INDEPENDENT AUDITOR'S REPORT

To the Trustees and Participants
Operations Pathway Systems L.P. Retirement Savings Plan

We were engaged to audit the financial statements of Operations Pathway Systems L.P. Retirement Savings Plan (the Plan) as of December 31, 2010 and 2009, and for the year ended December 31, 2010 and the supplemental schedules as of and for the year ended December 31, 2010, as listed in the accompanying table of contents. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2010 and 2009 and for the year ended December 31, 2010, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosures under the Employee Retirement Income Security Act of 1974.

Weaver and Tidwell, L.L.P.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Investments

The Operations Pathway Systems L.P. Retirement Savings Plan (the Plan) investments are stated at fair value. Any appreciation or depreciation in fair value is reflected in the statement of changes in net assets available for benefits. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Nature of Investment Contracts

Investment contracts held by the Plan are reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through a pooled separate account, the New York Life Anchor Account II (Anchor Account II) at December 31, 2010 and 2009. The statements of net assets available for benefits present the fair value of the investment in the pooled separate account as well as the adjustment of the investment in the pooled separate account from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis. The fair value of the fully benefit-responsive investment contracts are calculated using a discounting method developed by the trustee. The fair value and contract value of the Anchor Account II was $421,647 and $426,517, respectively, at December 31, 2010. The fair value and contract value of the Anchor Account II was $372,662 and $391,441, respectively, at December 31, 2009. The average yield for 2010 and 2009 was 2.13% and 3.18%, respectively. For the years ended December 31, 2010 and 2009, the crediting interest rate to participants in the Plan was 1.89% and 2.88%, respectively. There was no valuation reserve recorded that was associated with the pooled separate account in 2010 and 2009. Interest is credited daily to the account and is guaranteed to be not less than 0% before any deduction for expenses.

Certain events limit the ability of the Plan to transact at the contract value with the issuer. Such events include the following: total or partial plan termination, mergers, spin-offs, early retirement incentive programs, sales or closings of all or part of a participating plan sponsor's operations, bankruptcy or receivership.

Contributions and Payment of Benefits

Contributions from employees are allocated on a bi-weekly basis. Contributions from Operations Pathway Systems L.P. (the Company) are accrued in the period in which they become obligations of the Company. For each Plan year, the Company may contribute to the Plan a discretionary amount and a matching contribution provided, however, that total employer contributions do not exceed the amount constituting an allowable deduction under Section 404(a)(3) of the Internal Revenue Code of 1986, as amended.

Benefits are recorded when paid.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Participant Loans

In September 2010, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2010 - 25, *Plan Accounting – Defined Contribution Pension Plans (Topic 962), Reporting Loans to Participants by Defined Contribution Pension Plans* (Update). This Update requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The amendments in the Update are to be applied retrospectively to all prior periods presented, effective for fiscal years ending after December 15, 2010. The Plan has reclassified participant loans from investments to notes receivable from participants for financial statement presentation. The Form 5500 will continue to present notes receivable from participants as an investment.

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1-5 years. Each loan is secured by the balance in the participant's account and bears interest at reasonable rates as determined by the Plan Administrator based on prevailing interest rates at the time of the loan. Interest rates range from 4.25% to 8.00% for loans outstanding at December 31, 2010. Principal and interest are paid ratably through payroll withholdings.

Income Tax Status

The Plan obtained its latest determination letter on November 4, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates

Subsequent Events

The Plan evaluated all events or transactions that occurred after December 31, 2010 through October 14, 2011, the date these financial statements were available to be issued.

NOTES TO FINANCIAL STATEMENTS

NOTE 2. THE PLAN

The Plan was established on February 1, 2000, for the exclusive benefit of eligible employees of Operations Pathway Systems L.P., Oncology-Hematology Consultants, P.A. and Mededutec, L.P. All employees shall initially be eligible to participate in the Plan on the first day of the Plan quarter coinciding with or next following the date as of which he or she has attained the age of 21 and completed six months of service.

The Plan is a defined contribution plan to which member employees may elect to defer a portion of their compensation. The maximum contribution which may be made by a participant for any given calendar year is based on an annual deferral limit which is adjusted for inflation. The deferral limit is the lesser of $16,500 ($22,000 for employees 50 or older) or annual compensation for 2010. All employee 401(k) contributions must satisfy the nondiscrimination requirements under IRS Code Section 401(k).

Upon retirement at age 65 or death or disability, if earlier, or termination of employment in the case of vested benefits, the balances in the employee's separate accounts are paid to the member employee or his beneficiaries after the participant’s separation from service.

Separate accounts for both employer and employee contributions are maintained for each participant. Discretionary employer contributions and forfeitures are allocated in the same ratio that each participant’s compensation for the Plan year bears to the total compensation of all participants for the Plan year. The discretionary employer match for the years ended December 31, 2010 and 2009 is 50% of employee contributions up to $1,000. An employee with more than three years of service is 100% vested in his employer account. Employees with less than three years of service are not vested in any portion of the employer account. Operations Pathway Systems L.P. absorbs substantially all of the administrative costs of the Plan.

While the Plan sponsor has not expressed any intent to terminate the Plan, it is free to do so at any time. In the event of termination, each member employee automatically becomes vested to the extent of the balance in his separate employer contribution account.

In the event a participant leaves the Plan and there are unvested amounts in his account due to employer contributions, those amounts are held as forfeitures and included as net assets available for benefits. If the participant becomes eligible to rejoin the Plan, he has the right to reclaim those amounts, subject to certain criteria in the Plan documents. Forfeitures that are ineligible to be reclaimed may be used to pay administrative expenses of the plan or reduce employer matching contributions. As of December 31, 2010 and 2009, unallocated forfeitures totaled $10,792 and $3,267, respectively. Amounts allocated to accounts of participants who have elected to withdraw from the Plan but had not been paid as of the financial statement date were $1,227,834 and $987,006 at December 31, 2010 and 2009, respectively.

NOTE 4. FAIR VALUE MEASUREMENTS

GAAP establishes a framework for measuring fair value and requires disclosures about the use of fair value measurements. GAAP defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

This fair value may be different than the settlement value based on company-specific inputs, such as credit rating, futures markets and forward curves, and readily available buyers or sellers for such assets or liabilities. GAAP also establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The three tiers of the fair value hierarchy are:

Level 1: inputs are unadjusted quoted prices in active markets for identical assets or liabilities that we have the ability to access at the measurement date.

Level 2: inputs include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (i.e., interest rates, yield curves, etc.), and inputs that are derived principally from or corroborated by observable market data by correlation or other means (market corroborated inputs).

Level 3: inputs are unobservable inputs that reflect the Plan's assumptions about the assumptions that market participants would use in pricing an asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual Funds

Mutual funds are traded on a national exchange and are valued at the closing prices as of the last business day of each period presented.

Pooled Separate Accounts

Pooled separate accounts are valued at unit value of the fund, which is based on the fair value of the underlying investments.
