INDEPENDENT AUDITORS' REPORT

To the Plan Administrator
Martin 401(k) Plan

We were engaged to audit the financial statements of Martin 401(k) Plan as of December 31, 2010 and 2009 and for the years then ended, and the supplemental schedule as of December 31, 2010, as listed in the accompanying Table of Contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Fidelity Management Trust company, the trustee and custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the trustee as of and for the years ended December 31, 2010 and December 31, 2009, that the information provided to the Plan Administrator by the trustee is complete and accurate.

As described in Note 2, these financial statements were prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

MARTIN 401(K) PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Martin 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

GENERAL

The Plan is a defined contribution plan covering full-time employees of Martin Resource Management Corporation (the Company) and its subsidiaries and affiliates. Employees are eligible to participate in the plan regardless of age or service requirements. Plan entry dates are the beginning of each pay period. The Plan is subject to the provisions of the Employee Retirement Income Securities Act of 1974 (ERISA).

PLAN ADMINISTRATION

The Trustee of the Plan, Fidelity Management Trust Company, is responsible for managing the Plan's investment assets. Fidelity Management Trust Company also performs the Plan's administrative duties such as preparation of the Form 5500, participant recordkeeping, compliance testing and enrollment and transaction processing. Employees of the Company may perform certain other administrative functions; however, such employees receive no compensation from the Plan.

CONTRIBUTIONS

Participants may elect to contribute up to 30%, in whole percentages, of their pretax annual compensation and up to 100% of their discretionary bonus, not to exceed the limit of Code Section 401(k) which is $ 16,500 for 2010 and 2009. In addition, pursuant to Internal Revenue Code 414(v), participants that reach age 50 before the close of the plan year can make catch-up contributions in an amount up to $5,500 for 2010 and 2009. The Company makes matching contributions based on the Safe Harbor Matching basic formula which is 100% of applicable contributions up to the first 3% of compensation, plus 50% of applicable contributions up to the next 2% of compensation. For 2010 and 2009, compensation is limited to $245,000 for determining employer contributions. In addition, the employer may also make a discretionary, non-elective contribution on behalf of active participants. These discretionary, non-elective contributions, if any, shall be allocated to active participants based on compensation. Combined employer contributions and employee deferrals per employee for all employer sponsored defined contribution plans are limited to 100% of wages up to $49,000 for 2010 and 2009, respectively.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contribution, an allocation of the Company's contribution and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

INVESTMENT OPTIONS

Upon enrollment in the Plan, a participant may direct employee contributions and employer matching and discretionary contributions to any options provided by Fidelity Management Trust Company.

NOTE 1 – DESCRIPTION OF PLAN - CONTINUED

VESTING

Participants are immediately vested in their contributions plus actual earnings thereon. Under the Safe Harbor Matching Formula, employer matching contributions plus actual earnings thereon are also 100% vested. In the event the Company makes a discretionary, non-elective contribution on behalf of active participants, vesting in the contribution plus actual earnings thereon is based on years of continuous service as follows:

Years of Service	% Vested
1	20%
2	40%
3	60%
4	80%
5	100%

Full vesting also occurs at retirement (normal retirement age is sixty-five years), disability, or death.

NOTES RECEIVABLE FROM PARTICIPANTS

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount equal to the lesser of 50% of the participant's account balance or $50,000. The loans are secured by the balance in the participant's account. The loans bear interest rates ranging from 5.00% - 9.25%. Repayment of loans is required to be made through payroll deductions.

PAYMENT OF BENEFITS

Participants are entitled to the benefits that can be provided from their individual account balances, subject to vesting, upon retirement, death, or termination. Payment is required to be made as soon as administratively feasible after one of these events occurs. The participant may elect to defer distribution until April 1 of the calendar year following the calendar year in which such a participant reaches age 70 ½ years of age.

FORFEITURES

Forfeitures are used to reduce employer contributions or pay administrative fees of the Plan. For the years ended December 31, 2010 and 2009, forfeited amounts totaled $5,630 and $6,929, respectively. For the year ending December 31, 2010, there were no expenses paid or employer match reductions paid from the forfeiture account. For the year ending December 31, 2009, $23,241 was used to reduce the first quarter employer match and no administrative fees were paid from the forfeiture account.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements of the plan are prepared on the modified cash basis of accounting. The cash basis method of accounting is modified with respect to investments (which are recorded at fair value) and contributions (which are recorded and reflected in the plan year for which the deposit was received).

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

HP

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES – CONTINUED

ESTIMATES

The preparation of financial statements in conformity with the modified basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

INVESTMENT VALUATION

The investments in all funds, except the investment contract, are presented at fair value, based on the quoted market prices at December 31, 2010 and 2009. The investment contract is fully benefit responsive and is reported at fair value and adjusted to contract value, as determined by Fidelity Management Trust Company. See notes 4 and 5 for discussion of investment contracts and fair value measurements.

NOTES RECEIVABLE FROM PARTICIPANTS

Participant loans are classified as notes receivable and are measured at their unpaid principal balance. When a participant fails to comply with the terms of a plan loan, the loan is in default. A defaulted loan may be treated as an actual distribution, a deemed distribution, or a combination of the two.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

OPERATING EXPENSES

Annual fees for testing and reporting as well as fees for Form 5500 preparation were paid to Fidelity by the Company on behalf of the plan for the years ended December 31, 2010 and 2009 and are not reflected in the financial statements. All other participant account and loan fees were deducted from respective participant accounts and are reflected as administrative fees in the statements of changes in net assets available for benefits.

SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 14, 2011, the date the financial statements were available to be issued.

RECLASSIFICATIONS

Certain comparative amounts have been reclassified to be consistent with the current year's presentation.

CHANGE IN ACCOUNTING PRINCIPLE

In September 2010, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2010-25 clarifying the classification and measurement of participant loans by defined contribution pension plans. The guidance requires that participant loans be classified as notes receivable from participants and measured at their unpaid principal balance. The standard requires retroactive application. The Plan has adopted this new guidance in its December 31, 2010 financial statements and has reclassified participant loans for the years ended December 31, 2010 and 2009 from investments to notes receivable from participants. Net assets of the plan were not affected by the adoption of the new guidance.

NOTE 3 – INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets at December 31, 2010 and 2009.

	December 31, 2010	December 31, 2009
Fidelity Magellan Fund	$ 4,705,014	$ 4,058,011
Fidelity Blue Chip Growth Fund	3,883,855	2,989,773
Fidelity Managed Income Portfolio, at contract value (see note 4)	5,123,090	4,665,767

During 2010 and 2009, the Plan's investments (including gains and losses on investments bought, sold, and held during the year) appreciated in value as follows:

	2010	2009
Mutual funds	$ 3,955,989	$ 6,018,294

NOTE 4 – INVESTMENT CONTRACT

During 2010 and 2009, the Plan was invested in a fully benefit responsive investment contract with Fidelity Investments (Fidelity). The contract is included in the statements of net assets available for benefits at fair value. The adjustment from fair value to contract value for the investment contract is based on the contract value as determined by Fidelity Management Trust Company. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The fair value of the investment contract at December 31, 2010 and 2009 was $5,165,087 and $4,580,590, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed periodically for resetting.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with Fidelity. The Plan Administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with the Plan participants is not probable.

Average yields:	2010	2009
Based on actual earnings	2.68%	3.16%
Based on interest rate credited to participants	1.44%	1.20%

NOTE 5 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Accounting Standards Codification 820, Fair Value Measurements and Disclosure, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identifiable assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The methodologies used by the Plan for assets measured at fair value (and described in Note 2 above) may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 – FAIR VALUE MEASUREMENTS - CONTINUED

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	Fair Value December 31, 2010	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)

NOTE 6 – INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, as shown in the statements of net assets available for benefits as of December 31, 2010 and 2009.
- Investment activity, as shown on the statements of changes in net assets available for benefits for the years ended December 31, 2010 and 2009.
- The schedule of assets held as of December 31, 2010.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to related information included in the financial statements and supplemental schedule.

NOTE 7 – CORRECTIVE MATCH

Effective April 1, 2009, employees of East Texas Mack were moved to their own 401(k) plan and transferred out of the Martin 401(k) Plan (see Note 8). In order to create separate files for each plan within the payroll system, the software program that compiled gross compensation and calculated the employer match had to be re-written. During this process, there was an inadvertent change made to the way gross compensation was compiled. The error resulted in an understatement of actual gross compensation and was discovered in July 2010. At that time, a corrective match contribution was made to the participants of the Plan by the employer in the amount of $182,512. This contribution is reflected as an employer contribution receivable on the statement of net assets available for benefits for 2009.

NOTE 8 – TRANSFERS

There were no significant transfers in or out of the plan for 2010.

The trustees for the Martin 401(k) Plan signed a resolution in January 2009 stating that effective April, 1, 2009, East Texas Mack employees would no longer be eligible to participate in the Plan due to changes in applicable law related to definitions of controlled groups. The account balances of participants employed or previously employed by East Texas Mack were transferred to a 401(k) and related trust set up specifically for East Texas Mack. The value of the accounts transferred out of the Martin Plan is reflected in the 2009 statement of changes in net assets available for benefits.

NOTE 9 – PLAN AMENDMENTS

Effective October 25, 2010, section 1.07(a)(3) of the plan document was amended to state that deferrals on bonus compensation were permitted, but that a request must be made by the participant. Prior to the amendment, plan compensation was defined to include all bonuses paid.

The trustees for the Martin 401(k) Plan signed a resolution in January 2009 that effective April, 1, 2009; East Texas Mack and its related Plan participants were no longer eligible to be a part of the Martin 401(k) due to definitions of a controlled group (see Note 8).

On December 30, 2009, the trustees executed an amendment to update the Plan for compliance with recent legislation and regulations.

NOTE 10 – RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $60,502 and $56,628 for the years ended December 31, 2010 and 2009, respectively.

NOTE 11 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan with respect to either a portion or all of the participants by delivering to the Trustee written notice of such termination. In the event of Plan termination, participants will become 100 % vested in their accounts.

NOTE 12 – TAX STATUS

The Internal Revenue Service has determined and informed the Company, by a letter dated September 22, 2003, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

NOTE 13 – LOANS IN DEFAULT

Loans in default at December 31, 2010 and 2009 were $5,923 and $908, respectively.

NOTE 14 – RISKS AND UNCERTANTIES

The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 15 – RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of the Form 5500 as of December 31, 2010:

Net assets available for benefits per the financial statements	$	46,628,594
Participant contributions received after year end		(35,523)
Employer contributions received after year end		(747,422)
Adjustment from fair value to contract value for fully benefit responsive investment contracts		41,997
Net assets available for benefits per Schedule H to the Form 5500	$	45,887,646

The following is a reconciliation of the net increase in assets available for benefits per the financial statements for the year ended December 31, 2010 to the net income per the Schedule H of Form 5500:

Net increase in assets available for benefits per the financial statements	$	9,391,711
Less: Employer contribution accrued at December 31, 2010		(747,422)
Less: Participant contribution accrued at December 31, 2010		(35,523)
Add: Employer contribution accrued at December 31, 2009		752,356
Add: Participant contribution accrued at December 31, 2009		31,451
Add: Current year change in adjustment from fair value to contract value for fully benefit responsive investment contracts		127,174
Net income per Schedule H of Form 5500	$	9,519,747

Notes receivable are classified as investments in the Plan's Form 5500 pursuant to the requirements of ERISA and the IRC. These assets are classified as notes receivable in the accompanying financial statements pursuant to ASU 2010-25, as discussed in Note 2 above. The difference in classification does not result in a difference in the Plan's net assets available for benefits.
