings. Allocations of earnings are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Vesting is based on years of service. Participants are immediately vested in their salary deferral contributions, employee rollovers, Sponsor safe harbor contributions, and actual earnings thereon.

A participant is fully vested in all other non-safe harbor Sponsor contributions after six years of service and also upon retirement, death, or total and permanent disability. The following schedule describes the Plan's vesting provisions relating to these contributions:

Years of Service	Vested Percentage
One year or less	None
Two years	20%
Three years	40%
Four years	60%
Five years	80%
Six years	100%

Forfeitures

Forfeitures of nonvested Sponsor contributions are used to reduce Sponsor contributions or to pay administrative expenses.

Participant Loans

Participants may borrow from their accounts a minimum of \$1,000, up to one half of their vested account balances, not to exceed \$50,000, with terms that may not exceed five years unless made to purchase a primary residence, and the loans are to carry a reasonable rate of interest.

Payment Of Benefits

Upon termination, retirement, death, or disability, participants may elect to receive a lump sum amount equal to the value of the vested interest in their account, periodic payments over a specified period of time, or to transfer the balance of the account to another trust.

Trustee

The Plan's trustee for 2009 and for the period from January 1, 2010 to February 8, 2010 (transfer date) was Mid Atlantic Trust Company (Mid Atlantic). Starting January 1, 2010, all employee and employer contributions were remitted to the new trustee, Hartford Life Insurance Company (Hartford). Mid Atlantic was the trustee for the investments previously contributed to the Plan until the transfer date. As such, for the period January 1, 2010 to the transfer date, assets were held by both trustees. After the transfer date, Mid Atlantic ceased to be trustee for the Plan.

Note B - Significant Accounting Policies

Basis Of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting, except for benefit payments which are recorded when paid.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, as contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Investment in the general account is considered fully benefit-responsive and as such, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the general account.

The statements of net assets available for benefits present the fair value of the investment contract, which approximates contract value. As a result, the 2010 statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment Contract With Insurance Companies

The general account is credited with a rate of interest as declared by Hartford quarterly, but is in no case lower than 3% guaranteed minimum interest rate.

The average yield earned by the Plan is the yield earned (i.e., interest credited) on the contract. The fixed account was credited with a rate of interest of 3% for the year ended December 31, 2010. The fixed account contract issuers are contractually obligated to repay the principal and guaranteed minimum interest rate.

Certain events limit the ability of the Plan to transact at contract value. Such events may include the following: 1) amendments to the Plan documents (including complete or partial termination), 2) bankruptcy of the Sponsor or other Sponsor events that cause a significant withdrawal from the Plan, or 3) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Investment Valuation And Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In accordance with the policy of stating investments at fair value, net unrealized appreciation (depreciation) is reflected in the statements of changes in net assets available for benefits. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains or losses on investments bought and sold as well as held during the year.

Administrative Expenses

The Plan's administrative expenses, except for certain fees, are paid by the Sponsor.

Notes Receivable From Participants

Notes receivable from participants are measured at the unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Use Of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent Events

The Sponsor has evaluated all events subsequent to December 31, 2010 and through the report date, which is the date these financial statements were available to be issued. The Plan was restated effective January 1, 2012. The Sponsor determined that there are no other subsequent events that require recognition or disclosure in the accompanying financial statements.

Note C - Investments

The following presents investments that represent 5% or more of the Plan's net assets at December 31:

American Funds EuroPacific Gr R3		122,089
American Funds Grth Fund of Amer R3		122,570

Note D - Fair Value Measurements

Accounting standards provide a framework for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include indirect observable inputs including prices for similar assets and market corroborated inputs. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled Separate Accounts - Valued based on the reported net asset value of each fund, which is based on the quoted market price or fair value of each fund's underlying investment less investment fees and charges.

Shares of registered investment companies - Valuation of investments in shares of registered investment companies is based on the reported net asset value of each fund, which is based on the quoted market price or fair value of each fund's underlying investments.

General Account - Valued at fair value as estimated by Hartford, and adjusted to contract value which represents contributions made under the contract, plus interest at the contract rate, less funds used to pay retirement benefits.

Notes To Financial Statements

December 31, 2010 And 2009

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the Plan's fair value hierarchy as of December 31:

<i>2010</i>	Total	Level 1	Level 2	Level 3

Note E - Information Prepared And Certified By The Trustees

The Sponsor has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The plan administrator has obtained certifications from the trustees regarding the completeness and accuracy of the information provided to the plan administrator by Hartford, the current trustee, and Mid Atlantic, the former trustee.

Note F - Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note G - Tax Status

The Plan adopted an approved prototype plan which received an opinion letter from the Internal Revenue Service (IRS) on March 31, 2008 as to the Plan's qualified status. The Sponsor has elected to rely on the prototype plan determination letter in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code.

In September 2010, the Sponsor was notified by the United States Department of Labor that the Plan's 2008 Form 5500 filing was not satisfactory, as the required independent auditor's report was not included. A penalty of \$50,000 has been assessed. Subsequently, the Sponsor filed the 2008 Form 5500 with the required independent auditor's report. The Sponsor filed two appeals and a formal hearing has been scheduled for October 17, 2011.

The plan administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the accompanying financial statements. The Plan is no longer subject to examination by taxing authorities for years prior to 2007.

Note H - Related Party Transactions

Fees paid during 2010 and 2009 by the Sponsor and the Plan to the Plan's trustees and other service providers were based on customary and reasonable rates for their services. While these transactions qualify as party-in-interest activity, they are expressly exempted from the prohibited transaction rules (ERISA, Title I, Section 408(b)).

Note I - Risks And Uncertainties

The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note J - Reconciliation of Financial Statements to Form 5500

At December 31, 2010, the accompanying financial statements reflect an employer match receivable of \$25,000, which is not recorded on Schedule H of Form 5500. As such, total employer contributions are \$251,438 per the accompanying financial statements and \$226,438 per Schedule H. Net assets available for benefits are \$2,587,329 per the accompanying financial statements and \$2,562,329 per Schedule H.

At December 31, 2009, investments of \$1,586,289 per Schedule H of Form 5500 include \$60,004 of employee and employer contributions recorded by the third party administrator but not received by the trustee. The trustee certification of \$1,526,285 in investments excludes these receivables.

2010 Fee and Compensation Disclosure Report

This document is intended to assist a plan administrator (“you”) in understanding the fees and compensation associated with your plan. If your plan is required to complete a *Form 5500 Schedule C*, this report identifies the different types of reportable compensation paid with respect to the Hartford product utilized by the retirement plan.

As permitted under the Schedule C reporting rules, compensation is disclosed in the attached report as an actual dollar amount, an estimate, or a formula or rate.

- Where it is an actual dollar amount, no further notation is provided.
- Where it is an estimate, we have used a reasonable method to arrive at the estimate and described the method used to arrive at the estimated amount.
- Where a formula or rate is provided, the formula may be disclosed under the Schedule C reporting rules. Alternatively, for purposes of Schedule C or for your fiduciary review of the compensation paid with respect to the plan’s product, you may calculate an actual or estimated dollar amount by multiplying the rate by the total assets to which it applies. Thus, much of the compensation information being provided can be expressed in the form of a formula.

Please note that all compensation is being reported for the 2010 calendar year. This report includes compensation actually paid to or by The Hartford within the 2010 calendar year as part of your Hartford product. This report does not include amounts deducted from plan assets and paid to third parties (other than The Hartford). In addition, the report does not include compensation related to investments held by the plan that are not serviced on our recordkeeping system. You should contact your other service providers for reportable compensation information. You may also receive information on the compensation reported here directly from other service providers.

Please note that we have provided suggested service codes with respect to services provided through our Hartford product. These service codes are listed in the 2010 Instructions for Schedule C (Form 5500). Please review with your experienced benefits counsel and other professionals to determine the most appropriate service codes for your plan.

Please contact your Hartford Client Service Team should you require additional information regarding the compensation paid to or by The Hartford with respect to your plan.

Information provided in this document and related materials we provide are not intended to be and shall not be deemed tax advice, tax form preparation services, legal advice or accounting or other professional services. We strongly encourage you to review all Schedule C and other Form 5500 materials with experienced benefits counsel and other professionals.

Under the variable investment options available through your plan's group annuity contract or funding agreement, contract values are invested in Hartford Life Insurance Company separate accounts that, in turn, invest in underlying registered investment companies (i.e., mutual funds) and collective investment funds.

The list includes any investment option held by the plan during the 2010 calendar year. To arrive at an estimate of the dollar amount that Hartford received from each investment option, multiply the rate of fees received from each investment option by your plan's year-end balance (or if the investment option was liquidated prior to year end, the balance on the liquidation date) and, if applicable, the per participant fee by the number of participants in the investment option at year end (or the liquidation date if earlier). This will be an estimate because your plan's balance and number of participants will vary over the course of the year, so the year-end balance and number of participants may be higher or lower than the daily balance. In addition, these fees are calculated on a daily basis.
