INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
Pacific American Fish Company, Inc. 401(k) Retirement Plan

We were engaged to audit the financial statements of Pacific American Fish Company, Inc. 401(k) Retirement Plan (the "Plan") as of December 31, 2010 and 2009, and for the year ended December 31, 2010, and the supplemental schedule as of December 31, 2010, as listed in the accompanying table of contents. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note D, which was certified by John Hancock, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2010, that the information provided to the plan administrator by the custodian and trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2010 financial statements and schedule taken as a whole. The form and content of the information included in the 2010 financial statements and schedule, other than that derived from the information certified by the custodian and trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America, and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

PACIFIC AMERICAN FISH COMPANY, INC. 401(K) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010

NOTE A: **Description Of The Plan** - The following description of the Pacific American Fish Company, Inc. 401(k) Retirement Plan (the "Plan"), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(1) General - The Plan is a defined contribution plan which was adopted by Pacific American Fish Company, Inc. ("The Company") effective January 1, 1997, and is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code of 1986, as amended. The purpose of the Plan is to provide retirement benefits for substantially all employees who have completed thirty days of service and are age 21 or older. Part time employees as defined in the Plan Document will be eligible to participate in the plan after completing 1,000 hours of service.

(2) Contributions - Participants may elect to contribute up to 100 percent of their pretax annual compensation not to exceed the maximum deferral limitation, as defined in the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make safe harbor contributions or discretionary profit sharing contributions to the Plan. For the year ended December 31, 2010, the Company elected to contribute a safe harbor match to the Plan equal to 100 percent of the first 4 percent of the participant's contributions, totaling $53,138. The Company did not make any discretionary profit sharing contributions during 2010.

(3) Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(4) Vesting - Participants are immediately vested in their voluntary and rollover plus actual earnings thereon. Vesting in additional profit sharing contributions plus actual earnings thereon is based on years of continuous service. A participant is vested at the rate of 20 percent each year after two years of service and is considered to be 100 percent vested after six years of credited service. Participants are 100 percent vested in safe harbor contributions.

NOTE A: **Description Of The Plan** – (Continued)

(5) Notes Receivable From Participants - Participants may borrow against their plan account balance within plan guidelines. Loan terms are at the discretion of the borrower but generally cannot exceed five years. Loans used to acquire principal residence are not to exceed a term of fifteen years. The loan amount can be a minimum of $1,000 but cannot exceed the lesser of (a) one-half of the participant's non-forfeitable interest under the Plan, or (b) $50,000. Interest is charged on the outstanding balance at rates determined by the plan administrator based on the prevailing interest rates. Principal and interest is paid ratably through payroll deductions. The notes are secured by the vested account balance in the participant's account, and a participant can have a maximum of one loan outstanding at any time.

(6) Benefit Payments - If a participant's employment ceases as a result of death, the entire account becomes fully vested and the participant or the participant's beneficiaries are entitled to receive the contents of the account. If a participant terminated for any other reason, the participant is entitled to receive only the vested percentage of the account. Participant or their beneficiaries may elect to receive benefits in a single lump sum only. Upon termination of service, where the vested value is no more than $5,000, a participant will receive the value of the vested interest in his or her account as a lump-sum distribution automatically. Additionally, under certain circumstances of financial hardship or upon attaining the age of 59 ½, participants are allowed to withdraw their funds from the Plan.

(7) Forfeitures - Forfeitures of the employee's non-vested portion of the Company's contributions are used to reduce future employer's contributions or plan expenses, for the years ended December 31, 2010 and 2009, forfeited non-allocated balances totaled $9,747 and $1,633, respectively.

(8) Administrative Expenses - Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. The majority of administrative expenses incurred by the Plan are absorbed by the Company. Certain administrative expenses such as benefit payment requests and loan set up are charged directly to the participant requesting them and reduce the net amount received by the participant.

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation in fair values of investments.

NOTE B: **Summary of Significant Accounting Policies** - The following are the significant accounting policies followed by the Plan:

(1) Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

(2) Investment Valuation and Income Recognition - The Plan's investments are stated at fair value at December 31, 2010 and 2009. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note I for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade date basis. Dividends are recorded on the ex-dividend rate. Capital gains and/or losses are reported the day after the trade date.

Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits as net realized and realized gain on pooled separate accounts.

Brokerage fees are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

(3) Payment of Benefits - Benefits are recorded when paid.

(4) Use of Estimates - The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and gains, and expenses and losses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

(5) Recent Accounting Pronouncements - In September 2010, the FASB issued Accounting Standards Update (ASU) No. 2010-25, "*Plan Accounting – Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans*," which requires participant loans to be segregated from plan investments subject to fair value measurement, classified as notes receivable and measured at their unpaid principal balance plus accrued interest. The ASU requires retrospective application and applies to reporting periods beginning after December 15, 2010; early adoption is permitted. Accordingly, the Plan's participant loans have been reported as receivables in the statements of net assets available for benefits as of December 31, 2010 and 2009, and participant loan interest has been excluded from investment income in the related statement of changes in net assets available for benefits for the year ended

NOTE B: **Summary of Significant Accounting Policies** – (Continued)

December 31, 2010. In addition, participant loans have been excluded from the fair value disclosures at Note I. Adoption of the ASU represents a reclassification within the financial statements and had no impact on net assets available for benefits or changes therein.

In January 2010, the FASB issued Accounting Standards Update No. 2010-06, *Improving Disclosures about Fair Value Measurements (Topic 820) - Fair Value Measurements and Disclosures* (ASU 2010-06), to add additional disclosures about the different classes of assets and liabilities measured at fair value, the valuation techniques and inputs used, and the activity in Level 3 fair value measurements. Certain provisions of this update will be effective in the year ending December 31, 2011 and the Plan is currently evaluating the impact of the pending adoption of ASU 2010-06 on the Plan's financial statements.

NOTE C: **Concentrations, Risks And Uncertainties** - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Plan's investments are held by John Hancock. The Plan invests in a guaranteed interest contract, which is a non benefit-responsive contract, and pooled separate accounts. The Plan is at risk of loss in any of its pooled separate accounts which could fail to the extent of the dollars invested in the funds.

NOTE D: **Investments** - The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent accountants not to perform any auditing procedures with respect to the following information certified by John Hancock Insurance And Annuity Company ("John Hancock"), except for comparing such information certified by the asset custodian to information included in the Plan's financial statements and supplemental schedules.

The plan invests in pooled separate accounts and guaranteed investment contracts. The following table presents the fair values of the participant-directed investments in this Plan that are certified by the trustee. Those investments that represent 5 percent or more of the Plan's net assets are separately identified.

NOTE D: **Investments** – (Continued)

Total Investments	$ 1,689,248	$ 1,418,535
Cash	$ 9,747	$ 1,633
Total	$ 1,698,995	$ 1,420,168
Notes Receivable From Participants	$ 36,372	$ 9,193

John Hancock also certified the completeness and accuracy of $139,165 of net appreciation in fair value of investments in pooled separate accounts, $97 net realized and unrealized loss on the guaranteed interest contracts and $559 of interest on notes receivable from participants for the year ended December 31, 2010.

The Plan invests in non-benefit responsive guaranteed interest accounts with John Hancock. John Hancock maintains the contributions in a general account, which is credited with earnings on the underlying funds and charged for participant withdrawals and administrative expenses.

The contract value weighted average yield and crediting interest rates varied between approximately 0.3 percent and 0.7 percent for 2010. The contract value weighted average yield and crediting interest rates varied between approximately 0.15 percent and 1.4 percent for 2009. Interest rates are established on the first day of each calendar month and apply to any regular ongoing contributions made to the guaranteed account in that month. For other types of contributions, interest rates may differ and may change during the month.

At the end of each reporting year, a "composite rate" of interest is determined for each participant account, depending on the amount contributed and the rate in effect on the day it is allocated under the participant account. The composite rate is the effective annual rate earned by all contributions to that guaranteed account during that reporting year for that participant. Contributions continue to earn the

NOTE D: **Investments** – (Continued)

calculated composite interest rate for the duration of the guaranteed term. Interest rates are not reset. At the end of the guaranteed period, contributions and interest earned from a guaranteed account may be invested into any of the investment options available under the group annuity contract.

NOTE E: **Plan Termination** - Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, all participants would become fully vested in their accounts.

NOTE F: **Tax Status** - The Plan is based on the Prototype Volume Submitter Profit Sharing with CODA with SunGard Corbel, LLC which received a determination letter from the Internal Revenue Service (IRS) dated March 31, 2008, stating that the Prototype Plan was designed in accordance with the provisions of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. The related trust, therefore, is not subject to tax under present income tax law.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE G: **Exempt Party-In Interest Transactions** - The plan invests in pooled separate accounts and guaranteed income accounts are managed by John Hancock which is the custodian, as defined by the Plan, and therefore, these investments qualify as party-in interest transactions. Fees paid by the Plan for the investment management services amounted to $19,793 for the year ended December 31, 2010.

NOTE H: **Withdrawn Participants** - At December 31, 2010 and 2009, there were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not been paid.

NOTE I: **Fair Value Measurements** - Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *"Fair Value Measurements and Disclosures,"* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

NOTE I: **Fair Value Measurements** – (Continued)

Pooled Separate Accounts: The Plan invests in pooled separate accounts consisting primarily of stocks and bonds and does not have guaranteed rates of return. The invested assets are adjusted to market value daily by the Separate Accounts Valuation and Accounting department utilizing unit values. Unit values are calculated using the market value of the assets, net of the investment management fee, of each account and the number of outstanding units.

Guaranteed Interest Account: Fair values are defined in their contracts, and equal the values paid if the funds are withdrawn prior to their maturity, as of December 31, 2010 and 2009.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets, measured on a recurring basis, at fair value as of December 31, 2010:

	Level 1	Level 2	Level 3	Total
