1. DESCRIPTION OF THE PLAN

The following description of the Brightstar Corp. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. Brightstar Corporation (the "Plan Administrator" or the "Company") is the Plan sponsor.

General

The Plan was adopted on October 1, 2003 and is a defined contribution plan covering all full time employees of Brightstar Corporation who have six months of service and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 100% of their pretax annual compensation, as defined in the Plan, subject to certain Internal Revenue Code limitations. The Company contributes 100% of the first 3% of base compensation and 50% of the next 2% of base compensation that a participant contributes to the Plan (basic matching contribution). In February 2009, the Company discontinued its employer matching contributions. Additional amounts may be contributed at the discretion of the Company's Board of Directors (profit sharing contribution). In January 2010, the Company contributed 50 cents on every dollar up to 3%. No such additional discretionary contributions were made for the year ended December 31, 2009. As defined in the Plan, participants may also contribute amounts representing distributions from other qualified employee benefit plans as a rollover contribution.

Participants' Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contributions and Plan earnings thereon and allocations of (a) the Company's profit sharing contributions and (b) Plan earnings related to those profit sharing contributions. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Profit sharing contribution forfeitures are first applied to payment of plan administration expenses and any remaining forfeitures are used towards profit sharing contributions. The profit sharing contribution forfeitures at December 31, 2010 and 2009 were $4,249 and $177, respectively.

Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan. Company contributions are invested in accordance with the respective employee's investment allocation elections. Participants may change their investment options and deferral percentages at any time.

Vesting

Participants are immediately vested in their voluntary contributions (elective deferral and rollover accounts) and the Company's basic matching contribution plus actual earnings thereon. Vesting in the Company's discretionary non-elective contribution (profit sharing contribution) and forfeitures portion of their accounts is based on years of service in accordance with the following:

Years of Service	Vested Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

1. DESCRIPTION OF THE PLAN (CONTINUED)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document. Participants may borrow from their fund accounts a minimum of $1,000 and up to a maximum equal to the lesser of (a) $50,000 or (b) 50% of their vested account balance. However, the $50,000 amount in the preceding sentence is reduced by the highest outstanding loan balance under the Plan provisions during the previous twelve-month period. The loans are secured by the balance in the participant's account and bear an interest rate commensurate with local prevailing rates as determined quarterly by the Plan administrator.

Payment of Benefits

Upon termination of service due to death, disability or normal retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in installments over a period of time not to exceed their (or their beneficiaries) assumed life expectancy. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as any adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Fair Value Measurements

Fair values of financial instruments are estimated using relevant market information and other assumptions, as more fully disclosed in NOTE 10. Fair value estimates involve uncertainties and matters of significant judgment. Changes in assumptions or in market conditions could significantly affect the estimates.

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See NOTE 10 for discussion of fair value measurements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Valuation of Investments and Income Recognition (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investment bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses of the Plan are paid by the Plan or by the Employer as provided in the Plan Document.

Investment Management Fees and Operating Expenses

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation in fair value of investments.

Plan Termination

Although it has not expressed any intention to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2011, which is the date the financial statements were available to be issued.

Recent Accounting Pronouncements

Improving Disclosures about Fair Value Measurements

In January 2010, the Financial Accounting Standards Board ("FASB") issued an accounting standard update on fair value measurements and disclosures. The update requires more robust disclosures about (1) the different classes of assets and liabilities measured at fair value, (2) the valuation techniques and inputs used, (3) the activity in Level 3 fair value measurements, and (4) the transfers between Levels 1, 2, and 3. The Plan's adoption of the new disclosures and clarifications of existing disclosures that were effective for interim and annual reporting periods beginning after December 15, 2009 did not have an effect on the Plan's financial statements. The disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. The adoption of the Level 3 disclosures is not expected to have an effect on the Plan's financial statements.

Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs

In May 2011, the FASB issued an accounting standard update which works to achieve common fair value measurement and disclosure requirements in US GAAP and International Financial Reporting Standards. The update both clarifies the FASB's intent about the application of existing fair value guidance, and also changes certain principles regarding measurement and disclosure. The update is effective prospectively and is effective for annual periods beginning after December 15, 2011. Early application is permitted for interim periods beginning after December 15, 2011. The Plan is currently evaluating the effect the update will have on its financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recent Accounting Pronouncements (continued)

Notes Receivable from Participants

In 2010, the Plan adopted an accounting standard update which clarifies how loans to participants should be classified and measured by defined contribution benefit plans. The standard requires that participant loans be segregated from plan investments and presented as notes receivables from participants and measured at their unpaid principal balance plus any accrued but unpaid interest. As a result, the Plan has reclassified participant loans for 2010 and 2009 from investments to notes receivable from participants.

3. TAX STATUS

The Plan and the related trust are exempt from income taxes under Internal Revenue Code (the "Code") Section 401(a) and, accordingly, generally would not incur income taxes or have any unrecognized tax benefits. Effective April 1, 2006, the Plan adopted a non-standardized prototype plan developed by DailyAccess Corporation, which received a favorable opinion letter dated March 31, 2008, in which the Internal Revenue Service stated that the prototype document, as then designed, was in compliance with the applicable requirements of the Code and that any employer adopting this form of plan will be considered to have a plan qualified under the Code. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. As a result, the financial statements do not reflect a provision for income taxes.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

4. INVESTMENT CONTRACTS

The Plan invests in investment contracts through a common/collective trust. Shares in common/collective trusts are stated at estimated fair values, which are determined based on the unit values of the funds. Unit values are determined by the bank sponsoring such funds by dividing the fund's net assets at fair value by its units outstanding at the valuation dates.

As discussed in NOTE 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The shares in the common/collective trust are invested in investment contracts and security-backed contracts. An investment contract is a contract issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics as traditional investment contracts. The shares in the common/collective trust are included in the statements of net assets available for benefits at fair value. The shares in the common/collective trust were subject to a market value adjustment totaling $2,677 and $2,934 as of December 31, 2010 and 2009, respectively, in order to report the investment in the common/collective trust at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate was approximately 3.26% and 3.89% for 2010 and 2009, respectively. The average yield for the common/collective trust was 2.05% and 3.10% for the years ended December 31, 2010 and 2009, respectively. The fair value of the shares in the common/collective trust at December 31, 2010 and 2009 was $1,219,160 and $1,109,624, respectively.

Common/collective trust	55	22,124
	$ 853,246	**$ 1,395,104**

Net Asset Value Per Share

The Plan uses the net asset value (NAV) to determine the fair value of all the underlying investments which (a) do not have a readily determinable fair value and (b) prepare their financial statements consistent with the measurement principles of an investment company or have the attributes of an investment company. The following table lists all investments with a reported estimated fair value using net asset value per share:

	Fair Value as of 12/31/10	Unfunded Commitments as of 12/31/10	Redemption Frequency	Redemption Notice Period
Common/collective trust:				
Invesco Stable Value Trust CL2 – (a)	**$ 1,219,160**	**$ -**	N/A	N/A

Investment strategies

(a) - The primary investment objective of the Fund is to seek the preservation of principal and to provide interest income reasonably obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity.

6. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee of the Plan, Reliance Trust Company, has certified that the following data included in the accompanying 2010 and 2009 financial statements and supplemental schedules is complete and accurate:

Contributions per the Form 5500	**$ 1,572,146**	**$ 1,104,806**

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments include accounts administered by Reliance Trust Company. Reliance Trust Company is the trustee as defined in the Plan, and therefore, these transactions qualify as party-in-interest transactions.

10. FAIR VALUE MEASUREMENTS

The FASB Accounting Standards Codification ("ASC"), *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows.

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 Inputs to the valuation methodology include:
  - quoted prices for similar assets or liabilities in active markets;
  - quoted prices for identical or similar assets or liabilities in inactive markets;
  - inputs other than quoted prices that are observable for the asset or liability;
  - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Registered Investment Companies (Mutual Funds): Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Common/Collective Trusts: Common/collective trust funds represent interests in pooled investment vehicles designed typically for collective investment of employee benefit trusts. The fair values of these investments, which are provided by the fund managers, are determined by reference to the fair value of the trusts' underlying assets, which are principally marketable equity and fixed income securities and short-term investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009.
