Notes to Financial Statements

December 31, 2010

Note A – Description of the Plan

The following description of Drummond 401(k) (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan was established in June 2005 by Drummond Law, PLLC (the Sponsor) and was subsequently adopted by Catalyst Marketing Enterprises, Inc.; ABSC, LLC; Drummond Communications, LLC; and Drummond Ranch, LLC (collectively, the Employer) and is a cash or deferred profit sharing plan. The purpose of the Plan is to provide retirement income to eligible employees through a program of voluntary tax-deferred contributions matched in part by supplemental participating employer contributions. All eligible employees can elect to have salary withheld and contributed to the Plan. The Employer matches a certain percentage of each employee's withholding and contributes it to the Plan. An employee becomes eligible to participate in the Plan at 21 years of age and after reaching at least 1,000 hours of service to the Employer in a 12-month eligibility computation period. If an employee has not been credited with 1,000 hours of service by the end of the first twelve months of employment, an employee will have completed a year of service at the end of any following Plan year during which the employee is credited with 1,000 hours of service. An employee's entry date will be the first day of the Plan year or the first day of the seventh month of the Plan year coinciding with or next following the date which the eligibility requirements are satisfied.

2. Participant Accounts and Investment Options

Each individual participant, and beneficiary if applicable, shall direct the investment custodian in writing, by on-line Internet access, or by phone, to invest all of the assets in his/her account in one or more of the Plan's investment options.

Each participant's account is credited with the participant's contribution and allocations of Employer's contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

3. Benefits

An active participant's aggregate account balance will become nonforfeitable upon retirement, disability or death. A participant shall be entitled to a distribution of his/her vested interest upon termination of service for any reason.

4. Vesting

Participants are 100 percent vested at all times in their salary deferral account balance. Vesting in the Employer's contributions is based on years of service. They will be 100 percent vested after six or more years of service as indicated in the following table.

5. *Loans to Participants*

Loans are not permitted under the Plan.

6. *Payment of Benefits*

On termination of service due to death, disability or retirement, a participant may elect to receive their distribution in substantially equal installments or in partial payments of \$1,000 or greater. An eligible participant may also receive a lump-sum distribution amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Payments of benefits are made by the Sponsor as soon as administratively feasible following termination of employment.

7. *Forfeited Accounts*

At December 31, 2010, forfeited non-vested accounts totaled \$5,309. Forfeited amounts resulting from Employer matching contributions will be used to pay administrative expenses. Forfeitures attributable to amounts other than Employer matching contributions will be used to reduce future Employer contributions.

Note B – Summary of Significant Accounting Policies

1. *Basis of Accounting*

The accompanying financial statements have been prepared on the accrual basis of accounting.

2. *Investment Valuation and Income Recognition*

The Plan's investments are stated at fair value, as described in Note F.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Note B – Summary of Significant Accounting Policies - Continued

3. Funding Policy

The Employer makes a discretionary matching contribution equal to a uniform percentage of participant's salary deferrals up to 4 percent of compensation. During 2010, the Employer matched 100 percent of employee elective deferrals up to 4 percent. Employee's elective deferrals are remitted each pay period.

The Employer may also make a discretionary profit sharing contribution on behalf of eligible participants regardless of service completed during the year. Profit sharing contributions are allocated among participants eligible to share in the contribution for the Plan year. For the year ended December 31, 2010, the trustees announced no discretionary matching contributions.

4. Payment of Benefits

Benefits are recorded when paid.

5. Administrative Expenses

Cost and expenses of administering the Plan may be paid from Plan assets. During 2010, accounting and administrative fees of \$5,845 were paid by the Plan. During 2010, approximately \$2,600 for accounting and administrative fees was paid by the Sponsor.

6. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

7. New Accounting Pronouncement

In January 2010, the FASB issued Accounting Standards Update 2010-06, Improving Disclosures about Fair Value Measurements (ASU 2010-06). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and requires a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and presented information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 became effective for reporting periods beginning after December 15, 2009. Adoption of ASU 2010-06 did not have a material effect on the Plan's net assets available for benefits.

Note D – Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Employer contributions.

Note E – Tax Status

The Plan has adopted the investment custodian's standardized prototype for a profit sharing plan with cash or deferred arrangement. The custodian received a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008, in which the IRS stated that the form of standardized plan was acceptable under Section 401 of the Internal Revenue Code for use by employers for the benefit of their employees. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note F – Fair Value Measurements

ASC Topic 820 provides a definition of fair value which focuses on an exit price rather than an entry price, establishes a framework for measuring fair value which emphasizes that fair value is a market based measurement, not an entity specific measurement, and requires expanded disclosures about fair value measurements. In accordance with FASB ASC 820-10, the Plan may use valuation techniques consistent with the market, income and cost approaches to measure fair value. As a basis for considering market participant assumptions in fair value measurements, ASC Topic 820 establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair values. The hierarchy gives the highest priority to Level 1 measurements and the lowest priority to Level 3 measurements. The three levels of the fair value hierarchy under ASC Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.

Level 2: Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies.

Pooled Separate Accounts: Net asset value per share is based on the market value of the pooled separate account's underlying investments such as equities, preferred stock, bonds, real estate and mutual funds. However, the pooled separate account's net asset per share value is not publicly quoted in active markets.

Level 3: Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its

valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The tables below segregate all financial assets and liabilities as of December 31, 2010 that are measured at fair value on a recurring basis (at least annually) into the most appropriate level within the fair value hierarchy based on the inputs used to determine the fair value at the measurement date:

Note G – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Notes to Financial StatementsDecember 31, 2010

Note H – Parties-in-Interest

Certain Plan investments are units of participation in pooled separate accounts managed by The Standard Insurance Company. The Standard is the investment custodian under a group annuity contract with the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Certain administrative functions of the Plan are performed by officers or employees of the Employer; no such officer or employee receives compensation from the Plan.

Note I – Investments Held at December 31, 2009

The following information included in the accompanying financial statements was compiled from data prepared by the Principal Trust Company. The Plan's investments were held by Principal Trust Company during 2009 and were subsequently transferred by the Sponsor to The Standard Life Insurance Company during 2010. Investments that represent 5 percent or more of net assets available for benefits at December 31, 2009 are indicated by an asterisk (*).

A loss of approximately \$1,400, related to these guaranteed interest contracts, was included in the transfer of assets from Principal Trust Company to The Standard Insurance Company described above.

Note J – Excess Contributions Payable

The Plan initially failed certain discrimination testing for the year ended December 31, 2010. Excess contributions totaling \$31,593 are recorded as a liability in the accompanying statements of net assets available for benefits and as a reduction of participant directed contributions for the year. The Plan expects to reimburse these excess contributions to participants during 2011.
